On the other hand, the definition has been drawn so as to exclude private individuals who levy tolls (otherwise than as the mere delegates of a "public authority") and companies levying tolls, other than railway companies acting under one or other of the Railway Acts mentioned above. It would be improper to interfere with the levy of tolls by such individuals or companies without their consent; and s. 143 of the Army Act apparently does not apply to such tolls.

The definition of "tolls" includes (1) "duties," which are mentioned in s. 143 of the Army Act, (2) "dues," "rents," "fees" and "charges," which are mentioned in several of the Indian enactments, and (3) "rates," which are mentioned both in s. 143 of the Army Act and in several of the Indian enactments.

Customs-duties have been expressly excluded. It is not intended that the Bill should apply to them, and it seems clear that the word "duties" in s. 143 of the Army Act does not refer to them.

Clause 3.—The additions which it is at present proposed to make in re-enacting s. 143 of the Army Act are, as far as possible, printed here in italics.

The "local corps under the Government of India" are for the most part ordinarily stationed in Native territory, but it is considered necessary to mention them because they may be marched into British India. Local corps not under the Government of India have advisedly been omitted because they are employed for local purposes only. They do not ordinarily leave their posts or stations, and, should it be found desirable to exempt any of them from payment of any particular tolls, it will, no doubt, be possible to make special arrangements.

Carriages and transport animals belonging to Her Majesty, or employed in Her Majesty's military service, are exempted by the Army Act from the payment of tolls when conveying officers or soldiers of the Regular Forces on duty or on the march, prisoners under

military escort, horses, baggage or stores, and when returning from conveying the same. In this exemption "other animals" have been included so as to cover the slaughter-cattle which are generally driven along with troops on the march. The words "when otherwise moving under the orders of competent military authority" have also been inserted.

Sub-clause (*l*) has been added to cover carriage collected for the use of troops about to march or for the purposes of an expedition or other special service.

The following are the other alterations made by clause 3:

(*1*) In sub-clause (*n*) the words "or on being shipped or landed" are new. The words "embarking or disembarking" refer, strictly speaking, only to persons, although, as used in s. 143 of the Army Act, they are intended to apply also to the property there mentioned. The words "or on being shipped or landed" are added to secure greater precision; also because several Indian enactments specifically authorize the levy of tolls on property "shipped or landed."

(*2*) Sub-clause (*p*) is new. S. 143 of the Army Act does not exempt military persons or property from payment of tolls at ferries. But most of the Indian enactments on the subject provide for such exemptions, and it is, therefore, thought that clause 3 of the Bill should apply to ferries, subject to the provisions as to compensation hereinafter mentioned.

(*3*) The word "Regulation" is inserted in the latter part of the clause because authority to levy tolls is given by certain Regulations made under the Government of India Act, 1870 (33 Vict., c. 3).

(*4*) The word "public" is inserted before the word "authority" near the end of the clause for the reasons given above in connection with the definition of the expression "public authority" as used in the Bill.

(*5*) The proviso is copied from the proviso to s. 143 (*1*) of the Army Act, the word "property" being substituted for the words "horses, baggage or stores." The Indian enactments which authorize the levy of tolls on vessels passing along canals or other lines of navigation, appear to be—

(*a*) Act XXII of 1856 (Karatoya River), s. 1;

(*b*) Act I of 1867 (Ganges Tolls), s. 2;

(*c*) Act II of 1881 (Pegu and Sittang Canal), s. 4;

(*d*) Bengal Act V of 1864 (Canals and other lines of navigation), s. 5; and

(*e*) Madras Act II of 1890 (Canals and other lines of navigation), s. 6 (*6*).

Clause 4.—Provision is here made in respect of tolls leviable at landing-places. The question has lately arisen in connection with the embarkation and disembarkation of troops at the ports of Bombay and Karachi, and it was originally proposed to provide in the manner indicated by this clause of the Bill for these important cases alone by amending s. 44 of the Bombay Port Trust Act, 1879 (Bombay Act VI of 1879), and s. 45 of the Karachi Port Trust Act, 1886 (Bombay Act VI of 1886), so as to require compensation to be given by the Government for any services rendered by the Port authorities in this connection. There may, however, be other similar cases, and it has, therefore, been decided to include in the Bill a general enactment on the subject and to repeal the provisions of the special Acts above referred to.

Clause 5.—The alterations here made in sub-section (3) of s. 143 of the Army Act are shown in italics. It is proposed, in exercise of the power conferred by s. 169 of the Statute, to reduce the fine to a maximum of fifty rupees, and it has been thought unnecessary expressly to fix any minimum.

Clauses 6 to 9.—These clauses contain provisions for the admission of claims to compensation in cases where actual loss may be occasioned by the operation of clause 3. For the present no attempt has been made to indicate precisely what the machinery should be for determining the extent of such loss; but it is felt that, if possible, claims for compensation should be provided for, and these clauses have been drawn more as indicating this feeling and as a basis for discussion than as definitely expressing the conditions and limitations under which claimants should receive compensation.

Clause *6* declares that the lessees of tolls shall be entitled to compensation for any loss which they may be proved to have incurred from the introduction of the new exemptions mentioned in clause 3. The clause follows precedents in Indian legislation, and it seems only just that, where a right to collect tolls has been purchased on the basis of the existing law, the purchaser should receive compensation for any curtailment of that right. It is considered important to refer to exemptions made in accordance with local usage because it is believed that military establishments are in practice sometimes allowed to pass free of tolls even although no exemption could be claimed under statutory authority or under the terms of leases, and there is no necessity for paying compensation for any but actual losses.

Compensation should clearly be provided for in the case of new exemptions from tolls leviable by railway companies. This it is proposed to effect by clause 7 of the Bill.

It is for consideration, however, whether a right to compensation should be given in the case of new exemptions from tolls leviable by the Government or by local authorities.

As regards the Government, it seems clear that there is no real necessity for paying compensation, since the result would merely be to transfer money from one Department of the State to another. But it is apprehended that State Railway Administrations would object to allowing any new exemptions without payment of compensation, on the ground that their earnings as commercial undertakings would be decreased; and these bodies have accordingly been included.

As regards local authorities, it may be said that, since their power to levy taxes is derived from the Government, the Government may fairly claim that its own establishments and property should be exempted from such taxes without payment of compensation; and it may be noted that many of the Indian enactments already expressly provide for such exemptions. On the other hand, it has been said that local self-governing bodies will be discouraged from improving communications if the loss by exemptions should turn out to be serious, a result which would be unsatisfactory to all concerned. Pending the settlement of this question, local authorities have been included in clause 7 of the Bill.

The right to compensation for new exemptions is given by clause 7 in the case of those tolls only which are leviable on roads or bridges. Compensation in the case of tolls at ferries is provided for by clause 8. The case of the other tolls mentioned in s. 143 of the Army Act, namely, those leviable at landing-places, has already been noticed in connection with clause 4 of the Bill.

Tolls at ferries and at landing-places stand on a somewhat different footing from other tolls, since they represent payments for services directly rendered; and it seems but fair that compensation should be allowed for the new exemptions, although the existing Indian enactments do not, as a matter of fact, provide for compensation for the exemptions already allowed in such cases.

Clause 9 provides for the settlement of the amount payable as compensation under clause 6, clause 7 or clause 8. In placing this duty on the Commissioner of the Division or an officer to be selected by the Local Government, the clause follows s. 15 of the Northern India Ferries Act, 1878 (XVII of 1878). It has, however, been deemed right to make all awards subject to the control of the Governor General in Council so as to give the Government of India power to supervise the disbursements on account of compensation. It will not be necessary for every petty case to be referred for the orders of the Governor General in Council; but, in order to make the control really effective, instructions will probably be issued to the effect that the amounts proposed to be paid in the more important cases must be submitted for previous sanction. The cases in which previous sanction should be obtained can be declared by means of rules more appropriately than by the Bill itself, and this matter is accordingly mentioned in clause 10.

Clause 10.—The only other matter of importance here dealt with is the identification of persons and property for whom or for which exemptions may be claimed under the proposed measure. The necessity for enacting some provisions on this head has been pressed upon the Government of India by several Local Governments, and the best course seems to be to leave such details to rules.

It has been provided that all rules shall be made by Local Governments in consultation with the proper military authorities, and, in order to secure uniformity as far as possible, that the previous sanction of the Governor General in Council shall be required in each case.

Clause 11 and Schedule.—This part of the Bill proposes the repeal of such of the provisions to be found in existing Indian enactments as will be superseded if the Bill, in its present form, becomes law.

J. M. MACPHERSON,

Secretary to the Government of India.

PACIFIC OCEAN—FIJI ISLANDS.

Regarding Leading lights in Suva harbour.

THE Government of the Fiji islands have given notice, dated Suva, 25th August 1899, that on the 29th September 1898, the Red Catoptric Lower Leading Light into Suva harbour was replaced by a Fourth Order Red Dioptric Light. The Arc of Visibility is from N. 50° W. to N. 28° E. (magnetic) and can be seen, on a dark night with a clear atmosphere, at a distance of fourteen miles.

On the 16th June 1899, the White Catoptric Upper Leading Light into Suva harbour was replaced by a Fourth Order White Dioptric Light. The Arc of Visibility is from N. 45° W. to N. 45° E. (magnetic), and can be seen, on a dark night with a clear atmosphere, at a distance of twenty-four miles.

JAPAN—YEZO ISLAND

Oterranai anchorage—Pier constructing marked by a buoy.

THE British Admiralty has given notice (No. 574 of 1899) that a new pier is in course of construction, extending in a S.S.E. ½ E. direction from Pondomari point, Oterranai anchorage.

A *red* buoy with cage is moored in 6 fathoms to mark the extreme of the works in progress, with Pondomari point bearing N N.W. ¼ W.. distant 4¾ cables.

Between the buoy and the shore there are numerous stakes marking the works.

Approximate position of the buoy, lat. 43° 12′ 40″ N., long. 141° 0′ 55″ E.

This Notice affects the following Admiralty Charts:—Furubira Wan to Ishikari Gawa, No. 2981; anchorages in Yezo island, No. 998: Also, China Sea Directory, vol. IV, 1894 page 580.

PACIFIC OCEAN—HAVANA—PUERTO RICO—PHILIPPINE ISLANDS.

Standard Time Signal at Havana.

THE British Admiralty has given notice (No. 590 of 1899) that the standard time of the 75th meridian, West of Greenwich, or $5^h\ 0^m\ 0^s$ slow of Greenwich mean time, has now been adopted for Cuba.

Consequent on this, at Havana the time ball is now dropped at $5^h\ 0^m\ 0^s$ G.M.T., or noon standard time, which is equal to $11^h\ 30^m\ 36{\cdot}40^s$ local mean time.

Approximate position of Time signal, lat. 23° 8′ 30″ N., long. 82° 20′ 50″ W.

(2) San Juan, Puerto Rico.

The standard time adopted for Puerto Rico is that of the 60th meridian, West of Greenwich, or $4^h\ 0^m\ 0^s$ G.M.T.

(3) *Philippine islands.*

The standard time adopted for the Philippine islands is that of the 120th meridian, East of Greenwich, or $16^h.0^m\ 0^s$ G.M.T.

Consequent on this alteration the time ball at Manila is now dropped at noon standard mean time, which is equal to $16^h\ 0^m\ 0^s$ G.M.T. or $0^h\ 3^m\ 52^s$ local mean time.

Approximate position of Time signal, lat. 14° 36′ 0″ N., long. 120° 58′ 0″ E.

This Notice affects the following Admiralty Charts:—Havana harbour, No. 414; Manila bay, No. 976: Also, List of Time Signals, 1898, page 54; West India Pilot, vol. II, 1887, page 201; China Sea Directory, vol. II, 1899, page 313; Eastern Archipelago, vol. I, 1890, page 59.

AUSTRALIA, SOUTH—TASMANIA.

Macquarie harbour entrance—Intended light on Cape Sorell.

WITH reference to Notice to Mariners No. 108, dated the 22nd May 1899, issued by this Office, the British Admiralty has given further notice (No. 591 of 1899) that on and after the 2nd October 1899, a light will be exhibited from a lighthouse on cape Sorell, at the entrance to Macquarie harbour.

Cape Sorell light is a *group flashing white and red* dioptric light of the 2nd order, with a period of *forty-five seconds*, thus:—*white flash* of *three seconds* duration; eclipse, *nineteen and a half seconds; red flash* of *three seconds* duration; eclipse, *nineteen and a half seconds*, elevated 186 feet above the sea, and visible in clear weather, the white flash from a distance of 20 miles, the red flash 12 miles.

The lighthouse, 100 feet in height, is a cylindrical brick tower, painted white.

Approximate position, lat. 42° 11 0″ S., long. 145° 10′ 30″ E.

This Notice affects the following Admiralty Charts:—Tasmania, No. 1079; Macquarie harbour, No. 1629: Also, List of Lights, part VI, 1899, page 222; Australia Directory, vol. I, 1897, page 643.

NEW ZEALAND—SOUTH ISLAND—Westport harbour.

Alterations in leading marks and lights.

The British Admiralty has given notice (No. 565 of 1899) that on and after 20th August 1899, the following alterations would be made in the leading marks and lights at Westport harbour (Buller river) in place of those formerly exhibited:—

By Day.—The beacons on the dolphins on the west side of Buller river mark the fairway for crossing the bar and lead up the river.

The front beacon is 30 feet high, and coloured *white*; it is 220 yards seaward of the back beacon. The back beacon is 50 feet high, white with a black band across the centre, and surmounted by a disc

The above beacons in line bearing S. 25° E. lead up the river until approaching the lagoon, when course may be steered for the wharves.

By Night.—Two *red* lights shown on the above beacons bearing S. 25° E. must be kept in line until the *white* light on the eastern training-wall changes to *green*, when course may be steered for the wharves.

The seaward end of the coal-staiths is marked by a *red* light, elevated 36 feet above high water.

The extreme ends of the training-walls are marked by *white* lights.

All the other leading lights have been extinguished and the beacons from which they were shown discarded.

Approximate position, lat. 41° 44′ S., long. 171° 36′ E.

This Notice affects the following Admiralty Chart:—River Waiau to cape Foulwind, No. 2591: Also, List of Lights, part VI, 1899, Nos. 1506, 1507, 1508, 1509; New Zealand Pilot, 1891, pages, 398, 399; Hydrographic Notice No. 2 of 1895, page 13.

GRAND TOTAL	1,75,024	1,80,923	1,69,174	1,64,158	1,53,611	1,55,217	1,62,499	1,67,732	1,79,024	1,68,826

2. The receipts during the year amounted to Rs. 1,66,471, showing a decrease of Rs. 14,452 as compared with those of the previous year. The receipts from railway traffic were Rs. 1,36,604 as against Rs. 1,51,408 in 1897-98.

3. The total expenditure amounted to Rs. 1,75,024, showing an excess of Rs. 7,358 over that of the previous year. The wearing surface of the roadway of the bridge was repaired, and all worn out battens and defective surface planks and beams underneath renewed. Several of the defective superstructure timbers were replaced. The pontoons were repaired, and the decks of all the pontoons were chipped and painted and well cleaned and coated with oil inside; and the fenders and sheathings of the pontoons were changed as found necessary. Brackets and large iron stanchions were fitted underneath draw-bridge roller beams. The bridge winches were kept clean and well oiled and all other gear was kept in good order, and all repairs carried out to keep the bridge in good condition.

4. As in the preceding year, in addition to the ordinary receipts, the following amount, which may be classed as extraordinary, was received :—

	Rs.
Interest on Government securities of pontoon—	
Renewal fund	2,240
The corresponding expenditure under the same head was—	
Sinking fund on loans	4,351

5. The cost of lighting the bridge with electricity was Rs. 10,726 against Rs. 9,823 in the previous year, showing an increase of Rs. 903. The electric-lighting of the bridge was maintained throughout the year without any trouble, and the arrangement of having the engines at the Howrah Workshop continued to work well.

6. The bridge was opened for the passage of vessels on 151 occasions, of which 101 were on the ordinary fixed days of the week, and 50 were on Sundays on special application. The number and description of vessels which passed through the bridge on these occasions are shown below:—

Vessels.	1898-99.	1897-98.	1896-97.	1895-96.	1894-95.	1893-94.	1892-93.	1891-92.	1890-91.	1889-90.
1	2	3	4	5	6	7	8	9	10	11

Total ...	2,260	2,412	2,324	2,073	2,201	2,063	2,074	2,086	2,110	1,863

7. No sea-going vessels collided with the bridge during the year under review, but there was a large increase in the casualties to (1) inland steamers and flats and (2) cargo and passenger boats. In both these cases the number of casualties was unprecedented, being 22 in the one case and 133 in the other. Of the boats which collided with the bridge 16 were lost and four lives. There were altogether 169 cases of collision, as compared with 129, 109 and 78, respectively, in the three preceding years.

By order of the Lieutenant-Governor of Bengal,

R. B. BUCKLEY,

Secy. to the Govt of Bengal.

WEATHER AND CROP REPORT.

For the week ending the 30th October 1899.

Burdwan.—Rainfall at Sadar ·77, Kalna ·19, Katwa ·11, Raniganj ·05. Weather cloudy and rainy. Threshing of *aus* nearly over. The recent rain has done immense good to *aman*. Sowing of *rabi* going on. Standing crops doing well. Fodder and water sufficient. Cattle-disease in Katwa has ceased. Common rice selling as follows:—

				Srs.	
Sadar	...	...	...	15	per rupee.
Kalna	...	...	...	13⅝	
Katwa	...	...	...	14	
Raniganj	...	...	...	13¼	

Birbhum.—Rainfall at Sadar ·32, Rampur Hât ·39. Weather seasonable. *Aus* being harvested and fields prepared for *rabi* cultivation. Rice crop is promising. Price of common rice at Sadar 15 seers and Rampur Hât 14 to 16 seers per rupee. Fodder sufficient.

Bankura.—Rainfall at Bankura ·17, Vishnupur ·11. Weather cloudy with drizzling rain. *Rabi* sowing continues. Prospects of *aman* excellent. Sugarcane and winter rice doing well. Cattle-disease reported from one village in outpost Joyrampur. Fodder and water sufficient. Price of common rice at Bankura 16 seers and at Vishnupur 15 seers per rupee.

Midnapore.—Rainfall at Sadar ·11, Contai ·47, Tamluk ·12, Ghatal ·01. Weather cloudy. Prospects of winter rice good. Grass-hoppers appeared in some places in Dantun. *Rabi* crops are being sown. Cattle-disease reported from some places in the Sadar subdivision. Fodder and water ample. Common rice sells as follows:—

				Srs.	ch.	
Sadar	...	...	...	15	0	per rupee.
Contai	...	...	...	18	0	
Tamluk	...	...	...	14	3½	
Ghatal	...	...	...	15	0	

Hooghly.—Rainfall at Sadar ·09, Serampore ·94, Jahanabad ·14. Prospects of *aman* good. *Rabi* crops thriving well. Common rice sells at 14 seers per rupee.

Howrah.—Rainfall at Sadar ·03, Uluberia ·04. Weather cloudy. *Aman* doing well. Sowing of *rabi* continues. Fodder and water sufficient. Common rice sells at 13¼ seers per rupee.

24-Parganas.—Rainfall at Sadar ·09, Barasat ·08, Basirhat ·20, Diamond Harbour ·11. Weather cloudy with cyclonic wind and occasional drizzling. Prospects of standing crops good. Cyclonic wind said to have caused slight damage to *aman* paddy in the Sadar subdivision. Lands are under cultivation for *rabi* crops. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

				Srs.	ch.	
Sadar	...	...	...	12	0	per rupee.
Barasat	...	...	...	14	8	
Basirhat	...	...	...	13	14	
Diamond Harbour		...	...	12	13	

Nadia.—Rainfall at Sadar ·46, Kushtia ·48, Meherpur ·12, Chuadanga ·88, Ranaghat ·34. Weather cloudy and rainy. Prospects of *aman* good. Sowing of *rabi* crops continues. Fodder and water sufficient. Price of common rice stationary.

Murshidabad.—Rainfall at Sadar ·21, Jangipur ·74, Kandi ·23. Weather seasonable. Prospects of *aman* good. *Kalai* doing well. Sowing of *rabi* continues. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

				Srs.	
Sadar	...	...	...	14	per rupee.
Kandi	...	...	...	18	
Jangipur		...	...	14	

Jessore.—Rainfall at Sadar 1·70, Jhenida ·91, Magura 2·12, Narail 1·11, Bangaon ·36. Weather cyclonic. Sowing of *rabi* crops going on. Prospects of *aman* paddy good. No cattle-disease reported. Fodder and water sufficient. Common rice sells as follows:—

				Srs.	
Sadar	...	...	...	16	per rupee.
Jhenida	...	...	...	18	
Magura	...	...	...	17	
Narail	...	...	...	17¾	
Bangaon	...	...	...	18	

Khulna.—Rainfall at Sadar ·94, Bagerhat 2·81, Satkhira 1·20. Weather variable. *Aman* paddy doing well. The rainfall of the week has done much good to the standing crops. Fodder and water sufficient. Common rice sells as follows :—

				Srs.	
Sadar	...	...	...	16½	per rupee.
Bagerhat	...	...	...	16	
Satkhira	...	...	..	14	

Rajshahi.—Rainfall at Sadar ·25, Nator ·27, Naugaon ·27. Prospects of standing crops good. No cattle-disease. Fodder and water plentiful. Common rice sells at 17½ seers per rupee.

Dinajpur.—Average rainfall ·10. Weather getting cooler. Standing crops good. No cattle-disease. Fodder and water plentiful. Common rice 15 seers a rupee in Dinajpur town and 17 seers at Thakurgaon.

Jalpaiguri.—Rainfall at Sadar ·06, Alipur Duars ·17. Weather seasonable. *Haimanti* paddy doing well. Lands are being prepared for tobacco. Common rice sells at 14½ seers a rupee. Fodder and water sufficient.

Darjeeling.—Rainfall at Darjeeling ·44. Weather seasonable. *Hills*—*Haimanti* paddy, *bara marua*, *phaphar*, *kalai*, wheat, barley and *tori* are doing well. *Terai*—*Haimanti* paddy, *kalai*, and sugarcane are doing well. Coarse rice sells as follows :—

				Srs.	
Hills ...	...	...	...	9	per rupee
Terai ...	...	...	...	18	

Bhutta sells at Darjeeling 20 seers and at Kalimpong 32 seers per rupee.

Rangpur.—Rainfall at Sadar nil, Gaibanda ·49, Kurigram ·09, Nilphamari nil. Sowing of *rabi* crops and washing of jute going on. Prospects good. Fodder and water sufficient. Common rice sells at 17 seers per rupee. Cattle-disease prevailing in Nilphamari.

Bogra.—Average rainfall ·99. Prospects of crops good. Cultivation of *rabi* crops going on. Fodder and water sufficient. Common rice sells at 17 seers per rupee.

Pabna.—Rainfall at Sadar ·78, Sirajganj 1·10. Weather seasonable, cloudy in the beginning of the week. Prospects of crops good. Price of common rice 15 seers per rupee. Cattle-disease at Sara outpost

Dacca.—Rainfall at Sadar ·89, Manikganj 1·83, Munshiganj 1·26, Narayanganj 1·16. Weather seasonable. Prospects of standing crops good. Fodder available. No cattle-disease. Common rice 16 seers per rupee.

Mymensingh.—Rainfall at Sadar 2·68, Netrokona ·08. Weather cloudy. Prospects of crops good. Health of cattle good. Fodder and water sufficient. Common rice sells at 17 seers per rupee.

Faridpur.—Rainfall at Sadar 3·72, Goalundo ·99. Weather seasonable. State and prospects of crops good. Common rice sells at 15 seers per rupee.

Backergunge.—Rainfall at Sadar 7·67. Weather rainy and overcast. Prospects of crops fair. Common rice sells at 14 seers per rupee.

Tippera.—Rainfall at Sadar 2·97, Brahmanbaria ·62, Chandpur 3·49. Weather cloudy and rainy. Prospects of *aman* favourable. Average price of common rice 17½ seers per rupee

Noakhali.—Rainfall at Sadar 7·05, Feni 3·40. Prospects of crops fair. Land is being ploughed for *rabi* crops. Cattle-disease at Chagalnaya abating. Fodder and water good. Common rice (*aman*) 15 seers and (*aus*) 18 seers per rupee.

Chittagong.—Rainfall at Sadar 19·42, Cox's Bazar 1·67. Early winter rice crop damaged by excessive rain. Water and fodder sufficient. Common rice 14 seers per rupee

Patna.—Rainfall at Sadar 1·93, Barh 1·10, Bikram 2·38, Dinapur 1·05, Bihar 1·27, Hilsa 1·15. Rain has benefited all crops on the ground, and will greatly improve *rabi* prospects, which are now good. Sugarcane cutting and ploughing for more *rabi* sowing continue. Fodder and water for cattle sufficient Common rice in Patna sells at 16½ seers per rupee

Gaya.—Rainfall at Sadar ·42, Jahanabad ·94, Aurangabad ·32, Nawada ·16. *Rabi* sowing going on. Rain wanted for paddy crops. Sugarcane doing well. Common rice sells at 14 seers per rupee.

Shahabad.—Rainfall at Sadar 2·00, Buxar ·86, Bhabua ·05, Sasaram ·53. Rain to some extent useful to standing crops and *rabi* sowings. Fodder and water abundant. Seventy-five cases of cattle-disease in Sasaram. Common rice selling at Sadar at 12 seers per rupee.

Saran.—Rainfall at Sadar ·45. Weather seasonable. *Rabi* sowing going on. Rain will benefit paddy and improve prospects of *rabi*. Average prices per rupee are—Common rice 12 seers 10 chitaks and *makai* 13 seers 10 chitaks, against 14 seers 15 chitaks and 23 seers 4 chitaks, respectively, the normal rates.

Champaran.—Rainfall at Motihari ·10, Bettiah ·21, Bagaha, ·27 Ramnagar ·67. The slight rain did some good to *aghani* rice, and facilitated *rabi* sowings. Prospects continue fair. Price of common rice 14½ seers and of maize 16 seers per rupee.

Muzaffarpur.—Rainfall at Sadar 2·31, Hajipur 4·05, Sitamarhi ·28. Prospects fair. *Rabi* sowings in progress. Rice doing well. Prices are—Common rice 12 seers, wheat 12 seers, barley 15 seers, *makai* 14 seers, gram 13 seers, *rahar* 14 seers, and *marua* 18 seers per rupee.

Darbhanga.—Rainfall at Sadar 3·14, Samastipur 3·70, Madhubani 1·43. Prospects of standing crops good. The recent rain has greatly benefited the paddy crop. Preparation of lands for *rabi* continues. Fodder and water sufficient. No cattle-disease reported. Common rice sells at Sadar 12½ seers per rupee.

Monghyr.—Rainfall at Sadar ·73. Standing crops doing well. *Rabi* being sown. Rain urgently wanted. Cattle-pox reported from Ballia out-post in the Begusarai subdivision. Common rice sells as follows:—

	Srs.	Ch.	
Monghyr	11	3	per rupee.
Begusarai	12	0	
Jamui	13	8	

Bhagalpur.—Weather seasonable; occasionally cloudy. Rainfall at Sadar ·06, Banka ·08, Madhipura ·30, Supaul 1·25. Standing crops doing well, but rain required for *aghani* paddy and *rabi* sowings. Cattle-disease in Supaul and Banka. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	
Sadar	14	per rupee.
Banka	12½	
Madhipura	14	
Supaul	18	

Purnea.—Rainfall at Sadar 9·06. Weather seasonable. Prospects of *aghani* crop good. Steeping and washing of jute nearly finished. *Rabi* sowings going on well. No cattle-disease reported. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	
Sadar	16	per rupee.
Kishanganj	17	
Araria	19	

Malda.—Rainfall at Sadar ·45, Shibganj ·06, Gajol ·15. Weather—first part of the week fair; latter part cloudy, ending with rain. *Rabi* sowing going on. Prospects of standing crops continue good. Cattle-disease reported from some places. Coarse rice sells at 16 seers per rupee. Fodder and water sufficient.

Sonthal Parganas.—Average rainfall ·25. Crops all doing well. More rain would be welcome, but is not expected. Average prices are—common rice 13 seers 6 chitaks and maize 19½ seers per rupee. Cattle-disease in Jamtara and Rajmahal. Fodder and water sufficient.

Cuttack.—Rainfall at Sadar ·03, Jajpur ·41, Kendrapara ·95, Banki ·08. Weather seasonable and cloudy. *Laghu sarad* maturing. *Guru sarad* in ear. Sugarcane, *rabi*, and turmeric thriving. Jute and cotton being harvested. Condition of cattle generally good. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	14	7	per rupee.
Jajpur	17	1	
Kendrapara	21	0	
Banki	13	12	

Balasore.—Rainfall at Sadar ·85. Weeding of *sarad* continues. *Aus* is being h ed. Sugarcane thriving well. Prospects of crops good except on high lands in Ag circle Sowing of *rabi* crops commenced. Rice sells at 18½ seers per rupee in the int and at 16 and 18 seers at Balasore and Bhadrak respectively. Cattle-disease repo from places. Fodder and water sufficient.

Angul.—No rain at Angul and Bisipara. Weather cloudy. Low land paddy doi well. *Rabi* still being sown. Common rice sells at 16 seers per rupee at Angul and 12 see at Bisipara. Cattle-disease prevails in Khondmals.

Puri.—Rainfall at Sadar ·40, Khurda ·05. Weather cloudy. *Laghu* already withered. Prospects of *sarad* fair. *Kulthi* being sown. Sugarcane thriving. Other miscellaneous crops doing well. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	Ch.	
Sadar	12	0	per rupee.
Khurda	13	2	
Interior of district	12	6	

Hazaribagh.—Rainfall nil. Weather seasonable. Continued drought causing injury to the paddy crops. Common rice sells at 11½ seers per rupee.

Ranchi.—Rainfall ·03. Weather seasonable. Paddy very seriously damaged by drought. *Rabi* sowing retarded. Rice sells at Ranchi 10 seers per rupee and in the interior 13 seers. No cattle-disease. Fodder and water sufficient.

Palamau.—Rainfall at Sadar ·01, Hosenabad 2·00, Chattarpur ·99, Ranka ·45, Untari ·18. Weather seasonable. Slight rain also reported from some other places except in south of district. Upland paddy dead. Lowland paddy dying. *Rabi* cultivation will start at once where rain has fallen. Prices at Sadar are—Common rice 10 seers 11 chitaks, barley 15¾ seers, wheat 10 seers 11 chitaks, *mahua* 33¾ seers, and *marua* 16 seers 14 chitaks per rupee.

Manbhum.—Rainfall at Sadar ·01. Weather seasonable. *Bhadoi* crops fair. Winter rice an average crop. Cattle-disease reported from thanas Purulia and Topchanchi. Fodder and water sufficient. Average price of common rice at Sadar 13 seers and at Gobindpur 12 seers per rupee. Supply sufficient.

Singhbhum.—Rain on 28th instant ·10. More rain wanted for *rabi* crops. Rice sells at Chaibassa 14 seers per rupee. Average price in district—Common rice 15½ seers.

General Summary.—There was general, but very unevenly distributed, rainfall during the week, excessive in Chittagong, where some damage was done to the rice. In the Patna Division much good was done to the crops in Muzaffarpur and Darbhanga, but the fall was too slight in the other districts to materially benefit the high-level rice. In the Chota Nagpur Division the fall did not exceed a tenth of an inch except in parts of Palamau. Consequently the rice is dying, with serious consequences in Ranchi and Hazaribagh, which with Singhbhum and Palamau will have very poor crops. Elsewhere the crops are flourishing, and the prospects of the spring crops have been much improved by the rain. The price of common rice is almost stationary. Cattle are in good condition, there being plenty of fodder in every district.

By order of the Lieutenant-Governor of Bengal,

F. A. SLACK,

Offg. Secretary to the Govt. of Bengal.

The average fall of the corresponding period for 24 years, Surveyor-General's Office	64·33

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

△, dew; ≡, fog; o, overcast; d, drizzling rain.

2. The receipts during the year amounted to Rs. 1,66,471, showing a decrease of Rs. 14,452 as compared with those of the previous year. The receipts from railway traffic were Rs. 1,36,604 as against Rs. 1,51,408 in 1897-98.

3. The total expenditure amounted to Rs. 1,75,024, showing an excess of Rs. 7,358 over that of the previous year. The wearing surface of the roadway of the bridge was repaired, and all worn out battens and defective surface planks and beams underneath renewed. Several of the defective superstructure timbers were replaced. The pontoons were repaired, and the decks of all the pontoons were chipped and painted and well cleaned and coated with oil inside; and the fenders and sheathings of the pontoons were changed as found necessary. Brackets and large iron stanchions were fitted underneath draw-bridge roller beams. The bridge winches were kept clean and well oiled and all other gear was kept in good order, and all repairs carried out to keep the bridge in good condition.

4. As in the preceding year, in addition to the ordinary receipts, the following amount, which may be classed as extraordinary, was received :—

	Rs.
Interest on Government securities of pontoon—	
Renewal fund	2,240
The corresponding expenditure under the same head was—	
Sinking fund on loans	4,351

5. The cost of lighting the bridge with electricity was Rs. 10,726 against Rs. 9,823 in the previous year, showing an increase of Rs. 903. The electric-lighting of the bridge was maintained throughout the year without any trouble, and the arrangement of having the engines at the Howrah Workshop continued to work well.

6. The bridge was opened for the passage of vessels on 151 occasions, of which 101 were on the ordinary fixed days of the week, and 50 were on Sundays on special application. The number and description of vessels which passed through the bridge on these occasions are shown below :—

VESSELS.	1898-99.	1897-98.	1896-97.	1895-96.	1894-95.	1893-94.	1892-93.	1891-92.	1890-91.	1889-90.

Total ...	2,260	2,412	2,324	2,073	2,201	2,063	2,074	2,086	2,110	1,863

7. No sea-going vessels collided with the bridge during the year under review, but there was a large increase in the casualties to (1) inland steamers and flats and (2) cargo and passenger boats. In both these cases the number of casualties was unprecedented, being 22 in the one case and 133 in the other. Of the boats which collided with the bridge 16 were lost and four lives. There were altogether 169 cases of collision, as compared with 129, 109 and 78, respectively, in the three preceding years.

By order of the Lieutenant-Governor of Bengal,

R. B. BUCKLEY,

Secy. to the Govt of Bengal.

WEATHER AND CROP REPORT.

For the week ending the 30th October 1899.

Burdwan.—Rainfall at Sadar ·77, Kalna ·19, Katwa ·11, Raniganj ·05. Weather cloudy and rainy. Threshing of *aus* nearly over. The recent rain has done immense good to *aman*. Sowing of *rabi* going on. Standing crops doing well. Fodder and water sufficient. Cattle-disease in Katwa has ceased. Common rice selling as follows:—

		Srs.	
Sadar	... ...	15	per rupee.
Kalna	... ...	13⅗	
Katwa	... ...	14	
Raniganj	... ...	13½	

Birbhum.—Rainfall at Sadar ·32, Rampur Hât ·39. Weather seasonable. *Aus* being harvested and fields prepared for *rabi* cultivation. Rice crop is promising. Price of common rice at Sadar 15 seers and Rampur Hât 14 to 16 seers per rupee. Fodder sufficient.

Bankura.—Rainfall at Bankura ·17, Vishnupur ·11. Weather cloudy with drizzling rain. *Rabi* sowing continues. Prospects of *aman* excellent. Sugarcane and winter rice doing well. Cattle-disease reported from one village in outpost Joyrampur. Fodder and water sufficient. Price of common rice at Bankura 16 seers and at Vishnupur 15 seers per rupee.

Midnapore.—Rainfall at Sadar ·11, Contai ·47, Tamluk ·12, Ghatal ·01. Weather cloudy. Prospects of winter rice good. Grass-hoppers appeared in some places in Dantun. *Rabi* crops are being sown. Cattle-disease reported from some places in the Sadar subdivision. Fodder and water ample. Common rice sells as follows:—

		Srs.	ch.	
Sadar	... ...	15	0	per rupee.
Contai	... ...	18	0	
Tamluk	... ...	14	3½	
Ghatal	... ...	15	0	

Hooghly.—Rainfall at Sadar ·09, Serampore ·94, Jahanabad ·14. Prospects of *aman* good. *Rabi* crops thriving well. Common rice sells at 14 seers per rupee.

Howrah.—Rainfall at Sadar ·03, Uluberia ·04. Weather cloudy. *Aman* doing well. Sowing of *rabi* continues. Fodder and water sufficient. Common rice sells at 13½ seers per rupee.

24-Parganas.—Rainfall at Sadar ·09, Barasat ·08, Basirhat ·20, Diamond Harbour ·11. Weather cloudy with cyclonic wind and occasional drizzling. Prospects of standing crops good. Cyclonic wind said to have caused slight damage to *aman* paddy in the Sadar subdivision. Lands are under cultivation for *rabi* crops. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

		Srs.	ch.	
Sadar	... ...	12	0	per rupee.
Barasat	... ...	14	8	
Basirhat	... ...	13	14	
Diamond Harbour	... ...	12	13	

Nadia.—Rainfall at Sadar ·46, Kushtia ·48, Meherpur ·12, Chuadanga ·83, Ranaghat ·34. Weather cloudy and rainy. Prospects of *aman* good. Sowing of *rabi* crops continues. Fodder and water sufficient. Price of common rice stationary.

Murshidabad.—Rainfall at Sadar ·21, Jangipur ·74, Kandi ·23. Weather seasonable. Prospects of *aman* good. *Kalai* doing well. Sowing of *rabi* continues. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

		Srs.	
Sadar	... ...	14	per rupee.
Kandi	... ...	18	
Jangipur	... ...	14	

Jessore.—Rainfall at Sadar 1·70, Jhenida ·91, Magura 2·12, Narail 1·11, Bangaon ·36. Weather cyclonic. Sowing of *rabi* crops going on. Prospects of *aman* paddy good. No cattle-disease reported. Fodder and water sufficient. Common rice sells as follows:—

		Srs.	
Sadar	... ...	16	per rupee
Jhenida	... ...	18	
Magura	... ...	17	
Narail	... ...	17½	
Bangaon	... ...	18	

Khulna.—Rainfall at Sadar ·94, Bagerhat 2·81, Satkhira 1·20. Weather variable. *Aman* paddy doing well. The rainfall of the week has done much good to the standing crops. Fodder and water sufficient. Common rice sells as follows :—

				Srs.	
Sadar	...	...	...	16½	per rupee.
Bagerhat	...	...	...	16	
Satkhira	...	...	...	14	

Rajshahi.—Rainfall at Sadar ·25, Nator ·27, Naugaon ·27. Prospects of standing crops good. No cattle-disease. Fodder and water plentiful. Common rice sells at 17½ seers per rupee.

Dinajpur.—Average rainfall ·10. Weather getting cooler. Standing crops good. No cattle-disease. Fodder and water plentiful. Common rice 15 seers a rupee in Dinajpur town and 17 seers at Thakurgaon.

Jalpaiguri.—Rainfall at Sadar ·06, Alipur Duars ·17. Weather seasonable. *Haimanti* paddy doing well. Lands are being prepared for tobacco. Common rice sells at 14½ seers a rupee. Fodder and water sufficient.

Darjeeling.—Rainfall at Darjeeling ·44. Weather seasonable. *Hills—Haimanti* paddy, *bara marua*, *phaphar*, *kalai*, wheat, barley and *tori* are doing well. *Terai—Haimanti* paddy, *kalai*, and sugarcane are doing well. Coarse rice sells as follows :—

				Srs.	
Hills ...	...	...	...	9	per rupee.
Terai ...	...	...	...	18	

Bhutta sells at Darjeeling 20 seers and at Kalimpong 32 seers per rupee.

Rangpur.—Rainfall at Sadar nil, Gaibanda ·49, Kurigram ·09, Nilphamari nil. Sowing of *rabi* crops and washing of jute going on. Prospects good. Fodder and water sufficient. Common rice sells at 17 seers per rupee. Cattle-disease prevailing in Nilphamari.

Bogra.—Average rainfall ·99. Prospects of crops good. Cultivation of *rabi* crops going on. Fodder and water sufficient. Common rice sells at 17 seers per rupee.

Pabna.—Rainfall at Sadar ·78, Sirajganj 1·10. Weather seasonable, cloudy in the beginning of the week. Prospects of crops good. Price of common rice 15 seers per rupee. Cattle-disease at Sara outpost.

Dacca.—Rainfall at Sadar ·89, Manikganj 1·83, Munshiganj 1·26, Narayanganj 1·16. Weather seasonable. Prospects of standing crops good. Fodder available. No cattle-disease. Common rice 16 seers per rupee.

Mymensingh.—Rainfall at Sadar 2·68, Netrokona ·08. Weather cloudy. Prospects of crops good. Health of cattle good. Fodder and water sufficient. Common rice sells at 17 seers per rupee.

Faridpur.—Rainfall at Sadar 3·72, Goalundo ·99. Weather seasonable. State and prospects of crops good. Common rice sells at 15 seers per rupee.

Backergunge.—Rainfall at Sadar 7·67. Weather rainy and overcast. Prospects of crops fair. Common rice sells at 14 seers per rupee.

Tippera.—Rainfall at Sadar 2·97, Brahmanbaria ·62, Chandpur 3·49. Weather cloudy and rainy. Prospects of *aman* favourable. Average price of common rice 17½ seers per rupee.

Noakhali.—Rainfall at Sadar 7·05, Feni 3·40. Prospects of crops fair. Land is being ploughed for *rabi* crops. Cattle-disease at Chagalnaya abating. Fodder and water good. Common rice (*aman*) 15 seers and (*aus*) 18 seers per rupee.

Chittagong.—Rainfall at Sadar 19·42, Cox's Bazar 1·67. Early winter rice crop damaged by excessive rain. Water and fodder sufficient. Common rice 14 seers per rupee.

Patna.—Rainfall at Sadar 1·93, Barh 1·10, Bikram 2·38, Dinapur 1·05, Bihar 1·27, Hilsa 1·15. Rain has benefited all crops on the ground, and will greatly improve *rabi* prospects, which are now good. Sugarcane cutting and ploughing for more *rabi* sowing continue. Fodder and water for cattle sufficient. Common rice in Patna sells at 16½ seers per rupee.

Gaya.—Rainfall at Sadar ·42, Jahanabad ·94, Aurangabad ·32, Nawada ·16. *Rabi* sowing going on. Rain wanted for paddy crops. Sugarcane doing well. Common rice sells at 14 seers per rupee.

Shahabad.—Rainfall at Sadar 2·00, Buxar ·86, Bhabua ·05, Sasaram ·53. Rain to some extent useful to standing crops and *rabi* sowings. Fodder and water abundant. Seventy-five cases of cattle-disease in Sasaram. Common rice selling at Sadar at 12 seers per rupee.

Saran.—Rainfall at Sadar ·45. Weather seasonable. *Rabi* sowing going on. Rain will benefit paddy and improve prospects of *rabi*. Average prices per rupee are—Common rice 12 seers 10 chitaks and *makai* 13 seers 10 chitaks, against 14 seers 15 chitaks and 28 seers 4 chitaks, respectively, the normal rates.

Champaran.—Rainfall at Motihari ·10, Bettiah ·21, Bagaha, ·27 Ramnagar ·67. The slight rain did some good to *aghani* rice, and facilitated *rabi* sowings. Prospects continue fair. Price of common rice 14½ seers and of maize 16 seers per rupee.

Muzaffarpur.—Rainfall at Sadar 2·31, Hajipur 4 05, Sitamarhi ·28. Prospects fair. *Rabi* sowings in progress. Rice doing well. Prices are—Common rice 12 seers, wheat 12 seers, barley 15 seers, *makai* 14 seers, gram 13 seers, *rahar* 14 seers, and *marua* 18 seers per rupee.

Darbhanga.—Rainfall at Sadar 3·14, Samastipur 3·70, Madhubani 1·43. Prospects of standing crops good. The recent rain has greatly benefited the paddy crop. Preparation of lands for *rabi* continues. Fodder and water sufficient. No cattle-disease reported. Common rice sells at Sadar 12½ seers per rupee.

Monghyr.—Rainfall at Sadar ·73. Standing crops doing well. *Rabi* being sown. Rain urgently wanted. Cattle-pox reported from Ballia out-post in the Begusarai subdivision. Common rice sells as follows:—

	Srs.	Ch.	
Monghyr	11	3	per rupee.
Begusarai	12	0	
Jamui	13	8	

Bhagalpur.—Weather seasonable; occasionally cloudy. Rainfall at Sadar ·06, Banka ·08, Madhipura ·30, Supaul 1·25. Standing crops doing well, but rain required for *aghani* paddy and *rabi* sowings. Cattle-disease in Supaul and Banka. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	
Sadar	14	per rupee.
Banka	12½	
Madhipura	14	
Supaul	18	

Purnea.—Rainfall at Sadar 9·06. Weather seasonable. Prospects of *aghani* crop good. Steeping and washing of jute nearly finished. *Rabi* sowings going on well. No cattle-disease reported. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	
Sadar	16	per rupee.
Kishanganj	17	
Araria	19	

Malda.—Rainfall at Sadar ·45, Shibganj ·06, Gajol ·15. Weather—first part of the week fair; latter part cloudy, ending with rain. *Rabi* sowing going on. Prospects of standing crops continue good. Cattle-disease reported from some places. Coarse rice sells at 16 seers per rupee. Fodder and water sufficient.

Sonthal Parganas.—Average rainfall ·25. Crops all doing well. More rain would be welcome, but is not expected. Average prices are—common rice 13 seers 6 chitaks and maize 19¼ seers per rupee. Cattle-disease in Jamtara and Rajmahal. Fodder and water sufficient.

Cuttack.—Rainfall at Sadar ·03, Jajpur ·41, Kendrapara ·95, Banki ·08. Weather seasonable and cloudy. *Laghu sarad* maturing. *Guru sarad* in ear. Sugarcane, *rabi*, and turmeric thriving. Jute and cotton being harvested. Condition of cattle generally good. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	14	7	per rupee.
Jajpur	17	1	
Kendrapara	21	0	
Banki	13	12	

Balasore.—Rainfall at Sadar ·85. Weeding of *sarad* continues. *Aus* is being harvested. Sugarcane thriving well. Prospects of crops good except on high lands in Agarpara circle. Sowing of *rabi* crops commenced. Rice sells at 18¼ seers per rupee in the interior, and at 16 and 18 seers at Balasore and Bhadrak respectively. Cattle-disease reported from places. Fodder and water sufficient.

Angul.—No rain at Angul and Bisipara. Weather cloudy. Low land paddy doing well. *Rabi* still being sown. Common rice sells at 16 seers per rupee at Angul and 12 seers at Bisipara. Cattle-disease prevails in Khondmals.

Puri.—Rainfall at Sadar ·40, Khurda ·05. Weather cloudy. *Laghu* already withered. Prospects of *sarad* fair. *Kulthi* being sown. Sugarcane thriving. Other miscellaneous crops doing well. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	Ch.	
Sadar	12	0	per rupee.
Khurda	13	2	
Interior of district	12	6	

Hazaribagh.—Rainfall nil. Weather seasonable. Continued drought causing injury to the paddy crops. Common rice sells at 11½ seers per rupee.

Ranchi.—Rainfall ·03. Weather seasonable. Paddy very seriously damaged by drought. *Rabi* sowing retarded. Rice sells at Ranchi 10 seers per rupee and in the interior 13 seers. No cattle-disease. Fodder and water sufficient.

Palamau.—Rainfall at Sadar ·01, Hosenabad 2·00, Chattarpur ·99, Ranka ·45, Untari ·18. Weather seasonable. Slight rain also reported from some other places except in south of district. Upland paddy dead. Lowland paddy dying. *Rabi* cultivation will start at once where rain has fallen. Prices at Sadar are—Common rice 10 seers 11 chitaks, barley 15¾ seers, wheat 10 seers 11 chitaks, *mahua* 33¾ seers, and *marua* 16 seers 14 chitaks per rupee.

Manbhum.—Rainfall at Sadar ·01. Weather seasonable. *Bhadoi* crops fair. Winter rice an average crop. Cattle-disease reported from thanas Purulia and Topchanchi. Fodder and water sufficient. Average price of common rice at Sadar 13 seers and at Gobindpur 12 seers per rupee. Supply sufficient.

Singhbhum.—Rain on 28th instant ·10. More rain wanted for *rabi* crops. Rice sells at Chaibassa 14 seers per rupee. Average price in district—Common rice 15½ seers.

General Summary.—There was general, but very unevenly distributed, rainfall during the week, excessive in Chittagong, where some damage was done to the rice. In the Patna Division much good was done to the crops in Muzaffarpur and Darbhanga, but the fall was too slight in the other districts to materially benefit the high-level rice. In the Chota Nagpur Division the fall did not exceed a tenth of an inch except in parts of Palamau. Consequently the rice is dying, with serious consequences in Ranchi and Hazaribagh, which with Singhbhum and Palamau will have very poor crops. Elsewhere the crops are flourishing, and the prospects of the spring crops have been much improved by the rain. The price of common rice is almost stationary. Cattle are in good condition, there being plenty of fodder in every district.

By order of the Lieutenant-Governor of Bengal,

F. A. SLACK,

Offg. Secretary to the Govt. of Bengal.

The total fall from 1st January to 28th October 1899	71·95
The average fall of the corresponding period for 24 years, Surveyor-General's Office	64·33

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

∆, dew; ≡, fog; o, overcast; d, drizzling rain.

C. W. BOLTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION—No. 1652A.D.

The 3rd November 1899.—It is hereby notified for general information that the Second Half-yearly Departmental Examination in 1899 of the Assistants of the Opium Department will be held at Ghazipur on Monday, the 11th December 1899, and the following day.

C. W. BOLTON,
Chief Secy. to the Govt. of Bengal.

REVENUE DEPARTMENT—(FORESTS.)

NOTIFICATION—No. 912T.R.

The 3rd November 1899.—It is proposed by Government to make the following rules under section 6, clauses (1), (3) and (5), and section 7 of Act IV of 1897, an Act to provide for certain matters relating to fisheries in British India. Any objections that may be preferred thereto within one month from the 8th instant will be taken into consideration:—

(1) The erection and use of fixed engines, the construction of weirs, and the use of nets with meshes of a smaller dimension than one inch square, is prohibited in all rivers and streams within the limits of the Darjeeling district, save and except in such parts of the same as (*a*) are under the control of the Forest Department under the rules framed under section 25, clause (*i*), and section 31, clause (*j*), of Act VII of 1878; and (*b*) lie within the limits of grants held under leases conferring rights of fishery.

(2) Any breach of the above rule shall be punishable with fine, which may extend to Rs. 100, and when the breach is a continuing breach, with a further fine, which may extend to Rs. 10, for every day after the date of the first conviction during which the breach is proved to have been persisted in.

(3) All fixed engines, erected or used, or nets used in contravention of the above rule, shall be liable to seizure, forfeiture, and removal.

(4) All fish taken by means of any such fixed engine or net shall be liable to forfeiture.

(5) All "Forest officers," as defined in section 2 of Act VII of 1878, serving in the Darjeeling district are hereby empowered to effect arrests without warrant for offences punishable under section 4 or 5 of Act IV of 1897, or under any rule under section 6 thereof, subject to the conditions laid down in section 7 of the said Act.

F. A. SLACK,
Offg. Secy. to the Govt. of Bengal.

REVENUE DEPARTMENT—(LAND REVENUE.)

NOTIFICATION—No. 3882L.R.

The 6th November 1899.—Under the powers conferred upon him by section 101 (2) (*c*) of the Bengal Tenancy Act, 1885, as amended by the Bengal Tenancy (Amendment) Act, 1898, the Lieutenant-Governor of Bengal is pleased to order that a survey shall be made and a record of rights prepared in respect of all lands included within the boundaries of the villages Arpa, bearing tauzi No. 89, and kharij jama Arpa, bearing tauzi No. 188, pargana Pillich, appertaining to the estate of minor Krishna Pershad Narayan Sinha, under the management of the Court of Wards, and situated in the Bihar subdivision of the district of Patna.

2. The particulars to be recorded in the survey and record of rights shall be the following, namely :—

(*a*) The name of each tenant or occupant.

(*b*) The class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat or under-raiyat, and if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure.

(*c*) The situation and quantity and one or more of the boundaries of the land held by each tenant or occupier.

(*d*) The name of each tenant's landlord.

(*e*) The money rent payable at the time the record of rights is being prepared, or if a produce rent, the fact that a produce rent is taken by appraisement or division of the produce and in what proportion.

(*f*) The mode in which that rent has been fixed, whether by contract, by order of a Court, or otherwise.

(*g*) If the rent is a gradually increasing rent, the time at which, and the steps by which, it increases.

(*h*) The special conditions and incidents, if any, of the tenancy.

(*i*) The name of each proprietor with the character and the extent of his interest, and the situation, quantity and one or more of the boundaries of each proprietor's private lands, as defined in Chapter XI of the Act.

(*j*) If the land is claimed to be held rent-free, whether or not rent is actually paid, and, if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and, if so entitled, under what authority.

F. A. SLACK,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION—No. 3883L.R.

The 6th November 1899.—With reference to the notification No. 3882L.R., dated 6th November 1899, Mr. D. Sunder, Subdivisional Officer, Bihar, is authorised, under section 3 (17) of the Bengal Tenancy Act, VIII of 1885, to discharge the functions of a Revenue Officer under the provisions of the said Act, so far as they relate to Revenue Officers. He is also vested with the powers of a Settlement Officer under Rule 1, Chapter VI of the Rules framed by Government under the Act.

F. A. SLACK,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION—No. 3884L.R.

The 6th November 1899.—An application having been filed before the Collector of the 24-Parganas by Hem Chandra Chatterjee, under section 18 of the Embankment Act II (B.C.) of 1882, for the construction of a tunnel sluice at Srinagore, on the right bank of the river Bidyadhari, in mile 182-83 of the Government Embankment Schedule D, No. 90, the Collector, after holding the necessary enquiry into the matter under section 10 of the Act, submitted a report in favour of the proposal, which received the support of the Commissioner of the Presidency Division and of the Board of Revenue, by whom it has been submitted to Government for orders. The Lieutenant-Governor having considered this report and the Board's recommendations is pleased to order, under section 14 of the Act, that the sluice in question be constructed at an estimated cost of Rs. 1,971 in accordance with the plans prepared by the Executive Engineer, Northern Drainage and Embankment Division, and approved by the Superintending Engineer, South-Western Circle.

F. A. SLACK,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION—No. 3885L.R.

The 6th November 1899.—The Lieutenant-Governor is pleased to vest Babu Jogendra Kumar Bose, Deputy Collector, in charge of the settlement of Estate No. 12711 in the district of Dacca, with the powers of a Revenue Officer under section 108 of the Bengal Tenancy Amendment Act, for the purpose of the revision of orders passed by the Assistant Settlement Officer under section 105 of the aforesaid Act.

F. A. SLACK,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION—No. 3886L.R.

The 6th November 1899.—Mr. Sorab S. Day, Sub-Deputy Collector and Assistant Settlement Officer, Sunderbans Government Estates, is appointed to be an Assistant Settlement Officer in the districts of Saran and Darbhanga, with effect from the 1st December 1899.

F. A. SLACK,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION—No. 3887L.R.

The 6th November 1899.—Under section 3 (17) of the Bengal Tenancy Act, VIII of 1885, the Lieutenant-Governor is pleased to authorise Mr. Sorab S. Day to perform the functions of a Revenue Officer in the districts of Saran and Darbhanga under the provisions of that Act so far as they relate to Revenue Officers.

He is also vested with the powers of an Assistant Settlement Officer under rule 1, chapter VI of the rules under the Bengal Tenancy Act, VIII of 1885.

F. A. SLACK,
Offg. Secy. to the Govt. of Bengal.

GENERAL DEPARTMENT—(EDUCATION).

NOTIFICATION—No. 3406.

The 7th November 1899.—Babu Chandra Narain Gupta, Deputy Magistrate and Deputy Collector, Dumka, is appointed to be Secretary to the District Committee of Public Instruction, Sonthal Parganas, *vice* Babu Basanta Kumar Bose, Deputy Magistrate, transferred.

F. A. SLACK,
Offg. Secy. to the Govt. of Bengal.

MEDICAL DEPARTMENT.

No. 476T.M.—The 2nd November 1899.—Lieutenant-Colonel E. G. Russell, I.M.S., Professor of Materia Medica, Medical College, Calcutta, is allowed leave for one month, under article 291 of the Civil Service Regulations, with effect from the 6th October 1899.

No. 508T.M.—The 3rd November 1899.—Mr. A. A. Price, Personal Assistant to the Inspector-General of Civil Hospitals, Bengal, is allowed leave for three months, under article 291 of the Civil Service Regulations, with effect from the 24th November 1899.

No. 544T.M.—The 4th November 1899.—Major F. P. Maynard, I.M.S., is appointed to act as Civil Surgeon of Hazaribagh, with effect from the afternoon of the 16th September 1899, during the absence, on leave, of Captain A. H. Nott, I.M.S., or until further orders.

No. 546T.M.—The 4th November 1899.—Captain A. Gwyther, I.M.S., acted as Civil Surgeon of Rajshahi from the forenoon of the 7th to the forenoon of the 29th September 1899.

E. N. BAKER,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION—No. 445$\frac{T.}{P.}$

The 30th October 1899.—The following notification of the Government of Bombay, No. 5899P., dated the 27th September 1899, regarding the exemptions granted in the Bombay Presidency to persons inoculated with M. Haffkine's plague prophylactic, is republished for general information.

E. N. BAKER,
Offg. Secy. to the Govt. of Bengal.

No. 5899P., dated Bombay Castle, the 27th September 1899.

NOTIFICATION—By the Govt. of Bombay, General Dept. (Plague).

GOVERNMENT are pleased to direct that the following exemptions may be printed on the certificates of persons inoculated with Professor Haffkine's plague prophylactic:—

1. This certificate is effective for six months from the date of inoculation.

2. The proper holder is exempted from detention at plague observation camps except for such period as may be required to disinfect his baggage and clothes if these are considered suspicious.

3. He is exempted from being sent to camps, if evacuation or segregation is ordered, but if plague occurs in his house, it will have to be disinfected as usual.

4. The above exemptions do not apply to any one actually suffering from plague.

5. Paragraph 2 applies throughout British India. Paragraph 3 applies in the Bombay Presidency only.

NOTIFICATION—No. 468 $\frac{T.}{P.}$

The 2nd November 1899.—The following correspondence is published for general information.

E. N. BAKER,
Offg. Secy. to the Govt. of Bengal.

No. 2940 $\frac{\text{Sany.}}{\text{Plague}}$, dated Simla, the 20th October 1899.

From—A. H. L FRASER, ESQ., C.S.I., Offg. Secretary to the Government of India, Home Department,

To—The Secretary to the Government of Bengal, Municipal Dept.

I AM directed to acknowledge the receipt of your letter No. 2037Medical (Plague), dated the 14th September 1899, regarding the arrangements to be made for the pilgrimage to the Hedjaz during the ensuing season, and in reply to forward, for the information of the Government of Bengal, a copy of a Notification, No. 2936 of this date, issued by the Government of India under the Epidemic Diseases Act, 1897.

2. It will be observed that the pilgrimage will be permitted, except in the case of residents of the Bombay Presidency including Sind, the Madras Presidency, the Mysore and Hyderabad States, Coorg, Calcutta and the Saran district, the Nagpur Division of the Central Provinces and the Hoshiarpur district of the Punjab, and that Chittagong is the sole port from which embarkation will be permitted. The Government of India desire to repeat the instructions given last year that all possible means should be taken to make the purport of the orders immediately and widely known, and to explain the reasons on which they are based. Every endeavour should also be made through Magistrates of districts, the religious heads of the Muhammadans, pilgrim-brokers, and in any other way that the Government of Bengal thinks best, to dissuade intending pilgrims from going to the Hedjaz next season.

3. I am to say that the Government of India agree with the suggestion made in your letter of the 14th September that arrangements should be made, similar to those of last season, for receiving the pilgrims at Chittagong and despatching them thence to the Hedjaz. Pilgrims from other provinces will be despatched from camps situated in those provinces to the Chittagong camp after they have completed the necessary period of observation. I am to forward, for the information of His Honour the Lieutenant-Governor, a copy of the instructions on the subject issued to Local Governments and Administrations They have been directed to inform the Government of Bengal of the arrangements made, and to supply periodical information respecting the number of persons in the provincial camp destined for Chittagong and the period of observation they have completed. I am to request that the Government of Bengal will enter into communication with the Local Governments and Administrations concerned on the subject of the arrangements for receiving pilgrims from the provincial camps.

4. Tickets are to be sold only at the observation camps, and I am to request that steps may be taken to enforce this order and make it known to pilgrim-brokers. The owners and agents of ships engaged in the pilgrim traffic should be informed that Chittagong will be the sole port of embarkation for pilgrims to the Hedjaz, and endeavour should be made to ascertain from them, as far as possible, what vessels will sail and approximately on what dates.

5. The Government of India will be glad to be informed in due course of the progress of the arrangements. They also wish to be told from time to time what pilgrim ships will sail, approximately on what date they will start, and what numbers they will carry.

No. 2936 $\frac{\text{Sany.}}{\text{Plague}}$, dated Simla, the 20th October 1899.

NOTIFICATION—By the Government of India, Home Department.

IN the notification of the Government of India in the Home Department, No. 4341, dated the 10th November 1898, it was ordered, under the powers conferred by section 2, sub-section (1) of the Epidemic Diseases Act (III of 1897), that the pilgrimage to the Hedjaz, during the season of 1899, might be permitted, except in the case of persons residing in the Bombay Presidency (excluding the whole of Sind except Karachi), the Presidency of Madras, the Mysore and Hyderabad States and Coorg, subject to certain precautions and restrictions which were imposed in view of the strong opinions of all European Governments, including Turkey, regarding the danger of plague being communicated to Europe, and in view of the danger of plague being spread by intending pilgrims from infected to non-infected portions of India.

Plague is unfortunately still widely prevalent in the Bombay Presidency, and is specially severe in the southern districts and States. Karachi remains an infected port, and plague prevails also at Hyderabad in Sind. The disease is widespread and severe in both the Mysore and Hyderabad States. It is endemic in the Salem district of the Madras Presidency, and imported cases have recently occurred in other districts. Calcutta became re-infected in the latter part of July last, and a recrudescence has lately been reported from the district of Saran in Bihar. The Nagpur City and district in the Central Provinces are infected, and plague has re-appeared in the Hoshiarpur district of the Punjab.

The alarm experienced by European Governments, including Turkey, regarding the danger of plague being imported to Europe is in no measure abated, and during the past season Indian pilgrims were again subject to much vexatious restrictions and consequent hardship. The Government of India do not think it necessary to prohibit the pilgrimage from the uninfected portions of India during the coming season, but they consider it essential that careful precautions should be observed, similar to those which were enforced during the past season.

The Governor-General in Council is pleased to cancel the order contained in the notification of the Government of India in the Home Department, No. 4341, dated the 10th November 1898.

The Governor-General in Council is further pleased to direct that, until further orders, no person resident permanently or temporarily in the Presidency of Bombay including Sind, the Presidency of Madras, the Mysore and Hyderabad States, Coorg, Calcutta and the Saran district of Bihar, the Nagpur Division of the Central Provinces and the Hoshiarpur district of the Punjab shall be permitted to embark from any port in India with the object of making a pilgrimage to Mecca.

The Governor-General in Council is further pleased to direct as follows:—

(1) That no person shall be permitted to embark with the object of making a pilgrimage to Mecca, except at the port of Chittagong in the Lower Provinces of Bengal, and unless and until such person has been kept under observation in a place appointed for the purpose until such time as the Medical Officer in charge shall be satisfied that all risk of such person conveying the infection of plague has been completely abated, and unless such person is conveyed from the place of observation to the place of embarkation under the charge of an officer appointed for the purpose.

(2) That no passage tickets for the Hedjaz shall be sold, except at the places appointed for the detention of intending pilgrims under observation.

The Government of India think it necessary to repeat the warning given last year that, although they have decided that the pilgrimage to the Hedjaz may be permitted subject to the safeguards enumerated above, they are nevertheless convinced that intending pilgrims will be well advised in deferring their purpose until another season, in view specially of the stringent quarantine rules imposed by the Turkish Government and the inconvenience and harassment to which it is likely they will be subjected on arriving in Arabia.

No. 2941 $\frac{\text{Sany.}}{\text{Plague}}$, dated Simla, the 20th October 1899.

From—A. H. L. FRASER, Esq., C.S.I., Offg. Secy. to the Govt of India, Home Dept.,
To—The Chief Secretary to the Govt. of Bombay, General Dept. (Plague).

I AM directed to forward, for the information of the Government of Bombay, a copy of a Notification, No. 2936 of this date, issued by the Government of India under the Epidemic Diseases Act, 1897, with regard to the pilgrimage to the Hedjaz during the coming season.

2. I am to request that all possible means may be taken to make it immediately and widely known that the pilgrimage has been prohibited in the case of all residents of the Bombay Presidency including Sind, and of the reasons for this prohibition. The Government of India desire to repeat the request made last year that the Government of Bombay will use all means in their power to make the decision as little unpalatable as possible to the Muhammadans of the Presidency.

No. 2942-47 $\frac{\text{Sany.}}{\text{Plague.}}$, dated Simla, the 20th October 1899.

From—A. H. L. FRASER, ESQ., C.S.I., Offg. Secy. to the Govt. of India, Home Dept.,

To—The Secretary to the Government of the North-Western Provinces and Oudh, Sanitation Department; the General and Judicial Secretary to the Government of the Punjab; the Chief Commissioner of the Central Provinces; the Chief Commissioner of Assam; the Agent to the Governor-General in Rajputana; and the Agent to the Governor-General in Baluchistan.

I AM directed to forward, for the information of the Government of the N.-W. P. and Oudh, / the information of the Government of the Punjab, / your information, a copy of a Notification, No. 2936 $\frac{\text{Sany.}}{\text{Plague}}$ of this date, issued by the Government of India under the Epidemic Diseases Act, 1897, with regard to the pilgrimage to the Hedjaz during the ensuing season.

2. The Government of India desire to repeat the instructions given last year that all possible means should be taken to make the purport of the orders immediately and widely known, and to explain the reasons on which they are based. Every endeavour should also be made, through Magistrates of districts, the religious heads of the Muhammadans, pilgrim-brokers, and in any other way that the Govt. of the N.-W. P. & Oudh thinks / the Government of the Punjab thinks / you think best, to dissuade intending pilgrims from going to the Hedjaz next season.

[To Punjab and Central Provinces only.] 3. [It will be observed that the pilgrimage has been prohibited in the case of all residents of the Hoshiarpur district / Nagpur Division.] Embarkation will be permitted only at the Port of Chittagong in the Lower Provinces of Bengal. The Government of Bengal will, as in the last season, open a central camp in the neighbourhood of Chittagong to which intending pilgrims from other provinces must be sent under arrangements similar to those made last year. All persons in the North-Western Provinces and Oudh / the Punjab (except Hoshiarpur district) / the Central Provinces (except Nagpur Division) / Assam } and neighbouring Native States / Rajputana / Baluchistan who persist in the desire to go on pilgrimage [and* all persons from beyond the border who enter Baluchistan for the same purpose and persist in it] must be collected at an observation camp within the Province / Agency† where they must be detained under the careful superintendence of a Commissioned Medical Officer for at least ten days, and where their wearing apparel, bedding, &c., must be disinfected. Intending pilgrims, who have completed the 10 days' observation period and are certified to be free from infection, should be sent to the camp near Chittagong as soon as information is received by the Government of the North-Western Provinces and Oudh / the Government of the Punjab / you from the Government of Bengal that the authorities are ready to take them over. This will depend on the number of ships available and on the dates on which they sail. The Government of Bengal has been asked to obtain as full information as possible on this subject. Pilgrims must be despatched from the provincial camp by special train and under the charge of a responsible officer. In cases in which there are only a few pilgrims present when notification is received from the Government of Bengal that a ship is ready for them, small batches may be sent in a special carriage attached to an ordinary train, provided that the carriage is reserved exclusively for their use, that they are placed in charge of a responsible officer, and that they are not allowed to mix with other persons. [It will be necessary to communicate with the political authorities in Native States with regard to the reception of pilgrims from those States in the Provincial observation camp.]* Passage tickets to the Hedjaz may be sold only at the observation camps, and I am to request that the necessary steps may be taken to enforce this order and, in communication with the Government of Bengal, to make it known to shipping agents and pilgrim-brokers.

* [In the case of Baluchistan only.]

† In the case of Rajputana and Baluchistan.

* [Except Rajputana and Baluchistan.

4. I am to request that a place for the observation camp may be selected at once, that arrangements may be made as quickly as possible to give effect to the instructions contained in this letter, and that the arrangements may be communicated to the Government of India and to the Government of Bengal. Arrangements should be made in communication with the Government of Bengal for supplying a periodical statement of the number of persons in the provincial camp destined for Chittagong and the period for observation they have completed, and for despatching pilgrims from the provincial camp to the camp near Chittagong.

A forecast of the number of persons likely to require passages should be sent to the Government of Bengal as soon as the information can be procured.

To the Punjab. [5. Pilgrims from Kashmir and from beyond the Punjab and Kashmir borders will, in accordance with the orders which issued last year, be detained under observation in the Punjab camp, and will be despatched along with the Punjab pilgrims to Chittagong. I am to request that arrangements may be made to collect pilgrims from beyond the Punjab border at the observation camp, and that pilgrims from Kashmir may also be received in the

Letter No. 4348, dated the 10th November 1898.

camp. The Resident in Kashmir has been directed to settle, in communication with the Government of the Punjab, the arrangements for despatching the pilgrims from Kashmir and from beyond the Kashmir border to the Punjab observation camp. Pilgrims from beyond the Baluchistan border will be kept under observation in a camp in the Baluchistan Agency.]

To the North-Western Provinces and Oudh.

Letter No. 4347, dated the 10th November 1898.

[5. In accordance with the instructions issued last year, intending pilgrims from Central India will be kept under observation in the North-Western Provinces and Oudh provincial camp. The Agent to the Governor-General in Central India has been informed of this, and I am to request that the necessary arrangements may be made in communication with him.]

No. 2948 $\frac{\text{Sany.}}{\text{Plague}}$, dated Simla, the 20th October 1899.

From—A. H. L. FRASER, ESQ., C.S.I., Offg. Secy. to the Govt. of India, Home Dept.,
To—The Resident in Kashmir.

I AM directed to forward, for your information and for communication to His Highness's Government, a copy of a Notification, No. 2936 $\frac{\text{Sany.}}{\text{Plague}}$ of this date, issued by the Government of India under the Epidemic Diseases Act, 1897, with regard to the pilgrimage to the Hedjaz during the ensuing season.

2. The Government of India desire to repeat the instructions given last year that all possible means should be taken to make the purport of the orders immediately and widely known, and to explain the reasons on which they are based. Every endeavour should also be made, through Magistrates of districts, the religious heads of the Muhammadans, pilgrim-brokers, and in any other way that you think best, to dissuade intending pilgrims from going to the Hedjaz next season.

Letter No. 4353, dated the 10th November 1898.

3. I am also to forward for your information a copy of a letter, No. 2943 $\frac{\text{Sany.}}{\text{Plague}}$ of this date, to the Government of the Punjab explaining the arrangements to be made for the despatch of pilgrims to the Hedjaz during the coming season. You will observe that the arrangements are similar to those made last year, and that Chittagong has been declared the sole port for the departure of pilgrims. In accordance with the instructions issued last year, pilgrims from Kashmir and from beyond the Kashmir border will be kept under observation in the Punjab provincial camp, and will be despatched to Chittagong along with the Punjab pilgrims. I am to request that you will cause the Kashmir pilgrims and the pilgrims who arrive in Kashmir from beyond the border to be collected, and that you will settle, in communication with the Government of the Punjab, the arrangements for their despatch to the Punjab observation camp.

No. 2949 $\frac{\text{Sany.}}{\text{Plague}}$, dated Simla, the 20th October 1899.

From—A. H. L. FRASER, ESQ., C.S.I., Offg. Secy. to the Govt. of India, Home Dept.,
To—The Agent to the Governor-General in Central India.

I AM directed to forward, for your information, a copy of a Notification No. 2936 $\frac{\text{Sany.}}{\text{Plague}}$, of this date, issued by the Government of India under the Epidemic Diseases Act, 1897, with regard to the pilgrimage to the Hedjaz during the ensuing season.

2. The Government of India desire to repeat the instructions given last year that all possible means should be taken to make the purport of the orders immediately and widely known, and to explain the reasons on which they are based. Every endeavour should also be made through Magistrates of districts, the religious heads of the Muhammadans, pilgrim-brokers, and in any other way that you think best, to dissuade intending pilgrims from going to the Hedjaz next season.

Letter No. 4354, dated the 10th November 1898.

3. I am also to forward for your information a copy of a letter No. 2942 $\frac{\text{Sany.}}{\text{Plague}}$ of this date, to the Government of the North-Western Provinces and Oudh, explaining the arrangements to be made for the despatch of pilgrims to the Hedjaz during the coming season. You will observe that the arrangements are similar to those made last year, and that Chittagong has been declared the sole port for the departure of pilgrims. In accordance with the instructions issued last year, pilgrims from Central India will be kept under observation in the North-Western Provinces provincial camp, and will be despatched to Chittagong along with the North-Western Provinces pilgrims. I am to request that you will settle, in communication with the Government of the North-Western Provinces and Oudh, the arrangements for their despatch to the North-Western Provinces observation camp.

No. 2950 $\frac{\text{Sany.}}{\text{Plague}}$, dated Simla, the 20th October 1899.

From—A. H. L. FRASER, ESQ., C.S.I., Offg. Secy. to the Govt. of India, Home Dept.,
To—The Resident at Hyderabad.

IN continuation of my letter No. 2571, dated the 5th September 1899, I am directed to forward, for your information and for communication to His Highness's Government, a

copy of a Notification No. $\frac{}{Plague}$, of this date, issued by the Government of India under the Epidemic Diseases Act, 1897, with regard to the pilgrimage to the Hedjaz during next season.

2. It will be observed that the pilgrimage has been prohibited in the case of all residents of the Hyderabad State, and I am to request that all possible means may be taken to make this fact immediately and widely known, and that the reasons for this prohibition may be carefully explained. The Government of India are sure that you will use all means in your power to make the decision as little unpalatable as possible to the Muhammadan community.

3. The Government of India do not think it necessary to prohibit the pilgrimage in the case of residents in the Hyderabad Assigned Districts, but they desire that every endeavour should be made, through Magistrates of districts, the religious heads of the Muhammadans, pilgrim-brokers, and in any other way that you think best, to dissuade intending pilgrims from going to the Hedjaz next season.

4. Embarkation of pilgrims during the ensuing season will, as in the last season, be permitted only at the Port of Chittagong in the Lower Provinces of Bengal, and the Government of Bengal will open a central camp in the neighbourhood of Chittagong to which intending pilgrims from other provinces must be sent under arrangements similar to those made last year. All persons in the Hyderabad Assigned Districts who persist in the desire to go on pilgrimage must be collected at an observation camp within the Province, where they must be detained under the careful superintendence of a Commissioned Medical Officer for at least ten days, and where their wearing apparel, bedding, etc., must be disinfected. Intending pilgrims, who have completed the ten days' observation period and are certified to be free from infection, should be sent to the camp near Chittagong as soon as information is received by you from the Government of Bengal that the authorities are ready to take them over. This will depend on the number of ships available and on the date on which they sail. The Government of Bengal has been asked to obtain as full information as possible on this subject. Pilgrims must be despatched from the provincial camp by special train and under the charge of a responsible officer. In cases in which there are only a few pilgrims present when notification is received from the Government of Bengal that a ship is ready for them, small batches may be sent in a special carriage attached to an ordinary train, provided that the carriage is reserved exclusively for their use, that they are placed in charge of a responsible officer, and that they are not allowed to mix with other persons. Passage tickets to the Hedjaz may be sold only at the observation camps, and I am to request that the necessary steps may be taken to enforce this order and, in communication with the Government of Bengal, to make it known to shipping agents and pilgrim-brokers.

5. I am to request that a place for the observation camp may be selected at once, that arrangements may be made as quickly as possible to give effect to the instructions contained in this letter, and that the arrangements may be communicated to the Government of India and to the Government of Bengal. Arrangements should be made in communication with the Government of Bengal for supplying a periodical statement of the number of persons in the provincial camp destined for Chittagong and the period of observation they have completed, and for despatching pilgrims from the provincial camp to the camp near Chittagong.

No. 2951$\frac{Sany.}{Plague}$, dated Simla, the 20th October 1899.

From—A. H. L. FRASER, ESQ., C.S.I., Offg. Secy. to the Govt. of India, Home Dept.,

To—The Secretary to the Govt. of Madras, Local and Municipal Department.

IN continuation of the telegram from this office, No. 2722, dated the 20th September 1899, I am directed to forward, for the information of the Government of Madras, a copy of a Notification, No. 2936$\frac{Sany.}{Plague}$ of this date, issued by the Government of India under the Epidemic Diseases Act, 1897, with regard to the pilgrimage to the Hedjaz during the next season.

2. The Government of India have thought it necessary to prohibit the pilgrimage from the whole of the Madras Presidency notwithstanding that at the present time the plague is endemic only in the Salem district. It has shown some tendency to increase, and imported cases have recently been reported from three other districts. Judging, therefore, from the experience of last year, it is likely that several districts will be infected by the time the pilgrimage begins. An even more important consideration is the highly-infected condition of the south of the Bombay Presidency and the Mysore and Hyderabad States which renders it necessary to regard the whole of Southern India as an infected area from which the pilgrimage ought not, in deference to the feelings and wishes of Foreign Governments, to be permitted.

3. I am to request that all possible means may be taken to make it immediately and widely known that the pilgrimage has been prohibited in the case of all residents of the Madras Presidency, and that the reasons for this prohibition may be carefully explained. The Government of India are sure that the Government of Madras will use all means in their power to make the decision as little unpalatable as possible to the Muhammadan community.

No. 2952 $\frac{\text{Sany.}}{\text{Plague}}$, dated Simla, the 20th October 1899.

From—A. H. L. FRASER, ESQ., C.S.I., Offg. Secy. to the Govt. of India, Home Dept.,

To—The Resident in Mysore and Chief Commissioner of Coorg.

I AM directed to forward, for your information and for communication to Her Highness's Government, a copy of a Notification, No. 2936 $\frac{\text{Sany.}}{\text{Plague}}$ of this date, issued by the Government of India under the Epidemic Diseases Act, 1897, with regard to the pilgrimage to the Hedjaz during the next season.

2. I am to request that all possible means may be taken to make it immediately and widely known that the pilgrimage has been prohibited in the case of all residents of the Mysore State and Coorg, and that the reasons for this prohibition may be carefully explained. The Government of India are sure that you will use all means in your power to make the decision as little unpalatable as possible to the Muhammadan community.

No. 2953 $\frac{\text{Sany.}}{\text{Plague}}$, dated Simla, the 20th October 1899.

From—A. H. L. FRASER, ESQ., C.S.I., Offg. Secy. to the Govt. of India, Home Dept.,

To—The Resident at Baroda.

I AM directed to forward a copy of a Notification, No. 2936 $\frac{\text{Sany.}}{\text{Plague}}$ of this date, issued by the Government of India under the Epidemic Diseases Act, 1897, with regard to the pilgrimage to the Hedjaz during the next season. I am to request that His Highness's Government may be informed of the decision that the pilgrimage from the Bombay Presidency is prohibited during the next season, and that the reasons for this decision may be carefully explained. All possible means should be taken to make the decision and its reasons widely known, and to make it as little unpalatable as possible to the Muhammadan community.

No. 454T.—P., dated Darjeeling, the 2nd November 1899.

From—E. N. BAKER, ESQ., Offg. Secy. to the Govt. of Bengal, Municipal Dept.,

To—R. T. GREER, ESQ., I.C.S., Officiating Inspector-General of Police, L. P.

I AM directed to forward, for your information, the accompanying copy of a letter from the Government of India, No. 2940 $\frac{\text{Sany.}}{\text{Plague}}$, dated the 20th October 1899, and of its enclosures, containing instructions in regard to the pilgrimage to the Hedjaz during the current season.

2. Orders will, as last year, be issued on paragraph 2 of the Government of India's letter from the Political Department of this office, and it is hoped that this will have the desired effect of deterring a large number of Muhammadans from making the pilgrimage.

3. The Lieutenant-Governor has decided to place you in charge of the arrangements for despatching pilgrims from Chittagong in the manner described in paragraph 3 of the letter of the Government of India. You will observe that pilgrimage is permitted except in the case of residents of the Bombay Presidency (including Sind), the Madras Presidency, the Mysore and Hyderabad States, Coorg, Calcutta and the Saran district of Bihar, the Nagpur Division of the Central Provinces, and the Hoshiarpur district of the Punjab; and that this year also Chittagong is the sole port from which embarkation is allowed. The central camp should be established at the same place as last year. I am to request that after making such enquiries as may be necessary, you will submit, for the information of the Lieutenant-Governor and for communication to the Government of India, a report stating in as full detail as possible the arrangements you have been able to make for the retention and reception of pilgrims from Bengal and other provinces at Chittagong, and for their despatch from that port. I am to request also that you will report as early as possible what arrangements you have been able to make about ships, and the probable dates of their sailing.

4. The arrangements at the Chittagong camp should be generally similar to those made last year, subject to any modification which may be considered desirable. The camp should be so arranged that the appearance of infectious disease in any one part may not render it necessary to detain the whole body of pilgrims. Special attention must be paid to the water-supply, the latrines, and the method of removing and disposing of the night-soil. You are authorized to supply the pilgrims with food during their detention in camp. The housing of female pilgrims, pilgrims of the upper classes, and the pilgrim-brokers will

also engage your attention. It is believed that the camp constructed last year will be found suitable for the pilgrims during the current season. If not, arrangements should immediately be made to make the necessary additions and alterations to it for the reception of pilgrims, and the Executive Engineer, Dacca Division, has been instructed, through the Public Works Department, to help you in this matter. On receipt of an estimate of the cost of the camp, necessary funds will be placed to the credit of the Executive Engineer at the Chittagong Treasury. As soon as the camp is ready for the reception of pilgrims, the fact must be notified as widely as possible through leading Muhammadans, brokers and village chaukidars. The Local Governments of other provinces from which pilgrims may be likely to come will be advised that communications regarding their despatch should be addressed to you direct, and you should make all necessary arrangements to have the batches of pilgrims forwarded to Chittagong at appropriate times in the manner indicated by the Government of India. All pilgrims who come from other provinces should be sent *viâ* Naihati without passing through Calcutta. The camp should have accommodation for 800 inmates, and a junior police officer should be placed in charge of it. You will be authorized to draw the necessary funds from the Chittagong Treasury.

5. Under the Home Department notification cited above, tickets for the Hedjaz may only be sold at the places appointed for the detention of intending pilgrims under observation, *i.e.*, at the Chittagong camp for Bengal, and at the observation stations in other provinces which may hereafter be chosen. This prohibition should be effectively enforced and be made widely known. No ticket should be accepted as valid which does not bear a certificate signed by the officer in charge of a camp (1) that the ticket was sold in the camp concerned; (2) that the holder was detained under observation up to the time of his departure. No person desiring to go on the pilgrimage should be admitted into the Chittagong camp if he has not money enough to purchase a ticket to Jeddah.

6. It will be the duty of the Port Officer of Chittagong to see that the provisions of the Pilgrim Ships Act, 1895, and the rules framed under it, are duly complied with. He will be instructed to see that the pilgrims do not enter the town or have any communication with the residents of Chittagong. If any pilgrim ship, owing to its heavy draught, is unable to cross the bar of the Chittagong Harbour, the Port Officer will be required to take pilgrims out to such vessel when lying outside the bar.

7. You should also ascertain what pilgrim ships are likely to start from Chittagong, and you should make the necessary arrangements about provisions for the voyage.

NOTIFICATION—No. 496 $\frac{T.}{P.}$

The 4th November 1899.—The following Notification issued by the Government of Madras, prohibiting pilgrimage from plague-infected areas to the ensuing Karthigai festival in the South Arcot district in the Madras Presidency, is republished for general information.

E. N. BAKER,
Offg. Secy. to the Govt. of Bengal.

No. 838, dated Ootacamund, the 10th October 1899.

NOTIFICATION—By the Govt. of Madras, Local and Municipal Dept.

WHEREAS His Excellency the Governor of Fort St. George in Council is satisfied that there is danger of an outbreak of plague at Tiruvannamalai in the district of South Arcot, if persons from the district of Salem, the States of Mysore and Hyderabad, the Bombay Presidency, the City of Calcutta, the district of Howrah in Bengal, the City of Nagpur and other plague-infected parts are permitted to visit that place on the occasion of the ensuing Karthigai festival and cattle fair:

In exercise of the powers delegated to him under the Epidemic Diseases Act, 1897, His Excellency the Governor in Council directs that the said cattle fair shall not be allowed to be held this year, and prohibits the attendance at the festival from the 1st to the 20th November 1899 (both days inclusive) of persons from the places mentioned above. His Excellency the Governor in Council also directs that between the said dates no tickets to travel by railway shall be issued within the Salem district to the Railway stations of Polur, Agaram Sibbandi, Tiruvannamalai, Tandarai and Tirukkoyilur on the South Indian Railway to any person intending or believed to be intending to attend the festival or fair. All persons proceeding to the festival or fair in contravention of this notification will be turned back.

NOTIFICATION—No. 2418 $\frac{\text{Medl.}}{\text{P.}}$

The 8th November 1899.—The following notification issued by the Administration of the Central Provinces is republished for general information.

E. N. BAKER,
Offg. Secy. to the Govt. of Bengal.

Nagpur, the 16th October 1899.

No. 8197.—In consequence of the infection with bubonic plague of the town of Nagpur, and in exercise of the power conferred on the Chief Commissioner by Notification No. 302, dated the 4th February 1897, of the Governor-General in Council, the Chief Commissioner is pleased to order that the annual fair at Ambala, in the Ramtek Tahsil of the Nagpur district, shall not be held this year.

M. W. FOX-STRANGWAYS,
Chief Secretary to the Chief Commissioner,
Central Provinces.

D. JOSCELYNE,
Secy. to the Govt. of Bengal.

LOCAL COMMUNICATIONS.

The 7th November 1899.

No. 237.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for a diversion of the road from Perojpur to Umidpur, in the village of Masimpur, pargana Silimabad, zilla Backergunge, it is hereby declared that for the above purpose a piece of land measuring, more or less, 8 bighas 6 cottahs 10 chitaks of standard measurement, 857 feet in length and 140 feet in breadth, in the direction from south to north, is required within the aforesaid village of Masimpur.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Collector of Backergunge.

D. JOSCELYNE,
Secy. to the Govt. of Bengal.

RAILWAY DEPARTMENT.

The 7th November 1899.

No. 198.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the construction of gangmen's hut in the village of Kanana, pargana Majhowa, tappa Bahas, zilla Champaran, it is hereby declared that for the above purpose a piece of land measuring, more or less, 0·22 acre, bounded on the north by the fields of Mussammat Jadahanse Kuar, on the south by the fields of Mussammat Jadahanse Kuar, on the east by the fields of Mussammat Jadahanse Kuar, and on the west by the Segowli-Roxoul Railway road, is required within the aforesaid village of Kanana.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Collector of Champaran.

No. 199.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for a siding for R. D. Mehta at mile 177¾th on the Damuda Branch, East Indian Railway, in the village of Brahmonbararee, pargana Jheria, zilla Manbhum, it is hereby declared that for the above purpose a piece of land measuring, more or less, 15 cottahs of standard measurement (corresponding to 39·67 poles), bounded on the east by railway land, and on the north, south and west by land belonging to Naran Chandra Chuckerbutty and Ganga Bishnu Chuckerbutty, of Brahmonbararee, is required within the aforesaid village of Brahmonbararee.

Mines of coal, iron-stone, slate or other minerals lying under the land, except only such parts of the mines and minerals as it may be necessary to dig or carry away, or use in the construction of the work for the purpose of which the land is being acquired, are not needed.

This declaration is made, under the provisions of section 6, Act I of 1894, and section 3, clause (1), Act XVIII of 1885, to all whom it may concern.

A plan of the land may be inspected in the office of District Engineer, East Indian Railway, Asansol.

No. 200.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for purchase of service land for Government chaukidars whose lands have been acquired for the Moghulserai-Gaya Railway, in the village of Ghataon, T. No. 2505, pargana Chainpur, zilla Shahabad, it is hereby declared that for the above purpose a piece of land measuring, more less, 19 cottahs 6 chitaks of standard measurement, bounded on the east by the boundary of the village Amirtha, on the south by the main line of the Moghulserai-Gaya Railway, and on the west by the field of Biseswar Kumhar, and belonging to the holding of Jaipal Chamar, is required within the aforesaid village of Ghataon.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Land Acquisition Deputy Collector, Moghulserai-Gaya Railway, at Arrah.

No. 201.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for gang hut, in the village of Bunni, zilla Cuttack, is is hereby declared that for the above purpose a piece of land measuring, more or less, 36 poles, being equivalent to 13 cottahs and 12 chitaks of standard measurement, is required within the aforesaid village.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be seen in the office of the District Engineer, Jenapur district, Bengal-Nagpur Railway, at Jenapur.

D. JOSCELYNE,
Secy. to the Govt. of Bengal.

MARINE DEPARTMENT.

The 2nd November 1899.

No. 194Marine.—Under the provisions of section 16 of the Calcutta Port Act, III (B.C.) of 1890, Major W. V. Constable, R.E., Manager, Eastern Bengal State Railway, is appointed to be a Commissioner of the Port of Calcutta, with effect from the 19th October 1899, *vice* Mr. S. Finney, resigned.

R. B. BUCKLEY,
Secy. to the Govt. of Bengal.

The 4th November 1899.

No. 195Marine.—In exercise of the powers conferred upon him by section 18 of the Calcutta Port Act, 1890, and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor is pleased, in supersession of the orders contained in the notification of this Department, No. 79Marine, dated the 18th April 1899, to authorize the Commissioners of the Port of Calcutta to raise a debenture loan of Rs 40,50,000, bearing interest at a rate not exceeding 4½ per cent. per annum, and repayable in thirty years, for the purpose of carrying out certain works of improvement in the Port of Calcutta.

Chittagong Collectorate, the 19th September 1899.

J. H. Lea, Offg. Collector.

Notice of Sale for Arrears of Revenue.

NOTICE is hereby given, under section 6, Acts XI of 1859, VII (B.C.) of 1868, and II (B.C.) of 1871, that the undermentioned tenures within the Satkania Khas Mahal, in the district of Chittagong, will be put up to public and unreserved sale at the Collector's office of that district on the 9th day of November 1899 for arrears of rent and cesses remaining unpaid on the 25th May 1899 :—

Number of tenure.	Name of tenure with its situation.	Name of proprietor.	ANNUAL JAMA.		AMOUNT OF ARREAR FOR WHICH THE TENURE IS TO BE SOLD.

Chittagong Collectorate, the 28th September 1899. J. H. LEA, Offg. Collector.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Burdwan, will be put up to sale at the Burdwan Collectorate on the 9th November 1899, corresponding with 24th Kartik 1306 B.S. :—

Conditions of Sale.

1st.—The estates to be sold to the highest bidders above the upset price which will be fixed by the Collector at the time of sale. The purchasers of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them, with effect from the 1st April 1900, as revenue-free or subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale will be cancelled (the sum deposited being forfeited to Government), and the estate will be again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Burdwan Collectorate, the 30th September 1899. R. FOLEY, Collector.

Notification B.

NOTICE is hereby given, under sections 5 and 13, Act XI of 1859, that unless the arrears mentioned below are paid on or before the next latest date of payment (viz., 8th November 1899), the undermentioned estates or share of estates in the district of Puri will be put up for sale at the office of the Collector of that district on the 26th February 1900 at 12 noon for the said arrears.

When in columns 5, 7 and 9 of the statement it is stated that only a share is to be sold, it is to be understood that a separate account is kept for that share, and that the other share or shares in the estate are excluded from sale.

Application for payment of the deposits should be made to the Pay Examiner, Bengal Command, Calcutta.

H. F. CADELL, *Major,*

Pay Examiner, Bengal Command, and

ex-officio *Secretary, Military Orphan School.*

PAY EXAMINER'S OFFICE, BENGAL COMMAND; *Calcutta, the 1st November 1899.*

Pure Sulphate of Quinine.

MANUFACTURED AT THE BENGAL GOVERNMENT CINCHONA PLANTATION.

FROM 1st April 1898 the price of this quinine will be as follows:—

1 Pound tin Rs. 17, or, post free, Rs. 17-12.
½ „ „ „ 8-8 „ „ „ „ 9.
¼ „ „ „ 4-4 „ „ „ „ 4-12.

Analysis shows this quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloids, cinchonine and cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Sibpur, near Calcutta.

বঙ্গদেশের গবর্ণমেণ্টের সিন্‌কোনা আবাদে প্রস্তুত বিশুদ্ধ সল্‌ফেট অফ কুইনাইন।

১৮৯৮ সালের ১লা এপ্রিল হইতে এই কুইনাইনের নিম্নলিখিত মূল্য হইবে, যথা—

১ এক পৌণ্ড টিন ১৭, বা ডাক মাশুল সমেত ১৭৸০
॥ আধ „ „ ৮॥০ „ „ „ „ ৯
। শিকি „ „ ৪।০ „ „ „ „ ৪৸০

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধরূপে প্রস্তুত করা হইয়াছে। এবং ইহা যে সিন্‌কোনাইন ও সিন্‌কোনীডাইন নামক অপকৃষ্ট ক্ষারের সহিত ইচ্ছাপূর্ব্বক মিশান হয় নাই তাহার গ্যারাণ্টী দেওয়া যাইতেছে। ইহা নগদ মূল্যে কেবল গবর্ণমেণ্টের কর্ম্মচারিগণের নিকট বিক্রয় করা যাইবে এবং কলিকাতার নিকটস্থ শিবপুরের কোম্পানির বাগানের সুপরিণ্টেণ্ডেণ্টের নিকট পাওয়া যাইতে পারিবে।

Cinchona Febrifuge.

Cinchona Febrifuge can be purchased by all Government officers and by any one taking *six pounds* at a time from the Superintendent, Botanic Garden, Calcutta, at the following rates—per four-ounce tin, *Rs. 2, ans. 8*; per eight-ounce tin, *Rs. 5*; per pound tin, *Rs. 10*. The general public can be supplied by the Superintendent, Botanic Garden, *for Cash only* at the undernoted rates—per four-ounce tin; *Rs. 3*; per eight-ounce tin. *Rs. 6*; per pound in, *Rs. 12*. This medicine is also sold by the principal European and native druggists in Calcutta. Postage four annas per *4oz.* tin, eight annas per *8oz.* tin, and twelve annas per pound tin, in addition to the foregoing rates.

THE following Weather Reports of the Bengal Meteorological Department, issued by orders of the Government of Bengal, can be supplied to the public at the prices annexed :—

1st.—Bay of Bengal and Bengal Daily Weather Report, giving meteorological observations taken at 65 stations in Bengal and on or near the coast of the Bay, with a chart and summary. This is published in connection with the Bay of Bengal Storm Signal Service. The report giving 8 A.M. observations of the day is distributed by peon in Calcutta soon after midday. Price to subscribers in Calcutta Rs. 3 per mensem, payable in advance for six months.

This report will be issued every year from 1st May to 31st October. From 1st November again the Bay of Bengal Report containing observations taken at 28 stations will be issued up to 30th April.

2nd.—A Monthly Statement of Meteorological Observations taken at 49 observing stations, and of rainfall recorded at 327 subdivisional and other stations, together with summaries of the more important features of the meteorology of the past month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Monthly Summary Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal, 5, Russell Street, Calcutta, for the Bay of Bengal and Bengal Daily Weather Report, and to the Accountant and Treasurer, Bengal Secretariat, for the Monthly Report.

C. LITTLE,

Meteorological Reporter to the Govt. of Bengal.

Notice.

NOTICE is hereby given that the terms for the purchase of publications from the Bengal Secretariat Book Depôt except *for* Government offices or offices under the control of Government Officers are strictly cash, and on no other terms will any publication be supplied, or advertisement, notice, &c., inserted in either of the Gazettes.

In the case of insolvency notices, cash must be sent with such notices when forwarded by Mofussil courts or offices and for those forwarded by the Official Assignee cash must be paid on presentation of memorandum of cost by the Accountant and Treasurer Bengal Secretariat.

Remittances in postage stamps should be accompanied by an addition of one anna in the rupee on account of discount.

☞ Applications for Acts of the Bengal Legislative Council required on the public service should be addressed to the REGISTRAR, Office of the Legislative Department, Government of Bengal.

Copies are available for purchase at the Bengal Secretariat Book Depôt.

Notice.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series, *including postage* (Inland rate) Rs. 22-8
Ditto ditto (Overland rate) Rs. 28.

	Without postage. Rs.	A.	P.	With postage. Rs.	A.	P.
For the Calcutta Series	10	0	0	12	8	0
" each of the Madras, Bombay, and Allahabad Series	6	0	0	7	0	0
" a part of the Calcutta Series purchased separately (*inclusive of postage in India*)	......			2	0	0
" a part of each of the Madras, Bombay, and Allahabad Series purchased separately (*inclusive of postage in India*)	......			1	0	0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies wil be supplied to subscribers when required in place of copies lost in transit :—

	For town. Rs.	A.	P.	For mufassal. Rs.	A.	P.
For the Calcutta Series, per copy ...	0	8	9	0	10	8
" each of the Madras, Bombay, and Allahbad Series, per copy ...	0	5	8	0	6	9
" the Calcutta Series. For the year	7	2	6	8	6	3
" each of the Madras, Bombay and Allahabad Series. For the year	4	4	6	4	11	3

Persons desiring to subscribe for or purchase the Report should apply to—

Superintendent, Government Press, Madras.
The Superintendent, Government Central Press, Bombay.
" Curator of Government Books, North-Western Provinces and Oudh.
Officer in charge, Bengal Secretariat Book Depôt.

Orders and subscriptions for 1899 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.

ADVERTISEMENTS will be received for publication on the papers of the Indian Law Reports, Calcutta Series, at the following rates, payable in advance—

	One page.	Half page.	Quarter page.
For one issue ...	Rs. 20	Rs. 14	Rs. 9
" three issues ...	" 55	" 36	" 24
" six " ...	" 100	" 68	" 45
" nine " ...	" 145	" 96	" 64
" twelve " ...	" 180	" 120	" 80

SEVERAL volumes of the BENGAL LAW REPORTS, from August 1868 to December 1875, and FULL BENCH RULINGS, Parts I. and II, are available at the following rates:—

	Without postage. Rs.	A.	P.	With postage. Rs.	A.	P.

PART III.

Acts of the Bengal Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

THE following Act, passed by the Lieutenant-Governor of Bengal in Council, received the assent of His Honour on the 21st September, 1899; and, having been assented to by His Excellency the Viceroy and Governor General on the 4th October, 1899, is hereby published for general information:—

BENGAL ACT No. II OF 1899.

An Act to repeal the Civil Courts Amins Act, 1856, in Bengal.

WHEREAS it is expedient to repeal the Civil Courts Amins Act, 1856, so far as it applies to Bengal; it is hereby enacted as follows:— XII of 1856.

Repeal of Act XII of 1856.

1. The Civil Courts Amins Act, 1856, is hereby repealed throughout Bengal:

Provided as follows:—

(a) this repeal shall not affect any appointment already made under the said Act, and

(b) the persons holding such appointments shall perform such duties as may be required of them by the District Judge.

CALCUTTA;
The 20th October, 1899.

F. G. WIGLEY,
Assistant Secretary to the Govt. of Bengal,
Legislative Department.

NOTICE TO MARINERS—No. 212.

[First Publication.]

AUSTRALIA, SOUTH COAST—PORT ADELAIDE RIVER.

Intended alteration in the position of the lighthouse.

THE British Admiralty has given notice (No. 604 of 1899) that it is intended to remove Port Adelaide river lighthouse from its present position at the entrance to the river to a site in the vicinity of the bell buoy on the outer end of Wonga shoal.

Approximate present position, lat. 34° 48′ S., long. 138° 28′ E.

Further Notice will be given when the precise date of removal and exact position is known.

This Notice affects the following Admiralty Chart:—Port Adelaide, Nos. 1752 and 1750: Also, List of Lights, part VI, 1899, No. 1070; Australia Directory, vol. I, 1897, page 331.

[Third Publication.]

PACIFIC OCEAN—HAVANA—PUERTO RICO—PHILIPPINE ISLANDS.

Standard Time Signal at Havana.

THE British Admiralty has given notice (No. 590 of 1899) that the standard time of the 75th meridian, West of Greenwich, or 5^h 0^m 0^s slow of Greenwich mean time, has now been adopted for Cuba.

Consequent on this, at Havana the time ball is now dropped at 5^h 0^m 0^s G.M.T., or noon standard time, which is equal to 11^h 30^m $36{\cdot}40^s$ local mean time.

Approximate position of Time signal, lat. 23° 8′ 30″ N., long. 82° 20′ 56″ W.

(2) San Juan, Puerto Rico.

The standard time adopted for Puerto Rico is that of the 60th meridian, West of Greenwich, or 4^h 0^m 0^s G.M.T.

(3) Philippine islands.

The standard time adopted for the Philippine islands is that of the 120th meridian, East of Greenwich, or 16^h 0^m 0^s G.M.T.

Consequent on this alteration the time ball at Manila is now dropped at noon standard mean time, which is equal to 16^h 0^m 0^s G.M.T. or 0^h 3^m 52^s local mean time.

Approximate position of Time signal, lat. 14° 36′ 0″ N., long. 120° 58′ 0″ E.

This Notice affects the following Admiralty Charts:—Havana harbour, No. 414; Manila bay, No. 976: Also, List of Time Signals, 1898, page 54; West India Pilot, vol. II, 1887, page 201; China Sea Directory, vol. II, 1899, page 313; Eastern Archipelago, vol. I, 1890, page 59.

[Third Publication.]

AUSTRALIA, SOUTH—Tasmania.

Macquarie harbour entrance—Intended light on Cape Sorell.

With reference to Notice to Mariners No. 108, dated the 22nd May 1899, issued by this Office, the British Admiralty has given further notice (No. 591 of 1899) that on and after the 2nd October 1899, a light will be exhibited from a lighthouse on cape Sorell, at the entrance to Macquarie harbour.

Cape Sorell light is a *group flashing white and red* dioptric light of the 2nd order, with a period of *forty-five seconds*, thus :—*white flash* of *three seconds* duration; eclipse, *nineteen and a half seconds; red flash* of *three seconds* duration; eclipse, *nineteen and a half seconds*, elevated 186 feet above the sea, and visible in clear weather, the white flash from a distance of 20 miles, the red flash 12 miles.

The lighthouse, 100 feet in height, is a cylindrical brick tower, painted white.

Approximate position, lat. 42° 11 0″ S., long. 145° 10′ 30″ E.

This Notice affects the following Admiralty Charts :—Tasmania, No. 1079 : Macquarie harbour, No. 1629 : Also, List of Lights, part VI, 1899, page 222 ; Australia Directory, vol. I, 1897, page 643.

RESOLUTION ON THE REPORT ON EXCISE ADMINISTRATION IN THE LOWER PROVINCES FOR 1898-99.

FINANCIAL DEPARTMENT—SEPARATE REVENUE.

Dated Darjeeling, the 2nd November 1899.

RESOLUTION—No. 344T.F.

READ—

The Report of the Commissioner of Excise for the year 1898-99 with the observations of the Board of Revenue.

MR. K. G. GUPTA held the office of Excise Commissioner throughout the year. He had immediately under him three Deputy Collectors, one as his Personal Assistant, and two as Travelling Inspectors of Excise. In 18 districts, 14 of which have central distilleries, the excise administration was in charge of Special Deputy Collectors, while in 26 districts ordinary Deputy Collectors were in charge of excise in addition to their regular duties. Sub-Deputy Collectors were in charge of the nine most important distilleries, the remainder being in charge of non-gazetted officers. In the executive branch of the subordinate establishment, and among the clerks in the office branch, the numbers remained the same as in the previous year, viz., 201 and 141, respectively; while four of the old excise darogas were replaced by men of a superior class.

2. *Inspections.*—The tours of the Excise Commissioner occupied 121 days, and the Inspectors of Excise were on tour for 238 and 252 days, respectively. Every district and distillery and every depôt open throughout the year was visited by the Excise Commissioner himself or by one of his Inspectors. Most of the ganja warehouses, and a large number of outstills and excise shops, were also inspected, while all but 16 subdivisions in the province were visited by the Inspectors. With regard to inspections by Collectors, it is reported that the Sadar Excise offices in Muzaffarpur and Darbhanga were not inspected at all, and that the distillery in Dumka, which had not been inspected once in the previous year, was again not inspected during the year under review as often as the rules require. In 14 out of the 18 districts, in which Special Deputy Collectors were employed, the prescribed minimum of touring (150 days) was attained. In Darbhanga and Ranchi, where the deficiency was most conspicuous, the Board state the explanations received are not satisfactory. For Deputy Collectors of the ordinary staff, who are employed on excise work, the minimum period of touring is fixed at 90 days; in 17 out of 26 districts, the prescribed amount of touring was done, the deficiency in the remaining nine districts varying from 10 days in Bankura to 77 in Singhbhum. The reasons generally given for insufficient tours are the paucity of officers at head-quarters, the exigencies of judicial or other work, and the ill-health of the officers concerned. In two districts, Manbhum and Birbhum, where the touring was insufficient in 1897-98, as well as in 1898-99, the Deputy Collectors who were in charge for the greater part of both years were Mr. W. H. Mackenzie and Babu Bisvesvar Bhattacharji. The explanations given of the short tours performed by these officers are insufficient. The Board will be requested to insist on the prescribed minimum being fully worked up to in future.

3. *Revenue and charges.*—The excise revenue was, as in previous years, realised from fees on licenses for the wholesale and retail sale of distilled and fermented liquors and drugs, distillery fees, and duty on the actual quantity of country rum, country spirit prepared in central distilleries, opium, and hemp drugs that passed into consumption. Duty on imported liquors is an item of the Imperial Customs revenue. The following statement shows the gross excise revenue, the charges, net revenue, and percentage of charges on gross revenue for the last five years :—

Period.	Revenue.	Charges.	Net revenue.	Percentage of charges.
1	2	3	4	5
	Rs.	Rs.	Rs.	
1894-95 ...	1,25,67,855	6,37,858	1,19,29,997	5·07
1895-96 ...	1,33,77,705	6,74,582	1,27,03,123	5·04
1896-97 ...	1,34,10,577	6,83,351	1,27,27,226	5·09
1897-98 ...	1,27,48,059*	6,77,203*	1,20,70,856*	5·3
1898-99 ...	1,34,27,228	6,74,503	1,27,52,725	5·02
Difference of the past two years.	+6,79,169	—2,700	+6,81,869	—·28

* Revised figures.

In order, however, to obtain the true figures for the net revenue derived from excise, there should be added to the charges here given Rs. 12,308 on account of refunds, and Rs. 5,565 for the excess of rewards distributed over fines realised, the latter of which are credited not to excise, but to Law and Justice. This raises the expenditure to Rs. 6,92,376 and reduces the net revenue to Rs. 1,27,34,852 against Rs. 1,20,46,526 in 1897-98. Thus in place of the large reduction in the receipts which was noted last year, a considerable advance, not only on the revenue of the previous year but on the receipts of 1896-97, has now to be recorded, adding another to the many proofs of the prompt return of the province to prosperity since the late famine. Calculated on the population ascertained at the Census of 1891 (after allowing for natural increase at the rate of seven per thousand per annum), the incidence of excise revenue per head of population during the year under

review amounted to two annas and ten pies, against two annas and eight pies in 1897-98. The net decrease of Rs. 2,700 in charges is accounted for mainly by the discontinuance of the grain compensation allowance given to menials in the previous year.

4. *Revenue by Divisions.*—Distributed according to Divisions, the gross receipts for the last five years are shown thus :—

Divisions.	1894-95.	1895-96.	1896-97.	1897-98.	1898-99.	1898-99 compared with 1897-98. Increase.	Decrease.
1	2	3	4	5	6	7	8
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Burdwan	12,32,386	13,30,348	13,56,767	13,52,065	14,84,754	1,32,689	...
Presidency	36,15,302	38,42,486	38,78,369	37,76,707	39,02,545	1,25,838	...
Rajshahi	10,00,540	10,73,235	11,12,258	10,44,479	10,47,797	3,318	...
Dacca	8,21,166	8,97,361	9,05,270	9,03,785	9,28,135	24,350	...
Chittagong	2,88,837	3,41,031	2,74,725	2,73,400	2,84,039	10,549	.
Patna	26,36,784	27,38,200	26,31,836	24,30,722*	26,08,163	1,77,441	...
Bhagalpur	14,02,917	14,70,888	14,89,130	14,86,215	15,56,800	70,585	..
Orissa	5,83,294	6,27,629	6,53,071	6,96,146	7,50,415	54,269	..
Chota Nagpur	9,86,029	10,55,618	11,06,151	7,84,450	8,64,580	80,130	...
Total ...	1,25,67,855	1,33,77,705	1,34,10,577	1,27,48,059	1,34,27,228	6,79,169	...

* Revised figures.

It will be seen that the increase was shared by all the Divisions. The largest receipts were obtained, as usual, in the Presidency Division, including Calcutta, and the smallest in the Chittagong Division. The Presidency and Patna Divisions between them contributed about half the excise revenue of the Province.

5. *Revenue and Consumption.*—The relation of the growth of consumption to the growth of revenue is illustrated by the following statistics of the four chief articles of Excise :—

	Revenue. 1897-98.	Revenue. 1898-99.	Percentage of difference.	Consumption. 1897-98.	Consumption. 1898-99.	Percentage of difference.
1	2	3	4	5	6	7
	Rs.	Rs.		L. P. gallons.	L. P. gallons.	
Country spirit. Distillery	27,40,063	31,05,315	+13·3	4,42,104	5,30,083	+19·9
Country spirit. Outstill	28,40,949	29,92,478	+5·3	......	......	.. ...
Country rum ...	4,14,665	3,15,613	—23·9	77,979	50,053	—35·8
				Mds.	Mds.	
Opium ...	23,18,598	24,01,026	+3·6	2,086	2,164	+3·7
Ganj ...	26,57,452	27,20,140	+2·4	4,651	4,797	+3·1

In last year's Resolution, the fact that the consumption of excisable articles diminished in a larger proportion than the revenue derived therefrom was noted as a satisfactory proof that the accepted principle of raising a maximum of revenue from a minimum of consumption had been carefully kept in view. The above figures, however, show that it is not possible to secure this condition at all seasons or under all circumstances. In the year under review the increase in consumption was proportionately larger than that in the revenue, and the reason is thus explained by the Board :—

"The rates of quantitative duty levied on these articles remained unchanged, but the amounts which the vendors engage to pay at the commencement of each year for the privilege

of sale did not increase in proportion to the quantities which were ultimately sold. The consumption of each of these articles had received a check during the previous year, and it was not to be expected that the vendors, with their experience of that year, would offer very high fees for the shops during the year under report. The license fees operate as a check on sudden fluctuations in revenue, and the loss sustained by the vendors by an unforeseen decrease in the consumption of one year is recouped by the lower fees which they pay in succeeding years.

6. In the following statement the gross excise revenue of the past five years is classified according to the articles from which it is derived :—

Articles of Excise.	Revenue.					1898-99 compared with 1897-98.	
	1894-95.	1895-96.	1896-97.	1897-98.	1898-99.	Increase.	Decrease.
1	2	3	4	5	6	7	8

* Revised figures.

The above statement shows that country spirits continue to bring in the largest revenue, and that the chief increase during the year occurred under this head. Taking the percentage of revenue under each head on the total excise revenue, country spirits stand first with a percentage of 44·8, followed by hemp drugs (21·7), opium (18·7), tari (7·4), *pachwai* (2·9), and rum (2·3). This order is the same as that of the preceding year, except that *pachwai* and rum have changed places, the revenue from the former having exceeded that from rum during the past year.

7. *Current settlements.*—The settlements for the current year, as made up to the end of May last, show a marked increase of Rs. 7,33,102 as compared with the previous year, and this has been shared by all the divisions in the province. The most marked increase occurred in the Chota Nagpur Division (Rs. 2,55,463), followed by the Patna (Rs. 2,05,022) and Presidency (Rs. 1,08,213) Divisions. The improvement is undoubtedly owing to the cessation of scarcity and the bountiful harvests of the past year which have resulted in the settlement of a larger number of licenses and enhanced fees during the current year.

8. *Country spirit.*—Country spirit forms the chief source of excise revenue in Bengal. Its manufacture and sale are carried on under two systems—the fixed duty or *central distillery* and the *outstill* system. The central distilleries are maintained by Government; stills are worked within them by distillers, and the liquor is passed out, after the levy of the distillery fee and the duty, for sale at licensed shops. The distillery fee, which is levied at the rate of 2½ annas per London-proof gallon, except in certain metropolitan districts where the rate is 1 anna per gross gallon, is taken as a contribution to the cost of the establishments, and as rent for the use of the premises. Duty is levied at varying rates, ranging from Re. 1-14 to Rs. 5 per London-proof gallon for different districts. Outstills, on the other hand, are licensed at monthly fees, no separate duty being charged. The central distillery system is in force throughout the Burdwan Division, except in certain wild

tracts of Bankura and Midnapore, and also throughout the Presidency, Dacca, and Orissa Divisions, with the exception of the hilly tracts of Cuttack along the frontier of the Garhjat States, and in the Sonthal Parganas district. In the Patna Division and the districts of Monghyr, Bhagalpur, and part of Hazaribagh, a dual system of central distilleries and outstills is maintained, the areas served by the distilleries being defined, and outstills being placed at such distances as to minimise the risk of smuggling of outstill liquor into those areas. In the Rajshahi and Chittagong Divisions, in the Chota Nagpur Division, except a small portion of Hazaribagh and Manbhum, and in the districts of Purnea and Malda of the Bhagalpur Division, the outstill system alone is in force.

Of the total revenue from country spirit, Rs. 31,05,315 was contributed by central distilleries under the three heads of license fees (Rs. 10,73,628), still-head duty (Rs. 19,67,440), and distillery fees (Rs. 64,247), and Rs. 29,92,478 by outstills, the former showing an increase of Rs. 3,65,252 and the latter of Rs. 1,51,529 over the receipts of the previous year. The number of outstills sanctioned rose from 2,096 in 1897-98 to 2,104 in the year under review, and the number settled from 2,018 to 2,076, while the number of shops sanctioned for the sale of distillery spirits fell from 1,199 to 1,190, and the number settled from 1,193 to 1,186. The increase in the number of outstills open during the year is due to the re-opening of outstills in the wilder parts of Cuttack where they had been closed for some time owing to the introduction of the distillery system, and to the fact that a large number (78) of the sanctioned number of outstills had remained unsettled in the previous year owing to the famine. In the Burdwan Division there was an increase of revenue in Burdwan, Birbhum, Hooghly, and Howrah, against a decline in Bankura and Midnapore, the net increase being Rs. 23,906. The increase was largest in Hooghly, where the employment of a special detective force has resulted in increased consumption of duty-paid liquor. The increase in the consumption of duty-paid liquor in Bankura, which has a bad name for illicit dealings, was not maintained during the year under review. The Presidency Division shows an increase in revenue of Rs. 2,19,294 shared by all the districts, Calcutta alone contributing Rs. 1,80,046. In the Rajshahi Division with the districts of Purnea and Malda, a small increase of Rs. 858 was obtained. The Dacca Division shows an increase in revenue of Rs. 9,302, which is shared by all the districts except Faridpur. In the Chittagong Division, where the consumption of spirits is very limited, the revenue rose during the year by Rs. 3,961.

The Patna Division, which for excise purposes is taken to include the districts of Monghyr, Bhagalpur, and Hazaribagh, and is under the dual system of central distilleries and outstills, yields the largest revenue from country spirits; the amount realised in the past year being Rs. 20,81,267 against Rs. 18,95,726 in 1897-98, the increase occurring in both the distillery and outstill areas. Four of the five districts in the Bhagalpur Division have already been discussed, and there remains only the Sonthal Parganas, from which an increase of Rs. 11,001 in revenue is returned. The Orissa and Chota Nagpur Divisions have also returned an increase of Rs. 12,264 and Rs. 50,654, respectively.

Before the re-introduction of the distillery system generally in Bengal, the revenue from country spirits was (with the exception of one year, 1883-84) highest in 1887-88 (52 lakhs), after which it began to decline, till it stood at 45 lakhs in 1890-91. In 1891-92 it commenced to rise steadily till 1896-97, when it reached Rs. 60,80,000. In 1897-98 it receded to Rs. 55,81,000, owing to the famine, but made a complete recovery during the year under review, the figure standing at nearly Rs. 60,98,000. In last year's Resolution, reference was made to the relative consumption of outstill and distillery liquor in different districts of the Province and the proportion of revenue brought in by vend license fees compared with duty, which had led the Government of India to infer a widespread prevalence of illicit distillation and sale and the smuggling of outstill liquor into distillery tracts. The Supreme Government suggested the adoption of certain measures to safeguard the excise revenue from country spirits, and the matter has been engaging the attention of the Board and the Local Government. The final conclusions of this Government are held in abeyance, pending a further report from the Board. Meanwhile, as an outcome

of this correspondence, an experiment is being tried in the districts of Bankura and the Sonthal Parganas, which have a bad reputation for illicit dealings, by which distillery liquor is coloured red in order to facilitate the detection of outstill liquor when smuggled into distillery areas.

In accordance with the desire expressed by Government last year, the Excise Commissioner has incorporated in the present report a statement showing the consumption of outstill and distillery liquor in different districts of the Province, the incidence of taxation per head,* and the proportion of revenue brought in by vend license fees compared with duty. He prefaces his remarks by the statement that the figures of consumption of outstill liquor are based on information furnished by the licensees and by inspecting officers, and are almost valueless for purposes of close comparison. If any value whatever be attached to them, they would seem to show that the incidence of revenue is no greater in the distillery than in the outstill areas, though the distillery system obtains in the wealthiest tracts of Bengal; and that there are great inequalities of consumption between distillery districts, between outstill districts, and between the distillery and outstill areas of the same district. All this would *primâ facie* establish the existence of illicit dealings, but the Excise Commissioner urges that in analysing the figures, sufficient allowance should be made for those ethnological and religious factors that account for the drinking habits of a people, *e.g.*, the chief drinkers are Hindi-speaking races, aborigines, and mixed tribes, and to a much less extent Bengalis, while Uriyas are almost total abstainers; consumption also varies inversely with the proportion of Muhammadans in the population. Mr. Gupta has also urged elsewhere that the consumption of country spirit should not be considered by itself, but along with that of rum, *pachwai*, *tari*, and imported liquors, and that the incidence of this combined revenue is a safer guide than that of the revenue from country spirit alone. It seems, however, to the Lieutenant-Governor that, making all allowances for these disturbing factors, it is difficult to resist the conclusion that illicit consumption does prevail in Bankura, Midnapore, in parts of Hooghly, Burdwan, Nadia, and Murshidabad, the Sonthal Parganas, and to some extent in Orissa, and that there is leakage of revenue in the distillery areas in Bihar and Hazaribagh. That this is so is not denied by the Excise Commissioner whose criticisms are confined to pointing out the extent to which inferences may safely be drawn from the figures supplied.

9. *Sites of shops.*—The rules forbidding the opening of shops in a bazaar, on high roads or close to places of public resort, seem to have been carefully observed, due regard being given to public opinion in the matter. During the year a liquor shop in the 24-Parganas, an outstill in Monghyr and three *tari* shops in Hooghly, Howrah, and Shahabad, respectively, were removed in deference to local opinion; a liquor shop in the 24-Parganas and two outstills in Jalpaiguri were closed at the instance of a mill manager and the managers of tea estates; in Midnapore the site of a pachwai shop was changed on the complaint of a missionary, and in Angul an outstill was transferred from the interior of a village to a place outside.

10. *Country rum.*—The supply of country rum is derived from Sibpur near Howrah, from Sakri in Darbhanga, from Shahjahanpur in the North-Western Provinces, and from Aska and Arkot in Madras. More than three-fifths of the demand is supplied by the Shahjahanpur distillery. The revenue from rum fell from Rs. 4,14,665 to Rs. 3,15,613 in the year under review, the quantity consumed having declined from 77,979 gallons London-proof to 50,053 gallons London-proof. Neither the Board nor the Excise Commissioner have as yet been able to trace the real cause of the striking decline in consumption, and the Lieutenant-Governor will await with interest the special report promised by the Board. Meanwhile, it would appear that the raising of the duty on country rum in January 1898 from Rs. 5 to Rs. 6 has had a more serious effect on consumption than was anticipated by the Excise Commissioner. The bulk of the trade in rum is carried on through Calcutta, where the quantity imported during the year amounted to 36,920 gross gallons. Excluding the quantity exported to Assam and Port Blair, (4,682 gross gallons), the amount consumed in Bengal itself was 32,238, of which 20,910 gross gallons were consumed in Calcutta and 11,328 in the mufassal. The quantity

further imported into the Bengal mufassal direct from Shahjahanpur amounted to 2,032 gross or 2,029 London-proof gallons.

11. *Imported liquor.*—The excise revenue from imported liquor, which consists exclusively of fees for wholesale and retail licenses, rose from Rs. 2,91,635 to Rs. 3,06,350. Nearly one-half of the total revenue was collected in Calcutta. The number of wholesale licenses was reduced by 12, and that of retail licenses by 2. The changes are ascribed to the ordinary fluctuations of trade. The Lieutenant-Governor regrets to notice a large increase in the importation of German white spirit, which is mainly used for the purpose of being manipulated into brandy and whisky. This question, however, is not one which can be dealt with by the excise authorities, who can do nothing to stop the practice beyond bringing it to notice.

12. *Tari.*—No duty is charged on tari, the sap of the palmyra or date tree, but revenue is derived from license fees for the sale of both fermented and unfermented tari. The number of licenses for the sale of the fermented liquor during the year increased from 13,233 to 13,262, and for unfermented tari from 1,568 to 1,872. The total receipts rose from Rs. 10,14,265 to Rs. 10,28,219, the bulk of the increase occurring under fees for fermented tari. The increase under this head was heaviest in the Patna district, and is explained by the fact that owing to the late settlement of the tari licenses no advance fees were paid in March 1898, nearly the whole of the demand being realized within the year under review. As usual, the bulk of the tari revenue was derived from the Patna Division and the districts of Monghyr and Bhagalpur, which contributed between them 64·3 per cent. of the total receipts. Calcutta shows the heaviest decrease, which is ascribed to the plague scare. The Madras tree-tax system, the theory of which is that every tree yielding *tari* should pay a tax according to a fixed rate, is being tried, as far as is possible without amending the law, in selected areas in the districts of the Patna Division, and Monghyr, Bhagalpur, Cuttack, Puri and Hooghly.

13. *Pachwai.*—This liquor, brewed from rice, forms the favourite beverage of the aboriginal tribes found in the Burdwan and Chota Nagpur Divisions, the Sonthal Parganas, and the western half of Murshidabad. Another variety, prepared from millet (*marua*), is much drunk in Darjeeling. The revenue is derived from license fees for sale and for home-brewing, and these fees together yielded during the year a revenue of Rs. 4,46,441 against Rs. 3,70,843 in 1897-98, nearly three-fourths of which was collected in the Burdwan Division. The total number of licenses for sale rose from 1,592 to 1,606, and the number of licenses for home-brewing rose from 7,911 to 8,655.

14. *Ganja.*—The revenue from ganja is derived from license fees and duty which varies according to quality; thus "chur" pays a duty of Rs. 9 per seer, "round" Rs. 7-8, "flat (small twigs)" Rs. 7-4, and "flat (large twigs)" Rs. 6. In Orissa, however, the rates are Rs. 7-8 for *chur*, Rs. 6-4 for round, Rs. 6 for flat (small twigs), and Rs. 5 for flat (large twigs). Flat ganja (large twigs) which pays the lowest rate of duty seems to be most in favour. The following statement shows the main statistics relating to ganja revenue in the last three years:—

	Licenses sanctioned.	Licenses issued.	Quantity consumed.	Revenue.
	No.	No.	Mds.	Rs.
1896-97 ...	2,708	2,688	5,008	27,31,522
1897-98 ...	2,712	2,706	4,651	25,57,452
1898-99 ...	2,711	2,699	4,797	27,20,140

The area of land brought under ganja cultivation during the year again decreased by 577 bighas, and the quantity produced by 376 maunds. The report called for last year on the question of extending the area under cultivation so as to ensure that the supply shall not fall short of the demand has not been received, but it is remarked by the Excise Commissioner that the present tract with but slight additions is quite capable of meeting all demands in full, and that there need be no apprehension of the undue contraction of the area so long as the cultivators can get a fairly remunerative price for the drug. The Board agree in this opinion. The system of supplying Rajshahi ganja to the Tributary States in Orissa, under which the Chiefs

have been requested to suppress the cultivation of the plant in the States and obtain Rajshahi ganja at cost price and issue it to consumers after levying duty, continues to work well, and under it the smuggling of foreign (Garhjat) ganja is reported to have practically ceased. The quantity exported to the North-Western Provinces was 350 maunds, to Nepal 199 maunds, to Assam 548 maunds, while 216 maunds were distributed between Cooch Behar, the Garhjat States and other places.

15. *Bhang, Majum and Charas.*—*Bhang*, which is also known under the name of *siddhi* and *sabzi* (dried leaves of the hemp plant), grows wild in many parts of Bengal, and is collected for sale chiefly in Monghyr, Bhagalpur and Purnea. The number of licenses for the sale of *bhang* rose from 330 to 351, and the revenue increased from Rs. 64,083 to Rs. 67,240, but the consumption fell from 966 maunds to 965 maunds. The revenue from *majum*, a sweet preparation of *bhang*, amounted during the year to Rs. 1,493 against Rs. 1.482 in 1897-98. *Charas*, or the resin exuding from the unseeded female hemp plant, is the essence of ganja in its greatest purity and strength, and is imported into Bengal from the Punjab. The consumption remained nearly the same as in the previous year, viz. 20 maunds, while the revenue increased from Rs. 19,932 to Rs 22,058.

16. *Opium.*—Excise opium, *i.e.*, opium offered for sale in these Provinces as distinguished from provision opium prepared for export, is supplied to licensed vendors from the district treasuries at prices varying from Rs. 17 a seer in the Patna Division to Rs. 33 a seer in Orissa. The following statement illustrates the demand during the last three years:—

		Licenses.	Consumption.	Revenue.
		No.	Mds.	Rs.
1896 97	... ...	3,180	2,110	23,25,603
1897-98	... ...	2,990	2,086	23,18,598
1898-99	... ...	3,623	2,164	24,01,026

The number of permits to licensed druggists to sell opium and its preparations and poppy-heads for medicinal purposes, which are included in the number of licenses above, increased by 644, while the number of ordinary licenses for retail sale fell by 11. The increase in consumption and revenue is ascribed to the general prosperity during the year. The question of the smuggling of opium to Burma has been receiving close attention during the last two years, and the main remedy against this smuggling seems to lie in the employment of adequate preventive measures in Burma. The bulk of the illicit traffic is carried on in steamers from Calcutta, and the Customs Preventive staff has been on the alert, and made several important seizures. Enquiry has shown that so far as duty-paid opium is concerned, its sale in the producing districts is too small to leave room for much smuggling.

17. *Methylated spirit.*—The quantity of this spirit, which is either imported or methylated locally, issued during the year fell from 66,448 to 65,619 gallons, but the revenue remained almost stationary, viz. Rs. 4,611. There was a large decrease (19,467 gallons) in the imports of ready-made methylated spirit, and this is ascribed to the working of the new rules which were intended to prevent the consumption of methylated spirit for drinking.

18. *Offences against the Opium and Excise laws.*—The number of arrests for offences against the Excise laws increased from 3,634 to 3,830. A large proportion of these cases are of a technical nature relating to illicit possession of various exciseable articles; and the fact that in spite of the admittedly large extent to which the Excise laws are broken, so few cases of real importance have been instituted, would seem to indicate that detective ability in the Excise Department is not of so high a standard as it might be. The arrest of 1,510 persons was effected by the Police, while arrests by Excise officers numbered 2,320, the percentage of convictions in the cases instituted by Excise officers being 89·2 against 85·7 in those instituted by the Police. There was an increase in the number of arrests for illicit distillation and in the number of persons convicted, the figures being 459 and 405 against 248 and 210 in the previous year. For this increase, the Sonthal Parganas are mainly responsible. The amount of fines imposed for breaches of the Excise laws and rules was Rs. 71,909, of which Rs. 52,533, or 73 per cent., were realised.

A sum of Rs. 58,098 was ed in rewards to Police and Excise officers and informers against 15 in the previous year. Considering that the sole motive for breaki xcise laws is the desire for pecuniary gain, and that the offenders wh the main object of the law to reach, viz., those who make a profit o aking it, may reasonably be considered able to pay a larger proportio nes inflicted than 73 per cent., it may be doubted whether too much s not been expended in securing the punishment of technical, as o serious, breaches of the law. The districts in which illicit dealin ieved to be most prevalent have been indicated in paragraph 8, and s the Excise Commissioner to apply the best material at his disposal in out and bringing to justice the real offenders in these areas.

19. *Miscellaneous.*—The marked by the introduction of uniforms for the officers of the Be e Department All officers not above the grade of Sub-Deputy Supe s in charge of Distilleries are required to procure uniforms at their se, those for menial servants being provided at the cost of Governm

20. The thanks of Gover ue to Mr. K. G. Gupta for his successful administration of the Dep to the Board for their supervision during the year. The Exc ssioner expressess his obligations to the District Officers genera some of them in particular, including the Hon'ble Rai Durgagati B hadur, C.I.E., Superintendent of Excise Revenue, Calcutta. The n officers specially mentioned by the Board will be communicated intment Department of this Government.

By order of nt-Governor of Bengal,

E. N. BAKER,

Offg. Secy. to the Govt. of Bengal.

WEATHER CROP REPORT.

For the week en he 6th November 1899.

Burdwan.—No rain. Weather se le. *Aman* paddy and sugarcane doing well. Sowing of *rabi* crops going on. Foc nd water sufficien . Common rice selling as follows:—

			Srs.	
Sadar	...	...	15	per rupee.
Kalna	...	...	$13\frac{2}{8}$	
Katwa	...	...	15	
Raniganj	...	...	$13\frac{1}{4}$	

Birbhum.—Rainfall nil. Weath nable. *Aus* being harvested and *rabi* sown. *Aman* promising. Price of common t Sadar and Rampur Hât 15 seers per rupee. Fodder sufficient.

Bankura.—Rainfall at Sadar n aupur ·37. Weather seasonable. Harvesting of *nuan* paddy commenced. *Rabi* still continues. Standing crops doing well. No cattle-disease reported. Fodder a r sufficient. Price of common rice at Bankura 16 seers and at Vishnupur 15 seers pe

Midnapore.—No rain. Cold w set in. Prospects of winter rice good. *Rabi* crops are being sown. Cattle-diseas d from some places in the Sadar subdivision. Fodder and water sufficient. Comm lls as follows:—

			Srs.	ch.	
Sadar	...	...	15	0	per rupee.
Contai	...	...	18	0	
Tamluk	...	...	14	$3\frac{1}{2}$	

Hooghly.—No rain. Prospect n and *rabi* crops good. Common rice sells at 14 seers per rupee.

Howrah.—No rain. Weathe le. Condition of *aman* good. Sowing of *rabi* continues. Fodder and water suffic mmon rice sells at $13\frac{1}{4}$ seers per rupee.

24-Parganas.—No rain. W sonable. Prospects of crops good. Sowing of *rabi* has commenced No cattle- Fodder and water sufficient. Common rice sells as follows:—

			Srs.	ch.	
Sadar	...	...	12	0	per rupee.
Barasat	...	...	14	8	
Basirhat	...	...	13	14	
Diamond Harbour		...	12	13	

Nadia.—No rain. Weather Prospects of standing crops good. Sowing of *rabi* continues. Fodder and wate . Price of common rice stationary.

Murshidabad.—Rain at ·24. Weather seasonable. Prospects of *aman* favourable. *Kalai* and mulberry Sowing of *rabi* continues. No cattle-disease. Fodder and water sufficient. Co sells as follows:—

			Srs.	
Sadar	...	...	16	per rupee.
Jangipur	...	...	14	
Kandi	...	...	18	

Jessore.—No rain. Sow going on. Prospects of *aman* good. No cattle-disease reported. Fodder sufficient. Common rice sells as follows:—

			Srs.	
Jessore	...	...	16	per rupee.
Jhenida	..	...	18	
Magura	..	...	17	
Narail	..	...	16	
Bangaon	..	...	17	

Khulna.—No rain. We ble. *Aman* paddy doing well. Lands are being prepared for the *rabi* crops. F ater sufficient. Common rice sells as follows:—

			Srs.	
Sadar	..	...	$16\frac{1}{2}$	per rupee.
Bagerhat	..	...	16	
Satkhira	..	...	14	

Rajshahi.—Rainfall at Nator ·02. Prospects of crops good. Ploughing and sowing of *rabi* crops in progress. No cattle-disease. Fodder and water available. Common rice sells at 17½ seers per rupee.

Dinajpur.—Average rainfall ·02. Weather cool. Standing crops good. Cow-pox reported from Parbatipur. Fodder and water plentiful. Common rice 17 seers in Dinajpur town and 16 seers at Thakurgaon.

Jalpaiguri.—Rainfall at Sadar ·67, Alipur Duars ·79. Weather seasonable. *Haimanti* paddy doing well. Preparation of land for tobacco still continues. Common rice sells at 14 seers 13 chitaks per rupee. Fodder and water sufficient.

Darjeeling.—Rainfall at Darjeeling ·63, Siliguri 2·12. Weather seasonable. *Hills*—*Haimanti* paddy, *bara marua*, *kalai*, *phaphar*, *tori*, wheat and barley progressing. *Terai*—*Haimanti* paddy, *kalai*, potatoes and mustard progressing. Coarse rice sells as follows :—

	Srs.	
Hills	9	per rupee.
Terai	16	

Bhutta sells at Darjeeling 20 seers and at Kalimpong 32 seers per rupee.

Rangpur.—Rainfall at Sadar ·04, Nilphamari ·20. Lands are being prepared for *rabi* crops. Prospects of crops good. Common rice sells at 16 seers 9 chitaks per rupee. Fodder and water sufficient. Cattle-disease prevailing in Nilphamari.

Bogra.—Rainfall at Sadar ·05 and at Naukhila ·24. Prospects of crops good. Cultivation of *rabi* crops going on. Fodder and water sufficient. Common rice sells at 17½ seers per rupee.

Pabna.—Rainfall at Sirajganj ·09. Weather seasonable. Prospects of crops good. Price of common rice 14 seers 11 chitaks per rupee.

Dacca.—Rainfall at Sadar nil, Manikganj ·04, Munshiganj ·52, Narayanganj ·06. Weather seasonable. Prospects of standing crops good. Fodder available. No cattle-disease. Common rice 16 seers per rupee.

Mymensingh.—Rainfall at Sadar nil, Tangail 1·67, Netrokona 1·70, Kishorganj 1·52, Jamalpur 1·16. Weather seasonable. Prospects of crops good. Health of cattle good. Fodder and water sufficient. Common rice sells at 17 seers per rupee.

Faridpur.—Rainfall at Sadar nil, Goalundo 1·20, Madaripur 2·80. Weather seasonable. State and prospects of crops good. Common rice sells at 14½ seers per rupee.

Backergunge.—Rainfall at Sadar nil. Weather seasonable. Prospects of crops fair. Common rice sells at 14 seers per rupee.

Tippera.—Rainfall at Sadar nil, Chandpur ·43, Brahmanbaria ·67. Weather cool and seasonable. *Aman* paddy in flower and doing well. Common rice 17 seers per rupee.

Noakhali.—Rainfall nil. Prospects of crops good. Lands are being ploughed for *rabi* crops. Veterinary assistant treating cattle-disease at Chagalnaya. Cattle-disease is also reported from Senbag. Fodder and water good. Price of common rice stationary.

Chittagong.—Rainfall at Sadar 2·27, Cox's Bazar 13·01. Prospects of *aman* crop favourable. Water and fodder sufficient. Common rice 15 seers per rupee.

Patna.—Rainfall nil. Prospects of paddy crop fair. Sowing of *rabi* continues. About two or three annas of the opium sowing have been completed and some of them are germinating satisfactorily. Condition of cattle good. Fodder and water for cattle sufficient. Common rice in Patna sells at 16 seers per rupee.

Gaya.—Rainfall nil. Early winter paddy being harvested. *Rabi* sowing continues. Common rice sells at 13½ seers per rupee.

Shahabad.—Rainfall at Sadar ·03. Weather seasonable. *Rabi* sowings in progress. Paddy affected for want of timely rain in Arrah. Ninety-nine cases of cattle-disease in Sasaram. Fodder and water sufficient. Common rice selling at Sadar at 12 seers per rupee.

Saran.—Rainfall at Sadar nil, Siwan ·62, Gopalganj ·30. Weather seasonable. Recent rain has benefited paddy and *rabi*, and has made prices easier. Average price of common rice 13 seers 1 chitak and of *makai* 13 seers 11 chitaks per rupee.

Champaran.—No rain. Prospects continue fair. *Rabi* sowings in full swing. Poppy sowings commenced. Price of common rice 14½ seers and of maize 16½ seers per rupee.

Muzaffarpur.—Rainfall nil. Prospects good. *Rabi* sowings continue. Prices are—Common rice 12 seers, wheat 12 seers, barley 16 seers, *makai* 15 seers, gram 13 seers, *rahar* 14 seers, and *marua* 18 seers per rupee.

Darbhanga.—No rain. Weather temperate. Prospects of standing crops good. *Rabi* sowing going on. Fodder and water sufficient. No cattle-disease reported. Common rice sells as follows:—

	Srs.	ch.	
Sadar	11	0	per rupee.
Samastipur	14	0	
Madhubani	13	13	

Monghyr.—Rainfall at Sadar nil, Jamui ·60. Weather seasonable. *Rabi* being sown. Prospects of standing crops fair. Common rice sells as follows:—

	Srs.	ch.	
Monghyr	11	3	per rupee.
Jamui	14	0	

Bhagalpur.—No rain. Weather seasonable. *Aghani* paddy coming into ear. Prospects favourable. *Rabi* sowing continues. Sporadic cattle-disease prevails in the three subdivisions. Prices stationary.

Purnea.—Rainfall at Sadar nil, Kishenganj nil, Araria ·03. Weather seasonable. Prospects of *aghani* rice good. Lands are being ploughed for *rabi* crops. Cattle-disease reported from Raniganj, Kasba, and Araria. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	
Sadar	16	per rupee.
Kishanganj	17	
Araria	19	

Malda.—Rainfall only at Gajol ·6. Weather seasonable. Sowing of *rabi* crops continues. Winter rice doing well. Cattle-pox reported from Gomastapur. Fodder and water sufficient. Coarse rice sells at 16 seers per rupee.

Sonthal Parganas.—Average rainfall ·91. Crops doing well. Harvesting begun on high lands. Cattle-disease reported from Rajmahal and Dumka. Average price of common rice 13 seers 5 chitaks and of Indian-corn 18 seers 10 chitaks per rupee. Fodder and water sufficient.

Cuttack.—Rainfall at Sadar nil, Jajpur ·07, Kendrapara nil, Banki nil. Weather seasonable. *Laghu sarad* maturing. *Guru sarad* in ear. Sugarcane, *rabi*, and turmeric thriving. Condition of cattle generally good. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Cuttack	14	7	per rupee.
Jajpur	17	1	
Kendrapara	19	11	
Banki	13	12	

Balasore.—Rainfall at Sadar nil. *Sarad* in ear. *Asu* is being harvested. Sugarcane thriving well. Prospects of crops good. Sowing of *rabi* crops continues. Rice sells at 18⅛ seers per rupee in the interior, and at 16 seers per rupee at Balasore. Fodder and water sufficient.

Angul.—Weather cold at night, but hot in the day. Rainfall at Angul ·05 and at Bisipara ·10. Paddy crop in ear. *Rabi* sowing in progress. Sugarcane doing well. Fodder and water sufficient. Cattle-disease continues in the Khondmals. Common rice sells at 16 and 12 seers per rupee at Angul and Khondmals respectively.

Puri.—Rainfall at Sadar ·02, Khurda ·68. Weather seasonable. *Laghu sarad* being harvested. *Kulthi* growing. *Biri* being sown. Sugarcane being pressed. Other miscellaneous crops doing well. Cattle-disease reported from certain quarters. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	13	0	per rupee.
Khurda	14	7	
Interior of district	14	0	

Test-works opened in certain parts of Khurda, where distress is apprehended.

Hazaribagh.—Rainfall nil. Weather seasonable. Paddy seriously damaged by drought. Common rice sells at 13 seers per rupee.

Ranchi.—Rainfall nil. Weather seasonable. Harvesting of winter rice in progress; outturn very poor. Continued drought prevented the preparation of land for *rabi* crops. Rice sells at Ranchi 10 seers per rupee and in the interior 14 seers per rupee. No cattle-disease. Fodder and water sufficient.

Palamau.—No rain. Weather seasonable. *Rabi* sowing going on in places where rain fell. More rain wanted for *rabi* cultivation. Prices at Sadar are—Common rice 10 seers 11 chitaks, *makai* 13½ seers, *gram* 14 seers 1 chitak, *marua* 15 seers 3 chitaks, and wheat 11¼ seers per rupee. Fodder and water sufficient. Cattle-disease reported from a few villages.

Manbhum.—No rain. Weather seasonable. *Bhadoi* crops fair. Winter rice an average crop. Cattle-disease reported from thanas Purulia, Topchanchi, and Tundi. Fodder and water sufficient. Average price of common rice at Sadar 13¼ seers and at Gobindpur 12 seers per rupee. Supply sufficient.

Singhbhum.—Rain ·10. More rain wanted for *rabi* crops. Common rice sells at 15 seers 14 chitaks per rupee.

General Summary.—There were scattered showers in various districts in the week, which were specially useful in Angul, Puri, Singhbhum, and Saran for the sowing of the *rabi* crop. The reports from all divisions except Patna, Orissa, and Chota Nagpur show that the winter rice will be an excellent crop, and that the less important *rabi* is being sown under favourable conditions. All the districts of the Patna Division have good, or middling crops, except Shahabad, and though test-works have been opened in the Khurda Division of Puri, yet prospects are now much brighter there and in Angul. Only in Chota Nagpur is severe scarcity apprehended, the untimely cessation of the rains having ruined the rice crop and endangering the sowing of the *rabi*. In Manbhum, however, an average crop of rice is expected. The price of common rice is lower in Puri, Hazaribagh, and a few other districts; elsewhere it is stationary. Cattle are generally in good condition, and fodder is everywhere plentiful.

By order of the Lieutenant-Governor of Bengal,

F. A. SLACK,

Offg. Secretary to the Govt. of Bengal.

REVENUE DEPARTMENT,

The 7th November 1899.

STOCKS OF RICE IN AND AROUND CALCUTTA.

No. *Statistics.*—The following is published for general information.

F. A. SLACK,
Offg. Secy. to the Govt. of Bengal.

Abstract of the Results of Meteorological Observations taken at the Alipore Observatory in the month of October 1899.

		Date.	Hour.
	Inches.		
The mean pressure of the month	29·889		
The average pressure of October from 24 years' registers ...	29·832		
The highest pressure in the month	30·037	21st	10th
The lowest pressure in the month	29·690	15th	16th
The range of pressure	0·347		
	Hours.		
The total number of hours of bright sunshine during the month	200·4		
The maximum possible number of hours of sunshine ...	359·1		
	⊖		
The mean temperature of the month	79·4		
The average temperature of October from 24 years' registers ...	81·5		
The highest temperature in the month	92·1	4th	
The lowest temperature in the month	68·4	18th	
The range of temperature during the month	23·7		
The mean daily range of temperature	13·5		
The greatest range of temperature in one day	17·4	3rd	
	Per cent.		
The mean humidity of the month	84		
The average humidity of October from 24 years' registers ...	79		
	Inches.		
The mean vapour tension of the month	0·836		
The average vapour tension of October from 9 years' registers ...	0·854		
The mean cloud proportion of the month	3·47		
The average cloud proportion of October from 22 years' registers	3·83		
	Ins.		
The total rainfall of the month	3·02		
The total rainfall indicated by a Beckley's self-registering rain-gauge (mouth of the gauge about 52 feet above the ground)	2·85		
The average fall of October from 48 years' registers ...	5·61		
The greatest fall in 24 hours	1·17	15th	
	Days.		
The number of rainy days in the month	5		
The average number of rainy days in October from 24 years' registers	10		
The mean maximum equilibrium temperature of solar radiation during the month	137·8		
The mean difference of sun and air temperatures	50·7		
The greatest sun temperature	149·2	8th	
The greatest excess of sun over air temperature	60·3	17th	
The mean temperature of the nocturnal radiation thermometer on woollen cloth	69·2		
The mean depression of the nocturnal radiation thermometer below the minimum air temperature at 4 feet above the ground	4·6		
The greatest depression of the nocturnal radiation thermometer below the minimum air temperature	6·9	5th	
	Miles.		
The mean movement of the wind per day	69·9		
The greatest movement of the wind in one day	234·0	16th	
The greatest movement of the wind in one hour	14·0	16th & 27th 15th	10 to 11 A.M. & 1 to 2 P.M.

The number of hours with winds from each of the 8 points—
N. 205, N.E. 47, E. 42, S.E. 39, S. 26, S.W. 141, W. 37, N.W. 52, Calm 155.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0·8 lower; and, finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0·6 higher than the Kew Standard thermometer, which is the standard of reference at the present Observatory.

G. W. KÜCHLER,
For *Meteorological Reporter to the Govt. of India, and Director-General of Indian Observatories.*

	Inches.
The total fall of rain from 29th October to 4th November 1899	Nil
The average fall of the corresponding period for 24 years, Surveyor-General's Office	0·37
The total fall from 1st January to 4th November 1899	71·95
The average fall of the corresponding period for 24 years, Surveyor-General's Office	64·70

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

▲, dew.

METEOROLOGICAL OFFICE, GOVT. OF INDIA,
Calcutta, the 6th November 1899.

G. W. KÜCHLER,
For *Meteorological Reporter to the Govt of India, and Director-General of Indian Observatories.*

C. W. BOLTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION—No. 5404A.

The 14th November 1899.—The following rule is published as Rule 12A of Appendix V to the Rules for the Departmental Examination of Assistant Magistrates and others, dated the 28th May 1895:—

Officers of the Indian Civil Service transferred to Bengal from Assam, who have completely passed by both standards in that Province, but have not passed in Hindustani as an optional language, may, if of less than 12 years' service, present themselves for examination in that language, and, on passing by the Higher Standard, shall be entitled to a reward of Rs. 500.

C. W. BOLTON,
Chief Secy. to the Govt. of Bengal.

REVENUE DEPARTMENT—(LAND REVENUE.)

NOTIFICATION—No. 3957L.R.

The 14th November 1899.—Whereas a settlement of land revenue is about to be made in respect of village Erazi Beshi Nowbarar Hashimpur in pargana Balaguch, which is a Government estate in thana Dalsinghsarai, in the district of Darbhanga:

Under the powers conferred on him by section 101 (1) of the Bengal Tenancy Act, VIII of 1885, as amended by the Bengal Tenancy (Amendment) Act, 1898, the Lieutenant-Governor is pleased to order that a survey shall be made, and a record of rights prepared, in respect of all lands included within the external boundaries of the said estate. The particulars to be recorded in the said survey and record of rights shall be the following, namely:—

(*a*) The name of each tenant or occupant.
(*b*) The class to which he belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat or under-raiyat, and if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure.
(*c*) The situation, quantity, and one or more of the boundaries of the land held by each tenant or occupier.
(*d*) The name of each tenant's landlord.
(*e*) The rent payable at the time the record of rights is being prepared.
(*f*) The mode in which that rent has been fixed, whether by contract, by order of a Court, or otherwise.
(*g*) If the rent is a gradually increasing rent, the time at which, and the steps by which, it increases.
(*h*) The special conditions and incidents, if any, of the tenancy.
(*i*) If the land is claimed to be held rent-free, whether or not rent is actually paid, and if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and if so entitled, under what authority.

F. A. SLACK,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION—No. 3963L.R.

The 14th November 1899.—Babu Jamini Mohan Das, Deputy Magistrate and Deputy Collector, is appointed to be an Assistant Settlement Officer for employment on settlement duty in the district of Cuttack, with effect from the date on which he joins that appointment.

F. A. SLACK,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION—No 3964L.R.

The 14th November 1899.—Under section 3 (*17*) of the Bengal Tenancy Act, VIII of 1885, the Lieutenant-Governor is pleased to authorise Babu Jamini Mohan Das, Deputy Magistrate and Deputy Collector, to perform the functions of a Revenue Officer in the district of Cuttack, under the provisions of that Act, so far as they relate to Revenue Officers. He is also vested with the powers of an Assistant Settlement Officer under Rule 1, Chapter VI of the rules under the Tenancy Act.

F. A. SLACK,
Offg. Secy. to the Govt. of Bengal.

GENERAL DEPARTMENT—(MISCELLANEOUS)

NOTIFICATION—No. 612T.G.

The 6th November 1899.—Babu Narendra Nath Sen, who is a Registrar of Marriages of Calcutta under Act III of 1872, is also appointed to be a Registrar of Marriages under the same Act in the district of the 24-Parganas and the Suburbs of Calcutta.

F. A. SLACK,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION—No. 3470.

The 14th November 1899.—The declaration No. 3255, dated the 15th November 1898, published at page 1246, Part I, of the *Calcutta Gazette* of the 16th idem, authorising the acquisition of a piece of land required for the District Dâk Post Office at Madarganj, in the district of Mymensingh, is hereby cancelled.

F. A. SLACK,
Offg. Secy. to the Govt. of Bengal.

MEDICAL DEPARTMENT.

No. 594T.M.—The 7th November 1899.—The services of Military Assistant Surgeon G. T. Milchem, attached to the Mitford Hospital, Dacca, are placed temporarily at the disposal of the Government of the North-Western Provinces and Oudh.

No. 596T.M.—The 7th November 1899.—Military Assistant Surgeon D. R. Davies, Inspecting Medical Officer, Chausa Plague Observation Camp, is appointed to act at the Mitford Hospital, Dacca, during the absence, on deputation, of Military Assistant Surgeon G. T. Milchem, or until further orders.

No. 628T.M.—The 8th November 1899.—Captain A. Gwyther, I.M.S., is appointed to act as Civil Surgeon of Hooghly, *vice* Lieutenant-Colonel R. L. Dutt, I.M.S., retired.

E. N. BAKER,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION—No. 2440 Med./P.

The 9th November 1899.—The following Notification by the Agent to the Governor-General in Baluchistan is republished for general information.

E. N. BAKER,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

Dated Quetta, the 16th October 1899.

No. 7848.—In consequence of the temporary transfer of the Plague Segregation Camp from Sharigh to Sibi for the winter, and in exercise of the powers conferred upon him by the Notification in the Foreign Department, No. 809I.A., dated the 1st March 1897, the Agent to the Governor-General is pleased to make the following temporary Regulations under section 2, clause (I), of the Epidemic Diseases Act, 1897:—

I.—All passengers by rail from India, except Government and Railway employés travelling on duty, are forbidden to alight at the following stations:—

Jhat Pat,	Nattáll,	Lindsay,
Temple Dera,	Bell Pat,	Mithri,

except with the written permission of the Political Agent, Assistant Political Agent, or Extra Assistant Commissioner, Sibi.

II.—No railway tickets to Sibi and beyond shall be issued from the stations mentioned in paragraph I above except to persons possessing the written permission of the Assistant Political Agent, Sibi, or such other officer as may be specially authorised to grant such permission.

III.—In the absence of special permission to the contrary, all passengers from India will be required to undergo medical inspection at Sibi before they are allowed to enter Kalat territory, or proceed on their journey by railway or otherwise.

This Office Notification No. 2748, dated the 8th April 1899, is hereby cancelled.

By order,

R. BULLER HUGHES,

First Asst. to the Agent to the Governor-General in Baluchistan.

NOTIFICATION—No. 533 $\frac{T.}{P.}$

The 10th November 1899.—It is hereby notified for general information that all applications from private individuals resident in this province for supplies of M. Haffkine's plague prophylactic fluid from the Plague Research Laboratory at Bombay must be submitted to the Inspector-General of Civil Hospitals, Bengal.

E. N. BAKER,

Offg. Secy. to the Govt. of Bengal.

NOTIFICATION—No. 2446 $\frac{\text{Medl.}}{\text{P}}$

The 12th November 1899.—The following notification by the Government of India in the Home Department is republished for general information.

E. N. BAKER,

Offg. Secy. to the Govt. of Bengal.

No. 3053, dated Calcutta, the 3rd November 1899.

NOTIFICATION—By the Government of India, Home Department.

WHEREAS the Governor-General in Council is satisfied that there is a danger of an outbreak of dangerous epidemic disease at Ajudhia in the Faizabad district of the North-Western Provinces and Oudh if pilgrims or other persons from the Salem district of the Madras Presidency, the Bombay Presidency (including Sind), Calcutta and the Saran district in Bengal, the Hoshiarpur and Jullundur districts of the Punjab, the Nagpur district of the Central Provinces, and the Hyderabad, Baroda and Mysore States are permitted to assemble at that place on the occasion of the ensuing Katki fair:

In exercise of the powers conferred by section 2, sub-section (*1*) of the Epidemic Diseases Act (III of 1897), the Governor-General in Council is pleased to direct that no tickets to travel by railway to the stations of Faizabad, Ajudhia, Ajudhia Ghât, Ranapali and Darshanagar on the Oudh and Rohilkhand Railway, and Lakarmandi, Katra and Nawabganj on the Bengal and North-Western Railway, shall be sold from the 9th to the 23rd November 1899 (both days inclusive) within the Salem district of the Madras Presidency, the Bombay Presidency (including Sind), Calcutta and the Saran district in Bengal, the Hoshiarpur and Jullundur districts of the Punjab, the Nagpur district of the Central Provinces, and the Hyderabad, Baroda and Mysore States to any pilgrim or other person intending or believed to be intending to proceed on pilgrimage to the Katki fair at Ajudhia.

NOTIFICATION—No. 558 $\frac{T}{P}$.

The 13th November 1899.—The following notifications issued by the Government of Madras, prohibiting pilgrimage from plague-infected areas to the ensuing Vaikunta Ekadasi festival in the Trichinopoly district, are republished for general information.

E. N. BAKER,

Offg. Secy. to the Govt. of Bengal.

No. 892, dated Fort St. George, the 31st October 1899.

NOTIFICATION—By the Government of Madras, Local and Municipal Dept.

WHEREAS His Excellency the Governor of Fort St. George in Council is satisfied that there is danger of an outbreak of plague at Trichinopoly and Srirangam in the Trichinopoly district, if persons from the Salem district, the States of Mysore and Hyderabad, the Bombay Presidency, the City of Calcutta and other plague-infected parts are permitted to visit those towns on the occasion of the ensuing Vaikunta Ekadasi festival:

In exercise of the powers delegated to him under the Epidemic Diseases Act, 1897, His Excellency the Governor in Council prohibits the attendance at the said festival from the 23rd November to the 23rd December 1899, both days inclusive, of persons from the places

mentioned above, and directs that between the said dates no tickets to travel by railway shall be issued within the Salem district to the railway stations of Elamanur, Trichinopoly Fort, Trichinopoly Junction and Tiruverumbur on the South Indian Railway to any person intending or believed to be intending to attend the festival. All persons proceeding to the festival in contravention of this notification will be turned back.

No. 893, dated Fort St. George, the 31st October 1899.

NOTIFICATION—By the Government of Madras, Local and Municipal Dept.

WHEREAS His Excellency the Governor of Fort St. George in Council is satisfied that there is danger of an outbreak of plague at Samayapuram in the Trichinopoly district, if the annual cattle fair during the Ekadasi festival is permitted to be held at that place:

In exercise of the powers delegated to him under the Epidemic Diseases Act, 1897, His Excellency the Governor in Council hereby prohibits the holding of the said fair.

JUDICIAL DEPARTMENT.

No. 5438A.

No. 1694A.D.—The 8th November 1899.—Mr. F. A. A. Cowley, Executive Engineer, Buxar Division, is vested with the powers of a Magistrate of the third class for the trial of offences mentioned in section 16 of Act V (B.C.) of 1864 and sections 93 to 95 of Act III (B.C.) of 1876.

C. W. BOLTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION—No. 2029J.D.

The 8th November 1899.—The following draft rules (with the forms, schedule and table referred to therein), proposing certain amendments in rules 17 (1), (2) and (3) (*f*) of the rules for the manufacture, possession and sale of explosives, are published, as required by section 18 of the Indian Explosives Act, 1884, and the Notification issued by the Government of India, Home Department, No. 1964, dated the 2nd September 1887, for the information of persons likely to be affected thereby, and notice is hereby given that the draft will be taken into consideration by the Lieutenant-Governor after the 8th day of December 1899.

2. Any objection or suggestion which may be received from any person with respect to the draft rules before that date will be considered by the Lieutenant-Governor.

C. W. BOLTON,
Chief Secy. to the Govt. of Bengal.

DRAFT RULES.

For rule 17 (1) substitute the following:—

"(1) The applicant shall submit to the District Magistrate, or, in a Presidency Town and its suburbs, to the Commissioner of Police, an application on form G, and shall comply with the conditions embodied therein."

Cancel rule 17 (2).

Alter the numbering of rule 17 (3) to 17 (2).

For rule 17 (3) (f) substitute the following:—

"(*f*) On the completion of the inquiry the District Magistrate or Commissioner of Police shall forward the application and draft license with his recommendation to the Local Government. The Local Government shall then refer the aforesaid documents for approval to the Chief Inspector of Explosives, who will forward to the applicant a form H showing the distances which should, in his opinion, be kept clear round the magazine. The form shall then be returned with the third column duly filled in by the applicant to the Chief Inspector of Explosives, who will submit it to the Local Government with his recommendation, and, if he recommends that a license be granted, a draft license accompanied by a schedule A showing the distances which, after considering any representation made by the applicant in returning the form to him, he thinks should be kept clear round the magazine. The Local Government may thereupon grant the license applied for, either in accordance with the recommendations of the District Magistrate or Commissioner of Police or Chief Inspector of Explosives, or with the additions of any additional restrictions and precautions as may be deemed proper or may refuse such license. The table of distances which will ordinarily be followed is attached to these rules."

SCHEDULE A.

INDIAN EXPLOSIVES ACT, 1884.

DISTANCES to be maintained between the magazine and other buildings and works: —

From every	Not less than
Room used in connection with the magazine, in pursuance of Rule 28 of the Rules under the Indian Explosives Act, 1884, for the manufacture, possession and sale of explosives	
Workshop used in connection with the magazine, in pursuance of Rule 28A of the Rules under the Indian Explosives Act, 1884, for the manufacture, possession and sale of explosives	
Private railway	
Highway or public footpath	
Open air public meeting place (such as a market)	
Canal or navigable water	
Dock	
River wall or sea wall	
Pier or jetty	
Reservoir or bunded tank	
Room or workshop in connection with another magazine, store, or registered premises	
Any other room or workshop or any shop	
Any other Explosive Magazine or store for explosives	
Furnace, kiln, or chimney	
Public railway	
Dwelling-house, *with* the consent, in writing, of the occupier	
Dwelling-house, *without* such consent	
Factory not belonging to Government	
Church, chapel or hospital	
Public institution or building	
Government building	
Factory or Magazine occupied by Government of India, or any other Department under that Government, *with* the consent, in writing, of the Government of India, or any such Department	
Ditto, *without* such consent	
Viceregal Residence	

Provided that, in the case of any building or work above mentioned which is so screened from the Magazine by the natural features of the ground, or by good and sufficient artificial mounds of earth as not to be visible from any part of such Magazine, the distance assigned above as that to be observed between such building or work and the Magazine may be reduced by one-half:—

Provided also that, in the case of any building or work above mentioned which is so screened from the Magazine by an intervening hill, that a line drawn from any part of such building or work to any part of such Magazine would pass through such hill, the distance assigned by this Schedule as that to be observed between such building and work and the Magazine may be reduced by three-fourths, subject nevertheless to a notification in writing from a Government Inspector, that in his judgment the intervening hill, in respect of which such reduction is claimed, is not of a character to justify such reduction, whereupon this proviso authorising such reduction as aforesaid shall be deemed not to apply in respect of the said building or work.

Form G.

INDIAN EXPLOSIVES ACT, 1884

FORM OF APPLICATION TO THE LOCAL GOVERNMENT FOR A LICENSE FOR A MAGAZINE FOR GUNPOWDER OR OTHER EXPLOSIVE.

The replies to be written in this column.

D. JOSCELYNE,
Secy. to the Govt. of Bengal.

RAILWAY DEPARTMENT.

The 14th November 1899.

No. 202.—Notification.—Whereas it appears to the Lieutenant-Governor of Bengal that land is likely to be required to be taken by Government at the public expense for a public purpose in the districts of Mymensingh and Dacca for the following lines of Railways, viz:—

Line No. 1.—From Mymensingh station on the Dacca Section, Eastern Bengal State Railway, to Netrakona,

Line No. 2.—From points on the above line to Kishorganj and Sherpur, respectively,

Line No. 3.—From the left bank of the Brahmaputra opposite Goalundo to a junction with the Dacca-Mymensingh State Railway in the neighbourhood of Dacca,

notice is hereby given, under the provisions of section 4 of Act I of 1894, that Survey parties are about to take the field for the purpose of making surveys of the proposed lines, and that, in exercise of the powers conferred by the abovementioned section, the Lieutenant-Governor has authorised the Engineers for the time being engaged in the undertakings to enter upon and survey and do all other acts required for the proper execution of their works, as provided or specified in the said section.

No. 203.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for a road diversion in mile 61 of the Hajipur-Katihar extension of the Tirhut State Railway, in the village of Sibpur-Madhurapur, pargana Chye, zilla Bhagalpur, it is hereby declared that for the above purpose a piece of land measuring, more or less, 2 bighas 14 cottahs 10 chitaks of standard measurement, bounded on the—

North—By recently acquired railway land,
West—By ditto ditto ditto,
South and East—By recently acquired railway land and District Board road,

is required within the aforesaid village of Sibpur-Madhurapur.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Land Acquisition Deputy Collector, Hajipur-Katihar Railway.

No. 204.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the Barun-Daltonganj Railway, in the district of Palamau, it is hereby declared that for the above purpose pieces of land measuring 10·93 acres, more or less, and bounded as follows, are required in the villages named in the following schedule of an approximate area in each case as therein stated:—

Spoilbank.—Bounded on the north and south by land of village Gurha and on the east and west by main line land.

Brick-field.—Bounded on the north by main line land, on the south by Koel river, on the west by Dhankai river and on the east by Ghaghua village land.

District.	Tahsil.	Villages.	Area in acres.
1	2	3	4
Palamau ...	Palamau ...	Gurha ...	1·53
		Ghaghua ...	9·40
		Total .	10·93

Mines of coal, ironstone, slate or other minerals lying under the land, except only such parts of the mines and minerals as it may be necessary to dig or carry away or use in the construction of the Railway, are not needed.

This declaration is made, under the provisions of section 6 of Act I of 1894 and section 3, clause (1), Act XVIII of 1885, to all whom it may concern.

A plan of the land may be inspected in the office of the District Engineer, Barun-Daltonganj Railway, at Dehri.

No. 205.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for Barun-Daltonganj Railway in the district of Palamau, it is hereby declared that for the above purpose pieces of land measuring 9·85 acres, more or less, and bounded as follows,

are required in the villages named in the following schedule of an approximate area in each case as therein stated:—

Land for temporary staff quarter.—Bounded on the north by main line land and on the south, east and west by the land of village Rajahra.

Land for brick-field.—Bounded on the north and west by river Durgauti, on the south by river Koel and on the west by the land of village Gaddi.

District.	Tahsil.	Villages.	Area in acres.
1	2	3	4
Palamau ...	Palamau ...	Rajahra ...	3·42
		Gaddi ...	6·43
		Total ...	9·85

Mines of coal, ironstone, slate, or other minerals lying under the land, except only such parts of the mines and minerals as it may be necessary to dig or carry away or use in the construction of the Railway are not needed.

This declaration is made, under the provisions of section 6, Act I of 1894, and section 3 clause (*1*), Act XVIII of 1885, to all whom it may concern.

A plan of the land may be inspected in the office of the District Engineer, Barun-Daltonganj Railway at Dehri.

No. 206.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the Barun-Daltonganj Railway, in the district of Palamau, it is hereby declared that for the above purpose a piece of land measuring 8·76 acres, more or less, bounded on the north by main line land, on the south by the Koel river, on the west by the Dhankai river, and on the east by land of village Ghaghua, is required in the village of Ghaghua, tahsil Palamau.

Mines of coal, ironstone, slate or other minerals lying under the land, except only such parts of the mines and minerals as it may be necessary to dig or carry away or use in the construction of the railway, are not needed.

This declaration is made, under the provisions of section 6, Act I of 1894, and section 3, clause (1), Act XVIII of 1885, to all whom it may concern.

A plan of the land may be inspected in the office of the District Engineer, Barun-Daltonganj Railway, at Dehri.

No. 207.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the Barun-Daltonganj Railway, in the district of Palamau, it is hereby declared that for the above purpose a piece of land measuring 17·37 acres, more or less, bounded on the north and west by river Durgauti and land of village Gaddi, on the south by river Koel and on the east by the land of village Gaddi, is required in the village of Gaddi, tahsil Palamau.

Mines of coal, ironstone, slate or other minerals lying under the land, except only such parts of the mines and minerals as it may be necessary to dig or carry away or use in the construction of the Railway are not needed.

This declaration is made under the provisions of section 6, Act I of 1894, and section 3, clause (1), Act XVIII of 1885, to all whom it may concern.

A plan of the land may be inspected in the office of the District Engineer, Barun-Daltonganj Railway at Dehri.

D. JOSCELYNE,
Secy. to the Govt. of Bengal.

MARINE DEPARTMENT.

The 13th November 1899.

No. 199Marine.—Under the provisions of section 9 of Act IV (B.C.) of 1887, the Lieutenant-Governor is pleased to appoint Mr. F. R. S. Collier, Commissioner of the Chittagong Division, to be a Commissioner of the Port of Chittagong, *vice* Mr. R. Carstairs, resigned, with effect from the 20th October 1899.

Mr. Collier is also appointed, under section 10 of the Act, to be the Chairman of the Commissioners.

R. B. BUCKLEY,
Secy. to the Govt. of Bengal.

The 14th November 1899.

No. 200Marine.—In exercise of the powers conferred by section 5 of the Indian Explosives Act, 1884, the Lieutenant-Governor proposes to make the following addition to Rule 6 of the Rules for regulating the transport and importation of explosives in the Port of Calcutta, issued under notification No 25Marine, dated the 2nd February 1897, in supersession of the addition made under Notification No. 135Marine, dated the 15th July 1899. The addition to the rule will be taken into consideration on the expiry of a month from the date of the publication of this notification in the Gazette, and the Lieutenant-Governor will be glad to consider any suggestions or observations which may be made by any person concerning it within that period. The additions are as follows:—

(*a*) The term "safety fuze" means a fuze for blasting which burns and does not explode, and which does not contain its own means of ignition, and which is of such strength and construction, and contains an explosive in such quantity, that the burning of such fuze will not communicate laterally with other like fuzes.

(*b*) The expression "safety cartridges" means cartridges for small-arms of which the case can be extracted from the small-arm after firing, and which are so closed as to prevent any explosion in one cartridge being communicated to other cartridges. The term also includes rifle-calibre machine-gun cartridges if they are of the above description, whether they are for use with machine-guns having chambers identical with those of rifles or with machine-guns which have special chambers.

The maximum gauge at which a small-arm cartridge can be accepted as "safety" is one inch. The following are the gauges of the machine-gun cartridges which may be accepted as "safety":—

·303-inch cordite.
Martini-Henry rifle, solid case.
·45 inch Gardner, Gatling and Nordenfeldt, except Martini-Henry chambered guns.
·4-inch.

Cartridges of larger gauge are not safety cartridges.

R. B. BUCKLEY,
Secy. to the Govt. of Bengal.

SUBORDINATE CIVIL SERVICE.

No. 5439A.

No. 1703A.D.—The 9th November 1899.—Babu Mathura Nath Banerjee, substantive *pro tempore* Sub-Deputy Collector, Godda, Sonthal Parganas, on leave, is transferred to the Jamtara subdivision of the same district.

C. W. BOLTON,
Chief Secy. to the Govt. of Bengal.

REGISTRATION DEPARTMENT.

NOTIFICATION—No. 787P.D.

The 7th November 1899.—The Lieutenant-Governor sanctions the transfer of the outpost of Kuchaikate from the jurisdiction of the Registration Sub-District of Mirganj, in the district of Saran, to that of the Registration Sub-District of Gopalganj, in the same district. The jurisdiction of the Registration Sub-District of Mirganj will henceforth be restricted to thana Baragaon (Mirganj), excluding the outpost of Kuchaikate, and the jurisdiction of the Registration Sub-District of Gopalganj will henceforth comprise thana Gopalganj and the outposts of Barouli and Kuchaikate. This notification will take effect on and from the 20th November 1899.

C. W. BOLTON,
Chief Secy. to the Govt. of Bengal.

JAIL DEPARTMENT.

No. 11194, dated Calcutta, the 7th November 1899.—Assistant Surgeon Probodh Chundra Bose held medical charge of the Midnapore Central Jail from the forenoon of the 11th September last to the afternoon of the 17th October 1899.

NOTIFICATION.

No. 645T.M.—The 11th November 1899.—It is hereby notified that, under section 27 of the Bengal Municipal Act, III of 1884, as modified up to 1st November 1896, the Lieutenant-Governor is pleased to appoint Mr. D. O'B. Moore to be a Commissioner of the Titagar Municipality, in the district of the 24-Parganas, *vice* Babu Mohim Chandra Sarkar.

E. N. BAKER,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 652T.M.—The 10th November 1899.—It is hereby notified for general information that, under the provisions of clause (*d*) of section 9 of the Bengal Municipal Act, III of 1884, as amended up to November 1896, and on the recommendation of the Commissioners of the South Barrackpore Municipality, made at a meeting, the Lieutenant-Governor intends, unless good grounds are shown to the contrary within six weeks from the date of the publication of this notification within the area affected by it, to subdivide the said Municipality into two Municipalities by a line along the Panchanantala Road, Bagdipara Road, Barrackpore Trunk Road, Ekford Road, then along the Railway up to the Kharda khal, then along that khal until the eastern boundary of the Municipality is reached. The two Municipalities will be called respectively the "South Barrackpore Municipality" and the "Panihati Municipality," and their boundaries will be as follows:—

I.—South Barrackpore Municipality.

On the North—Mauzas Palta, Ichapur and Bautanpur.

On the South—Panchanantala Road continued by Bagdipara Road and Madhusudan Sircar's Garden Road up to the Barrackpore Grand Trunk Road, thence to the south along the Grand Trunk Road down to Ekford Road, thence to the east along Ekford Road up to the Eastern Bengal State Railway line, thence to the north along the railway line up to Kharda khal, and thence along Kharda khal to the east.

On the East—Mauzas Jafferpur and Mohanpur, *alias* Talentiah, Chak Katalia, mauza Ruiya, kismat Patilia and mauza Kerulia.

On the West—The Barrackpore Cantonment, the Hooghly river, down to the mouth of the Dankuna (Titagur) khal, thence along that khal up to the Grand Trunk Road, thence to the south along the Grand Trunk Road down to Kharda khal, thence to the west along Kharda khal down to the river Hooghly, thence the Hooghly river to the south.

II.—Panihati Municipality.

On the North—Same as the southern boundary of the South Barrackpore Municipality.

On the South—The Kamarhaty Municipality.

On the East—Mauzas Kasimpore, Jotenarain, Karna, Moheshpotha, Bilkand, Jugbaria, Muragacha and Tehgurri.

On the West—The river Hooghly.

E. N. BAKER,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 660T.M.—The 11th November 1899.—It is hereby notified that, under section 23 of the Bengal Municipal Act, III of 1884, as modified up to 1st November 1896, the Lieutenant-Governor is pleased to appoint Mr. R. S. Highet to be the Chairman of the Asansol Municipality, in the district of Burdwan.

E. N. BAKER,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 663T.M.—The 11th November 1899.—It is hereby notified that, under section 17 of the Bengal Municipal Act, III of 1884, as modified up to 1st November 1896, the Lieutenant-Governor is pleased to appoint the following gentlemen to be Commissioners of the Asansol Municipality, in the district of Burdwan:—

Mr. C. W. Eborall.
„ S. W. Jewell.
„ M. C G. Young.
Dr. H. H. Bathe.
Mr. S. Heslop.
„ C. E. Robbins.
Babu Shashi Bhuson Raha.
„ Janaki Nath Mukerjee.
Babu Gopal Chandra Mittra.

E. N. BAKER,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 664T.M.—The 11th November 1899.—In exercise of the power conferred by section 17, sub-section (*1*), of the Cantonments Act, 1889 (XIII of 1889), and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor of Bengal is pleased to impose in the Cantonment of Dinapore a scavenging-tax on the annual value of holdings, to be levied at the following rates, namely:—

Annual value of holding.	Rate of assessment.
1	2
Rs. Rs.	Rs. A.
From 1 to 25	0 2 per rupee of annual value.
„ 26 to 50	4 0 on the holding.
„ 51 to 100	5 0 ditto.
„ 101 to 200	6 0 ditto.
„ 201 to 300	7 0 ditto.
„ 301 to 400	8 0 ditto.
„ 401 to 500	9 0 ditto.
„ 501 to 600	10 0 ditto.
„ 601 to 700	11 0 ditto.
„ 701 to 800	12 0 ditto.
„ 801 to 1,000	14 0 ditto.
„ 1,001 to 2,000	18 0 ditto.

Provided that the tax shall not exceed three rupees *per annum* where the valuation of the holding does not exceed twenty-five rupees:

Provided, also, that houses occupied by Europeans shall be assessed to the tax at the rate of four rupees per cent. on their annual value, and that the tax so assessed shall not exceed four hundred and eighty rupees on any one house.

E. N. BAKER,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 665T.M.—The 11th November 1899.—In exercise of the power conferred by section 17, sub-section (2), of the Cantonments Act, 1889 (XIII of 1889), and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor of Bengal is pleased to apply for the assessment and recovery of the scavenging-tax imposed in the Cantonment of Dinapore by Notification No. 664T.M., dated the 11th November 1899, the following provisions of Part IX of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), in the adapted form hereinafter set forth:—

Recovery.
[Bengal Act III of 1884, s. 322.]

1. (*1*) The scavenging tax shall be payable in quarterly instalments by the occupier for the time being of the holding, or by the owner thereof, as the Cantonment Committee may direct, and shall be recoverable in the manner prescribed for the recovery of the rate on the value of holdings in the Bengal Municipal Act, 1884.

(*2*) Every instalment of the said tax shall be deemed to be due on the first day of the quarter in respect of which it is payable.

(*3*) The net proceeds of the said tax, after deducting a proportionate share (to be fixed by the Cantonment Committee in meeting) of the cost of the staff employed in collecting and in supervising the collection of the fees and in keeping and auditing the accounts thereof, shall be applied to the maintenance of the conservancy establishment.

(4) A list of the persons liable to pay the said tax shall be prepared, and a copy shall be posted up once a year in a conspicuous position at the office of the Cantonment Committee and in such other places as the Cantonment Committee may direct; and a public proclamation shall be made throughout the Cantonment by beat of drum notifying that such copy has been so posted up and that the original is open to inspection in such office:

Provided that no such tax shall be levied in respect of any shop or place of business which does not contain any privies or cess-pools, if the tax is levied from the occupier thereof in respect of his dwelling-house within the Cantonment.

In certain cases fee may be levied from owner, who may recover from occupier.
[Bengal Act III of 1884, s. 323.]

2. Where the tax is levied by the Cantonment Committee from the owner of a holding, the owner may recover it from the occupier (if any), or where there are more than one person occupying the holding in severalty, may recover from each occupier such sum as shall bear to the entire amount of the tax so levied the same proportion as the value of the part of the holding in the occupation of such person bears to the entire value of the holding.

Owner may recover fees from occupier as rent.
[Bengal Act III of 1884, s. 324.]

3. Every owner who, under the provisions of the last foregoing section, is entitled to recover any sum from the occupier of any part of a holding, shall have for the recovery of the said sum all such and the same remedies, powers, rights and authorities as if such sum were rent payable to him by the occupier in respect of such portion of the holding as may be in his occupation.

Cantonment Committee may compound with occupier or owner of certain premises for fee.
[Bengal Act III of 1884, s. 325.]

4. The Cantonment Committee at their discretion may compound, for any period not exceeding one year, with any occupier or owner as aforesaid of any railway premises or of any premises used as a factory, dockyard, workshop, cooly depôt, school, hospital, market, court-house or other similar place for a certain sum to be paid by such occupier or owner in lieu of the said tax.

E. N. BAKER,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 676T.M.—The 11th November 1899.—It is hereby notified that, under section 59 of the Bengal Municipal Act, III of 1884, as modified up to 1st November 1896, the Lieutenant-Governor approves the election by the Commissioners of the Azimganj Municipality, in the district of Murshidabad, of Rai Mani Lal Nahar Bahadur to be their Chairman.

E. N. BAKER,

LAND SALE NOTICES.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Faridpur, will be put up to sale at the Faridpur Collectorate on the 22nd December 1899, corresponding with 8th Pous 1306 (B.S.)

The purchasers will be subject to the following conditions of sale :—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of the estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Faridpur Collectorate, the 7th November 1899. K. C. DE, Collector.

Notice under Rule 19, Section II.

NOTICE is hereby given that the lease of the land specified in the Schedule hereunto annexed, and of which the plan is open to inspection at the office of the Commissioner of the Sundarbans, has been applied for by Captain C. G. B. Jonson, and will be sold at 12 o'clock noon on the 15th February 1900, Thursday (the 4th Falgoon 1306 B.S.), at the Sundarbans Commissioner's Office at Alipore, unless meantime the sale is stopped or postponed in consequence of claims or objections under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands), or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below, as well as to the general terms annexed to the rules for the sale of leases of waste lands in the Sundarbans of the 24-Parganas Khulna, and Backergunge, dated 12th November 1879 :—

Conditions.

That the land shall be subject to all existing rights of way and water and other easements.

That the right of using all streams and channels in any way navigable shall be reserved to the public, as also the use of a towpath, not less than 25 feet in width, on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances, or which may be used on the land; but for wood and timber exported for sale, a duty shall be levied at such rate and in such manner as may from time to time be prescribed by Government.

That the Government reserves to itself the right to all minerals on the land, together with such rights of way and other reasonable facilities as may be requisite for working, getting, and carrying away such minerals. It also retains its proprietary right in the land, and only confers on the lessee an occupancy right, which shall be hereditary and transferable.

Schedule.

Khulna Collectorate, the 9th November 1899. S. C. MUKHERJEE, Collector.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Midnapore will be put up to sale at the Midnapore Collectorate on Wednesday, the 10th January 1900, corresponding with the 27th of Pous 1806 B.S. and 28th of Pous 1807 A.S.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—Each estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchasers of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them, subject to the revenue fixed in perpetuity.

2nd.—The sales to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the date of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisements, as in the case of original sale.

By order of the Directors,

E. J. BIRCH, Chief Accountant.

A. M. LINDSAY,

Offg. Secretary and Treasurer.

BANK OF BENGAL,
Calcutta, the 9th November 1899.

Rate for Demand Loans, 7 per cent.
Percentage 37·1.

(829—1.)

Pure Sulphate of Quinine.

MANUFACTURED AT THE BENGAL GOVERNMENT CINCHONA PLANTATION.

FROM 1st April 1898 the price of this quinine will be as follows:—

1 Pound tin Rs. 17, or, post free, Rs. 17-12.
½ " " " 8-8 " " " " 9.
¼ " " " 4-4 " " " " 4-12.

Analysis shows this quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloids, cinchonine and cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Sibpur, near Calcutta.

বঙ্গদেশের গবর্ণমেণ্টের সিন্‌কোনা আবাদে প্রস্তুত বিশুদ্ধ সল্‌ফেট অফ কুইনাইন।

১৮৯৮ সালের ১লা এপ্রিল হইতে এই কুইনাইনের নিম্নলিখিত মূল্য হইবে, যথা—

১ এক পৌণ্ড টিন ১৭, বা ডাক মাশুল সমেত ১৭৸৹
॥ আধ " " ৮॥৹ " " " " ৯)
। পিকি " " ৪।৹ " " " " ৪৸৹

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধরূপে প্রস্তুত করা হইয়াছে। এবং ইহা যে সিন্‌কোনাইন ও সিন্‌কোনীডাইন নামক অপকৃষ্ট ক্ষারের সহিত ইচ্ছাপূর্ব্বক মিশান হয় নাই তাহার গ্যারাণ্টী দেওয়া যাইতেছে। ইহা নগদ মূল্যে কেবল গবর্ণমেণ্টের কর্ম্মচারিগণের নিকট বিক্রয় করা যাইবে এবং কলিকাতার নিকটস্থ শিবপুরের কোম্পানির বাগানের স্থপারিণ্টেণ্ডেণ্টের নিকট পাওয়া যাইতে পারিবে।

Cinchona Febrifuge.

Cinchona Febrifuge can be purchased by all Government officers and by any one taking *six pounds* at a time from the Superintendent, Botanic Garden, Calcutta, at the following rates—per four-ounce tin, *Rs. 2, ans. 8*; per eight-ounce tin, *Rs. 5*; per pound tin, *Rs. 10*. The general public can be supplied by the Superintendent, Botanic Garden, *for Cash only* at the undernoted rates—per four-ounce tin, *Rs. 3*; per eight-ounce tin. *Rs. 6*; per pound tin, *Rs. 12*. This medicine is also sold by the principal European and native druggists in Calcutta. Postage four annas per *4oz.* tin, eight annas per *8oz.* tin, and twelve annas per pound tin, in addition to the foregoing rates.

R. E. VAUGHAN, Capt., Executive Commst. Officer.

Executive Commissariat Office, Cawnpore, the 7th November 1899.

Raneegunge Coal Association, Limited.

SPECIAL RESOLUTIONS

Passed 9th October 1899; Confirmed 30th October 1899.

AT an Extraordinary General Meeting of the Raneegunge Coal Association, Limited, duly convened and held at 4, Fairlie Place, Calcutta, on the 9th day of October 1899, the subjoined special Resolutions were duly passed; and at a subsequent Extraordinary General Meeting of the said Company, also duly convened and held at the same place on the 30th day of October 1899, the subjoined special Resolutions were duly confirmed.

RESOLUTIONS.

(1) That it is desirable to reconstruct the Company, and accordingly that the Company be wound up voluntarily, and that Messrs. W. H. Cheetham and C. C. Kilburn, both of Calcutta, be and they are hereby appointed jointly and severally Liquidators for the purposes of such winding up at the fixed remuneration of Rs. 500 each.

(2) That the said Liquidators be and they are hereby authorised to make or enter into any such sale or arrangement as is contemplated by section 204 of the Indian Companies Act, 1882, and in particular to enter into an agreement with a new Company to be registered under the Indian Companies Acts, 1882, and to be named the Raneegunge Coal Association, Limited, having a Memorandum and Articles of Association which have already been prepared with the privity and approval of the Directors of this Company for the sale to that Company of this Company's undertaking, business, and assets with effect as on and from the 1st day of October 1899, and upon the terms set forth in the draft agreement next hereinafter mentioned.

(3) That the draft agreement submitted to this meeting and expressed to be made between this Company and its Liquidators of the one part and the said new Company of the other part be and the same is hereby approved, and that the said Liquidators or either of them be and they or he are and is hereby authorised, pursuant to the said section 204 of the Indian Companies Act, to enter into an agreement with such new Company (when incorporated) in terms of the said draft and to carry the same into effect with such (if any) modifications as they or he think expedient.

W. H. CHEETHAM }
C. C. KILBURN } Liquidators.

JOHN OWENS, Presidency Postmaster.

General Post Office, the 14th November 1899.

POSTAL NOTICE.

PARCELS may now be sent from India to Uganda at the same rates of postage and under the same conditions as parcels for British East Africa. Such parcels should, if possible, be addressed to the care of an agent at Mombasa in British East Africa, but will be accepted for transmission even if addressed simply to Uganda. For the conveyance from Mombasa to destination, a charge of one rupee per pound will be recovered by the Post Office of British East Africa from the addressee or from his agent at Mombasa.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series, *including postage* (Inland rate) Rs. 22-8
Ditto ditto (Overland rate) Rs. 28.

	Without postage. Rs.	A.	P.	With postage. Rs.	A.	P.
For the Calcutta Series	10	0	0	12	8	0
" each of the Madras, Bombay, and Allahabad Series	6	0	0	7	0	0
" a part of the Calcutta Series purchased separately (*inclusive of postage in India*)	......			2	0	0
" a part of each of the Madras, Bombay, and Allahabad Series purchased separately (*inclusive of postage in India*)	......			1	0	0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies wil be supplied to subscribers when required in place of copies lost in transit:—

	For town. Rs.	A.	P.	For mufassal. Rs.	A.	P.
For the Calcutta Series, per copy ...	0	8	9	0	10	3
" each of the Madras, Bombay, and Allahbad Series, per copy ..	0	5	3	0	5	9
" the Calcutta Series. For the year	7	2	6	8	6	3
" each of the Madras, Bombay and Allahabad Series. For the year	4	4	6	4	11	3

Persons desiring to subscribe for or purchase the Report should apply to—

Superintendent, Government Press, Madras.
The Superintendent, Government Central Press, Bombay.
" Curator of Government Books, North-Western Provinces and Oudh.
Officer in charge, Bengal Secretariat Book Depôt.

Orders and subscriptions for 1899 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.

ADVERTISEMENTS will be received for publication on the papers of the Indian Law Reports, Calcutta Series, at the following rates, payable in advance—

	One page.	Half page.	Quarter page.
For one issue ...	Rs. 20	Rs. 14	Rs. 9
" three issues ...	" 55	" 36	" 24
" six " ...	" 100	" 68	" 45
" nine " ...	" 145	" 96	" 64
" twelve " ...	" 180	" 120	" 80

SEVERAL volumes of the BENGAL LAW REPORTS, from August 1868 to December 1875, and FULL BENCH RULINGS, Parts I and II, are available at the following rates:—

	Without postage. Rs.	A.	P.	With postage. Rs.	A.	P.

APPENDIX TO

The Calcutta Gazette.

WEDNESDAY, NOVEMBER 15, 1899.

NOTICES TO MARINERS.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 218.

[First Publication.]

JAPAN—KIUSIU, NORTH COAST.

Sunken wreck in Genkai Nada removed.

WITH reference to Notice to Mariners No. 121, dated the 10th June 1899, issued by this office, the British Admiralty has given further notice (No. 631 of 1899) that the sunken vessel in Genkai Nada, with Genkai sima bearing S.E., and Hime sima S.S.W. ⅝ W., has been removed.

Approximate position, lat. 33° 45′ 0″ N., long. 130° 9′ 50″ E.

This Notice affects the following Admiralty Charts:—Western Coasts of Kiusiu and Nipon, No. 358; Hirado-no-Seto to Simonoseki strait, No. 127.

P. J. FALLE, *Comdr.*, R.I.M.,
Port Officer of Calcutta.

Published for general information.

Asst. Secy., Marine Department.

CALCUTTA, *the 10th November 1899.*

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 219.

[First Publication.]

JAPAN—NIPON, NORTH-EAST COAST.

Rocks found—Wreck being removed.

THE British Admiralty has given Notice (No 637 of 1899) that during the examination of a rock on which the steamer *Nagoyamaru* had struck, the following reefs were found:—

1. A reef, with 2¼ fathoms over it, situated with Hajikami dake bearing S. 59° W., distant 5$\frac{8}{10}$ miles, and Same point N. 38° W.
2. A reef, with 1¾ fathoms over it, situated with Hajikami dake bearing S. 69° W., distant 6$\frac{1}{10}$ miles, and Same point N. 38° W.

3. Wreck rock, which breaks at low water when the sea is smooth, but the native fishermen state that it never uncovers, lies with Hajikami dake bearing S. 74° W., distant 6 2/10 miles, and Same point N. 38° W.

Depths of from 4 to 7 fathoms, rocky bottom, are found between Wreck rock and the above-mentioned 2½-fathoms reef.

The steamer which lies sunk on Wreck rock is in course of removal.

Approximate position, Hajikami dake, lat. 40° 25′ N., long 141° 34′ E.

(Variation 5° Westerly in 1899.)

CONTENTS.

Abstract of the Proceedings of the Council of the Lieutenant-Governor of Bengal, assembled under the provisions of the Indian Councils Acts, 1861 and 1892.

THE Council met in the Council Chamber on Saturday, the 9th September, 1899.

Present:

The Hon'ble SIR JOHN WOODBURN, K.C.S.I., Lieutenant-Governor of Bengal, *presiding.*
The Hon'ble MR. W. B. OLDHAM, C.I.E.
The Hon'ble MR. R. B. BUCKLEY.
The Hon'ble MR. C. W. BOLTON, C.S.I.
The Hon'ble MR. E. N. BAKER.
The Hon'ble RAI DURGA GATI BANERJEA, BAHADUR, C.I.E.
The Hon'ble MR. C. E. BUCKLAND, C.I.E.
The Hon'ble MR. F. F. HANDLEY.
The Hon'ble MR. F. A. SLACK.
The Hon'ble KHAN BAHADUR MAULVI DELAWAR HOSAIN AHMED.
The Hon'ble BABU JATRA MOHAN SEN.
The Hon'ble MR. T. W. SPINK.
The Hon'ble RAJA SHASHI SHAKHARESWAR ROY BAHADUR, OF TAHIRPUR.
The Hon'ble SAHIBZADA MAHOMED BAKHTYAR SHAH, C.I.E.
The Hon'ble MR. D. F. MACKENZIE.
The Hon'ble MR. J. G. APCAR.
The Hon'ble DR. ASUTOSH MUKHOPADHYAYA, M.A., D.L., F.R.A.S., F.R.S.E.
The Hon'ble BABU BOIKANTA NATH SEN.
The Hon'ble BABU SURENDRANATH BANERJEE.

QUESTIONS AND ANSWERS.

ALLEGED ILLEGAL SENTENCE.

The Hon'ble BABU SURENDRANATH BANERJEE asked :—

Has the attention of the Government been drawn to the case of one Hazle, who was convicted in May last by the Sub-divisional Officer of Raniganj of grievous hurt for having assaulted an old khansama named Hossein Buksh and knocked out two of his teeth, and was sentenced to a fine of sixty rupees, or in default to suffer rigorous imprisonment for six weeks? Did the Magistrate in his judgment say: "I consider that Hazle committed a cowardly assault on a defenceless old man, and that he should not be lightly punished?" Is not a sentence of fine illegal upon conviction in a case of grievous hurt under section 325, Indian Penal Code, which makes it obligatory upon the Magistrate to inflict a sentence of imprisonment? Having regard to the character of the assault committed by Hazle, which has been described by the Magistrate as "a cowardly assault upon a defenceless old man," and the obvious illegality of the sentence of fine, will the Government be pleased to take such action as the justice of the case may demand?

The Hon'ble MR. BOLTON replied:—

"The attention of the Government was drawn to the case mentioned by the Hon'ble Member. The conviction and sentence, and the law as to the punishment for the offence of grievous hurt, are correctly stated in the question. The passage quoted also appears in the Magistrate's judgment. The accused was an Eurasian gunner-guard of the East Indian Railway. The Magistrate thought a fine of Rs. 60 adequate, and awarded Rs. 25 to the complainant as compensation, besides a small sum for costs. The character of the punishment, it is evident, was carefully considered by the Magistrate, with full regard to the circumstances of both the complainant and the accused; it was acquiesced in by the complainant, who could easily have moved the Magistrate of the district in the matter; and probably, therefore, the sentence, which gave him a compensation, was that which satisfied him. In these circumstances the Government did not interfere."

AID TO SANSKRIT, PERSIAN AND ARABIC SCHOOLS.

The Hon'ble RAJA SHASHI SHAKHARESWAR ROY BAHADUR, OF TAHIRPUR, asked :—

Will the Government be pleased to lay on the table a short statement showing the total number of indigenous Sanskrit Grammar schools and the total number of indigenous Persian or Arabic schools that are receiving pecuniary help in any shape from the funds at the disposal of Local and Municipal Boards in Bengal and the amount of aid received from Local and Municipal Boards in Bengal by each of these two classes of indigenous schools during the last three years?

The Hon'ble MR. SLACK replied :—

"No returns giving the details asked by the Hon'ble Member are furnished to Government."

ENCOURAGEMENT TO INDIGENOUS SCHOOLS.

The Hon'ble RAJA SHASHI SHAKHARESWAR ROY BAHADUR, OF TAHIRPUR, asked:—

Will the Government be pleased to state how far, in its opinion, the Local and Municipal Boards are, in the matter of affording encouragement to the indigenous Sanskrit and Persian

"That where Municipal and Local Boards exist, the registration, supervision and encouragement of indigenous elementary schools, whether aided or unaided, be entrusted to such Boards; provided that Boards shall not interfere in any way with such schools as do not desire to receive aid or to be subject to the supervision of the Boards."

Grammar Schools of this Province, carrying out in practice the recommendations contained in paragraph 675 of the Report of the Education Commission, extracts from which, for convenience of easy reference, I beg to quote in the margin?

"That the aid given to elementary indigenous schools be a charge against the funds at the disposal of Local and Municipal Boards, where such exist; and that every indigenous school, which is registered for aid, receive from such boards the aid to which it is entitled under the rules."

"That the officers of the Education Department keep lists of all elementary indigenous schools, and assist the Boards in selecting schools to be registered for aid, and in securing a proportionate provision of education for all classes of the community."

The Hon'ble MR. SLACK replied:—

"All the information on the matter to which the Hon'ble Member alludes in his question is contained in the annual reports submitted to Government by the Director of Public Instruction. A copy of the latest of these reports, *viz.*, that for the year 1897-98, has been given to the Hon'ble Member, whose attention is invited to paragraphs 220 to 228 of the report. The Government will welcome from the Hon'ble Member any information he has in regard to the contributions to these schools, and will consider with him whether any action is necessary."

THE CIVIL COURTS AMINS BILL.

The Hon'ble MR. BOLTON introduced the Bill to repeal the Civil Courts Amins Act, 1856, in Bengal, and moved that it be read in Council. He said:—

"I beg now to introduce the Bill to repeal the Civil Courts Amins Act of 1856, in Bengal. In asking for leave at the last meeting of the Council I explained the reasons which have led the Government to the conclusion that it is desirable to abolish the system of Civil Court Amins and leave the Courts free to select Commissioners for local inquiries under section 392 of the Code of Civil Procedure. I stated that the Commissioners would be selected from the junior Pleaders and other competent persons in the districts; and rules as to the remuneration of such Commissioners will, no doubt, be issued by the High Court. The existing Amins will not be prejudiced by the repeal of the Act. They will retain their appointments, and be employed on such duties as may be assigned to them, including local inquiries in districts in which there may not be a sufficient number of competent persons for appointment as Commissioners. The present measure meets, I believe, with general approval, and, as it merely repeals the Act in Bengal, with the proviso that the appointment and pay of the existing Amins are saved, I do not propose to move that it be referred to a Select Committee, unless any Member of the Council desires that the reference should be made. The Bill will be published in the next Gazette, and I shall take an early opportunity of moving that it be considered in Council and passed. Any suggestions with regard to the working of the new system which any Hon'ble Members or outsiders may wish to offer will be gratefully received by the Government and fully considered."

The Hon'ble BABU BOIKANTA NATH SEN said:—"With your Honour's permission I beg to offer a few remarks with regard to this Bill. As I have just come from the mufassal, and the mufassal people know a good deal of the working of the Civil Courts Amins Act, and as my experience extends over a period of 35 years, I happen to know something about the working of this Act. After the Civil Courts Amins Act was passed, came in the Civil Procedure Code of 1859, that is, three years after that. Provisions were made in the Civil Procedure Code of 1859 for the appointment of Commissioners to hold local investigations, adjust accounts and effect partitions. Since then, the Civil Procedure Code has been amended several times. We have the authority in the Local Government to frame rules as to the qualification of Commissioners to be appointed for executing such commissions. Practically, now-a-days, commissions are issued simply for holding local investigations to Civil Court Amins, and partitions and adjustments of accounts are effected through other agencies. This Bill no doubt is a very short Bill, but its potency should not be judged by its dimensions, because large interests are entrusted to those Commissioners, especially in districts subject to diluvion and alluvion. There can be no possible objection whatsoever to the repeal of this Act; in fact, perhaps many would hail it with joy. But the Government is now attempting,

in order to secure efficiency, to raise the status of the Commissioners who are to be employed for such purposes. I would only venture to submit that, after the repeal of this Act, the Government will have to frame further rules under section 392, Civil Procedure Code. Perhaps it would not be out of place if I were to suggest, as I consider these rules will have to be looked upon as a mere supplement to this Act, that the Commissioners be selected from the junior members of the Bar, being sufficiently qualified; and a certificate of some sort may be enjoined upon them to be produced. Of course it is not for me to suggest in what particular way the certificate is to be obtained. A legal knowledge of sifting evidence is absolutely necessary; as these Commissioners will hold local investigations, they have to sift evidence on examination of witnesses. Then, if it be enjoined further that service as a Commissioner for holding local investigations in a certain number of cases be a condition precedent to the appointment of a Munsif, I submit that it would be raising the status of the Commissioners, and would at the same time be making provision for securing greater efficiency in respect of surveying works by the Judicial Officers as well. I do not mean to make any reflection on any one, but I do mean to say that even amongst the present Munsifs and Subordinate Judges only some are acquainted with surveying and many of them find difficulties in disposing of cases in which there are complicated questions of surveys and maps. In the course of 25 years, perhaps, if these posts of Munsifs and Subordinate Judges are filled up by these men, then I daresay there would be efficiency secured, and if the expectation be held out to these junior members of the Bar, that that would be a sort of stepping-stone to get the appointment of Munsif, it would have a moral influence over them, and it would be safeguarding against dishonesty. I submit therefore that if, in framing the rules which will have to be framed, these matters be considered, then no doubt proper measures would be taken for securing efficiency and honesty. There is also another aspect of the question which I would venture to submit. The Bengal Tenancy Act also contemplates local investigations. In the case of determination of the incidence of a tenancy, and in the case of a demand for enhancement of rent on the ground of the rate of rent being below the prevailing rate, local investigations are contemplated. If uniformity in the execution of commissions is to be attained, and if I rightly understood from the Hon'ble Member in charge of the Bill that the object is to dispense with paid official agency and that non-official men are to be employed to a certain extent, in that case these Commissions might also be entrusted for execution to these junior members of the Bar; but there is this difficulty, that in the Tenancy Act it is provided that the commission is to be issued to a Revenue-officer. Of course, this would necessitate a modification of the Tenancy Act itself. With these remarks I beg to entirely support this Bill, which ought to be passed without being referred to a Select Committee."

The Hon'ble MR. BOLTON in reply said:—"I am very glad to have heard the remarks made by my hon'ble friend Babu Boikanta Nath Sen. They will be useful in the consideration of the rules which should be passed with regard to the qualifications, especially in surveying, and the remuneration, of the persons employed under section 392 of the Civil Procedure Code. The Hon'ble Member's suggestion that qualification in surveying, as displayed in the carrying out of these local inquiries, should be held to give a claim to junior Pleaders to appointment to Munsifships is also well worthy of consideration. I should myself be disposed to put that suggestion in this way, that these local inquiries should be entrusted to the junior Pleaders who are already registered as candidates for Munsifships, rather than that junior Pleaders who have been employed on these inquiries should have a claim to be registered as candidates for Munsifships. We shall, after the repeal of the Act, have to communicate with the High Court with regard to the rules to be framed, and the present suggestion will be communicated to them for consideration and advice. The second suggestion made by the Hon'ble Member was that these junior Pleaders might be employed in inquiries under the Bengal Tenancy Act; but he admitted himself that a difficulty exists, inasmuch as the section of the Bengal Tenancy Act which provides for

local inquiries in rent suits specifies the employment of Revenue-officers. Under these circumstances, until that section is amended—and that must form part of an amendment of the Tenancy Act generally,—I fear that no change can be made. Only two years have elapsed since one Chapter of the Tenancy Act was amended, and that was a sufficiently formidable undertaking. The Government will certainly be slow to undertake a general amendment of the Act. The employment of Pleaders in these rent-suit inquiries, which my hon'ble friend Babu Boikanta Nath Sen would like to see introduced, is, therefore, unlikely to be accomplished for some time to come. I now move that the Bill be read in Council."

The Motion was put and agreed to.

The Bill was read accordingly.

THE CALCUTTA MUNICIPAL BILL.

The Hon'ble MR. BAKER moved that the two Reports of the Select Committee on the Calcutta Municipal Bill be taken into consideration, and that the clauses of the Bill be considered in the form recommended by the Select Committee.

The Hon'ble THE PRESIDENT said:—"Before we begin the discussion of the amendments which have been tabled, it may be as well that I should make a short statement on the matter. The main principles of the Bill have been settled by the Council. These are, in essence, four. The first is that there shall be three co-ordinate authorities, the Corporation, the General Committee, and the Chairman. This was settled in the debates of April, 1898, and has been approved by the Government of India. The second is that the Corporation shall consist of 50 members, 25 elected and 25 nominated. This was recommended to us by the Government of India, and accepted by us in our reference to the Select Committee last month. The third is that of the General Committee two-thirds shall be elected by the Corporation in equal proportions by the elected and the nominated Commissioners, and the remaining one-third by the Government. This was recommended to us by the Government of India; it was in line with the adjustment of the General Committee on which the Council decided in April, 1898, and it was accepted at the discussion of last month. The fourth and last is that the powers and functions of the Chairman and also of the General Committee shall be so clearly defined that within the limits of the powers and functions assigned to them their responsibility shall be exclusive and complete, and they shall not be subject to interference by the Corporation except when this is expressly provided in any case. This was accepted as the result of the discussions in April, 1898. These are the four essential and cardinal principles of the Bill. Some of the amendments of which notice has been given directly traverse these decisions of the Council. It will be my duty to declare that these are not in order. There is a body of amendments of such vast dimensions, which are in order, and which we shall have individually and carefully to discuss, that I should not be doing my duty to the Council at large, if I admitted, in addition, the re-opening of discussion on the essential principles of the Bill, on which decisions have already been arrived at by the Council. I shall have the less hesitation in pursuing this course because every assistance which it was in my power to give has been given for the presentation of views on these points, which differ from those of the majority of the Council. The Bill has now been 18 months before the public. The principles were stated and discussed at three meetings of this Council in March and April, 1898. The conclusions of the Council were opposed in the long and interesting Minute of Dissent by two Members of the Select Committee. The variations proposed by the Government of India were again discussed at the Council meeting of the 7th August, and all that could be said against the further conclusions of the Council is embodied in the further Notes of Dissent by the dissenting Members of our second Select Committee. There is thus on the records of the Council a complete statement of the arguments on which the minority of the Council maintained an opinion opposed to that of the majority, and no object could be attained by a reiteration of those arguments."

The Hon'ble BABU SURENDRANATH BANERJEE said:—"With Your Honour's permission may I be permitted to say a few words by way of explanation, at any rate, of the attitude which the minority of the Council have felt it their duty to take with regard to some of those amendments to which Your Honour has just referred? Some of us have been connected with this Council for a long time. I consider myself to be one of the oldest Members of this Council, in the sense that my connection has been of the longest standing, and I may say for myself that, with the exception of the two cases which have been brought to my notice by the Hon'ble Mr. Baker, I do not remember a single instance in which any amendment has been ruled as being out of order because that amendment traversed any principles which have been accepted by this Council. And, Sir, referring to a discussion which took place in 1888 upon the Calcutta Municipal Act, I find that principles, the most vital, were traversed on the occasion when the motion for the third reading of the Bill was made and with the full concurrence of the President and the Hon'ble Member in charge of the Bill, and they were traversed by no less a distinguished authority than the Hon'ble Mr. Justice Gooroo Das Banerjee, who was at that time a Member of this Council."

The Hon'ble THE PRESIDENT said:—"This is a question of order. I have stated the reasons which have led me to say that on certain main principles of the Bill there can be no further discussion."

The Hon'ble BABU SURENDRANATH BANERJEE said:—"I merely wish to place our case before Your Honour if you will grant me the indulgence to do so. I think it my duty to point out to Your Honour that you are making a departure from those principles which have been affirmed before. I would point out that the principle of amalgamation was accepted by the Council in 1888, and it was the main purpose of the Bill. Dr. Gooroo Das Banerjee brought in an amendment traversing that very principle, and it was allowed by the Lieutenant-Governor at that time and by the Hon'ble Member in charge of the Bill. My friend Babu Kali Nath Mitter traversed another principle almost as important, namely, the principle that the representative element should consist of three-fourths of the entire body. He was allowed to bring in a motion to that effect, and Mr. Irving brought in a motion of an opposite kind, namely, that only one-half of the members should consist of the representatives of the rate-payers. Therefore there are these precedents where the principle was affirmed, namely, that amendments were allowed which were in conflict with the principle already accepted by the Council; and it seems to me, Sir, having regard to the character of the Bill and the popular dissatisfaction which it has excited, that it is unwise to curtail discussion and shut out amendments on a ground which is altogether new and unprecedented according to the Rules of this Council."

The Hon'ble THE PRESIDENT said:—"I think the Hon'ble Member will admit that if we are to permit the re-opening of discussions which have been concluded, we shall never get to the end of this business, and whatever may have been done in an individual instance, I think the majority of the Council will agree with me in thinking that the re-opening of the discussion of the principles of the Bill is no longer admissible."

The Motions were then put and agreed to.

The Hon'ble MR. BAKER said:—"Before Mr. Apcar puts the amendments which stand in his name, I should like to make one suggestion. It will be seen that the amendments Nos. 3, 4 and 10* all hang together. They are in form a mere matter of nomenclature, and the substantive amendments which they are dependent on are Nos. 16,* 25, 26,† 39 and 53.‡ If these three first amendments, Nos. 3, 4 and 10,* are to be regarded as a mere matter of nomenclature,

* Amendments Nos. 3, 4, 10 and 16 are printed on page 1919, *post*.

† Amendments Nos. 25 and 26 are printed on page 1940, *post*.

‡ Amendment No. 39 was "that in section 8 (*now* 9), sub-section (*1*), the words from and including 'and the Chairman' to the end of the sub-section be omitted." The amendment was put and lost at the meeting held on the 11th September, 1899.

Amendment No. 53 was "that a new section, numbered 8A, be inserted in the Bill." This amendment was withdrawn at the meeting held on the 11th September, 1899. The said section is printed in the Proceedings of that date.

then I think, Sir, it will be convenient if the consideration of them is postponed until after we have decided the substantive amendments on which they hang. If, however, they are not to be regarded as a mere matter of nomenclature, but as involving a principle, then I have no objection to their being discussed at once in their present place; but an adverse decision of the Council upon those three amendments would have the effect of striking out all the substantive amendments which would in that case depend upon them. Therefore I would venture to suggest for your consideration that amendments Nos. 3, 4 and 10* be postponed and taken up along with the discussion on No. 16*, which is the first of Mr. Apcar's substantive amendments on this point."

The Hon'ble MR. APCAR said:—"With regard to amendment No. 3*, it is a matter of nomenclature, and it relates to the proper designation to be given to the head of the Executive. I am going to submit that the Chairman should not be, as there designated, the head of the Executive, and if he is the head of the Executive, he should not be also the Chairman of the Corporation."

The Hon'ble THE PRESIDENT said:—"Then I understand the Hon'ble Member agrees to postpone the discussion of these amendments until we reach the substantive proposals upon amendment 16*."

The Hon'ble MR. APCAR said:—"I have no objection to amendments 3, 4 and 10* standing over as the Hon'ble Member suggests, to be taken up after the amendments referred to."

SECTION 3.

The Hon'ble MR. BAKER said:—"The next two amendments, 5 and 6, relate to definitions, and it is the practice to take amendments dealing with definitions at the close of the Bill, when the whole of the substantive provisions have been disposed of. I would therefore suggest that those two amendments, which stand in my name and in that of the Hon'ble Mr. Buckley, may be allowed to stand over for the present."

The Hon'ble BABU SURENDRANATH BANERJEE said:—"They are such small matters that we can settle them at once."

The Hon'ble MR. BAKER then moved the following amendment, numbered 5, namely, that for clause (*1*) of section 3 the following be substituted, namely,—

'(*1*) "bazar" means any place of trade (other than a market) where there is a collection of shops or warehouses.'

He said:—"It is rather difficult to explain the reason of this amendment without referring to a subsequent section of the Bill. We discovered, in looking over the sections of the Bill which relate to markets, that there was no provision which would enable us to require the owner of a bazar to introduce sanitary reforms. We could not compel him to supply water to it or to pave it or cleanse it or to do the same things to it which the owner of a market is bound to do under section 507A (*now* 486)†; for a 'bazar,' as defined in the Bill, is not the same thing as a 'market.' Therefore, in communication with the Chairman, I propose to alter the definition of 'bazar' given in the Bill. The definition given in the Bill is this: 'Bazar means any place of trade where there is a collection of shops or warehouses, and includes any place where a market is held.' Well, I propose now to define bazar in such a way as not to include a market. A market includes a place where there is a collection of shops for the sale of food or where there are stalls for the sale of food. I propose to alter that definition so as to make 'bazar' and 'market' two distinct things, and I shall subsequently propose in section 507A (*now* 486) to insert the words 'or any bazar' after the word 'market.' I understand the Hon'ble Babu Surendranath Banerjee, to whom I have spoken on the subject, is in general agreement with me. Therefore I shall say nothing further on the matter."

The Hon'ble BABU SURENDRANATH BANERJEE said:—"I entirely agree with the Hon'ble Mr. Baker; in fact, I suggested to him that there was an omission

---

* Amendments Nos. 3, 4, 10 and 16 are printed on page 1919, *post*.

† The sections of the Bill having been re-numbered under the direction of the Council, the present number of each section is inserted in brackets, wherever the new numbering differs from the old.

in the Bill, and that we did not provide in the Bill for those sanitary measures which were required to be introduced not only in markets but also in bazars. Take, for instance, China Bazar. It is a place which requires a good deal of sanitation, but under the Bill as it was circulated we did not appear to take any powers which would enable the Corporation to make any sanitary arrangements in connection with China Bazar. It struck me that this was a matter of importance, and I placed myself in communication with my friend the Hon'ble Mr. Baker, and I am glad to give him my vote in this matter."

The Motion was then put and agreed to.

The Hon'ble MR. BUCKLEY moved the following amendment, numbered 6, namely, that the following clause be inserted in section 3, namely:—

'"domestic building" includes a dwelling-house and any other masonry building which is neither a "building of the warehouse class" nor a "public building" as defined in this section.'

He said:—"The motion which I have to submit to the Council relates to the definition of 'domestic building.' The rules which are contained in Schedule XIVA (*now* XVII) of the Bill and which deal with certain conditions applicable, as the Bill now stands, only to dwelling-houses, were based mainly on the provisions of the London Building Act. That Act not only dealt with dwelling-houses as defined in that Act, but also with domestic buildings. Now, a dwelling-house is obviously a domestic building, but every domestic building is not necessarily a dwelling-house. For instance, under the terms of the definition of the London Building Act, a shop or a stable or, here in Calcutta, a kitchen, is a domestic building. Obviously it is not necessarily a dwelling-house. Now, some of the rules which are incorporated in Schedule XIVA (*now* XVII) of the Bill were clearly intended by the Calcutta Building Commission, on whose recommendations these provisions were mainly framed, to apply to such buildings as shops and stables. I will give one example. Under section 24 of Schedule XIVA (*now* XVII) there is a condition that there must be a certain space between two dwelling-houses. The reason of that rule is to prevent the formation of very narrow gullies running between houses, and the Bill provides that you must either make the space of a certain width or you must place the neighbouring buildings in contact with each other. It was obviously the intention that that condition should not only apply to dwelling-houses but also to shops and stables. It is therefore necessary that we should make a certain alteration in this Schedule by introducing the words 'domestic building.' The alteration will affect some other portions of the rules in the Schedule, but I do not think that Hon'ble Members will raise much objection to the results which will follow. I therefore move the amendment which stands in my name."

The Hon'ble BABU SURENDRANATH BANERJEE said:—"I am sorry to have to oppose this amendment. The amendment runs as follows:—

'"domestic building" includes a dwelling-house and any other masonry building which is neither a "building of the warehouse class" nor a "public building" as defined in this section.'

"Take the case of a Hindu temple. That would be a 'domestic building' under this definition."

The Hon'ble MR. BAKER said:—"If the Hon'ble Member will look at the definition of 'public building,' he will find that all places of public worship are included in it."

The Hon'ble BABU SURENDRANATH BANERJEE said:—"I am quite aware of that. There are places of Hindu worship which are places of private and not of public worship. Here is a case in point. The late Babu Jadulal Mullick had a temple attached to his house, but it is not a public temple in any sense of the term. My friend has been sufficiently long in the country to know that there are Hindu gentlemen who have temples in their own houses. They are not public places of worship in the smallest degree; but if you accept this definition, you would apply all the elaborate provisions of the building sections to these private places of worship, and I as a Hindu

feel it my duty to protest against a provision of this kind. I think it is a matter that ought not to be overlooked. It will introduce serious complications in connection with places of worship. And then, again, take the case of a kitchen. A poor man has got a kitchen. That again comes within the definition of 'domestic building,' and are you going to apply to a kitchen all those elaborate rules with regard to buildings which you have found it necessary to introduce in this Bill? I hope and trust that, having regard to these circumstances, Your Honour will not consent to the acceptance of a definition which might be attended with serious complications, especially in regard to matters religious."

The Hon'ble MR. BAKER said:—"I think I can re-assure the Hon'ble Member. There is no intention whatever of applying all the provisions of the Building Regulations or of the Schedules either to private temples, or to kitchens, or to anything else of that kind. The sole intention is to substitute the words 'domestic building' for 'dwelling-house' in a very few of the rules in Schedule XIVA (*now* XVII). The principal one is the rule which provides for open spaces. Rule 20 of Schedule XIVA (*now* XVII) is as follows:—

'Every room in a dwelling-house which is intended to be used as an inhabited room—

(*a*) must be in every part not less than ten feet in height, measured from the floor to the under side of the beam on which the roof rests;

(*b*) must have a clear superficial area of not less than eighty square feet; and

(*c*) must be provided, for purposes of ventilation, with doors or windows opening directly into the external air, or into a verandah, and having an aggregate opening of not less than one-fifth of the superficial area of that side or one of those sides of the room which faces or face an open space.'

"In that rule we propose to substitute the term 'domestic building' for 'dwelling-house.' It is quite clear that if an inhabited room is found inside a shop or in an office or in a stable, the regulations relating to inhabited rooms ought to apply to it. Rule 22 of the same Schedule relates to the open space in rear of a house. It is quite clear that the rules about open spaces at the rear and sides of a dwelling-house ought to apply to every building in which people live. We know that in this town people do live in shops. It often happens that a man has a small house of which he uses the greater part as his shop, while he keeps a couple of rooms in which he lives and sleeps. That is the kind of case to which this rule is intended to apply. The next rule is 23, which is as follows:—

'If any person desires to erect a dwelling-house in a street laid out before the commencement of this Act upon a site which, before the commencement of this Act, was occupied by a dwelling-house, and the site is of such a nature that it is impracticable to provide an open space in the rear of the house of the dimensions prescribed by rule 22, the General Committee may relax the provisions of that rule:

'Provided that—

(*a*) such open space shall be left as the General Committee may consider practicable, having regard to all the circumstances of the case, and

(*b*) not more than two-thirds of the total area of the site shall be occupied by masonry buildings or verandahs.'

"Well, that provides for the relaxation of the provisions of rule 22 about open spaces at the back. I cannot imagine that the Hon'ble Member will have any possible objection to that."

The Hon'ble MR. BUCKLEY said:—"It is entirely in his favour."

The Hon'ble MR. BAKER said:—"Rule 24 is the next one. It is as follows:—

'(*1*) Except in localities where the erection of only detached buildings is allowed, if either side of a dwelling-house is not attached to the adjacent building, and if such side does not abut on an open square or the like which is dedicated to public use and is consequently not likely to be built upon, there must be between the house and such building an open space extending along the entire length of such side and belonging exclusively to the house.

'(*2*) The minimum distance across such space from every part of the house to the boundary line, or (if the boundary is a wall) the inner edge of the boundary wall, of the land or building immediately opposite such part, shall be—

(*a*) six feet, if there is a building next to such boundary line or wall, or

(*b*) four feet, if there is an open space of at least four feet on the other side of such boundary line or wall.'

"This is on all fours with rule 22. I think the remaining cases are in rules 26 and 29. Those are the only cases in which we propose to substitute the term 'domestic building' for 'dwelling-house,' and it is quite clear that these are not matters in which the objections of the Hon'ble Babu Surendranath Banerjee will have any force."

The Hon'ble MR. APCAR said:—"I have great sympathy with what the Hon'ble Member has said, but what I am afraid of is that the sections may lead to complications in the future. I think with the Hon'ble Member that the provisions for the sanitary condition of dwellings are very necessary. Sometimes it happens that there are persons living even in a temple, and there may be considerable difficulty arising in the operation of the law in such questions. If I could see my way to have a clear definition and a clear wording so as to get over the difficulty which my hon'ble friend Babu Surendranath Banerjee pointed out, I should certainly support the Hon'ble Mr. Buckley's amendment."

The Hon'ble BABU SURENDRANATH BANERJEE said:—"I am in strong sympathy with the Hon'ble Member who moved the amendment and with the Hon'ble Member in charge of the Bill with regard to sanitation, but I would like to make a suggestion which might put an end to the difficulty, namely, to insert the word 'inhabited' before the words 'masonry building'."

The Hon'ble MR. BAKER said:—"That would not be possible."

The Hon'ble MR. OLDHAM said:—"I should like to mention that Hindus are not the only people who have places of private worship in their houses. According to my friend, the Hon'ble Babu Surendranath Banerjee's description of them, these places of worship are essentially private, and I cannot see why, like private Catholic chapels, they should not be subject to the restrictions which are intended to provide for buildings of their nature."

The Hon'ble MR. BUCKLEY said:—"It was at the suggestion of the Hon'ble Babu Surendranath Banerjee that this motion was taken now instead of being taken, as the Hon'ble Mr. Baker suggested it should be, after the proposed amendments, which are to be introduced in Schedule XIVA (*now* XVII), had been considered. I think, had the Hon'ble Babu Surendranath Banerjee permitted the proposal of the Hon'ble Mr. Baker to be carried out, he would have seen that the difficulties which he has raised are rather imaginary. As a matter of fact, I should personally not have the least objection to Hindu temples being excepted. I have no objection whatever to that, but I would point out to the Hon'ble Member that the alteration, if in some respects it is perhaps not altogether in accordance with his ideas, in two important respects is a direct concession to opinions which I know he holds. As regards what the Hon'ble Member said about there being no objection to kitchens or stables being excepted from the operation of the proposed rule, I would point out to him that there are many parts of the town—even in the European part of the town—where two stables are a short distance from each other, and those are sometimes insanitary places. It would not do at all to use the expression 'inhabited masonry building' as is suggested, because that would permit uninhabited masonry buildings as well as kitchens and stables being built at short distances apart, which would be extremely insanitary. With reference to temples, I believe it is commonly the case that the Priests and other Officers of the temple do live in them, and sanitary rules which apply to other inhabited buildings ought to apply to them."

The Hon'ble THE PRESIDENT said:—"Do you accept the suggestion that Hindu temples should be excluded?"

The Hon'ble MR. BUCKLEY said:—"I have no objection to Hindu temples being excepted."

The Hon'ble MR. BAKER said:—"It would be better to let the definition stand, and then, when we come to the Schedule, we may be able to make an alteration in the rules of the Schedule."

The Hon'ble MR. BOLTON said:—"I confess I should be better prepared to form an opinion on this amendment if further time were allowed for its consideration."

The Hon'ble THE PRESIDENT said:—"I think that is the best solution. We can consider this when we come to the Schedules."

The further consideration of this amendment was then postponed until Schedule XIVA (*now* XVII), Part IV, had been dealt with.

The Hon'ble THE PRESIDENT said:—"The Hon'ble Raja Bahadur Ranajit Sinha of Nashipur is unfortunately ill and therefore unable to be present to-day, but he has sent in a list of amendments which he proposes in regard to the Bill. I cannot find any rule in the Rules for the Conduct of Business regulating this particular matter; but I have no doubt the Council will accept my decision as President that the Hon'ble the Raja Bahadur, of Tahirpur, shall be allowed to move the amendments in his name."

The Hon'ble RAJA SHASHI SHAKHARESWAR ROY BAHADUR, OF TAHIRPUR, in the absence of the Hon'ble Raja Ranajit Sinha Bahadur, of Nashipur, moved on behalf of the latter that the words "diphtheria, enteric fever and typhoid fever" be omitted from sub-clause (*a*) of clause (*12*) of section 3. He said:—

"This paper, containing a few amendments suggested by my friend, the Hon'ble Raja of Nashipur, who is ill, as is known to you, Sir, and therefore not in a position to attend the meeting to-day, has been placed in my hands with a request that I should move them on his behalf, so I beg to move that the words 'diphtheria, enteric fever and typhoid fever' be omitted from sub-clause (*a*) of clause 12 of section 3.

"I think I should add here that personally I am not in full sympathy with this amendment, because in my humble opinion these are certainly diseases which may be classed as dangerous."

The Hon'ble MR. BAKER said:—"I did not understand that this amendment would be brought on now, but I can explain why these particular diseases were mentioned in the definition. They are taken from the definition of dangerous diseases in the English Statute for the prevention of diseases; and if you refer to the definition given here, it will be seen that it is open to the Government, by a Notification in the Calcutta Gazette, to add any other epidemic or endemic or infectious disease to this list. Therefore, if there is any feeling that it would not be desirable to include such diseases as diphtheria, enteric fever and typhoid fever, I have not the least objection to accepting their omission, because it will be in the power of Government to insert them afterwards if it should at any time be found desirable."

The Hon'ble BABU SURENDRANATH BANERJEE said:—"I think that these diseases should be included, and I may say as a late Member of the Corporation that we invited the Health Officer to the conferences that we held in connection with this matter, and it was in accordance with the advice given to us by the Health Officer that we included these diseases."

The Motion was then put and lost.

SECTION 4.

The Hon'ble BABU JATRA MOHAN SEN moved that in section 4, after the word "and" the words "subject to the control of the Corporation" be inserted. He said:—

"Section 4 proposes to enact how a question where a dispute as to whether a particular piece of land or cluster of huts is or is not a '*bustee*' or '*bustee* land' arises, should be decided, and the power has been given to the General Committee to decide those questions finally.

"'*Bustee*' and '*bustee* land' have been defined in the preceding section.

"The question whether or not a piece of land is or is not a '*bustee*' or '*bustee* land' is of very great importance to the owner.

"Various responsibilities and liabilities have been imposed upon him by this Bill. He is made liable to pay the consolidated rates payable by the occupiers of *bustee land* and huts—section 159 (*now* 180). Distress warrants will be issued against him in case of default. He is responsible for keeping the *bustee* clean

—is liable to pay for any additional establishment the municipal authorities may maintain for cleansing it—and is liable to pay heavy fines if the *bustee* is not cleansed in accordance with notice issued by the Municipality. He has to bear the cost of preparing standard plans—section 419 (*now* 400). He is restrained from building huts on *bustees* until the standard plan is prepared and approved—he cannot alter the standard plan. He is required to construct drains, privies, streets and passages, and to carry out other improvements in old *bustees* in accordance with the standard plan so far as may be practicable.

"He has to make or pay for all improvements ordered by the General Committee on the report of the medical officer deputed under section 425 (*now* 406). He incurs heavy fines under various sections of the Bill.

"This being his position, it is natural that the owner would prefer to have the question finally decided by the Corporation. The elected Commissioners are expected to realise the inconveniences of the owners and to be cognizant of all the incidents of *bustees* and *bustee* land. It is an essential element of the fair dealing out of justice that the party interested must be conscious that justice has been done, and that any reasonable apprehension that he has not got fair justice dealt out to him should be removed.

"It cannot be urged by the Hon'ble Member in charge of the Bill that the Corporation, if the body is formed under the newly revised Bill, is not sufficiently representative according to the Government view. That being so, there is no reason why the Corporation should not be trusted and why they should not be converted into a responsible body."

The Hon'ble MR. BAKER said:—"The Hon'ble Babu Jatra Mohan Sen has said that this question is one of great importance to the owner of a *bustee*. That may be, but the determination of the question whether a particular piece of land is *bustee* land, as defined in the Act, or not is a comparatively small question of executive detail, and it is contrary to the whole principles on which the Council and the Select Committee have acted to transfer any small question of detail to the decision of the Corporation. It is possible—in fact, it is probable—that to determine whether any particular piece of land is *bustee* land or not it might be necessary to make a local inquiry. It might often happen that a local inquiry would be the best way of determining it. Now, Sir, how could the Corporation, a body of 50, make a local inquiry? The practical effect of the amendment of the Hon'ble Member would be to give an appeal to the Corporation against a decision of the General Committee; and from first to last the Select Committee, and I may say this Council, have set their faces against conferring any appellate powers on the Corporation, for there is no sort of power the Corporation is less fitted to exercise than the power of appeal. Moreover, if the Hon'ble Member had referred to Chapter XXIII (*now* XXVI), which deals with *bustees*, he would have found that the Corporation has very little to do with matters affecting *bustees*. It has the power to sanction plans for the improvement of *bustees*, but with that exception it has no power whatever in any matter of detail. By section 417 (*now* 398), the first section of that Chapter, it is provided that the General Committee has the sole power to determine the external limits of a *bustee*. For these reasons, Sir, I think it would be absolutely inconsistent and improper to accept the amendment, which I therefore oppose."

The Hon'ble BABU SURENDRANATH BANERJEE said:—"I am very much in sympathy with the amendment, and I must object to the passage in the speech of the Hon'ble Member in charge of the Bill in which he was pleased to say that this is a matter of Executive detail, and local inquiries might be necessary. If so, why not give this power to the Chairman? The Chairman, as the Head of the Executive, is most fitted to carry on Executive work, and local inquiries the Chairman would be the best person to conduct. If it is an Executive matter, and if local inquiries are to be held in connection with it, the General Committee will probably depute some local officer to make the inquiry; the Corporation might do the same thing. Then, Sir, when the Hon'ble Member in charge of the Bill was pleased to say that the Corporation was least fitted to exercise the powers of appeal, I must say that I was somewhat astonished at that remark, because if you turn over the sections of this Bill you will find that there are sections upon sections which confer an appellate authority on the

Corporation. I think the Hon'ble Mr. Oldham sympathised with us in relieving the General Committee of the pressure of work which the Bill imposes upon that Committee. Having regard to the fact that the General Committee will be overweighted with work, and being so overweighted it is liable to make mistakes, it seems to me as a necessary safeguard that the power of appeal ought to be conferred upon the Corporation. I think the amendment ought to be accepted. A right of appeal is not a thing which everybody will make use of on every occasion, and the Corporation is not likely to be overburdened with work. It is only when something is done which calls for redress, and a man feels he has a grievance, that he will avail himself of the right of appeal to the Corporation."

The Hon'ble MR. OLDHAM said:—"The Hon'ble Babu Surendranath Banerjee has quoted me quite correctly, but I must point out to him that his quotation is not to the point in the present connection. I always agreed with the Hon'ble Member in charge of the Bill that the Corporation was the last body to be entrusted with appellate powers, and I do not see how it will lessen the work of the General Committee if there is to be an appeal from the General Committee to the Corporation. He also spoke about the Corporation holding local enquiries and about a General Committee holding enquiries. In my experience as Commissioner the Corporation has never held a local enquiry, but the General Committee has frequently held a local enquiry."

The Hon'ble MR. APCAR said:—"I do not myself follow the idea that the Corporation is to hold a local enquiry. An enquiry will have to be held, and the matter will have to be submitted to the Corporation. There is no difficulty in a matter such as that, but, when my hon'ble friends Mr. Baker and Mr. Oldham in chorus say that they cannot trust the Corporation with appellate powers, may I remind both of them what Sir Henry Harrison said: how much he valued the power that the Chairman had of appeal to the general body of Commissioners? I know my friends the Hon'ble Mr. Oldham and the Hon'ble Mr. Baker may make light of what Sir Henry Harrison said when it tells against any contention that they may be urging, but, at any rate, I know the manner in which Your Honour has spoken of the capacity and experience of Sir Henry Harrison. I therefore cannot agree with my friends that, so far as the Corporation is concerned, they are not capable of dealing with matters in appeal which come before them. The Corporation has exercised appellate powers in a way that has been commended by Sir Henry Harrison, and in a matter such as this I do not think it is asking too much for at least an appeal to be allowed to the Corporation."

The Hon'ble Mr. BOLTON said:—"I oppose this amendment for three reasons. First, the definition of *bustee* is simple and clear; secondly, a body of 12 competent men forming the General Committee may be trusted to interpret and apply that definition correctly; and thirdly, if you refer the question to a larger body, there will be more chance of discord. A matter of kind should, I think, be left in the hands of the General Committee."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA said:—"I regret I am unable to support this amendment; but I do not agree with the Hon'ble Member in charge of the Bill that the Corporation is the last body to be entrusted with the power of hearing appeals from the decisions of the General Committee. If he means to lay this down as a general proposition, I disagree with him, but I agree that this is the last instance in which such a power of appeal should be given. The word '*bustee*' and the words '*bustee* land' are defined in section 3. The matter seems to me to involve a very simple question of fact, and I am not prepared to believe that a decision upon a simple question of fact by 12 persons is likely to be less correct than a decision of that question by a larger body of 50. If the decision of the question had involved a decision upon a question of principle I should certainly have been prepared to give an appeal from the decision of the General Committee."

The Hon'ble BABU JATRA MOHAN SEN in reply said:—"This amendment is objected to on the ground that a large body of 50 would not be able to make a

local inquiry, and that this could be better done by a body of 12. I fail to see why that should be so.

"If, as was suggested by one of the Hon'ble Members, objection is taken on the score of the inconvenience of a large body of men deciding such a question, why not leave it to the Chairman alone? I could have well understood it if this matter was left entirely to the discretion of the Chairman. He is the chief Executive authority of the Corporation; but, with due deference to the opinions expressed by the dissentient members, I should contend that this appeal is very necessary. I might, however, change the wording of the amendment and put it thus: 'subject to an appeal to the Corporation' instead of 'subject to the control of the Corporation.' I need not add anything more to what my friends, the Hon'ble Babu Surendranath Banerjee and the Hon'ble Mr. Apcar, have said."

The Hon'ble Mr. Buckley said:—"There is one point in connection with this matter which I think has perhaps been overlooked by the Council. As a matter of fact, any question of this kind would, I take it, come in the first instance before the General Committee, for under the provisions of section 88 (*now* 95) of the Bill the General Committee can, and I hope very largely will, delegate certain of its powers and duties to Sub-Committees. There will unquestionably be a *Bustee* Sub-Committee, and the business of that *Bustee* Sub-Committee will be to deal with all details of this kind. I take it that the real intention of the mover of this amendment is that where any decision is given there should be some appeal. He will have, as a matter of fact, in almost all cases an appeal practically from the *Bustee* Sub-Committee to the General Committee, because all the doings of the *Bustee* Sub-Committee will be subject to the control of the General Committee. As a matter of fact, I believe that, under the London Building Act, such a matter as this would be dealt with in a far simpler way. In London there is a Superintending Architect who gives the preliminary decision, and curiously enough his decision is final, subject only to appeal to a body which is called the Tribunal of Appeal. There is no power of appeal to any Committee or Sub-Committee or Corporation at all. There is a regular *quasi*-independent body called the Tribunal of Appeal which deals with technical matters of that kind. I think, therefore, to give a power of appeal to the Corporation in this case is quite unnecessary and out of the question."

The Motion was then put in the following form:—

"that in section 4, after the word 'and' the words 'subject to an appeal to the Corporation' be inserted",

and was lost.

SECTION 5.

The Hon'ble THE PRESIDENT ruled the following motions standing in the name of the Hon'ble Mr. Apcar, to be out of order:—

(*1*) that section 5 be omitted;
(*2*) if the last amendment be lost, that for section 5 be substituted "The entire Municipal Government of Calcutta shall vest in the Corporation."

The Hon'ble Mr. Baker said:—"With regard to motion No. 11 of the Hon'ble Babu Surendranath Banerjee that the words 'of the Corporation' in clause (*3*) of section 5 be omitted, in this case also the amendment is really dependent on the decision that may be come to on Nos. 16, 18, 25, 45 and 55,* and it would be convenient to discuss it along with those amendments. My reason for suggesting that it should be postponed is exactly the same as the reason for which I suggested the postponement of Nos. 3 and 10.†"

The Hon'ble THE PRESIDENT ruled the following motions, standing in the name of the Hon'ble Babu Surendranath Banerjee, to be out of order:—

(*1*) That the following proviso be added to section 5:—

"Provided that both the General Committee and the Chairman shall be responsible to the Corporation for the due and satisfactory performance of their duties under this Act."

---

* Amendments Nos. 16, 18 and 25 are printed on pages 1919 and 1940, *post*.
Amendment No. 45 was a motion for the insertion in section 8 (*now* 9) of a clause requiring the General Committee to appoint a President of their body. Amendment No. 55 was a motion for the insertion in section 10 (*now* 11) of a clause requiring the Corporation to appoint a President of their body. Both these amendments were withdrawn at the meeting held on the 11th September, 1899.

† Amendments Nos. 3 and 10 are printed on page 1919, *post*.

If the last amendment be lost, that the following proviso be added to section 5:—

"Provided that it shall always be open to the Corporation, on a requisition made in that behalf by any five Commissioners, to consider any decision of the General Committee or the Chairman; and the orders of the Corporation upon such decision shall be final."

The Hon'ble THE PRESIDENT also ruled the following motion, standing in the name of the Hon'ble Babu Boikanta Nath Sen, to be out of order:—

That to section 5 the following proviso be added:—

"Provided that any decision of the General Committee or the Chairman may be considered by the Corporation, on a requisition made in that behalf by not less than six members of the Corporation; and the decision of the Corporation shall be final."

SECTIONS 6, 8 (*1*), (*2*), 43 (*3*), 46, 47, 49, 50 and 59 (*1*), AND SCHEDULE V, RULES 5 AND 6.

The Hon'ble THE PRESIDENT also ruled the following motion, standing in the name of the Hon'ble Babu Jatra Mohan Sen, to be out of order:—

That section 6, section 7, sub-section (*1*), section 34, sub-section (*3*), sections 37, 38, 40 and 41, section 52B, sub-section (*1*), and rules 5 and 6 of Schedule IVB, of the Bill as revised by the Select Committee in April last, be restored.*

NOMENCLATURE; POSITION OF CHAIRMAN (SECTIONS 5 AND 6).

The following notices of amendment, standing in the name of the Hon'ble Mr. Apcar, were then brought forward, namely:—

No. 3: that for the expressions "Chairman" and "Chairman of the Corporation," wherever they occur throughout the Bill, the expressions "Commissioner" and Municipal Commissioner" should respectively be substituted.

No. 4: that for the expression "Commissioner," wherever it occurs throughout the Bill, the expression "Councillor" be substituted.

No. 10: that in section 5, clause (*3*), for the words "a Chairman of the Corporation" the words "a Municipal Commissioner" be substituted.

No. 16: that in section 6 the words "the Chairman and" be omitted.

The Hon'ble MR. BAKER, speaking of amendment No. 16,† said:—"This amendment is identical with amendment No. 18, which stands in the name of the Hon'ble Babu Surendranath Banerjee, and I would suggest that these two amendments be discussed together."

The Hon'ble THE PRESIDENT said:—"Quite so."

The Hon'ble MR. BAKER said:—"I would further suggest that amendment No. 19‡, which stands in the name of the Hon'ble Babu Surendranath Banerjee, and which is an alternative to his amendment No. 18, should similarly be taken and discussed together with the latter."

The Hon'ble THE PRESIDENT said:—"I think the proper procedure will be to take up the discussion of amendment No. 16,† and, as the Hon'ble Babu Surendranath Banerjee's motion is identical with that of the Hon'ble Mr. Apcar's, whatever the conclusion of the Council may be upon amendment No. 16,† the Hon'ble Member will no doubt accept No. 18 without further argument."

The Hon'ble BABU SURENDRANATH BANERJEE said:—"I suppose there will be a discussion?"

---

* *i.e.*, that the sections and rules mentioned should be substituted for the corresponding sections of the Bill as further revised by the Select Committee [*now* sections 6, 8 (*1*), (*2*), 43 (*3*), 46, 47, 49, 50 and 59 (*1*) and rules 5 and 6 of Schedule V].

† Printed on page 1919, *infra*.

‡ Amendment No. 19 was "that the words 'the Vice-Chairman' be inserted after the word 'Chairman' in lines 1 and 2 of section 6." It is printed on page 1940, *post*.

The Hon'ble THE PRESIDENT said:—"Yes, upon amendment No. 16,* and whatever the conclusion may be upon that will apply to the Hon'ble Member's motion No. 18."

The Hon'ble Mr. BAKER said:—"I would suggest that Nos. 18 and 19† should be taken together, because they are alternative, and it would be convenient to have one discussion. Of course the amendments would be moved separately."

The Hon'ble BABU SURENDRANATH BANERJEE said:—"Amendment No. 19† is a different matter altogether. The one refers to the Bombay system and the other to the Calcutta system. The difference is as wide as between the arctic and the antarctic poles."

The Hon'ble MR. APCAR said:—"Since Your Honour has been graciously pleased to permit me to move the adoption of the amendment No. 16* which stands in my name, I shall take advantage of the opportunity to ask for its acceptance, although, with the indications before me, I confess I do not expect any measure of success.

"If I may be permitted to make a personal explanation, the ruling that now has been made has taken me completely by surprise. I have not seen anything in the rules or standing orders to lead me to think that it was possible that I might meet with such a ruling, and I have given my whole attention to certain matters, all of which now proves to be waste of labour. I would have been glad to have given my attention wholly to matters of detail in the Bill, and to put aside those relating to the constitution of the Corporation, if only I had entertained a suspicion of what in the result would be the fate of the amendments that have been disallowed. Sir Alexander Mackenzie, in closing the debate on the 6th March, 1898, when the Bill was referred to the Select Committee, said:—

'As I said last Saturday, the one feature in the Bill about which Government has made up its mind is the strengthening of the City Executive.'

"The proposals relating to the question mentioned by Sir Alexander Mackenzie are contained in section 23 (*now* 13) of the Bill. The ruling of to-day which has eliminated my amendments goes further, to a great extent, than was in the mind of the originator of the Bill. I suppose I must take it that I have misled myself, but I confess that I never suspected that there was room for any doubt upon the point, because in the proceedings connected with the Act of 1888—an Act which the Bill before us is intended to repeal—the report relating to which has been day after day under my observation, I have noticed how, when the object and purpose of the Bill was to amalgamate the suburbs with the administration of the town, amendments directly opposed to this principle, and expressly stated as intended to oppose this principle, were not only permitted to be moved, but in fact were discussed at some length in the Council. This may have been all wrong, but there is the precedent before us in a Bill affecting the Corportion. I confess I am very sorry to have so misled myself, particularly as the result is that many days of labour have been absolutely thrown away, which might have been utilised in other directions.

"In approaching the task before me, while the impression created by the speech that closed the discussion in the first debate that I had the honour to attend, is still fresh in my mind, I feel how utterly unequal I am to emulate that gentle-tempered address which was so eminently calculated to put aside wrath. But, together with my admission of weakness and incapacity to employ soothing phrases, I would ask that allowance be made for me for the reason that mine is not the position of a ruler of a province, who speaks in this Legislature from the daïs, with the assured support of a body of voters on either hand. I am only a humble combatant, so to speak, struggling desperately against overwhelming odds, who has to suffer the rough and tumble of the contest, and I needs must use such efforts as I find necessary for my support. I have no desire to call a spade a spade in the sense in which such a

* Printed on page 1919, *ante*.

† Amendment No. 19 was "that the words 'the Vice-Chairman' be inserted after the word 'Chairman' in lines 1 and 2 of section 6." It is printed on page 1940, *post*.

phrase is used; but, paraphrase it how I may, it is a spade that I may have to describe, and I will be forced, in order to convey my meaning, to express myself as I best can in the controversy. I can only submit to a test as to the accuracy and truth of my statements, and as to whether the use of my facts is justifiable.

"Before I turn to this particular section, Sir, I am led by what transpired on a previous occasion to say that I trust my hon'ble friend in charge of the Bill will not jump up to interrupt me with the objection that I am attacking the Executive of the Municipality, and will not be inspired by any such fanciful idea. I disclaim any idea of attacking the Municipal Executive. If I wanted to attack the Municipal Executive, I would not come to the Bengal Council for the purpose. I could do so more effectually from my place in the Municipality. My hon'ble friend is aware that where I have thought it necessary I have not hesitated to do so. I repeat, my intention is to state facts in support of my contentions. If I am inaccurate, I shall be glad to be set right. But I cannot be stopped from making use of the reasons that I rely upon, because they happen to tell against the Municipal Executive.

"Now, Sir, there have been many ideas as to why the Municipality have failed, and we have many remedies proposed to remedy their shortcomings. But Government seem never to have thought of the idea that the system of appointing the Chairman is in fault, and that the remedy is the simple one of allowing the Corporation the choice of their own Chairman. I have long contended that it is not fair to blame the Corporation until you shall have given them the choice of electing their own Chairman; and this is the remedy I now submit to the Council. I go so far as to say that under the present system the Government are themselves responsible for the shortcomings of the Corporation, for they appoint the Chairman; they will have those only who will be under their power completely, and through their Chairman they generally can carry out any measure they may seriously be bent upon. The Chairman can do anything he wishes to do by appealing to the whole body of the Corporation. This has been proved again and again, and Sir Henry Harrison, as I have before shown, relied upon this very power of appeal. If a Chairman were to prove recalcitrant, he would be removed. I would remind the Hon'ble Mr. Bolton how some time ago the Corporation were not permitted to have an official of their choice, to whom they were willing to vote the full pay of the post; but a younger and less experienced Chairman was given to them. I will give another instance, that occurred at a very much later period, of a Chairman of their choice being refused to them, and it is a concrete instance showing that the Government will not permit any one who is not directly subordinate to them, and is not directly under their power and direction, to be the Chairman. I myself communicated to Sir Charles Elliott, when he was Lieutenant-Governor of this Province, the name of an official who was about to retire, and I represented to him what I have been saying to-day, that it was not fair to the Corporation to blame them unless they were allowed the choice of their own Chairman. On the day before Sir Charles Elliott left us, he informed me that he had made over the question to his successor, who would deal with it. I had before been told by a highly placed official that the Government would never consent to any person being Chairman who was not in active service under them, and it is so widely known now that it is no secret that this was the very reason why the gentleman to whom I refer was not appointed. Here was one who was highly approved by the European non-official community. I had ascertained that he would be welcomed by my native friends. We were willing to fix the salary at a sum that was acceptable to the candidate we supported, who himself was willing to become our Chairman. He was a man of energetic habits, of a practical turn of mind, in robust health and approved of by all. He had won his spurs in the service; he had been decorated by the Queen, and he had filled one of the highest posts in the Province. Nevertheless the Government would not appoint him. It could not be that they thought that he was broken in health and unfit to continue to work in this country; because, after they refused to appoint him as Chairman, Government gave him an appointment in this country, and I am not sure that he is not still holding it. Then why would not Sir Alexander Mackenzie appoint so unexceptionable a person to be the Chairman? What other reason

can be given but that the Government will not appoint any person who is independent of them?—that they will not permit any person to hold that position if he is not entirely dependent on them, and is not directly subject to their power and authority? By insisting on appointing a Chairman in their service the Government can control and direct the administration, and this they know. They will not trust one who has been trained in their service, but is not under their control. I do not think that it is a far-fetched idea that the Government are not free from responsibility with regard to the shortcomings of the Corporation.

"Again, one of the most mischievous influences under the present system has been the frequent changes in the office of Chairman. I have taken the trouble to draw up a table showing the changes in the office since Sir Henry Harrison left in the year 1890. I will read it to the Council:—

Mr. Lee ...	Appointed	16th April, 1890	Left on privilege leave, 5th July, 1892.
" Ritchie ...	Officiated.	6th July, 1892	Acted until 24th September, 1892.
" Lee ...	Returned	25th September, 1892	Left on 6 months' furlough on 24th March, 1893.
" Ritchie ..	Officiated.	25th March, 1893	Left on privilege leave, 31st March, 1895.
Vice-Chairman...	Ditto .	16th October, 1894	Acted until 4th November, 1894.
Mr. Ritchie ...	Confirmed	1st April, 1895	Left on privilege leave on 13th April, 1896.
Vice-Chairman ..	Officiated.	21st September, 1895	Acted until 20th November, 1895.
Mr. Williams ...	Appointed	14th April, 1896	Left on privilege leave on 31st August, 1896.
Vice-Chairman ..	Officiated.	1st September, 1896	Acted until 23rd October, 1896.
Mr. Williams ...	Returned.	24th October, 1896	Went on leave on 18th May, 1897.
" Bright ...	Officiated.	19th May, 1897 .	Went on sick leave on 6th March, 1896.
" Greer ...	Ditto .	7th March, 1898 .	Acted until 23rd November, 1898.
" Bright ...	Returned.	24th November, 1898	

"It is impossible for an administration to be carried on with any hope of satisfactory results, when the breaks in the continuity of service in the office of Chairman have occurred so frequently. A new Chairman coming fresh to duties of a novel nature has, in the nature of things, to learn the alphabet of his business. Before he has mastered it, he goes on leave, and his *locum tenens* has to begin the process afresh. When he returns he has to acquire knowledge of what has transpired in his absence and to re-learn what he has forgotten. All this while the administration has to go on with its own momentum. The Chairman coming new to his work is in the hands of the heads of departments, instead of supervising and controlling them. He is entirely ignorant of the history of the questions that come up for decision, and I have no hesitation in saying that, if it were not for the working members of the General Committee, who have been old and experienced members of the Corporation, the administration could not have been carried on. In all these circumstances it is not surprising to find that when a new Chairman comes he upsets the policy of his predecessor. The administration must suffer when it has to be carried on in such adverse conditions. If there was an enquiry, it could be shown how often this kind of proceeding has happened. I can give some instances that occur to my mind. The last change in the office was when Mr. Greer acted for Mr. Bright. I have no wish to mention names, but I cannot help myself, in order to avoid confusion, since the changes have occurred with such frequency. The case I am about to give is one I already have mentioned, and is of a striking character, because it involved an expenditure of Rs. 60,000. Mr. Bright had rejected the scheme of the Engineer to get out pumping machinery at such a large cost without calling for tenders, and in consultation with the Government authorities had preferred another scheme. Mr. Bright went away on leave, Mr. Greer came into office, and almost immediately brought before the General Committee that very matter which Mr. Bright had already decided. The Commissioners, who were wholly ignorant of what had before been decided, were invited by Mr. Bright's *locum tenens* to adopt a proposal that the permanent incumbent had considered and rejected. Then as to Mr. Bright and his predecessor. I will first take the question about the Loans Department. It is a question which forms the subject of one of Mr. Risley's charges. This is one of the offences in Mr. Risley's eyes which he has quoted to prove the Commissioners to be unfit for administering the affairs of Calcutta, because they did not accede to Mr. Williams' request to transfer the Loans Department, which is most excellently worked by the Municipality, to the Bank of Bengal. The Commissioners had protested that the transfer would impose needless expenditure and was uncalled for. The question had not been decided when

Mr. Williams left us. If he had not gone away on leave, there is but little doubt that he would have succeeded in having his way. But he went on leave, and Mr. Bright came to act for him. One of the first acts of the latter was to declare that it would be inadvisable to make the transfer. I think that it was fortunate that Mr. Bright held this view; but whether he was right or wrong, the fact remains that the policy of the permanent incumbent was upset. Again, we have been blamed by Mr. Risley with regard to the Warrant Department. This also forms one of the charges preferred against us by Mr. Risley. Let me explain. Our dues are collected by two Collectors who are remunerated by the allowance of commission on the collections made by each. Notices of demand are issued by the Collectors, and the Commissioners have thought that if warrants to realise the dues were allowed to be issued, before the expiry of the quarter, by the Collectors who are so much interested in the collections, there would be hardship, particularly as the debtors were entitled to the full quarter within which to pay. It has been the practice for the warrants, if necessary, to issue in the succeeding quarter. The preceding Chairmen had held a different view. Mr. Bright came into office, agreed with us in our objections, and intimated to the Government his support of the views held by the majority of the Commissioners. Here, again, right or wrong, there is a most pronounced disagreement from the policy of his predecessors, which also serves the useful purpose of answering Mr. Risley's charge."

The Hon'ble MR. BAKER said:—"I submit that the Hon'ble Member's motion is that the words 'the Chairman and' be omitted from section 6, and I cannot see that all this has any connection with it whatsoever."

The Hon'ble THE PRESIDENT said:—It will no doubt work itself out. Pray continue."

The Hon'ble MR. APCAR said:—"I have no wish at all to submit questions which are irrelevant. My desire is to exclude the head of the Executive who is appointed by the Government from being the Chairman of the Corporation, and I am submitting illustrations in support of my contention, one of my reasons being that continuity of administration is broken under the present system. The intention of the section is quite clear, and I am combating the purpose embodied in it."

The Hon'ble MR. BOLTON said:—"If the Hon'ble Member wishes the Chairman to be a mere figure-head, it does not matter whether the continuity is broken or not. He is not to be a working Chairman, but a figure-head as in Bombay."

The Hon'ble THE PRESIDENT:—"We have had no explanation yet. Pray proceed, Mr. Apcar."

The Hon'ble MR. APCAR said:—"In Bombay the Chairman holds a very responsible position, and is not a mere figure-head. He is not an independent authority, and he is not the head of the Executive.

"Then when I come to Mr. Ritchie's tenure of office, I come to a most interesting subject, and I am glad of the opportunity of dealing with it, because it forms one of Mr. Risley's most serious charges in his reply in the debate in April, 1898. I refer to *bustee* improvements. Mr. Risley stated that the Government had directed the expenditure of the annual sum of one-and-a-half lakh of rupees for *bustee* improvement, and presented a table of expenditure to show that sums far short of this amount had been spent in the years 1889 to 1896. Now Government had directed the expenditure of the sum named, not for *bustee* improvement only, but for both the cleansing and the structural improvement of *bustees*, and Mr. Risley, in his hurry to throw blame on the Commissioners in every conceivable way, only too delighted to have something to say against the Commissioners, charged them with neglecting their duties and disregarding the directions of the Government, in spending sums far short of the amount required under the letter of the Government. I have done my best to discover how

much has been spent in *bustee* cleansing, but the system of accounts kept by the Executive has so far precluded discovery of this. But what is indisputably clear is that the expenditure that Mr. Risley so confidently relied upon to show that the Commissioners had failed in their duty was for structural improvement of *bustees* only, and did not include *bustee* cleansing, and what is also clear is that Mr. Risley had taken no pains to verify what he so confidently relied upon, and that even in *bustee* improvement a sum largely in excess of what Mr. Risley stated had been used. I will now place before the Council a letter from the Government of India, dated the 10th January, 1884, bearing the signature 'A. Mackenzie,' the Secretary in the Home Department at the time, and communicated to the Corporation by the Hon'ble Member now in charge of the Bill on behalf of the Local Government The direction as to the amount to be expended was conveyed in this letter, and I ask the Council's special attention to the words of commendation used. In those days the Corporation were regarded to have done 'much excellent work.' Later, when they were doing infinitely better work, they were condemned in unmeasured language. The material portions of the letter are as follows:—

'The many important matters with which the report deals have been fully reviewed in this Resolution, and no further orders from the Government of India are called for. The Governor General in Council is glad to acknowledge that much excellent work has been done by the Calcutta Municipality during the year. In respect of sanitary improvements, especially, the advance is very marked. * * * * All the remarks and suggestions contained in paragraph 17 of the Lieutenant-Governor's orders deserve their most careful attention. The sum of Rs. 1,50,000 per annum is the least sum which should, in the opinion of the Governor General in Council, be set apart for the cleansing and structural improvement of the *bustees*.'

"Now let us see what is Mr Ritchie's letter to Mr. Risley himself, when Secretary to the Local Government only so late as in 1895. The letter is dated 13th April of that year:—

'The third topic to which I wish to refer is that of town and *bustee* improvement.

'In paragraph 5 of the Government of India letter, comment is made upon the small amount recently expended under the heads of town and *bustee* improvement. The Commissioners must be absolved from blame in this matter, as the financial situation of the Corporation has precluded me from recommending higher expenditure on new projects under these heads in the town proper. It must be borne in mind that the well-known Harrison Road, the construction of which marks an era in Calcutta street improvement and abolished many *bustees* and is essentially a measure of town and *bustee* improvement, has been financed during the seven years from 1889-90 to 1895-96. I would invite attention to the table on page 4 of the Administration Report showing the gross expenditure up to 31st March, 1895, annually incurred on this project, and to the statement of expenditure and receipts on page 12 bringing the account up to 1st September, 1895, which shows that the net cost of the project has been Rs. 27,37,000. Thus there has been an average gross expenditure of upwards of 8 lakhs annually, and an average net expenditure of nearly 4 lakhs annually on town and *bustee* improvement in respect of this road alone during the past seven years.

* * * * *

'I would take this opportunity of saying that in my opinion the advantages obtained by the Corporation under the system known as the *bustee* procedure are inadequate to the expenditure incurred. That procedure was fully described on pages 7 and 8 of the Resolution on the Administration Report for 1892-93, and it was stated in paragraph 18 that "*bustee* schemes resolve themselves into this: that the *bustee* property is improved at the expense of the Commissioners, the owners merely giving up to the use of the public the land required for the roads" * * * In some cases, as in Ram Bagan Lane and Sircar's Lane *bustees*, in Ward 6, the *bustee* huts are removed immediately on the roads being constructed, and *pucka* dwellings erected in their stead.

'I maintain that the preferable procedure is to acquire lands for substantial widths of roadway with surplus lands on the side to be resold at a profit, as has been done in the case of the Harrison Road in the town and the new roads in the Suburbs, namely, the Lansdowne Road, the Chetla Road and the new Kalighat Road now under construction. This procedure is simpler, it is freer from legal difficulties and the improvement effected is far greater. It is right to enforce the *bustee* procedure so far as it carried out the original intention of the Legislature * * * But when it comes to the Municipality spending large sums on the construction and sewering of streets of very narrow dimensions, a practice which is strongly condemned by sanitary authorities, I think that their funds are misapplied, and that Government should hesitate to press upon the Commissioners expenditure from Municipal funds on *bustee* improvement of this sort.'

"The letter I have quoted speaks for itself. I shall have to refer to the point in a subsequent stage of our proceedings, so that I shall not dwell on it any further now, except to say again that Mr. Risley does not think fit to explain that

the Government included *bustee* cleansing in the expenditure of the sum that was mentioned. It will have been observed that Mr. Ritchie departed deliberately from the policy of his predecessors in regard to *bustee* improvement, and that he absolves the Commissioners from any blame in the matter.

"We next come to Mr. Lee, who succeeded Sir Henry Harrison, and again I can give an instance of a change from the plans of his predecessor—at least he failed to carry out an idea on which Sir Henry Harrison had laid some stress, and again I am able to refute another charge that Mr. Risley has brought. Sir Henry Harrison desired to institute a municipal *dhobikhana*; he obtained the sanction of the Commissioners for a Surveyor to go to Bombay, who was despatched and brought back plans, and the Commissioners sanctioned the necessary expenditure for the establishment of all that their Chairman asked for. At this juncture Sir Henry Harrison left the post, and his scheme was forgotten or laid aside by the Executive, and would not in all probability have been revived up to this day if it had not been for an elected Commissioner, who brought up the question I think in 1895, and the Commissioners again readily sanctioned the necessary expenditure, and a *dhobikhana* is to-day an accomplished fact. Here, again, we have another instance of Mr. Risley's extreme readiness to hurl charges against the Commissioners without verifying his facts and with no ground for his accusation. I have given only a few instances. Let the Government grant an enquiry, and many instances will be forthcoming, of the changes in consequence of the change in the office of Chairman, and also of schemes falling through owing to the same cause, and also when Heads of Departments go away. These are the grounds on which I ask the Council to consider the advisability of trying a change in the system of appointing the Chairman. Allow the Corporation to elect their own Chairman, and they will be able to make their own terms. And better still, and what would secure a continuity in the work of the administration. allow them to elect from their own body. When the Corporation have the control of their own business, they would elect from their own body a Chairman who would be intimately acquainted with the working of the administration and the history of questions. He would be well aware of the schemes on foot, and they would not lapse in the way that there is a tendency to do in the present system. When the Corporation will elect from their own body, it will be the Corporation who will be carrying their business forward, and they would be more likely to do so in a continuous manner. If there was a change, it would not be owing to the want of knowledge of an inexperienced Chairman of what had gone before, but it would be deliberately done after consideration of the subject. Again, Sir, can it be denied that no one is placed at the head of a business until he has served an apprenticeship in it? Sir Alexander Mackenzie, in his speech at Entally, said that even if an angel came from heaven, he could not perform the duties of Chairman satisfactorily. I have no knowledge of angels from heaven, but would any business man go to the Civil Service for a manager of his business? It would be presumptuous on my part to attempt to eulogise that service. Viceroys and statesmen of the highest rank have spoken of them in terms of well-merited praise, and I could not, even if I desired, which I do not, depreciate them. But their training and education do not fit them to take charge of a difficult and complex business like the administration of a popular and self-governing institution such as the Corporation of Calcutta. I would ask the Hon'ble Member for the Chamber if he would go to the Civil Service for a manager of a tea garden? He would as little like to see tea from that garden inside his cup as outside of it, if it were so managed. He would as little like to drink the tea manufactured from that garden as he would expect to see a dividend from tea manufactured there. Would any bank, any shipping or export or import firm go to the depths of the mufassal for a manager of any of their businesses? They surely would not do so. Then, why should it be expected that the only fit person to be the head of the difficult business of municipal administration is a junior member of the Civil Service, however promising he may be in his own line of official life? The task is too severe for any such officer, and the choice is not fair to the public. The plan I am submitting would not in any degree interfere with the functions of the head of the Executive. He still would be the head of the Executive, with the Executive authority assigned to him untouched. He

would then be in the position that would be most appropriate and suitable for him; for, deny it how we may, and in this Council I do not expect concurrence with me, official Chairmen with their training come to us invariably with their minds imbued with certain principles of office that they never lose, and so there is no independent judgment with regard to whatever may be done by the Executive who are placed subordinate to them. Supervision fails; criticism is, I may say, deprecated. Take an instance to illustrate my meaning, and it indicates the habits of thought that prevail. The Engineer, without the sanction or even knowledge of the Corporation, started most expensive and costly drainage works, with regard to which the Government sanction had under the law to be obtained, but which in the system under which we have been working had not been obtained, and this apparently has not been considered a serious matter by the Chairman. It is incredible that these things should be, but I am stating facts, and it is extraordinary the latitude that has been allowed to the Engineer by the Chairman. These circumstances show a grave condition enough, but what I particularly now desire to point attention to is an aspect of the question to show how the official mind regards questions that are brought up for discussion. Immediately I discovered that a new drainage scheme had been started, one of the first questions I raised was as to the alignment of one of the main drains. I by no means asserted that I was correct in my view, or that a better alignment than the one proposed by the Engineer could be found, but I was desirous that my proposal should be considered. The Engineer met me with the short assertion that my suggestion was simply impracticable. The reasons he gave, I believed, from his own old plans for the drainage scheme, could not be maintained, and I pressed that my suggestion should at least be considered by the General Committee. The Hon'ble Mr. Oldham then threw up his hands and eyes, and exclaimed how could we possibly go against the views of our official adviser. I pressed for consideration of my suggestion, and the Engineer then met me with a counter proposal that the question should be submitted to the Hon'ble Mr. Buckley, who is the adviser to the Local Government in Engineering questions. I only wanted that my proposal should be considered, and I readily agreed. The reply we received from the Government was in the nature of a snub; we were told to attend to the advice of our official adviser. Fortunately, at this period, our Engineer left, at the expiry of the term of his agreement with us. The Government lent to us one of their officers to carry on the work in the interval before a successor could be appointed. I again asked for my suggestion to be considered, and this officer frankly admitted that he could not say that it was impracticable. When our new Engineer arrived, he at once took up my suggestion. He thanked me for making it, and adopted it as being the preferable alignment, since it was the more economical, easier worked, and better and more practicable in every way. We are told that more motive power is wanted among the Commissioners. Why, the official Executive resent our intervention and try to block us if they can. This is not an enquiry, many instances could be discovered, but I have given two instances of this already in the course of the debates. I was unable for many years, as I have before described, to carry through the scheme of improvement relating to the opening out of a new road to Kalighat. And I have mentioned how the Local Government have not condescended even to reply to our letter asking that steps be taken to carry out the recommendations of their own Building Commission for opening out the congested parts of the town. I now have given, I think, sufficient reasons for a change in the system of appointing the head of the Executive to be the Chairman of the Corporation. If the Government so desire it, let the choice be limited to a member of their service; but allow the Corporation their choice and let not the head of the Executive be *ex officio* Chairman of the Corporation."

The Hon'ble MR. BAKER said:—"I do not propose to follow the Hon'ble Member through the large mass of entirely irrelevant details with which he has favoured us. It seems to me, Sir, that not less than four-fifths of the time occupied by the Hon'ble Member was spent in dealing with matters which, in my humble judgment, have no connection whatever with the amendments now before the Council. But there are two matters with which he dealt to which

I will briefly refer. He was pleased to be very sarcastic at the expense of the Civilian Chairman of the Corporation, and he stated very plainly that he would prefer that the Corporation should have a free hand to choose their Chairman from outside the ranks of that service. Sir, if the Hon'ble Member would look forward to section 10 (*now* section 11) of the Bill, he would find it provides that the Local Government may appoint *any fit person* to be Chairman. There is not one word from first to last in this Bill to show that the Local Government is restricted in its choice of the Chairman either to the Civil Service or to the Bar or to the Public Works Department, or to any branch of its own service whatsoever. Then, Sir, he said a good deal about the want of continuity in the office of Chairman, and he said that if we had in Calcutta a system, which I understand he means to be that of Bombay, that there would be no such breach of continuity; at all events that the breaches of continuity would be less frequent. He proposes, I understand, that there should be a head of the Executive in Calcutta corresponding to the official who is known in Bombay as Municipal Commissioner, and that the Corporation should appoint their President, I presume in the same way as the Bombay Corporation appoints its President. The Hon'ble Mr. Bolton intervened to point out in a very proper way that in Bombay the President is only a figure-head. He is not a real working officer at all, and therefore, it is of no importance one way or the other whether there is continuity in his appointment or not. But, as a matter of fact, the breaches of continuity in the office of President of the Bombay Corporation are infinitely greater than the breaches of continuity in Calcutta, for, if the Hon'ble Member refers to the Bombay Act, he will find that a fresh President has to be chosen every year. If the President resigns or retires during the course of the year, or dies, then another President has to be chosen for the remainder of that period. If he were to look through the records of the Bombay Corporation, he would find that for every breach in the continuity of the appointment here, there are not less than two in Bombay.

"But, Sir, all this is by the way. I should now like to deal fully with what I understand to be the real proposal of the Hon'ble Member. The proposal is in part incorporated in his amendments Nos. 3, 4 and 10,* which by arrangement are to be taken along with this amendment."

The Hon'ble MR. APCAR said:—"I beg my hon'ble friend's pardon. I did not object to these amendments coming after the amendment I have moved, and I have not touched on them. I, however, am quite willing that they should be taken up at any time.''

The Hon'ble THE PRESIDENT said:—"I did understand that the Hon'ble Member would in his speech upon the item which we are now discussing disclose the whole of his own particular scheme, but I may have been mistaken. If he will explain in detail and completely all that he wishes to impress upon the Council in regard to these several motions, I think the Council would prefer that the whole and complete statement of the Hon'ble Member's scheme should be before it in deciding on that scheme in votes on individual items of the programme."

The Hon'ble MR. APCAR said:—"I should be glad to fall in with any wish Your Honour may express, but those matters are distinct from what I have got to say with regard to amendments Nos. 3, 4 and 10*."

The Hon'ble MR. BAKER said:—"I would prefer that the Hon'ble Member should deal with amendments Nos. 3, 4 and 10*."

The Hon'ble MR. BOLTON said:—"These amendments hang together. It is perfectly clear that the Hon'ble Member's object is to introduce the Bombay system into Calcutta. Let him, therefore, place his whole scheme before the Council."

* Printed on page 1919, *ante*.

The Hon'ble BABU SURENDRANATH BANERJEE said:—"I have got some amendments also; at any rate one of these amendments has nothing to do with the scheme which my friend the Hon'ble Mr. Apcar has laid before the Council."

The Hon'ble THE PRESIDENT said:—"It is a great disadvantage to the Council that we have to discuss and consider these things in what I might call a y fashion, to move from point to point without clear ideas of what it is the Ion'ble Member wish to impress upon the Council. I think it would be an advantage if the Hon'ble Member would now disclose the whole of his scheme, and then we can vote upon individual items."

The Hon'ble MR. APCAR said:—"The Hon'ble Members treat the question as if they know more than I myself do as to my meaning in moving the previous amendments that stand in my name. I have got no scheme that involves those other points. With regard to amendment No. 3*, I ask that all through in this Bill wherever the expressions 'Chairman' and 'Chairman of the Corporation' occur the expressions 'Commissioner' and 'Municipal Commissioner' be respectively substituted. He may be termed Municipal Commissioner; still he would be none the less qualified to be Chairman, if the Council so determine. I think myself that the expression 'Chairman of the Corporation' is an appropriate term under the present Act, for this reason: he is a member of the Corporation with other members, all of whom have got Executive functions. He is head of the Executive, it is true, and he has got in practice wider powers as head of the Executive than even under the present Bill is permitted him, but his distinctive character in the Corporation, as it now exists, is that he is Chairman of the Corporation; so that when you call him Chairman of the Corporation you define him at once. Here, so far as the scheme of this Bill is concerned, he is to be the head of the Executive as an independent co-ordinate authority. There is no reason why he should be called Chairman of the Corporation any more than that he should be called President of the General Committee. If he is called Chairman of the Corporation it does not distinguish his functions in any way. The designation only would refer to that which is the least portion of his duties. As President of the General Committee, he has got many more difficult and more important duties Why then not call him President of the General Committee? And, therefore, in these circumstances, it seems to me the more appropriate designation would be 'Municipal Commissioner'."

The Hon'ble MR. BAKER said:—"It was arranged in the beginning that these amendments Nos. 3, 4 and 10,* which are a matter of nomenclature, should stand over until we came to the substantive amendment on which they depended. You suggested, Sir, that the Hon'ble Member should disclose his whole case, but, as I understand him, he is not doing so. He is simply treating those three amendments as if they were still pure matters of nomenclature and as if we had not yet come to the substantive amendment."

The Hon'ble THE PRESIDENT said:—"Meanwhile, we are only talking about designations."

The Hon'ble MR. APCAR said:—"I wish to meet the wishes of the Hon'ble Member, and I do not mean, I may inform him, to make any insidious attempt to get round any particular section by anticipating discussion. I have been simply trying to do what I have thought the Hon'ble Member himself desired. With regard to the term 'Councillor' I say, since the members of the Corporation have no Executive duties, and it is a term that is applied in Bombay, and is a recognised term to describe members of municipal administrations, it seems to me that it would be more appropriate under this Act to call them Councillors, and then when I come to the third amendment, No. 10,* to call those three, the Corporation, the General Committee, and the Chairman of the Corporation co-ordinate authorities, seems to me to be a contradiction in terms, for immediately you call one of the three Chairman of the Corporation, the co-ordinate aspect is gone. I repeat, Sir, if the Legislature is desirous of

* Printed on page 1919, *ante*.

maintaining the head of the Executive as Chairman, it seems to me a more appropriate term that when we talk about three co-ordinate authorities, instead of calling him 'Chairman of the Corporation,' he should be distinguished 'the Municipal Commissioner.' The designation 'Commissioner' is given to officers of Government who perform Executive duties, and I am only carrying out this idea in proposing that the head of the Municipal Executive should be called Municipal Commissioner."

The Hon'ble MR. BAKER said:—"I submit that Your Honour's directions were that it would be convenient to the Council if the Hon'ble Member stated his whole scheme. Now it is quite plain that he has not done so. His actual scheme, as I understand it, is embodied in the amendments which are numbered 16,* 25, 26,† 39 and 53.‡ I am prepared to reply upon those if the Hon'ble Member will state his scheme, otherwise it does not appear to me that I have anything to reply to."

The Hon'ble MR. BOLTON said:—"That the Hon'ble Member has a scheme is evident from his amendments 25 and 26,† and I find in the margin of these amendments that he quotes the Bombay Act. He proposes to have a President as in Bombay, and he also proposes that the Commissioner shall occupy the same position as that officer in Bombay. I assume, therefore, that he desires to ask the Council to introduce the Bombay scheme."

The Hon'ble MR. APCAR said:—"I have been called upon to move a certain amendment, and I am doing so."

The Hon'ble MR. BAKER said:—"I think it might be better to treat the amendments Nos. 3, 4 and 10* as if they were a question of principle, and let the vote of the Council be taken upon them. If the vote of the Council is adverse to the Hon'ble Member on these three amendments, a number of the later amendments must be ruled out of order."

The Hon'ble MR. APCAR said:—"I can only say that it has never occurred to me to put those forward as amendments in which any principle is involved, otherwise I should have been open to the charge that I find is still lurking in my hon'ble friend's mind, and I regret to find that he cannot get rid of, that it was an insidious attempt to anticipate future discussion."

The Hon'ble BABU SURENDRANATH BANERJEE said:—"May I be permitted to say a word, and it is this:—If amendment No. 16* and the other amendments which hang together are put and lost *ipso facto*, the preliminary amendments will be lost."

The Hon'ble THE PRESIDENT said:—"The Hon'ble Member (Mr. Apcar) must surely see that the whole Council is waiting with interest and anxiety to know what it is that he wants us to do. The change of names, or the alteration of the nomenclature, of the officials of the Municipality, is a very small and insignificant matter, but it is quite apparent from the subsequent amendments, which the Hon'ble Member is going to move, that they are really part and parcel of a large and important scheme; and, until we know what that large and important scheme is, it seems to me useless to dispose of preliminary questions of this kind. The idea that I had, and that I venture to think the Council had, was that when we did come to discuss one important point of principle, as to whether the Chairman should or should not be a member of the constitution of the Corporation, we should then have a definite statement from the Hon'ble Member as to what the scheme was that he proposed to substitute for that in the Bill. If the Hon'ble Member chooses again to postpone his amendment No. 16,* as well as those which have preceded it, until we come to the question of principle in amendment No. 25,† I am perfectly prepared to agree to that adjustment, but what I want to impress upon him is that the first thing

---

* Printed on page 1919, *ante*.
† Amendments Nos. 25 and 26 are printed on page 1940, *post*.
‡ For amendments Nos. 39 and 53, see the last foot-note on page 1910, *ante*.

to be done is to have the whole of his particular proposal exposed and disclosed to us. Until we have that and we know what it is that he wants of us, the disposal of these preliminary matters is of no value whatsoever."

The Hon'ble MR. APCAR said:—"I certainly do not accept the Hon'ble Babu Surendranath Banerjee's ideas as correct. I again repeat that there is absolutely no principle involved in amendments Nos. 3, 4 and 10.* Surely my disclaimer ought to be accepted. I have never intended that any principle shall be involved, and even if they are passed in their entirety, the section as amended will not affect my further amendments. My argument is that if you pass these amendments hereafter, and let the Bill stand as it does, the term 'Chairman of the Corporation' does not describe the functions of the head of the Executive."

The Hon'ble THE PRESIDENT said:—"The Hon'ble Member will understand that I and the whole Council are anxious to assist him. Our object is not to dispose of preliminary items without understanding what it is the Hon'ble Member has at the back of them. If the Hon'ble Member prefers that we should vote upon this as his scheme, I am quite prepared to put these particular items to the votes of the Council."

The Hon'ble MR. APCAR said:—"I submit the burden does not lie on me. If amendment 25† is not called on for discussion, how can I bring it forward? I think that amendments Nos. 3, 4 and 10* can be put now and disposed of. It does not in any way affect amendment No. 16.*"

The Hon'ble THE PRESIDENT said:—"The Hon'ble Member is a judge of his own case. I leave it to him."

The Hon'ble MR. APCAR said:—"I repeat that I have no intention in any way of anticipating the result of any discussion with regard to amendments Nos. 16* and 25†. I repeat that my proposals do not affect, in my view, these other sections. It is merely for the purpose of providing whether the head of the Executive is hereafter to be called 'Chairman of the Corporation' or 'Municipal Commissioner'."

The Hon'ble MR. BAKER said:—"I am not quite sure, Sir, what has been the decision. Are we to speak upon Nos. 16* and 25†?"

The Hon'ble THE PRESIDENT said:—"No, not on amendment No. 25†."

The Hon'ble MR. APCAR said:—"I am quite prepared to postpone amendment No. 16*, and take it with amendment No. 25†. Amendments Nos. 3, 4, and 10* are distinct."

The Hon'ble MR. BAKER said:—"If the Hon'ble Member would take Nos. 16* and 25† together, and let them be discussed and voted on, then after that decision, Nos. 3, 4 and 10* might be voted on."

The Hon'ble THE PRESIDENT said:—"I do not wish to incommode the Hon'ble Member in any way, and it is now for him to say whether he would like the votes of the Council taken at once on amendments Nos. 3, 4 and 10*, or whether he would like to speak upon the principle in amendments Nos. 16* and 25†."

The Hon'ble MR. APCAR said:—"My view is this: that the votes on amendments Nos. 3, 4 and 10* should be taken now and disposed of."

The Hon'ble THE PRESIDENT said:—"Has the Hon'ble Member anything further to say upon amendments Nos. 3, 4 and 10*?"

The Hon'ble MR. APCAR said:—"I have said all that I have to say."

* Printed on page 1919, *ante*.
† Printed on page 1940, *post*.

The Hon'ble MR. BAKER said:—" The new designations proposed by the Hon'ble Mr. Apcar may be suitable to the Bombay system, but they are distinctly not suitable to the system which it is proposed in the Bill to retain and develop in Calcutta."

The Hon'ble BABU SURENDRANATH BANERJEE said:—" With Your Honour's permission, I would like to say a few words in reply to the observations of the Hon'ble Mr. Baker to the effect that we are having the Bombay system introduced and ingrafted upon our system. Some salient features of that system have been incorporated in our system. That being so, it seems to me a distinct advantage that we should borrow the nomenclature of the Bombay system. It seems to me also that as regards item 10*, the amendment that is suggested there is an amendment which does not only involve a question of nomenclature, but it goes much further than that—it is an amendment which involves a question of principle. My friend the Hon'ble Mr. Apcar will move, if the last amendment be lost, that for the words 'a Chairman of the Corporation,' the words 'a Municipal Commissioner' be substituted. 'Chairman of the Corporation' would be used in the way that expression is understood at the present moment—the President of the Corporation. And there we join issue with the Hon'ble Member in charge of the Bill. The whole of our contention is, at the present moment, pending the decision of the Council, that the President of the Corporation should be an individual different from the head of the Executive of the Corporation, and, therefore, if you say 'Chairman of the Corporation' you pledge yourself, you commit yourself to the principle that the head of the Executive is also to be the President of the Corporation. I do not think, Sir, we have arrived as yet at that stage in the discussion where you are in a position to accept that as a definite principle; and I have serious objection to this Council accepting by anticipation a nomenclature which might bind the Council to a principle in regard to which the vote of the Council has not yet been obtained. If you say that he shall be the Chairman, you mean that he is to be the President of the Corporation. We have not yet decided as to whether he shall be President of the Corporation. That is a matter yet to be determined, and many of us have got something to say with regard to it. The Hon'ble Mr. Mackenzie has got a long speech, and I want to hear others. I vote for my hon'ble friend's amendment, and I repeat if you have the Bombay system, let us have it in its entirety. It is much better to have the genuine article than a hybrid—something between the two is entirely repugnant to my views."

The Hon'ble MR. BOLTON said:—" The Hon'ble Mr. Apcar wishes our Chairman to be designated 'Commissioner' and our Commissioners 'Councillors,' and he protests that his proposal is unconnected with his later amendments. If so, what is the necessity for the change? Why should the name of Chairman of the Corporation, which has been used for thirty or forty years, be now altered? I am unable, however, to accept the view that no special meaning attaches to the present amendments, because the new designation of the Chairman is subsequently introduced in amendments which go to make material alterations in the constitution of the Corporation as set out in the Bill, that is, amendments Nos. 25 and 26.† We are to substitute for the Chairman a President, and a 'Commissioner' is to be introduced in Calcutta corresponding to the Executive Commissioner of Bombay. As the Hon'ble Member, however, desires his amendments to be treated as a mere question of nomenclature, I will record my vote against them, on the ground that no reason whatever exists for the proposed change."

The Hon'ble MR. APCAR said:—" The Hon'ble Mr. Bolton has said that the thing has continued so long, therefore let it continue, but I wish him to understand that things are to be different: what there has been before is not to be in the future: there is going to be a distinct change in the Bill, and I say it would be more appropriate to call the Chairman 'Municipal Commissioner'; and, considering that we have got three co-ordinate authorities, they should be

* Printed on page 1919, *ante*.
† Printed on page 1940, *post*.

separate and distinct. That is my contention, and I repeat that, so far as I am concerned, my intention is not in any degree to anticipate the decision of amendments Nos. 16* and 25†."

The amendments Nos. 3, 4, and 10* were then severally put and lost.

The Hon'ble MR. APCAR then formally moved amendment No. 16, *namely'* that in section 6 the words "the Chairman and" be omitted.

The Hon'ble THE PRESIDENT said:—"Has the Hon'ble Member in charge of the Bill got anything to say about amendments Nos. 16* and 25†?"

The Hon'ble MR. BAKER said:—"I understood the arrangement was that the Hon'ble Mr. Apcar would now deal with amendments Nos. 16* and 25† together. I shall reserve what I have to say until we come to amendment No. 25.†"

The Hon'ble MR. OLDHAM said:—"I should like to say a few words in reply to the Hon'ble Mr. Apcar. He began as well as I remember by saying that he would call a spade a spade, but I really think he has called the spade something like a twenty-thousand horse-power excavator. I must deprecate the exaggeration which has been used in his speech. Referring to the Chairman, I have taken down the following passages: 'The Chairman can do anything in the Corporation; he can alter his predecessor's policy; each change is followed by a complete reversal.' I do not believe that any member of the Corporation will seriously endorse any of these expressions. Mr. Greer was particularly referred to by the Hon'ble Mr. Apcar. I was in the most intimate association with Mr. Greer during the whole time that he conducted that office, and I was repeatedly consulted by him. I know there was a little difficulty about the Rs. 60,000 which was referred to by Mr. Apcar. It was a pure oversight and was the fault of Mr. Greer's office; otherwise, I can vouch for the fact that Mr. Greer's constant policy was to take the Commissioners into his complete confidence and to wait on the Commissioners before carrying out any single thing. I remember that on one occasion Mr. Greer visited a slaughter-house or gowkhana. He was very much dissatisfied with the state of it, and he passed an emergent order. I remember he was seriously taken to task by the Commissioners for exceeding his authority in ordering changes involving considerable expenditure for which there had been no provision and without first consulting his colleagues, and I venture to say that Mr. Greer never made a mistake of a similar sort again. Before he left them he had earned the approbation as well as the affection of the Commissioners."

The Hon'ble MR. MACKENZIE said:—"The Hon'ble Mr. Apcar made a reference to me in his speech and referred to the management of tea-gardens and tea-cups. I shall not endeavour to follow him in these matters; but in regard to his amendment, I oppose the motion that the Chairman should not be a member of the Corporation and should not preside at meetings: he should occupy a similar position to that of the Municipal Commissioner in Bombay.

"In my opinion the Chairman ought to occupy the position of a Managing Director of a commercial concern, and should invariably be a member of the General Committee, which corresponds to a Board of Directors, and he should always preside. Any other arrangement would lead to waste of time, to loss of power, and possibly to friction."

The Hon'ble BABU SURENDRANATH BANERJEE said:—"My hon'ble friend in charge of the Bill began his observations by deprecating the irrelevant remarks which Mr. Apcar made in connection with this Bill. I am sorry to have to say that if Mr. Apcar's criticisms were irrelevant, the criticisms of my hon'ble friend in charge of the Bill are exposed to the same objection. I think, Sir, we have been drifting away very considerably from the position which the amendment opens out. The whole question at issue is this: whether the

---

* Printed on page 1919, *ante*.
† Printed on page 1940, *post*.

Chairman is to be a member of the Corporation or not: Is he to be one of the deliberative body known as the Corporation, or is he to stand outside the Corporation? And in discussing this simple issue we are led to the other question as to the election of the Chairman; and here again, Sir, the spectre of confusion seems to haunt us. There was considerable confusion in the blending up of the two offices: the 'Chairman of the Calcutta Corporation' and the 'Municipal Commissioner of Bombay.' Sir, the Hon'ble Member in charge of the Bill made the remark that if the Chairman of the Calcutta Corporation is changed very often, the President of the Bombay Corporation is changed also very often. As a matter of fact, the two things are totally different. The Chairman of the Calcutta Corporation holds a position very different from that of the President of the Bombay Corporation. The President of the Bombay Corporation may be a figure-head, but he is a very brilliant and distinguished figure-head. He is pre-eminently the first citizen of the first city in the Indian Empire. He receives the Viceroy when the Viceroy lands in India; he bids adieu to the Viceroy when the Viceroy leaves India. He may indeed be a figure-head. I am sure the Hon'ble Mr. Mackenzie would like to be a figure-head of that description. The President of the Bombay Corporation is a figure-head in this sense, but at the same time he performs important functions. He is the guide, the preceptor, and leader of the Corporation; he presides at the meetings of the Corporation; he regulates the proceedings; he has a casting vote in case of equality of votes. To compare him with the Executive head of the Calcutta Corporation, my friend will permit me to say, is a comparison which will not stand the test of scrutiny."

The Hon'ble MR. BAKER said:—"That is the very comparison which the Hon'ble Member the mover of the amendment made."

The Hon'ble BABU SURENDRANATH BANERJEE said:—"What I wanted to say in this connection is this: that this is the first of a series of amendments in regard to which my hon'ble friend Mr. Apcar and myself have given notice. The object is to incorporate, so far as we can incorporate, the Bombay system into the Calcutta system. We have suggested that the Chairman shall not be the President of the Corporation; we begin by saying that he shall not be a member of the Corporation. Having said that he is not to be a member of the Corporation, we provide later on that the Corporation is to elect its own President; in other words, he is not in any way to be connected with the Corporation as a member or as President. We have heard a great deal about this Bombay system. The essence of the Bombay system is this: the complete separation of the deliberative from the executive body. The executive body stands apart from the deliberative body, and the deliberative body when it comes in contact with the executive body promptly brings it into a position of subordination. On the other hand, the essence of our system is the complete assimilation, the blending up of the two. Therefore, the object of amendment 25* on the paper is, so far as practicable, to assimilate the Calcutta system to the Bombay system. Therefore, the first amendment, proceeding on these lines, is that the 'Chairman shall not be a member of the Corporation.' If you accept that proposition, we say that the Corporation shall elect its own President, and that further the General Committee shall elect its own President, and if we accept those amendments, we have that complete separation of the executive and deliberative bodies which is the essence of the Bombay system. In the Bombay Act there is a section which enables the Corporation to call for any statement regarding the affairs of the Municipality and pass Resolutions with regard to any such statement; in other words, the power of criticism, the power of supervision extending over the entire domain of municipal administration, is given to the Corporation. They have co-ordinate authorities, but separate and distinct from each other. Have you got anything approaching that here? And it is, because, Sir, we have not got here that safeguard, that my hon'ble friend Mr. Apcar and I have thought it our duty to suggest the acceptance of those provisions of the Bombay Act which will ensure to the Corporation here that supremacy which the Bombay Corporation

* Printed on page 1940, *post*.

enjoys, and which has made that Corporation the success that it is. Therefore, Sir, in all earnestness, with all the emphasis that I can command as one whose life has been passed in the cause of Local Self-Government, I beg Your Honour to consider whether it is not desirable, in the interests of that Local Self-Government which this Council is apparently anxious to maintain, that we should assimilate our system to those portions of the Bombay system which alone can conduce to its sound and efficient working."

The Hon'ble MR. BAKER said:—"The Hon'ble Babu Surendranath Banerjee has discussed the very questions of principle into which the hon'ble mover of the amendment refused to enter. I therefore ask permission to reply to him."

The Hon'ble THE PRESIDENT said:—"I have particularly asked the Hon'ble Mr. Apcar whether he wished a discussion upon the entire scheme to take place now in the discussion upon the motion which stands as No. 16,* or whether the question of principle should be deferred until we come to motion No. 25.† The Hon'ble Member said that he wished this particular item to be discussed as it was, and he declined to make any further statement of his scheme when I asked him if he had anything more to say. Up to the present all that we have had from the Hon'ble Member, the mover of the present motion, is that he thinks it would be a good plan for the Municipal Commissioners to elect their own President. We have heard nothing about the further development of his scheme which has been disclosed in the very interesting and eloquent speech of the Hon'ble Babu Surendranath Banerjee. The plan upon which we have been proceeding is a plan in which I have subjected my own ideas, as to the propriety of the discussion, largely to the personal wishes of the Hon'ble Mr. Apcar. I venture to think that we shall avoid confusion if we do adopt the plan which I originally suggested: that we have now a discussion upon the main principle which is put before us for our acceptance. If the Hon'ble Mr. Apcar, after hearing the speech of his colleague, the Hon'ble Babu Surendranath Banerjee, is prepared now to go on with his statement in his own words and in his own fashion of the principle which he proposes to us, then the Hon'ble Member in charge of the Bill will be able to speak properly. I put it to the Hon'ble Member to take whichever course his own discretion and judgment lead him to think proper."

The Hon'ble MR. APCAR said:—"So far as I am concerned I would have had no hesitation whatsoever, if the amendments had been put in the way Your Honour now suggests, in acceding to any discussion on those lines. I have now very little more to say in the matter, because I have already dealt with the main points. I have no wish to dwell upon points which have been already impressed upon the Council. I of course shall have a reply. I am quite willing that this amendment No. 25† should be taken with amendment No. 16*."

The Hon'ble MR. BAKER said:—"The Hon'ble Babu Surendranath Banerjee very correctly pointed out that this amendment is the first of a series of amendments the effect of which is to bring about an entire and radical change in the position and status of the Chairman. In this amendment‡ it is proposed to declare that the Chairman shall not be a member of the Corporation. In the Hon'ble Babu Surendra Nath Banerjee's amendment of section 10 (*now* 11)§ it is proposed that the Corporation shall elect their own President, and in one of his amendments of section 8 (*now* 9)|| it is further proposed that the General Committee shall elect their own President. So that the Chairman would not be a member of either of the two bodies—the Corporation or the General Committee. The avowed object with which these proposals have been brought forward is to introduce the Bombay system into the Calcutta Corporation. I say the avowed object, because it would be easy to show by going through the Bill and the amendments in detail that that object has not been

---

* Printed on page 1919, *ante*.
† Printed on page 1940, *post*.
‡ *i e.*, amendment No. 16, which is printed on page 1919, *ante*.
§ *i.e.*, amendment No. 56. It was withdrawn at the meeting held on the 11th September, 1899.
|| *i.e.*, amendment No. 46. It was withdrawn at the meeting held on the 11th September, 1899.

carried out at all, or only in an imperfect manner. The position of the Chairman, if the amendments that have been moved were carried, would be very different from and distinctly inferior to the position of the Municipal Commissioner as it is under the Bombay Act.

"In the first place with reference to these amendments I would point out that they are not compatible with the principles which the Select Committee and this Council have adopted in framing the constitution and settling the details of the Bill. The Chairman is one of the three co-ordinate authorities who are charged with the municipal government of the town; and the Select Committee, in deciding what particular functions of every kind should be assigned to the Chairman, have proceeded throughout on the understanding that that officer will continue to hold the same position that he does now as President both of the Corporation and of the General Committee. If we are now going to change this, if we are going to declare that he is not to be the President of the General Committee and not to be President of the Corporation, to have no right to vote or to move Resolutions at meetings of those bodies, then it will be necessary for us to go through the Bill again, section by section, in order to see what changes it would be necessary to introduce to meet that altered position. Now, Sir, that is work which cannot possibly be done by this Council as a whole; it can only be done by the Select Committee. Therefore the first effect of adopting the Hon'ble Member's amendment would be that this Council would have to adjourn; it would have to remit the Bill back to the Select Committee, and there would be no possibility of disposing of it during the present Session. That alone is a sufficient reason I think why this amendment No. 16* and all the following amendments should be rejected.

"But, Sir, there is far more to be said about it than this. I am not disposed to deny that the Bombay system in some respects is a good and workable one, and in some particulars I think it is a better system than the system which we have or are going to have in Calcutta. I refer in particular to the exclusive power of making all municipal appointments which in Bombay rests with the Municipal Commissioner. In Bombay the Municipal Commissioner has the sole and exclusive control of the municipal establishments of every grade and description, with the sole exception of the Engineer, the Health Officer, the Secretary and the Secretary's clerks. In those respects I think the Bombay system is distinctly in advance of the system which we have now or the system under the Bill. But, Sir, there are also some defects in the Bombay system; and perhaps the most conspicuous defect in that system is the extreme length to which it goes in separating the executive authority from the other two authorities. Exactly the same defect is to be found in the American Constitution, where neither the President of the United States nor any of his Cabinet Ministers have seats or the right of speech in either House of Congress. The framers of the American Constitution introduced this restriction for precisely the same reasons for which the Hon'ble Members wish to introduce it here, namely, to safeguard the independence of the deliberative body, and to prevent the Executive from usurping an undue preponderance of power. The evils which have flowed from this unfortunate separation in America, the lack of motive power, the lowering of the status of Congress itself, and the total absence of organization or business-like methods in their proceedings have been clearly traced by Professor Bryce, in his standard work on the American Commonwealth. The same evils have manifested themselves on a smaller scale in Bombay; and similar causes will assuredly produce similar results in Calcutta. What we should seek to do is to link these three authorities together, the Chairman, the General Committee, and the Corporation: and unquestionably the best way of doing so is to cause the Chairman to preside at meetings both of the General Committee and of the Corporation. If we do not do so, the initiative of the Chairman will be destroyed, or at all events weakened, and schemes in which all are interested will drag, because there is no one to push them. The legitimate influence of the Corporation and of the General Committee over the Chairman will be weakened. They will correspond with him formally, there will be a great waste of time, and

* Printed on page 1919, *ante*.

responsibility will be frittered away. And, Sir, there is another drawback to the system which prevails in Bombay to which the Hon'ble Babu Surendranath Banerjee made no allusion: it is that it tends to throw very great and irresponsible power into the hands of the Municipal Secretary. In Bombay the President is a non-official gentleman elected from year to year. He is not a whole-time officer, he is not a salaried officer. He is, to use an expression we have heard to-day, an ornamental figure-head. He corresponds more or less to the position of the Mayor of an English town. In English towns the whole of the work is really done by the Town Clerk. He is a highly paid and highly qualified expert. The Town Clerk of the City of London draws a salary of £3,500 a year; in Glasgow he gets nearly the same; in Liverpool he draws £2,000 a year. That is the class of officer by whom the work is actually done. In order that business may be efficiently conducted, it is essential that the President of the body which conducts it should be thoroughly familiar with the details of the business to be done, and it is hopeless to expect that a non-official gentleman who has his own business to do, whose time is very fully occupied, and who probably regards the conduct of details as a matter beneath his dignity, should ever find time or go to the trouble to attend to them. The result will be that the Secretary, the only salaried official whose duty it is to put the papers up before the meeting on each occasion, will gradually absorb a large amount of power for which he is not qualified either by salary or status."

The Hon'ble BABU BOIKANTA NATH SEN said:—"With Your Honour's permission I would like to make a few remarks. When the Bill was originally introduced three distincts authorities were intended to be created. Having read the Bill it seems to me that to call the three authorities co-ordinate authorities is rather a misnomer, because they are not independent in themselves. The three are linked together in such a way that one depends upon the other to a certain extent, even so far that I find that one of the sections provides that the General Committee is to hear appeals against certain action and orders by the Chairman. I believe there is a certain section to that effect—section 314A (*now* 327). Now the question is, if the original intention at the time of the introduction of the Bill was to create these three separate authorities, and if that has not been found practicable or feasible or wise, can it be called sound legislation to have these three bodies again constituted in such a way as to give rise to further complications; would not a distinct object be gained if the Corporation consists of the Commissioners only, devoid of the Chairman? Let there be a Chairman with his authorities, privileges and duties, and the General Committee and the Corporation with its members only, they being free to elect their own Chairman. I believe it would minimise to a certain extent the difficulties and complications which might be created, and would avoid discord and friction. It is not my purpose to go over the Bombay Act, and the Hon'ble Member in charge of this Bill has admitted that if that Act had been accepted for Calcutta some of its provisions would have been found better suited and some otherwise. But I would ask Your Honour to consider the case of the other municipalities in Bengal. It will be said that there cannot be any comparsion between mufassal municipalities and the Calcutta Municipality. It is quite true that in every respect there cannot be any comparison between the Calcutta Municipality and the other mufassal municipalities, but where there is a principle found to be efficacious, based on sound legislation, and found to be sound in respect of these mufassal municipalities, that principle, I submit, ought also to be considered as being a sound one in respect of the Calcutta Municipality. In most of the one hundred and fifty mufassal municipalities—I think in round numbers there are about that number—the Chairman is elected by the Commissioners themselves. Of course there are nominated members. The Chairman is appointed by Government in certain cases, but in most cases the Commissioners themselves are allowed the freedom of electing their own Chairman. Here, again, when these different authorities are created, the Chairman of the Commissioners or the President of the Commissioners would be the head of the consultative body. The attempt of the Bill is to disintegrate and separate the executive functions from the administrative functions. If the Commissioners

themselves have their own figure-head, he will no doubt help them in their deliberations, and no possible difficulty would arise if they be allowed the option of electing their own Chairman."

The Hon'ble MR. APCAR said:—"There have been observations made that force me to make a reply. I must apologise to you, Sir, for making you a *particeps criminis* in the waste of time here. The Hon'ble Member in charge of the Bill makes the charge that there has been irrelevant matter introduced which has taken up four-fifths of our time. I fear, Sir, that it is to the President of this Council the blame must attach for having permitted so much irrelevant matter to be discussed. The Hon'ble Member in charge of the Bill, it seems to me, thinks that anything is irrelevant which is spoken contrary to his own ideas, and I feel bound to say that if the Hon'ble Member had left the business to take its ordinary course in this Council, there would have been a great deal of time saved. With regard to what the Hon'ble Member in charge of the Bill said in respect of the power given to the Government to appoint any fit and proper person to be Chairman as being an answer to my objection, he has missed the point of my contention entirely. My point is this: I say let the Corporation elect for themselves. If they are not fit to elect their Chairman, then I think they are not fit to be entrusted with any powers at all. I would further observe that, as I already have said, the Government has no idea of appointing any person outside their own service. Again, as regards continuity being destroyed, the Hon'ble Member in charge of the Bill has entirely missed what I wished, at all events, to explain. It is this: When we have Chairman after Chairman coming into the Corporation as its head who before has had no connection with a popular representative form of government, who does not know the working of a municipality, he has got to be guided for some time by experienced Commissioners in the General Committee, so that he gradually learns his business. On the other hand, if we have a President elected from among our own body, a Commissioner would be elected who had been serving for some time in the Corporation; he would be familiar with the business of the Corporation and acquainted with the past history of questions that may arise. Because the period of office is one year, as under the Bombay system, it does not follow that he could serve for one year only. The same Commissioner would be eligible for re-election, and even if a different Chairman was elected from the Corporation annually, we would have a more continuous policy than, from the actual circumstances of the present method, can ever be obtained, because it would in effect be the Corporation who would be carrying on the business and not a stranger transplanted from the mufassal.

"I hope, Sir, it will not be thought that I intended to attack any person. I was very sorry to mention any name at all. I would have been very glad to have been able to omit names. I was forced to mention names; you will remember, Sir, that I almost apologised for doing so. I repeat again that I did not in any degree mean to attack any individual, but I was attacking the system. It is only adding point to my argument that the matters that I have referred to were done in ignorance. I never suggested that the Chairman whom my hon'ble friend mentioned would have done deliberately what I have given as an illustration in support of my contention. I have assumed that he acted in ignorance, and I have expressly so stated in what I have before written and said on the subject, as my hon'ble friend must be aware. If I have been inaccurate in any statement, it is open to the Hon'ble Member to correct me.

"Again, in the Verandah question, the Chairman's motion was beaten. What did he do? He sent out a whip, brought all his supporters again, and carried his motion. Any matter that he desires to carry he can carry, if he chooses."

The Hon'ble THE PRESIDENT said:—"Gentlemen, we come now to a conclusion on one of the most important issues that will be probably put before us in the whole course of this discussion, and I should like therefore myself to sum up the debate in a very few words. There appear to be before us in the speeches

that have been delivered two issues: one is that the Chairman of the Corporation should be elected by the Corporation. The other is that the Chairman or the Executive official of the Corporation should be entirely outside and independent of the corporate body.

"On the first question you have to remember that a large amount of appeal has been made to the Bombay precedent. You know there that the Executive authority is not appointed by the Corporate body. He is appointed by Government, and not by the Municipal Commissioners, and, therefore, in this matter the Bill only follows that precedent to which appeal has been expressly made; but further I have to remind the Council that the Bill directly and clearly states that the Chairman to be appointed by the Government shall be a person whom the Government consider to be a fit and proper person. The Bill does not say that the person who is to be appointed Chairman of the Corporation shall be a member of the Civil Service. I hope heartily that it shall not fall to my lot in my term of office to appoint a Chairman. You could not have a better man than you have at present; but if, unfortunately, a vacancy should occur, you may rely upon it that my Government will, in discharging their very responsible duty, select the man whom they consider to be the most fit and proper person, irrespective of any service trammels.

"Now I come to the second point, as to whether the Chairman should or should not be a member of the Corporation. If anything could have moved me in a matter of that kind, it would have been the eloquent, earnest and almost pathetic appeal of the Hon'ble Babu Surendranath Banerjee; but my mind upon that point is absolutely and perfectly clear. The Hon'ble Member appealed to experience. So do I, and I illustrate my opinion on this matter by two analogies: the first is that of the District Boards. In 1882 and 1883, when I was in the North-Western Provinces, I was member of a Committee that sat under the orders of the Lieutenant-Governor to consider what were the best means of carrying out that great scheme in the rural parts of the country. and the first, and perhaps the most important, point that was put before us for decision was this: shall the control of the Collector in the districts be from within or from without? And every member of that Committee gave an opinion except one, and that one was the most acute and the most astute native adviser that we had at that time in the North-Western Provinces. His name is well-known to some of you—Raja Shiva Persad, of Benares, and when he alone was left to speak, the whole meeting turned to see what he had to say He said: 'I will tell you my opinion by a parable. Put twelve coolies to a rope to pull a cart, and they are all right as long as the twelve are pulling together, but take one of those coolies out and put him on the cart with a long whip, and the remaining eleven do not like it.' Now the experience of control from within of the Collector over his District Board is absolutely in favour of the plan of having the executive and the corporate body together. No one will deny that that adjustment has, as Raja Shiva Pershad predicted, answered to the advantage of all concerned. Now I shall give you another, and I hope a still better instance, and that is my own. Here I stand before you, President of this deliberative body, and at the same time I am the head of the Executive of this Province. I can conceive nothing more inexpedient and more inadvisable than that my connection with this Council should be severed. From this Council the Lieutenant-Governor receives constant support, help, advice, and, indeed it may be, check, if his measures are ill-advised. I consider that, so far from its being an advantage to separate the executive and deliberative authorities as my hon'ble friends Mr. Apcar and Babu Surendranath Banerjee have recommended, there could be nothing more injurious than to separate the one from the other. Each gathers from the other experience and suggestions which no other connection that I know of yields. It is for this reason that the members of the Government of England are associated with the Houses of Parliament, and it is for this reason that I am positive that, in the interests of the city and in the interests of every good work undertaken in it, its Chairman should not be severed from the Corporation."

The amendment No. 16* was then put and lost.

---

* Printed on page 1919, *ante*.

SECTION 6.

The Hon'ble THE PRESIDENT ruled the following motion, standing in the name of the Hon'ble Mr. Apcar, to be out of order:—

That in section 6 for the word "fifty" the words "sixty-four" be substituted.

SECTION 5.

The Hon'ble MR. BAKER said:—"Amendment No. 11* disappears in consequence of the decision on amendment No. 16.†"

The Hon'ble THE PRESIDENT said:—"That amendment was to stand over until the vote on amendment No. 16 † had been taken."

The Hon'ble BABU SURENDRANATH BANERJEE said:—"I have already indicated what I had to say with regard to this amendment: that it is to be taken along with my motion (amendment No. 55‡) for the addition of a proviso to section 10 (*now* 11). In fact, it forms part of the same group of amendments."

The Hon'ble THE PRESIDENT said:—"When does the Hon'ble Member wish to take it?"

The Hon'ble BABU SURENDRANATH BANERJEE said:—"I will take it in connection with section 10 (*now* 11)."

The Hon'ble MR. BAKER said:—"I submit we have already discussed amendment No. 25§ along with No. 16.† Amendment No. 25§ is practically identical with the amendment moved by the Hon'ble Babu Surendranath Banerjee on section 10 (*now* 11), and the vote on No. 16* which we have just taken will have the effect of ruling it out."

The Hon'ble BABU SURENDRANATH BANERJEE said:—"I have no desire to renew the discussion, because I quite agree with the Hon'ble Mr. Baker that this is really an amendment with regard to which there has been a discussion."

The Hon'ble MR. BAKER said:—"The President is asking whether you object to amendments Nos. 11* and 55‡ disappearing as being governed by the decision on Nos. 16† and 25.§"

The Hon'ble BABU SURENDRANATH BANERJEE said:—"It must be governed by the voting upon the other sections. There is only one remark I wish to make. I think it is not desirable, having regard to the fact that the Chairman is the head of the Executive and that the Corporation takes cognisance of the decisions of the Executive on appeal, that the head of the Executive should sit in judgment upon appeals to which he himself is a party. It seems to me to be a combination of functions which are inconsistent with our elementary notions of justice."

The Hon'ble THE PRESIDENT said:—"Does the Hon'ble Member wish to speak to item 55 ‡?"

The Hon'ble BABU SURENDRANATH BANERJEE said:—"No, Sir, except the observations I have just made."

The Motion (amendment No. 11) that the words "of the Corporation" in clause (*3*) of section 5 be omitted was then put and lost.

* Amendment No. 11 was a motion by the Hon'ble Babu Surendranath Banerjee "that the words 'of the Corporation' in clause (*3*) of section 5 be omitted."

† Printed on page 1919, *ante*.

‡ As to amendment No. 55, *see* the second paragraph of the first footnote on page 1918, *ante*.

§ Printed on page 1940, *post*.

NEW SECTION.

The Hon'ble MR. APCAR then moved amendment No. 25, namely, that after section 6 the following section be added:—

[Bom. Act III of 1888, s. 37.] "6AA. (1) The Corporation shall, at their first meeting in each financial year, appoint one of their own number to be President until the first meeting of the Corporation in the next following financial year, unless the Councillors in the meantime retire from office, and then until the day of such retirement.

"(2) Any Councillor who ceases to be President shall be re-eligible.

"(3) If any casual vacancy occurs in the office of President of the Corporation, the Corporation shall, as soon as they conveniently can after the occurrence of such vacancy, choose one of their number to fill such vacancy; and every President so chosen shall continue in office so long only as the person in whose place he is appointed would have been entitled to continue if such vacancy had not occurred."

The Motion was put and lost.

The Hon'ble MR. APCAR, by leave of the Council, then withdrew his his amendment No. 26, namely, that after the above proposed section 6AA the following section be inserted:—

[Bom. Act III of 1888, s. 36(c).] "6AB. The Commissioner shall have the same right of being present at a meeting of the Corporation and of taking part in the discussions thereat as a Councillor, and, with the consent of the President of the meeting, may at any time make a statement or explanation of facts; but he shall not be at liberty to vote upon, or to make, any proposition at such meeting."

SECTION 6.

The Hon'ble BABU SURENDRANATH BANERJEE, by leave of the Council, withdrew his motion (amendment No. 18) that the words "the Chairman and" in lines 1 and 2 of section 6 be omitted.

The Hon'ble BABU SURENDRANATH BANERJEE moved his amendment No. 19, namely, that the words "the Vice-Chairman" be inserted after the word "Chairman" in lines 1 and 2 of section 6. He said:—

"Our endeavour, I mean that of the popular part of this Council, has been to obtain, as far as possible, the incorporation of the Bombay system into the Calcutta system. In that endeavour we have had the judgment of this Council, and a very decisive judgment it has been, namely, the Council has decided by an overwhelming majority that the amendments of which we had given notice, with a view to incorporate the Bombay system into the Calcutta system, shall not find a place in the Municipal Act. That being so, Sir, we fall back upon the Calcutta system. If we are not to have the Bombay system, let us have the Calcutta system; let us not have something which is neither one nor the other. Let us not have a system which shall be attended with all the inconveniences, all the difficulties, and all the complications of an unknown system. Therefore, Sir, I venture to propose that the Vice-Chairman be, as he has always been, a member of the Corporation. He is a very efficient member of the Corporation, and I appeal to my friends the Hon'ble Mr. Oldham and the Hon'ble Member in charge of the Bill in support of what I say. It seems to me that the Vice-Chairman ought to be permitted to be a member of the Corporation. This Bill will come into law on the 1st April, 1900, and from that day the Vice-Chairman will cease to be a member of the Corporation. It is a distinct advantage to have an officer like the Vice-Chairman, who is generally an Indian officer, in the position of a Municipal Commissioner. Oftentimes the interposition of the Vice-Chairman in heated debates has the effect of strengthening the Executive side of questions. I would refer to an item of business which was transacted the other day in which the views of Government were accepted after considerable discussion, and I may add after considerable hesitation, and I do not think I am guilty of the slightest exaggeration when I say that the views of a large number of us, among the Hindu Commissioners, were determined very considerably by the attitude of the Vice-Chairman, who was present at the meeting and explained his views. I think the Hon'ble Member in charge of the Bill will remember that Government in their Resolution upon the Administration of the Municipality made a recommendation to the effect that notices of demand should be issued within the currency of the quarter in respect of rate bills. We issue such notices in the fourth quarter now. The Government, with a view to render the collections more satisfactory,

suggested that, subject to certain necessary safeguards, notices of demand should be issued during the currency of the quarter. Many of us had considerable doubts with regard to the advisability of that suggestion. We thought it was a suggestion which, if accepted, might be attended with a considerable measure of oppression practised upon the poor and the helpless. That was a consideration which weighed with many of us, and, Sir, you will admit that as representatives of the people we are bound to take that view of the case and to give that view of the case the prominence it deserves. We wanted to know what the Vice-Chairman thought and what his views were with regard to the matter, because we knew that he was in sympathy with the popular side of the case. He was of opinion that, subject to the safeguards which we provided, there would be no oppression consequent upon the carrying out of the suggestion of the Government. That determined my vote, and I have no doubt it determined the votes of several of us. I take that as a concrete case. There may be other cases. It is a distinct advantage to have an Indian officer in the position of the Vice-Chairman as a Municipal Commissioner. He becomes, so to speak, the interpreter between the official head of the Corporation on the one hand and the Hindu Commissioners and the large body of Indian rate-payers on the other. From the administrative point of view the advantage of having the Vice-Chairman as a Commissioner cannot be over-estimated. There is also another view of the matter to which I desire to call attention. Under section 74 (*now* 81) you provide as follows:—

'The Chairman or, in his absence, the Vice-Chairman or the Deputy Chairman as the Chairman may direct, shall preside at every such meeting, and shall have a second or casting vote in all cases of equality of votes.'

"Sir, the Vice-Chairman is not a member of the Corporation, but all of a sudden he is elevated to the position of being President of the Corporation. He is not a member of the Corporation, but he is allowed to vote. He is not a member of the Corporation, but he is to have a double vote as President. This is an anomaly which could not fail to occur to an experienced administrator like the Hon'ble Mr. Baker. In order to cure this anomaly, my hon'ble friend has appended an Explanation to section 75 (*now* 82) as follows:—

'For the purposes of this section, the President at a meeting of the Corporation shall be deemed to be a Commissioner.'

"In curing one anomaly my friend rushes into another. The Vice-Chairman is to be the President of the meeting of the Corporation, and for the time being he is to be a Commissioner. For how long—may I ask? The Vice-Chairman is a Commissioner for one hour and no longer. I think, Sir, all these complications might be removed by legislating to the effect that the Vice-Chairman is to be a Commissioner. The Vice-Chairman is a Hindu gentleman of eminence; he represents the Executive of the Corporation; he has sympathies with the rate-payers; his influence with the Hindu Commissioners is great; he becomes by virtue of his position the exponent and the interpreter of the official view to the Hindu Commissioners. This is a distinct advantage, and you ought not to deprive the Corporation of it. Ever since 1874 you have had a Hindu gentleman in the position of Vice-Chairman, and he has been a Commissioner, and it has always been found to be advantageous. Apart from considerations of administrative anomaly, there is this paramount consideration of administrative convenience; and, taking my stand upon that ground, I venture to appeal to Your Honour to accept the amendment which I have the honour to propose."

The Hon'ble MR. BAKER said:—"I should have had very little objection to this amendment if the Hon'ble Member had added the Deputy Chairman to it. All throughout our proceedings it has been the endeavour of the Select Committee to place the Deputy Chairman and the Vice-Chairman on a similar footing, and if the Hon'ble Member had moved that both 'Vice-Chairman' and 'Deputy Chairman' should be members of the Corporation, I think it very probable that I should have been prepared to accede to his wishes. But as a matter of fact there is no absolute necessity that either of them should be on the Corporation. We provide that the Chairman shall preside on all ordinary occasions. On the few occasions that he is absent, we make provision in section 74 (*now* 81) that the Deputy Chairman or Vice-Chairman shall fulfil his

duties temporarily. That being so, there is no absolute necessity why either of his two lieutenants should be with him on the Municipal Board. The Hon'ble Babu Surendranath Banerjee has mentioned an instance in which the present Vice-Chairman has rendered valuable service by his advice and suggestions to the Corporation, and he suggested that he did this by virtue of his being Vice-Chairman; but it is obvious that it would have been perfectly possible for him to have given the same advice, to have made exactly the same statement to the Corporation, even if he had not been a Commissioner. It is the regular practice in the Corporation when any question comes up which affects the Head of a Department, such as the Engineer or Health Officer, to invite that Head of the Department to be present and to state his views personally to the Commissioners. The Vice-Chairman, I presume, will, among other positions, be the Head of the Accounts Department, the Head of the Collection and Warrant Department, of the Corporation under the Bill. Therefore under the Bill the Vice-Chairman, even though not a member of the Corporation, would in the ordinary course have been present, and would have been invited to explain the whole position to the other Commissioners."

The Hon'ble MR. APCAR said:—"Sir, I should not like to give a silent vote to this amendment. From my experience, the connection of the Vice-Chairman with the Corporation as a member of it has acted for nothing but good. And, with regard to the remark that fell from the Hon'ble Member in charge of the Bill that he would be willing to accede to the amendment of my hon'ble friend Babu Surendranath Banerjee if 'Deputy Chairman' were added, surely that concedes the argument, and the Hon'ble Member cannot but mean that he considers the Vice-Chairman would be a useful member of the Corporation, and that it would be advisable to have him as a member of that body, but he will not have him separated from the Deputy Chairman in any way. It is always open to my hon'ble friend Mr. Baker to add an amendment to a later section. It is not too late for him to add as an amendment that which would meet with his own wishes, and we know that whatever he may choose to propose is bound to be passed. So that, so far as we are concerned in considering this particular point, it seems to me that everything my hon'ble friend Mr. Baker has said is entirely in favour of the admission of the Vice-Chairman as a member of the Corporation. And, Sir, I protest against the absurd idea of the Vice-Chairman and Deputy Chairman becoming members of the Corporation for half an hour or so in order to preside at the meetings of the Corporation, as is provided in a later portion of the Bill. It is a reflection, I think, on the members of the Corporation when those who are not members of the Corporation are dragged in because it is supposed that those who are members of the Corporation are not fit to preside in any circumstances whatever."

The Hon'ble BABU SURENDRANATH BANERJEE in reply said:—"The Hon'ble Member in charge of the Bill is anxious to place the Vice-Chairman and the Deputy Chairman upon the same footing, but I think the Hon'ble Member will agree that, so far as the measure of responsibility is concerned, there is a very great difference between a young officer of the status of a Joint-Magistrate and an experienced and trained administrator of the status of a Vice-Chairman. A Deputy Chairman, I presume, will be a young officer with all the energy and the immature vigour of youth; but would he be fit to be placed in charge of the Warrant Department, the Loans Department or the collections extending over forty-four lakhs of rupees, which great departments are now controlled by the Vice-Chairman? The measure of the responsibility of the Vice-Chairman is infinitely superior to the responsibility which would be cast upon the Deputy Chairman. Therefore, to place the Deputy Chairman upon the same footing with the Vice-Chairman irrespective of the measure of his responsibility would be a serious legislative and administrative blunder. They ought not to be placed upon the same footing. The Deputy Chairman would probably some day be Chairman, in the same way as a Joint-Magistrate becomes Magistrate. That is his training ground, and surely he ought not to be

placed at the outset upon the same footing with the Vice-Chairman? I therefore respectfully join issue with that statement of my hon'ble friend in charge of the Bill. I find myself in the unfortunate position of not being able to agree with him in regard to another statement made by him. He has observed that even if the Vice-Chairman were not a member of the Corporation, it would still be open to him to give the same advice. But, Sir, there would be a difference between the advice tendered in the one case and that tendered in the other. As a member of the Corporation he would come in contact with the Commissioners; he would be known to the Commissioners; he would have personal influence with the Commissioners; the Commissioners would be likely to respect him; they would repose confidence in him, and when he gave advice, that advice would be accepted. But when he comes as a stranger, as a mere official, the advice that he tenders would not be accepted with the same confidence as if that advice were tendered by him as a colleague with whom they were intimately acquainted. I hope that, having regard to these considerations, my hon'ble friend in charge of the Bill will see his way, and I hope and trust, Sir, you will see your way, to accept the amendment which I have the honour to move."

The motion was put and lost.

The Hon'ble THE PRESIDENT ruled the following motions, standing in the name of the Hon'ble Babu Surendranath Banerjee, to be out of order:—

(*1*) that the words "seventy-five" be substituted for "fifty" in line 2 of section 6;
(*2*) if the above amendment be lost, that the word "sixty" be substituted for "fifty" in line 2 of section 6.

The Hon'ble THE PRESIDENT also ruled the following motion, standing in the name of the Hon'ble Babu Boikanta Nath Sen, to be out of order:—

that in section 6 "seventy-five" be substituted for "fifty".

The Hon'ble THE PRESIDENT also ruled the following motions, standing in the name of the Hon'ble Raja Shashi Shakhareswar Roy Bahadur, of Tahirpur, to be out of order:—

(*1*) that in section 6, for the word "fifty", in line 2, the words "seventy-five" be substituted;
(*2*) that for the words "to be elected or appointed as hereinafter provided" the following be substituted, namely:—

"of whom twenty-five shall be elected at ward elections, twenty-five by such public corporate bodies as the Calcutta University, the Bengal Chamber of Commerce, the Trades Association, the Commissioners for the Port of Calcutta, the Zamindary Panchayat, the British Indian Association, the Indian Association, the Bengal National Chamber of Commerce, the Central National Muhammadan Association, &c., &c., to whom the Local Government, at their discretion, may from time to time grant such franchise; and the remaining twenty-five shall be appointed by the Local Government."

SECTION 8.

The Hon'ble THE PRESIDENT also ruled the following motions, standing in the name of the Hon'ble Mr. Apcar, to be out of order:—

(*1*) that in section 7 (*now 8*), sub-section (*1*), for the words "twenty-five" the words "thirty-two" be substituted;
(*2*) that in section 7 (*now 8*), clause (*d*), for the word "fifteen" the word "nine" be substituted;
(*3*) that in section 7 (*now 8*), after clause (*d*), the following clauses be added:—

"(*e*) two by the British Indian Association,
(*f*) three by the Muhammadan Literary Society,
(*g*) three by the Central National Muhammadan Association,
(*h*) two by the Honorary Magistrates and Justices of the Peace in and for the town of Calcutta,
(*i*) two by the University of Calcutta, and
(*j*) one by the Bengal National Chamber of Commerce."

(*4*) that, in line *8* of sub-section (*3*) of section 7 (*now 8*), for the words "clauses (*a*), (*b*) and (*c*)" the words "clauses (*a*), (*b*), (*c*), (*e*), (*f*), (*g*), (*h*), (*i*) and (*j*)" be substituted.

The Hon'ble MR. BAKER said:—"Amendment No. 31* is in order, but Nos. 32 and 33† are not in order, as I think will be admitted after what has fallen from the President. Amendments 34,‡ 36§ and 37,‖ and also another one¶ on the supplementary list filed by Raja Ranajit Sinha of Nashipur, all cover the same ground; they are all in order. It would be convenient if these five amendments, namely, 31, 34, 36, 37 and 2 in the supplementary list, and a supplementary one** which the Hon'ble Babu Surendranath Banerjee wishes to put in now, were all considered together, and discussed at the same time. When amendments are taken together, it is for each Hon'ble Member to move his own and to discuss them all at the same time, and then the votes are taken."

The Hon'ble BABU JATRA MOHAN SEN moved (amendment No. 31) that the following amendments be made in section 7 (*now* 8), namely:—

'(*1*) in clause (*a*) substitute "three" for "four,"
(*2*) in clause (*b*) substitute "three" for "four,"
(*3*) add "(*bb*) two by the Bengal National Chamber of Commerce,
"(*cc*) two by the Muhammadan Literary Society and the Central National Muhammadan Association, namely, one each,
"(*ccc*) two by the University of Calcutta,"
(*4*) in clause (*d*) substitute "eleven" for "fifteen,"
(*5*) in sub-section (*3*) substitute "(*bb*), (*cc*) and (*ccc*)" for "and (*c*)'."

He said:—"In proposing this amendment I venture to submit that, the principle underlying the present Bill being to give predominence to the representation of mercantile interests, I think it just that the Bengal National Chamber of Commerce should have a power to nominate at least two Commissioners, the English merchants returning eight according to my amendment namely, three by the Chamber of Commerce, three by the Trades Association, and two by the Commissioners for the Port of Calcutta.

"It has often been complained that at Ward elections the Muhammadans are not properly represented. I have therefore thought fit to authorise the two leading Muhammadan Societies to nominate two Commissioners. Then, again, following the Bombay Act, which has been taken as the model in framing the present Bill, I have proposed to take two Commissioners from the University. The University represents the intellect of the country, and it is just that it should have a voice in the nomination of Commissioners, as in Bombay.

"If the English merchants are deemed not to have been properly represented, the Government may supplement the number by nomination, and maintain an equilibrium.

"I am aware there are other Associations, such as the British Indian Association, the Indian Association and the Zamindari Panchayat. These are important bodies, and they should certainly be represented. I am confident the Government will exercise its power to take at least one nominee of each of the above bodies.

"It is true I have not introduced these Associations into my amendment, but this does not signify that they were absent from my mind. I have left it to Government to take in their nominees to restore an equilibrium, if the communities whom these Associations represent, are not adequately represented.

"As five different amendments are to be discussed together, the best thing would be to take the proposals referring to nomination by each body as a separate amendment, so that the chance of conflict may be minimised."

The Hon'ble Babu Surendranath Banerjee moved (amendment No. 34) that the following be substituted for section 7, sub-section (*1a*) [*now* section 8, sub-section (*2*)]:—

"The remaining Commissioners shall be appointed as follows:—

(*a*) eleven by the Local Government,
(*b*) ten by the Presidency Magistrates,
(*c*) two by the Bengal Chamber of Commerce, and
(*d*) two by the Fellows of the University."

He said:—"Here again I follow the Bombay model. If among 72 Commissioners in Bombay the Government appoints 16, what should be the number that Your Honour's Government ought to appoint among 50 Commissioners? It is 11, or a little over 11. Therefore I suggest that the number to be appointed by Government, directly following the Bombay model, should be 11. Then, Sir, I eliminate the Trades Association and the Port Trust. We have in the Bombay Act the Chamber of Commerce returning two members, and they have also a Port Trust there. It seems to me—with all the respect that I feel for the Hon'ble Members representing the Port Trust, that to ask that body to return members, after having asked the Chamber of Commerce and the Trades Association to do so, is really bringing coals to Newcastle. What is the Port Trust? An echo, a reflection, of the Chamber of Commerce and the Trades Association. Therefore, Sir, I think there ought to be no squeamishness whatever in refusing to allow the Port Trust to return members.

"Then I come to the Trades Association, and here I admit that I suggest a recommendation which is outside of the present law, and, Sir, I confess I am somewhat of a conservative in these matters. When a law is a good law and has been found to be so in practice, I do not advocate a change. But, Sir, the Trades Association and the Chamber of Commerce represent one and the same interest. There is absolute uniformity of aims and ideas between them, and no more striking illustration of the cordiality and the uniformity of interest between the two bodies is to be found than in the hearty good-will which prevails in this Council Chamber between my two hon'ble friends who represent them. The other day, in reference to a particular matter, I tried to get over one of my hon'ble friends to my side. I had nearly succeeded, as I thought in my mind; but a conference took place between them, and then I found that my labour was completely lost. Therefore it seems to me that, as far as the Chamber of Commerce and the Trades Association are concerned, there being this complete uniformity of interests, the Chamber of Commerce ought to be able to represent the interests of the Trades Association, or *vice versâ*.

"If we accept this view, we shall then be in a position to bring in the other constituencies. The Presidency Magistrates represent the majesty of law and justice, and there are members of the mercantile community and members of the trades who are Presidency Magistrates. Then there are Fellows of the University—a learned body. I think, now that we are recasting the law, it is necessary that we should obtain a wider and a more divergent representation, and that wider and more diversified representation would be obtained by introducing the Presidency Magistrates and the Fellows of the University. I can well understand the reasons which induced the legislators of 1888 to make the Chamber of Commerce and the Trades Association the two different constituencies that they now are. At that time the endeavour was made to persuade the European community to take part in municipal affairs. The European community at that time were in a minority. Is not the aspect of things completely changed as regards the Municipality by this Bill? The European community will be in the majority. We Hindus need to be protected. Special constituencies are necessary for us, and therefore I ask that the University, in which there is a large element of the Indian community, and the Presidency Magistrates, in which there is also a considerable Indian element, should be formed into constituencies for purposes of municipal representation. This Bill will give the supremacy to the European community in the affairs of the Corporation, and will reduce the Hindus to a minority. That being so, what are we to do with these constituencies? They ought to be

adjusted to suit the changed circumstances, and the re-adjustment which I suggest would secure a wider, a more diversified and a more diffused representation, which I think is essential for the sound and efficient administration of our municipal affairs."

The Hon'ble BABU BOIKANTA NATH SEN moved (amendment No. 36) that the following be substituted for section 7, sub-section (*1a*) [*now* section 8, sub-section (*2*)]:—

"The remaining Commissioners shall be appointed as follows, namely:—

(*a*) eleven by the Local Government,
(*b*) ten by the Presidency Magistrates,
(*c*) two by the Bengal Chamber of Commerce, and
(*d*) two by the Fellows of the Calcutta University."

He said:—"I embark in the same boat as my hon'ble friend Babu Surendranath Banerjee, so that I can* only endorse the arguments which have been addressed to the Council by the Hon'ble Member. I would only add this: The Government of India, in their despatch No. 93,* have recognised two interests: the European interest and the native interest. The Government reserve to itself certain powers for nominating certain Commissioners in order to equalize that power. According to the Bill there would be an abnormal preponderance of the European element. These three interests—the Bengal Chamber of Commerce, the Calcutta Trades Association and the Commissioners of the Port of Calcutta —all represent the same interest, and inasmuch as two of them—the Calcutta Trades Association and the Commissioners for the Port of Calcutta—do not find any place in the Bombay model, my amendment is designed to eliminate them."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA moved (amendment No. 37) that, in section 7, sub-section (*1a*) [*now* section 8, sub-section (*2*)], the word "and" at the end of clause (*c*), and the whole of clause (*d*), be omitted, and that the following be substituted:—

'(*d*) one by the Senate of the University of Calcutta, and
'(*e*) fourteen by the Local Government.'

He said:—"Sir, it was not without some hesitation that I decided to bring before the Council the proposition which I have now the honour to move for your acceptance. Such hesitation arose, not because I had any doubts as to the perfect propriety of my motion, but because I found that, in whatever way I might press the claims of the University, I must necessarily encroach upon the privileges of the Government of Bengal. But I must confess that, when I discovered that other Hon'ble Members had undertaken to support the cause of the University in the manner indicated in the motions which have been disallowed, I felt somewhat embarrassed. I naturally feel gratified that so many Hon'ble Members should interest themselves in the matter, for the University is entitled to the loyalty and devotion of all her children; but at the same time I venture to think that her claim, if carried to excess, might be altogether lost, and, if linked with other claims not equally strong, might not be sufficiently distinguished. That my fears were not altogether unfounded has, I think, been amply proved by the fate of the motions disallowed. In the first place, it seems to me that if the University of Bombay, with a Senate of over 300 members, sends two representatives to a Corporation of 72, I do not think I can legitimately ask you to give the University of Calcutta, with a Senate of over 200 members, more than one representative upon a Corporation of 50. In the second place, I do not think it wise to couple the claims of the Calcutta University with those of the other Associations which I should be happy to see represented on the Municipal Corporation; for I cannot afford to forget that, whatever the status and the usefulness of these public or semi-public bodies may be, their claims can hardly be placed as high as those of the University, which is a Corporation created by Statute, which has for its Chancellor the highest official in the land, and which controls the higher education of the people, not only of the provinces under Your Honour's rule, but also of Assam, Burma

* This despatch is dated the 17th June, 1899, and is printed in Papers No. 40 relating to the Bill.

and Ceylon. However much, therefore, I may rejoice at any decision of the Council favourable to these Associations, I must ask you to consider the present motion as distinct from those that have preceded it.

"Sir, I have just alluded to the system which prevails in Bombay, but it is neither necessary nor desirable to support my proposition solely by analogy; the strongest arguments in its favour are, I think, to be found within the four corners of the Bill now before you. In the first place, if we turn for a moment to the provisions of section 23A (*now* 14), sub-section (*2*), clauses (*vii*) and (*viii*), which describe the special functions of the Corporation, we find that the promotion of primary and technical education and the provision of free libraries are two of the objects to which they may devote their attention. It is hardly necessary for me to point out that, in this inclusion of educational objects within the scope of municipal activity, we are not by any means singular; if, for instance, we turn to sections 61 and 63 of the Bombay Act, section 33 of the Madras Act, and section 72 of the Punjab Act, we find similar provisions, for the promotion of educational objects, and for the construction and maintenance of free libraries, museums and art galleries. If these, then, are legitimate objects falling within the province of municipal government, I venture to affirm that there is nothing unreasonable in my proposition that there should be at least one educational member on the Corporation. Criticisms, some of them not very just or impartial, have been levelled at the Corporation from so many different quarters, and upon such diverse topics, that I have no desire to add to their number; but I regret to have to say that the promotion of technical education and the maintenance of a free public library have been two of the neglected fields of activity. It has been one of the lasting reproaches of the capital of the Indian Empire that we have not here a public library either worthy of the city or sufficient to satisfy the needs of the educated public. It is not essential that I should take up your time by a detailed account of what has been done in similar directions by the great Municipal Corporations of England and the Continent, but I confes I feel humiliated when I consider that the Corporations of Manchester, Birmingham and Berlin have shown a wonderful enthusiasm in the establishment and development of the free-library system,. and in the promotion of special and technical education under municipal auspices, while we have neglected to do even what little we might have done with the limited means at our disposal. I trust, Sir, that, if it be the pleasure of this Council to decide in favour of my proposition, the University will be in a position to send as its representative on the Corporation a person who has devoted himself to the study of the educational problems of the day, and who, by the accuracy and moderation of his views, may make them acceptable to the members of the Corporation.

"In the second place, Sir, I desire to invite the attention of the Council to the fact that the Senate of the University numbers on its rolls the most distinguished Doctors and the most competent Engineers, both native and European, that we have in this country. It has always seemed to me somewhat anomalous that the only qualification which entitles a person to take a part in the municipal government of the city should be a purely property qualification; and had it not been for the decision of the Government of India, reducing the number of elected Commissioners from 50 to 25, I should have been prepared to move that one at least of the Commissioners, returned by each of the Wards, should be a qualified medical practitioner or a well-trained Engineer. Be that as it may, I venture to express the hope that, if the Senate of the University be authorized to send a representative to the Corporation, it may from time to time send a great Doctor, or an experienced Engineer, whose helpful advice could otherwise hardly be secured.

"In the third place, Sir, I desire to point out that the University is, if I may be allowed the use of the expression, a *neutral* constituency. Although I am placing this ground last, it is by no means of the least importance, and I would venture to invite your special attention to it. If you examine the constitution of the Senate from year to year, you will find that what I may call the European and the native elements almost balance each other. In some years, perhaps, owing to death, resignation or retirement in the ranks of the one, the other may predominate; but, taken as a whole, each

balances the other; for instance, if you look to the constitution of the Syndicate, which is the governing body of the University, in the present year, you find that there are seven Europeans and four Indians, one of whom is a Muhammadan. If you take last year's figures, you will find that there were five Europeans and six Indians, of whom two were Muhammadans; but, apart from the question of mere numbers, I rejoice to think that party feeling has not, as yet, to any appreciable extent, invaded the ranks of the Senate, and it has always been a source of gratification to me that the position which I have attained in the University is due as much to the indulgence of my European as of my native friends. I trust, therefore, that, if the University has an opportunity of sending a member to the Corporation, such nominee will reflect the neutral character of the body he represents.

"I have now stated, as briefly as I could, the reasons in support of my proposition, which, analysed, comes to this,—the Government of Bengal has the power of appointing 15 members of the Corporation; these members, I take it, will represent minorities and interests other than those represented by the 25 elected Commissioners and the 10 Commissioners appointed by the representatives of Trade and Commerce. Can the University fairly claim to be one of these minorities, and ask the Government to concede the privilege of appointing one member on the Corporation? I leave the decision confidently in the hands of the Council, in the belief that, whatever may be the fate of my motion, it will have the sympathy of all who have been educated at an Indian University or at any of those ancient seats of learning which are the glory of England; and shall I venture to indulge, Sir, in the hope that it may have the sympathy of Your Honour, whose name appears on the rolls of our University as its senior Fellow and who, if he had not chosen to adorn another sphere, might well have been proud of his academic distinctions."

The Hon'ble RAJA SHASHI SHAKHARESWAR ROY BAHADUR of Tahirpur, in the absence of the Hon'ble Raja Ranajit Sinha Bahadur of Nashipur, moved, on behalf of the latter (amendment No. 2 in the supplementary list) that the word "ten" be substituted for the word "fifteen" in clause (*d*) of section 7 (*now* section 8), and that after clause (*d*) the following clauses be inserted:—

'(*e*) two by the British Indian Association;

'(*f*) one by the Bengal National Chamber of Commerce; and

'(*g*) two by the Muhammadan Literary Society and the Central National Muhammadan Association, respectively.'

The Hon'ble MR. BAKER said:—"Does the Hon'ble Babu Surendranath Banerjee wish to now put in an alternative motion?"

The Hon'ble BABU SURENDRANATH BANERJEE then, with the leave of the President, moved that, if his first amendment (namely, amendment No. 34) of section 7, sub-section (*1*) (*a*), [*now* section 8, sub-section (*2*)], be lost, the following be added that sub-section:—

'The remaining Commissioners shall be appointed as follows:—
eleven by the Local Government;
four by the Bengal Chamber of Commerce;
four by the Calcutta Trades Association;
two by the Presidency Magistrates;
two by the University of Calcutta; and
two by the Bengal National Chamber of Commerce.'

He said:—"I venture to submit that this amendment moves along the line of least resistance. I keep existing things intact as far as practicable. I only seek to deprive the Government of the right of appointing four members. The Government appoints 15 members under the Bill; I suggest that Your Honour may be pleased to appoint only 11. And here again I fall back upon the Bombay model. Under the Bombay model the number ought to be 11 and no more. Then I suggest that the Port Trust should be deprived of their franchise. The Port Trust need not return members when the Chamber of Commerce and the Trades Association have the right of returning eight members between them. In Bombay the Port Trust does not return a single member to the Corporation. I keep the number for the Trades Association, which is 4; I keep the number for

the Chamber of Commerce, *viz.*, 4; I get 4 from the Government and 2 from the Port Trust. Then I distribute the 6 among three different constituencies: 2 for the Presidency Magistrates, 2 for the University and 2 for the National Chamber of Commerce. It strikes me that these proposals ought to be accepted by the Government. It makes the least disturbance of existing arrangements, and it creates wider and more representative constituencies. Sir Steuart Bayley, when Lieutenant-Governor of Bengal, said from his place as President [illegible] find itself [illegible] nomina-[illegible] the time has now come, and I hope and trust that Your Honour will see your way to accept this amendment."

The Hon'ble Mr. Baker said:—"There are five amendments now before the Council, all dealing with the constitution of the Corporation. Two of these are identical. They are, the first amendment moved by the Hon'ble Babu Surendranath Banerjee and the one moved by the Hon'ble Babu Boikanta Nath Sen. As these two are the most far-reaching and most sweeping, I will deal with them first. I am bound to say that I think the usual good sense and good judgment of the Hon'ble Babu Surendranath Banerjee must have failed him to some extent when he put forward this very extraordinary proposal. All through the proceedings in connection with the Bill there has never from first to last been any suggestion that the constitution of the Corporation should be altered. Neither the Corporation, nor any of the other bodies who were consulted, nor any of the speakers at the various public meetings have suggested that any change should be made in the bodies entitled to send representatives to the Municipality, and the Hon'ble Member will doubtless admit that we should never have heard one word of his proposal now if it had not been for the changes suggested by the Government of India For, Sir, the real object of this amendment is as clear as the sun at noon-day. The object and the effect of it will be to retain a preponderance of power in the hands of the same class who have the preponderance now. The Hon'ble Member believes, and probably has good ground for believing, that, for instance, if we allot 10 seats to the Presidency Magistrates of Calcutta, the Presidency Magistrates will return gentlemen of the same class as those who are returned at present at Ward elections. There is no sort of resemblance, nor the faintest similarity, between the Justices of the Peace of Bombay and the Presidency Magistrates of Calcutta. In Bombay, there are 572 Justices, of whom 335 are natives and 237 are Europeans and Eurasians. I have made some enquiries from Bombay as to who the Justices are and what their functions are. I find they have two functions and two only. They have the power under the Criminal Procedure Code of attesting documents, and they have the power under the Municipal Act of electing 16 members to the Corporation of Bombay. That is all. They are appointed by Government and the list of them is revised every year. I understand that there is great competition for the office; that the list includes practically every man of light and leading; every man of wealth and position; all the aristocracy throughout the city of Bombay. Every European of good position is put on to the list as a matter of course, and there in not a single member on the Justices' list, who is not a gentleman of high social and personal status. In fact, the Justices' list is a kind of glorified Darbar list. It is certainly not possible to describe the Presidency Magistrates of Calcutta in terms in the least resembling these. I have no intention of saying anything in disparagement of our Magistrates, who are a very deserving body of men, but I am quite certain no one can for one instant place them on anything like the same footing as the Justices of Bombay. In the first place, there are only 87 of them, all told. Of these, 61 are natives, and 26 are Europeans and others, including those who are dead and those who have left Calcutta or are no longer residing even in India. Then, Sir, among the 87 there are two classes which predominate over all others. Among the 87 you will find no less than 18 who either are or have been Municipal Commissioners of Calcutta, and of the remainder you will find a very large proportion—I cannot say how great—who are lawyers of some kind or another: pleaders, attorneys, and a small sprinkling of barristers-at-law. These two classes taken together would

absolutely swamp the elections. Would it not be positively grotesque to assign to a constituency so insignificant in numbers and composed as this is, the right of sending 10 representatives to the Municipal Board, a number nearly as great as the Hon'ble Member proposes to assign to Government itself, and five times as great as he proposes to assign to Trade and Commerce?

"Another innovation which Hon'ble Members have proposed is that two representatives should be elected by the Fellows of the Calcutta University, and the Hon'ble Dr. Asutosh Mukhopadhyaya has touched on the same point, though in a very much more moderate way. It may be the case that the Senate of the Bombay University has some ground for sending two representatives to the Bombay Corporation; but, however that may be, I have very little doubt that the University of Calcutta is not a body which has a good claim to send representatives to the Municipal Board in Calcutta. In the first place, the University of Calcutta is not localised in Calcutta at all. It is an examining body. If it can be said to be localised anywhere, it is localised in those parts of the province in which its affiliated colleges are to be found. The Hon'ble Dr. Asutosh Mukhopadhyaya told us that it governed or regulated education not only in Bengal, but in Assam, in Burma and in Ceylon. I think, Sir, that a body which represents education not in these Provinces only, but over a great part of India, has very little claim *primâ facie* to representation on a purely local Corporation. But there is another argument also. If the University stands for anything, it stands for education. Now, Sir, what has the Calcutta Corporation to do with education? Since 1888 it has been allowed to spend its funds on primary and technical education. What has it done? In the Town proper, it has never spent one farthing from first to last on primary, technical or any other kind of education. In the Suburbs, the area which was added in 1888, it has spent nothing on technical education; it has spent nothing on secondary education: and on primary education it has spent a sum of Rs. 3,000 a year, that being the amount of certain contributions which used to be made by the old Suburban Municipality to primary schools within that area. That is all. In fact, the Corporation, for reasons for which I do not blame them in the least, reasons which I hold to be entirely just and sound, have taken no part in educational matters, and have devoted no portion of their funds to educational expenditure. In that case, Sir, I think the body which represents education has no special claim to send members to the Corporation.

"I now turn to the amendment of the Hon'ble Babu Jatra Mohan Sen, which is on the whole a moderate amendment. He proposes to reduce the representatives of the Chamber of Commerce and the Trades Association to 3 each; he would assign 2 seats to the Bengal National Chamber of Commerce, 2 seats to the two Muhammadan Associations, and 2 to the University. The first thing that occurs to one on looking at those proposals is that the one Association in Calcutta which would have a prior claim to special representation, if we were giving any, is left out. I mean the British Indian Association. The Hon'ble Member felt I think the weakness of his position in omitting that body, because he said that it would be for Government to appoint representatives from that Association and from certain others which he named. But if we are going to give in the body of the Act special representation to any additional Association, I think there can be no question that the British Indian Association has the first claim. Then, Sir, I demur strongly to his proposal to reduce by two the representatives of trade and commerce. The number which trade and commerce have had since 1888 is 10, and 10 will only be one-fifth of the whole number of the Commissioners; and considering the enormous extent to which trade and commerce, especially foreign commerce, have created Calcutta, I think that one-fifth is the smallest possible proportion that can be justly given to them. I cannot regard in any way the proposal to give two seats to the Bengal National Chamber of Commerce as within the sphere of practical politics. I have made some attempt to discover what the Bengal National Chamber of Commerce is. I enquired among others of my friend the Hon'ble Mr. Apcar. He was unable to tell me much, and the information he gave me was merely what I had obtained before. As far as I can make out, it is what is ordinarily called a 'one man show.' A gentleman well known and respected in Calcutta, Babu Sita Nath Roy, is the head and front of the Bengal National Chamber of Commerce.

I have been unable to ascertain the name of any other leading firm which is a member of it. I am informed that the firm of which my friend Babu Nalin Behari Sircar is a member does not belong to the Bengal National Chamber of Commerce. I am informed that the firm of Pran Kissen Law & Co., to which Babu Joy Gobind Law belongs, is not a member. All my informants coincide in saying that Babu Sita Nath Roy stands practically alone. Now, Sir, with the greatest possible respect for Babu Sita Nath Roy, it is quite clear that it is absolutely out of the question to assign two seats in the Corporation to him and his nominees.

"With reference to the two Muhammadan Associations which have been mentioned by the Hon'ble Babu Jatra Mohan Sen and the Hon'ble Raja Ranajit Sinha, I hesitate to suggest that any special representation should be given to these two bodies. I have really not very much information about them; but so far as my information goes, there is reason to believe that they are not wholly representative. My hon'ble friends Prince Bakhtyar Shah and Maulvi Delawar Hosain will correct me if I am wrong, but I am told that they do not stand on a very stable or permanent basis. I have heard that their influence among their co-religionists in Calcutta is not always as great as might be wished. I may be wrong in this view, but so long as any doubt remains, it would not be justificable to give special representation to these two Associations. I sympathise on the whole with the various proposals that have been made to cut down the number of representatives to be appointed directly by Government. I have a good deal of sympathy with the view that Government should by degrees divest itself of the duty of appointing representatives of minorities, and I should have been very glad if we could have taken some step in that direction now; but it is evident that in making our selection of Associations for this purpose the most sure-footed caution is necessary. We have to consider all the Associations in existence at the time the legislation is undertaken, and to determine which of them has the best claim to special representation, and I am by no means prepared to say that the various Associations which have been named in these five amendments are the only or the best Associations to which it might be possible to give special representation. The Hon'ble Babu Jatra Mohan Sen referred to the Indian Association. That I think would probably be supported by my hon'ble friend Babu Surendranath Banerjee. Another Association which I think would probably have a good claim is the Anglo-Indian and Eurasian Association. Then we have to bear in mind the fact that when we have made our selection, we have no kind of guarantee as a rule that they will be permanent. We know that the Public Health Society, which was in existence from 1884 onwards, for some years did a good deal of very useful work, and it appeared for some time to be likely to become permanent. It its now deunct. What would have happened if we had in the Act of 1888 enacted that the Public Health Society should be entitled to return two members to the Calcutta Corporation? We have no guarantee either that any Association which may be chosen will be permanent, or that it will continue to represent the same interests that it did at the time when it first came into existence. When an Association has been in existence for a considerable number of years,—for several generations,—when it has acquired a definite corporate existence, then the time may come for Government to consider the propriety of mentioning it in an Act of the Legislature; and it seems to me that almost the only Association which would have any claim under that condition is the British Indian Association. The other bodies that have been mentioned, I fear, must stand over until they are considerably older than they are at present. I think therefore, Sir, that all these amendments the Council will act wisely in rejecting, even the very moderate one moved by the Hon'ble Dr. Asutosh Mukhopadhyaya."

The Hon'ble BABU SURENDRANATH BANERJEE in reply said:—"I must be permitted to express my regret at the personal remarks which have been imported into this controversy by the Hon'ble Member in charge of the Bill. He began with the remark that I was wanting in good sense in having put forward a certain amendment. I am not going to reply to that, but would only say that, assuming, which I do not, that I failed in good sense, I soon recovered it

in sending notice of a very moderate amendment. My hon'ble friend was pleased to say that my first amendment was an endeavour on my part to retain that preponderance of the Hindu element which it was the object of this Bill to cut down. Suppose, Sir, it was so, ought I to be ashamed of it? Ought it to be brought as an imputation against me? Suppose that, as a representative of the Hindu community from my place in this Legislative Council, I was endeavouring to assert by all lawful means the claims of my community to a preponderant share in municipal representation to which they are entitled, is that a thing of which I ought to be ashamed? It will be a matter of legitimate pride to me that I did my level best in maintaining the preponderance of my community in my native town."

The Hon'ble MR. BAKER said:—"I did not impute it to the Hon'ble Member as a fault. I was explaining the effect of the proposal."

The Hon'ble BABU SURENDRANATH BANERJEE said:—"I am glad my hon'ble friend does not regard it as a fault. I deprecated the personal remarks that were imported into the discussion. When my hon'ble friend said that the Bengal National Chamber of Commerce was a 'one man show,' I am perfectly certain he could not have made any careful enquiry into the matter. I know something about the Chamber My hon'ble friend observed that Pran Kissen Law & Co. and Babu Nalin Behari Sircar and others do not belong to this Association. Pran Kissen Law & Co. and Ker Tarruk & Co. are European firms; they are members of the Bengal Chamber of Commerce. Babu Joy Gobind Law, of the firm of Messrs. Pran Kissen Law & Co., was President of the National Chamber of Commerce at one time, and he is a member now. Men like Babus Chundoo Lal Singh, Hurry Ram Goerka, and Raja Sew Bux Bogla are members. All the most distinguished merchants of Hatkola are members, and you refuse to recognise them in the Bill, but you have recognised them in the representation of the Port Trust. The National Chamber of Commerce sends a representative to the Port Trust. Would it not be as well that the National Chamber of Commerce should be permitted to send one or two representatives to the Corporation? Then my hon'ble friend the Member in charge of the Bill referred to the Presidency Magistrates, and here again I deprecate the observations which he has made. He said they were not men of the same high social position as the Bombay Justices were. I am a Presidency Magistrate, my friend the Hon'ble Mr. Apcar was a Presidency Magistrate, and I think the best, the most deserving, and the most meritorious men the Government can think of are Presidency Magistrates."

The Hon'ble MR. APCAR said:—"I have resigned."

The Hon'ble BABU SURENDRANATH BANERJEE said:—"The Government appoints the Presidency Magistrates, and I think my hon'ble friend is more responsible than any one else for these appointments."

The Hon'ble MR. BAKER said:—"But I am not proposing that they should send members to the Corporation."

The Hon'ble BABU SURENDRANATH BANERJEE said:—"I wish to point out that the Presidency Magistrates are not men of an inferior status at all. They are men of high standing; they are entrusted with very responsible functions; they are held in honour and esteem by their countrymen, and even if what you said were true, the Government was responsible and nobody else. I would in conclusion make this suggestion. that if the Government is unable at the present moment to see its way to legislate in favour of any particular Association sending representatives to the Corporation, will the Government, when the time of nomination comes, invite particular Associations in an executive fashion to send members to the Corporation, and then, when Government finds that proper and worthy men have been sent, the Government may stereotype that custom by future legislation? We might at any rate make a beginning now, the advantage of which our successors may reap."

The Hon'ble BABU JATRA MOHAN SEN in reply said:—"I wish to make only one observation. The Hon'ble Member in charge of the Bill has said that nothing has been spent on education, primary or technical, by the Corporation ever since its establishment. Provisions for primary and technical education have been made in the present Bill, and they existed in the previous law, and they were meant, I doubt not, to be given effect to; but as a matter of fact the Hon'ble Member in charge of the Bill informs us that nothing has been done by the Corporation in that direction. I should contend that that is the very reason why the University should be represented in the Corporation.

"These amendments being put together, difficulty will arise as to the vote in respect of each amendment. I should, therefore, propose that each amendment as to nomination by each separate body be taken as a separate amendment, so that there may be less chance of conflict between the several amendments. So I would ask Your Honour to take each sub-division of the amendments separately."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA in reply said:—"I should like to offer one or two observations with regard to my motion. I confess I was surprised at the opposition by the Hon'ble Member in charge of the Bill to my motion, which he characterised as a very moderate one. I am not surprised that with his usual acuteness he has brought forward reasons which completely prove my case. One of the arguments which he advanced was that the University of Calcutta is not localised in this City. If my hon'ble friend had been a Member of the Senate he would have been able to state to the Council that more than half and a little less than two-thirds of the Members of the Senate are residents of this City and its immediate neighbourhood. Besides, the objection which he has urged applies equally to the University of Bombay. The University of Bombay is founded on the model of the University of Calcutta; it is as much an examining body as this University, and it is localised in Bombay. It conducts examinations in English throughout the Bombay Presidency and the Province of Sindh. In the next place the Hon'ble Member in charge of the Bill urges that the Calcutta University has control over education, but what has the Calcutta Municipality to do with education? I refer to section 23A (*now* 14) to prove completely that the Calcutta Municipality has or ought to have something to do with education. I have not seen in the notice of amendments any proposed motion by the Hon'ble Member in charge of the Bill that those clauses should be omitted. If they are to stand there, I submit it is not a legitimate argument to say that the Calcutta Municipality has nothing to do with education. Then it is said that the Calcutta Municipality has never spent a farthing for primary or technical education. That is precisely my complaint. I do not know whether it is true; but, accepting that statement, I say that it ought not to be so, and that that state of things will be remedied if the Calcutta University can send a man to the Corporation who has studied the educational problems of the day. Then; in, the last place, the Hon'ble Member suggested that many of the Associations he referred to are not permanent bodies. I do not know whether he intended to include under the term 'Association' the University of Calcutta, but I hope that the University of Calcutta is as permanent as any other body in this country."

The Hon'ble THE PRESIDENT said:—"The Council will remember that there are three interests to be represented in the Corporation: one is the body of rate-payers, second, trade and commerce, and the third is the Government. To the rate-payers have been assigned 25 representatives; to trade and commerce have been assigned 10, and I agree with the Hon'ble Member in charge of the Bill that from that number there can be no possible reduction. Lastly, there remains the Government, which has got 15 representatives. The Government, as you will all admit, has very important interests in Calcutta, and yet out of these 15 representatives it has to secure not only its own interests in the city, but the interests of minorities. Now it was very forcibly argued in the course of one of these debates that the effect of the reduction of the ward representatives would be to leave altogether unrepresented some of the minorities who meanwhile find representation there. Therefore, whatever sympathy the

Government may have in the claims of Associations of various kinds to find representation in the Corporation, the Government must be careful to see what the result of these changes is. It has to consider and protect the claims of minorities, and, until it knows what the minorities are that are not represented, it can go no further in the direction of assignment of seats to Associations. The Hon'ble Member in charge of the Bill has said perfectly truly that all Governments are anxious to be assisted in their responsibility in the selection of representation. That has been the tendency and attitude of Government for a long time, and what we can do in that way we shall do; but on this amendment I must guard myself by making no promises of any kind."

The Hon'ble BABU JATRA MOHAN SEN's amendment (No. 31) was then put and lost.

The Hon'ble BABU SURENDRANATH BANERJEE's first amendment (No. 34) was then put and lost.

The Hon'ble BABU BOIKANTA NATH SEN's amendment (No. 36) was then put and lost.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA's amendment (No. 37) being put, the Council divided as follows:—

Ayes 5.	*Noes 12.*
The Hon'ble Babu Surendranath Banerjee.	The Hon'ble Mr. Mackenzie.
The Hon'ble Babu Boikanta Nath Sen.	The Hon'ble Sahibzada Mahomed Bakhtyar Shah.
The Hon'ble Dr. Asutosh Mukhopadhyaya.	The Hon'ble Mr. Spink.
The Hon'ble Mr. Apcar.	The Hon'ble Khan Bahadur Maulvi Delawar Hosain Ahmed.
The Hon'ble Babu Jatra Mohan Sen.	The Hon'ble Mr. Slack.
	The Hon'ble Mr. Handley.
	The Hon'ble Mr. Buckland.
	The Hon'ble Rai Durga Gati Banerjea Bahadur.
	The Hon'ble Mr. Baker.
	The Hon'ble Mr. Bolton.
	The Hon'ble Mr. Buckley.
	The Hon'ble Mr. Oldham.

So the amendment was lost.

The Hon'ble RAJA RANAJIT SINHA BAHADUR's amendment (No. 2 in the supplementary list) was then put and lost.

The Hon'ble BABU SURENDRANATH BANERJEE's second amendment* being put, the Council divided as follows:—

Ayes 4.	*Noes 13.*
The Hon'ble Babu Surendranath Banerjee.	The Hon'ble Mr. Apcar.
The Hon'ble Babu Boikanta Nath Sen	The Hon'ble Mr. Mackenzie.
The Hon'ble Dr. Asutosh Mukhopadhyaya.	The Hon'ble Sahibzada Mahomed Bakhtyar Shah.
The Hon'ble Babu Jatra Mohan Sen.	The Hon'ble Mr. Spink.
	The Hon'ble Khan Bahadur Maulvi Delawar Hosain Ahmed.
	The Hon'ble Mr. Slack.
	The Hon'ble Mr. Handley.
	The Hon'ble Mr. Buckland.
	The Hon'ble Rai Durga Gati Banerjea Bahadur.
	The Hon'ble Mr. Baker.
	The Hon'ble Mr. Bolton.
	The Hon'ble Mr. Buckley.
	The Hon'ble Mr. Oldham.

So the amendment was lost.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA, by leave of the Council, then withdrew the motion (amendment No. 38), standing in his name, that in sub-section (*3*) of section 7 (*now* 8), line 3, "(*c*) and (*d*)" be substituted for "and (*c*)".

---

* Printed on page 1948, *ante*.

The Hon'ble THE PRESIDENT ruled the following motions, standing in the name of the Hon'ble Babu Surendranath Banerjee, to be out of order:—

(*1*) (amendment No. 32) that the word "Fifty" be substituted for the words "Twenty-five" in line 1 of section 7 (*now* 8);

(*2*) (amendment No. 33) if the above amendment be lost, and if the amendment* substituting the word "sixty" for the word "fifty" in line 2 of section 6 be carried, that the following be added to section 7, sub-section (*1a*) [*now* section 8, sub-section (*2*)]:—

"(*e*) eight by the Presidency Magistrates of Calcutta;
"(*f*) two by the Fellows of the University."

The Hon'ble THE PRESIDENT also ruled the following motion (amendment No. 35), standing in the name of the Hon'ble Babu Boikanta Nath Sen, to be out of order:—

That "Fifty" be substituted for "Twenty-five" in section 7 (*now* 8), sub-section (*1*).

SECTION 9.

The Hon'ble THE PRESIDENT also ruled the following motions, standing in the name of the Hon'ble Mr. Apcar, to be out of order:—

(*1*) (amendment No. 40) that in section 8 (*now* 9), clause (*a*), for the word "four" the word "six" be substituted;

(*2*) (amendment No. 41) that in section 8 (*now* 9), clause (*b*), for the word "four" the word "six" be substituted, and for the words "clauses (*a*), (*b*), (*c*) and (*d*)" the words "sub-section (*1a*)" [*now* sub-section (*2*)] be substituted;

(*3*) (amendment No 42) that in section 8 (*now* 9), clause (*c*), for the word "four" the word "two" be substituted.

The Hon'ble THE PRESIDENT also ruled the following motion, standing in the name of the Hon'ble Babu Jatra Mohan Sen, to be out of order:—

(amendment No. 43) that the following amendments be made in section 8 (*now* 9), namely:—

(*1*) in sub-section (*2*), clause (*a*), substitute "six" for "four;"

(*2*) for clauses (*b*) and (*c*) substitute "and, of the remaining six, four shall be elected by the Commissioners appointed by the different bodies, and two by the Local Government."

The Council was then adjourned to Monday, the 11th September, 1899.

CALCUTTA;

The 14th November, 1899.

F. G. WIGLEY,

Assistant Secretary to the Govt. of Bengal,
Legislative Department.

RESOLUTION ON THE ANNUAL GENERAL ADMINISTRATION REPORT OF THE CHOTA NAGPUR DIVISION FOR THE YEAR 1898-99.

GENERAL DEPARTMENT—(MISCELLANEOUS).

Darjeeling, the 8th November 1899.

RESOLUTION—No 630T.—G.

READ—

The Annual General Administration Report of the Chota Nagpur Division for the year 1898-99.

MR. FORBES, who submits the report, was in charge of this Division throughout the year.

2. *Tours and Inspections.*—During the latter half of November the Lieutenant-Governor visited this Division, starting from Giridih. He went to the head-quarters of each district, and held a Darbar at Ranchi, at which he had the pleasure of meeting all the Chiefs of the Feudatory States. Owing to the very great extent of the Division, it is not possible for the Commissioner to visit all the Tributary States every year, and so on this occasion, besides seeing and inspecting the two subdivisions and the head-quarters of each district, Mr. Forbes made a very useful tour through the Western States, visiting Gangpur, Korea, and Sirguja.

The wishes of Government as to the amount of time to be spent on tours were complied with by all the District Officers, save one, for whom, however, satisfactory reasons are given.

Why Mr. Martin, the Subdivisional Officer of Giridih, was unable to spend more than 78 days on tour is not stated. Except in certain instances, which are fully explained, the usual inspections were made by all the District Officers.

3. *Weather and Crops; Prices; Public Health; Material Condition of the People.*—The chief point noticeable with regard to the weather during 1898-99 was the extremely favourable manner in which, for agricultural purposes, the rainfall was distributed throughout the year. Naturally, therefore, the outturn of all the crops was very fine, that of the winter rice, the mainstay of the people, being exceptionally so. As a consequence of the excellent harvest, the prices of food-grains were very low, in some places a maund of husked rice selling for a rupee. The mahua crop, which is of much importance to the poorer classes, was plenteous. The people, therefore, have thus had the benefit of two unusually fruitful years in succession. This, by very materially improving the condition to which they had been reduced by the late famine, was no doubt one reason why the public health during the year under review was so exceptionally good, the death rate from all causes per mille being only 19·20 as compared with 30·8, the average of the six years immediately preceding. Furthermore, no epidemic of cholera or small-pox occurred.

4. *Emigration and Immigration.*—The figures available with reference to emigration shew most markedly the effect of the good harvests. The number of emigrants recruited and registered under Act I of 1882 sank from 26,468 of the preceding year to 9,899; while in the case of those who leave under the free labour system, the corresponding decrease was from 19,285 to 4,434, but the data concerning these figures are admittedly incomplete, and must be so until the Act is revised, a subject which was much discussed during the year. Practically, the only immigration consisted of an influx of Sonthals in pargana Dhalbhum, in Singhbhum, and of coolies to the collieries, concerning whom statistics are not forthcoming.

5. *Manufactures, Mines, and Commerce.*—The fear that many of those engaged in weaving *tasar* cloths had been permanently ousted from the trade owing to the late scarcity in Manbhum would appear to be doubtful, as the estimated outturn was 33 per cent. greater than in 1897-98. Lac and tea are the chief manufactures in this Division. Regarding the former, the results

year, and the wholesale price is reported to have risen by about Rs. 10 per maund. In Ranchi five factories were working against only two in the preceding year, giving an outturn of 3,850 maunds. In Manbhum the outturn is estimated at 14,000 maunds valued at Rs. 5,60,000 at the rate of Rs. 40 per maund against 13,000 maunds valued at Rs. 3,90,000 at Rs. 30 per maund in the previous year. The Deputy Commissioner of the district, however, remarks "that the local industry has declined, and the future is not very hopeful."

51. There are altogether 26 tea-gardens, viz., 5 in Hazaribagh and 21 in Ranchi. In Hazaribagh returns were received from four gardens, and the total quantity of tea manufactured in them aggregated 49,680 lbs. against 36,200 lbs. in the preceding year. In Ranchi returns were received from 20 of the gardens, the total quantity of tea manufactured in which aggregated 1,009,190 lbs. against 931,695½ lbs. in the preceding year. Writing on the condition of the tea cultivation in this district, Mr. Streatfeild, the Deputy Commissioner, remarks :—

"The weather during the year was not very favourable for tea cultivation, and the long drought in the spring resulted in the crop being a short one; prices ruled low as usual, though the Palandu tea garden had an unusually good sale."

I very much fear, however, that for the reasons noticed in last year's report the prospects of the tea industry in Chota Nagpur are not hopeful.

52. Regarding the local native manufactures, I have nothing to add to the information given in paragraph 51 of last year's report beyond noting that there has apparently been a slight revival in the industry of weaving tusser cloths amongst the *tantis* of Raghunathpur and Singbazar, in the Manbhum district, the total outturn being reported at 48,000 yards of cloth as compared with 36,000 yards during the preceding year. I may here mention that during my tour in the Native States I found native looms in many of the villages, the cloth in common use by the lower classes there being almost entirely of local make.

Coal mining.

53. The coal mining industry is of steadily increasing importance in this Division. At present it is confined to the subdivisions of Giridih and Gobindpur in the Hazaribagh and Manbhum districts, respectively, as these are the only parts of the Division where the coal measures are accessible by rail. But with the opening of the Daltonganj-Baroon Railway on which work is now in progress, the Palamau coal-fields will become available for use; while the projected line up the Damuda valley, the necessity for which has so often been pressed upon Government by the local officers and the Bengal Chamber of Commerce, would throw open the resources of the valuable Kamakuru coal measures and of other parts of the interior of the Division which are now inaccessible. In this connection I would draw attention to the great activity apparent at present in developing the coal industry in this part of the country. During the past year, with the sanction of the Board of Revenue, I have granted two important coaling concessions in the Pachete Encumbered Estate in Manbhum to the Equitable Coal Company, Limited, and another comprising the coal-fields in the Katras Estate, in the same district, to two new Companies, viz., the Nawaghar Coal Company and the Lutchepur Coal Company, lately formed for the purpose by Messrs. Bird and Company, of Calcutta. Another application by the Bengal Coal Company for the grant of the coal mining rights in 35 other villages in the Manbhum district has since been filed, and I may mention as a noticeable fact that this concession is only asked for *in prospect* of the part of the country where these villages are situate being opened up by a railway, and one stipulation made is that the annual payment of the minimum rate of royalty to be fixed under the lease is to be deferred until the coal-fields have in this manner been rendered accessible. Many other similar cases may be cited to show the desirability of opening up the interior of the Chota Nagpur Division, by improved means of communication, with a view to the proper development of its immense mineral resources.

54. Of the existing groups of collieries in this Division, four, including six mines, are at or near to Giridih, the head-quarters of the subdivision of that name in the Hazaribagh district. Of these three are worked by European

agencies and the fourth by a native company. In the Govindpur subdivision in the Manbhum district there are as many as 130 to 140 mines, most of the larger of which are worked by the Bengal, Equitable, Raniguuge, Katras Jheria, East India, Barrakar, Bengal-Nagpur and other European Coal Companies, but by far the larger number are small mines under native supervision. There are also numerous coal-pits in the Sadar subdivision of Hazaribagh in the basin of the Damudar river, but these owing to absence of railway communication are only superficially worked for local requirements, such as brick-burning and similar purposes. Some of this coal finds its way, by cart, into the Ranchi district. The following table gives the output in tons and the number of work-people employed in the coal mines of Giridih and Gobindpur during the past three years:-

SUBDIVISION.	Output in—			Daily average number of work-people in—		
	1896.	1897.	1898.	1896.	1897.	1898.
1	2	3	4	5	6	7
	Tons.	Tons.	Tons.			
Giridih ...	666,995	664,694	656,306	11,215	11,039	9,656
Gobindpur ...	562,990	417,588	883,390	15,392	8,075	12,928
Total ...	1,229,985	1,082,282	1,539,696	26,607	19,114	22,584

There was a large advance of nearly 40 per cent. in output, owing to prices ruling high, and it would probably have been still larger had sufficient means of transport been available.

55. The mica mining industry is confined to the district of Hazaribagh. All the mica mines are situated in the northern portion of pargana Kharakdiha, most of them lying in the Koderma Government Estate and in the Doranda and Satgawan Encumbered Estates. All the mines in these estates have been leased out in accordance with the Government orders and rules on the subject. Altogether 33 new mines were settled at an aggregate rental of Rs. 1,682-5-2, the settlement in each case being for one year only. Ninety-six old mines were resettled for a term of five years at an aggregate rental of Rs. 3,853. Besides these there are a number of mines in private estates, the greater number of which are worked by Messrs. F. F. Christien and Company. The total output of all mica mines worked during the year, including those in the private estates, was reported at 5,886 maunds against 10,797 in the preceding year. The Deputy Commissioner offers no explanation of the large falling off beyond saying that he much doubts the trustworthiness of the above figures.

56. No gold mine was worked in the Division during the year under review. The Sonapet gold mine remained closed during the year, but some experiments were made by an expert, Mr. Fearby, sent out by the Anglo-Indian Exploration Syndicate to test and report on all the places where gold have been found in Sonapet. Mr. Fearby's researches continued for about three months and-a-half, and though he discovered gold in several places, the conclusion he came to was "that there is nothing at Sonapet for a Company to work." Messrs. Jardine, Skinner and Company did nothing under their prospecting lease for gold in Porahat in Singhbhum, and appear to have practically given up the enterprise. Mr. Barton, who had been granted a prospecting lease for minerals in this district, has not commenced work.

57. The only tin mines known to exist in this Division are at Narango in the Giridih subdivision in Hazaribagh. These mines were not, however, worked during the year under review.

58. No copper mines were worked during the year in any part of the Division, but Messrs. Gillanders, Arbuthnot and Company, who held a prospecting lease for copper in Dhalbhum, have obtained an extension of it for two years.

59. Some recent attempts have been made in Manbhum to work iron ores, and a Company have taken out a mining lease and opened works at the Kustaur hills. I am also at present engaged in negotiations with the Bengal Iron Company, Agents Messrs. Martin and Company, for an extensive prospecting lease in the Pachete Encumbered Estate in Manbhum.

60. There are some soap stone quarries in the Dhalbhum Estate in Singhbhum leased to private individuals. Some of these quarries were worked by shafts.

61. Stone-lime is worked in Manbhum near the Ramkanali station on the Bengal-Nagpur Railway, and at Dumargari in Ranchi near to Augara thana on the Ranchi-Purulia road.

IX.—TRADE AND COMMERCE.

62. In paragraphs 58 to 60 of my last year's report I gave a detailed account of the trade routes of this Division, and pointed out how small a fraction of the divisional area is accessible to railway traffic. During the past year the construction of the Sini-Midnapore section of the Bengal-Nagpur Railway brought the eastern portion of the Singhbhum district within the reach of civilisation, and the Baroon-Daltonganj branch of the East Indian Railway will, in another year or two, effect the same for the western half of Palamau, but there will still remain a large tract of country in the interior of the Division completely isolated from the outer world.

63. The following statement gives the figures of the rail-borne import and export trade of the Division in the 24 selected articles during the past two years:—

Articles.	Imports— By rail.		By Nadia rivers.		By canal.		Total.		Exports— By rail.		By Nadia rivers.		By canal.		Total.	
	1897-98.	1898-99.	1897-98.	1898-99.	1897-98.	1898-99.	1897-98.	1898-99.	1897-98.	1898-99.	1897-98.	1898-99.	1897-98.	1898-99.	1897-98.	1898-99.

Compared with the previous year, there was an increase of 16,27,323 maunds in the total quantity of the 24 selected articles exported from the Division by rail and a decrease of 3,59,366 maunds in the quantity imported. Including coke and coal, which represented about 99·4 per cent., of the total quantity of the 24 articles exported, the volume of the total rail-borne trade of the Division was nearly thirty times as large as that of the import trade, while excluding coke and coal, the exports amounted to only 2,25,949 maunds against 9,72,269 maunds of imports.

64. As might have been expected with the favourable outturn of most of the crops, there was a marked decrease in the importation of rice and other food-grains, the total quantities of rice, paddy, wheat, gram and pulse and "other food-grains"

Imports.

imported having been 1,46,400, 1,290, 9,985, 1,19,101 and 3,118 maunds against 4,71,761, 23,850, 15,057, 1,40,963 and 9,661 maunds, respectively, in the previous year: the decrease in the importation of wheat is further explained by the fact that the cultivation of this crop is gradually gaining a footing in the Division. With the increased prosperity of the people, there were increases of 18,416 and 7,941 maunds, respectively, in the importation of sugar (refined and unrefined) and of European cotton-piece goods, whilst cotton twists also show an increase of 10,528 maunds. There was a large falling off in the importation of linseed and mustard seed, probably because the demand for these articles from districts lying outside the Division altogether ceased with the harvesting of the oilseed crops, which in ordinary years are generally exported from the Division instead of being imported into it. There was a decline in the importation of tobacco, kerosine oil, and salt, which is attributed by some of the District Officers to the importations in previous years being in excess of requirements. This explanation might, perhaps, apply to salt, as the importation of this article in the preceding year was considerably larger than usual, but it cannot hold good in the case of the other two articles named, which show a falling off for two or three years running. It may be that tobacco is more grown in these districts than formerly, and that the improved outturn of oilseeds has encouraged the use of vegetable oils. Had the reason been a greater all-round economy amongst the people, one would have expected a similar falling off in the imports of sugar, cotton goods, &c., but, as noticed above, the reverse has been the case.

Exports.

65. Among exports, barring coke and coal, the chief article is rice, which shows an increase of 33,187 maunds, and after it comes mustard seed with 50,886 maunds against 47,230 maunds in the previous year. The quantity of linseed exported during the year rose from 4,336 maunds to 13,921 maunds, and that of raw cotton from 88 to 5,132 maunds. The large increase in the export of this last-named article probably indicates the opening of a new branch of trade in the Division. On the other hand, there was a large falling off in the exports of gram and pulse (8,330 maunds against 27,991 maunds), Indian tea (3,940 maunds against 5,933 maunds), and unrefined sugar (7,768 maunds against 9,152 maunds).

Internal trade routes.

66. As reported in the previous year, the principal internal trade routes of the Division are the metalled roads already mentioned between Ranchi and Hazaribagh to the railway stations at Purulia and Giridih, respectively; the Grand Trunk Road, which runs through the Gobindpur subdivision of Manbhum and the Hazaribagh district; metalled roads between Ranchi and Hazaribagh (58 miles) from Ranchi to Lohardaga (47 miles), the principal mart on the Ranchi pleateau, and in the Singhbhum district from Chaibassa to the Bengal-Nagpur Railway station at Chakradharpur, 16 miles; and unmetalled roads from the town of Lohardaga to the equally important mart, Chatra, in Hazaribagh, passing on northwards to the Grand Trunk Road, and thus giving an exit into the Gaya district. Traffic by the above routes, excepting the last, is by bullock-carts, which are hired for the most part from Bihar and the Burdwan and Bankura districts. Along the last of the above routes goods are carried by pack-bullocks, as is the case with most of the interior trade of all the districts. Palamau is especially badly off in the matter of communications and carriage. There is no metalled road and scarcely a bullock-cart in the district, practically the whole of the trade being carried on pack-bullocks.

Ranchi district.

67. In the Ranchi district the principal trade centres are Ranchi and Lohardaga. There is also a large weekly cattle fair and general bazar at Gumla, which place has been selected as the site for the new subdivision lately sanctioned by Government. The principal articles of export from the Ranchi district are rice, oilseeds, *mahua*, hides and horns, and lac. Of the extent of this trade no reliable figures are available, but from the rough statistics sent in by the thana police it can safely be said that there was a very considerable increase in the trade in most of these commodities over that of the preceding year. To the Lohardaga and Chainpur marts alone some 15,000 pack-bullocks are reported to have come for rice for the Palamau, Hazaribagh, and Gaya

districts. It is to be hoped that this large grain-producing tract will be opened out within the next few years by the branch railway in connection with the Damudar Valley project, which has been lately recommended to the Government of India. There was also a large export of sleepers by the Bengal-Nagpur Railway from the zamindari estates in the south of the district, but I have not been supplied with particulars (now being asked for).

Palamau district.

68. Regarding the trade of Palamau, the Deputy Commissioner reports as follows :—

The trade centres of the district.

"The principal centres of trade in the district are Daltonganj, Gurhwa, Pathra, Chainpur, Hariharganj, Hossenabad, Sonepura, Satbarwa, Panki, Nagar, Manjhiwara and Hydernagar Gurhwa comes first in point of importance, owing to the fact that it commands three different routes of trade. The first is the route to the Tributary State of Sirguja; the second is that leading to the district of Mirzapur; and the third is that coming from Calcutta *viâ* Baroon-on-Sone and from Shahabad *viâ* Akbarpur. Daltonganj comes next in importance, being the district head-quarters and the distributing centres of the markets near it. Through Hossenabad and Hariharganj pass the trade of Gurhwa and Daltonganj, respectively, whence arises this importance. The others are local depôts distributing the trade to the numerous weekly markets throughout the district.

Articles of import and export.

"The principal articles of export from the district are lac, resin, catechu, cocoons, hides, oilseeds, ghee and cotton, and the articles imported chiefly are rice, brass utensils, piece-goods, salt, tobacco, spices and kerosine oil."

69. The trade of the district is at present mostly carried by pack-bullocks; that from the centres mentioned by the Deputy Commissioner to the interior marts entirely so. There is not a metalled road in the district, but there are a few unmetalled roads leading out of the district, viz., from Daltonganj *viâ* Hariharganj to Gaya (101 miles), from Ghurwa to Baroon (opposite to Dehri-on-the-Sone), and from Daltonganj to Ranchi (103 miles), which are used for cart traffic during the dry months. It is evident that an immense impetus will be given to trade in this corner of the Division by the opening of the Baroon-Daltonganj Railway, which will pass only a few miles from Gurhwa and through or close to several of the other trade centres mentioned by the Deputy Commissioner. The only requisite will be the construction of a sufficient number of good feeder roads. The difficulty lies in the very slender funds available from the road cess for the purpose, which will have to be supplemented by a substantial grant from the Provincial revenues. A full report on the subject with a scheme of the proposed roads was submitted to Government with this office No. 338R.C., dated 8th December last.

70. Regarding the particulars of the district trade no reliable figures are available. The following, however, collected from the principal traders and other sources are given by the Deputy Commissioner for what they are worth. The figures show approximate values in rupees :—

IMPORTS.			EXPORTS.		
Articles.	1897-98.	1898-99.	Articles.	1897-98.	1898-99.
1	2	3	4	5	6
	Rs.	Rs.		Rs.	Rs.
1. European piece-goods ...	2,17,230	2,28,406	1. Lac	1,73,600	3,26,900
2. Country-made saries ...	2,980	3,000	2. Ghee	80,430	1,35,000
3. Ditto coarse cloths	15,600	1,600	3. Hides	82,000	8,000
4. Salt	33,800	93,400	4. Mustard seed ...	29,012	18,600
5. Twist and yarn ...	20,400	13,600	5. Rapeseed ...	19,800	13,500
6. Brassware	23,000	18,000	6. Linseed ...	18,248	20.137
7. Sugar	14,000	20,000	7. Cotton ...	6,000	21,000
8. Tobacco	14,800	17,600	8. Bamboos ...	11,000	10,000
9. Kerosine oil	15,000	20,000	9. Catechu ..	14,600	2,500
10. Rice	48,000	10,000	10. Cocoons ...	146	415
			11. Resin	4,800	4,800
Total ...	4,47,710	4,25,600	Total ...	4,39,636	5,61,752

71. A detailed discussion of the fluctuations between the transactions of the two years would be unprofitable owing to the unreliability of the above figures; but, so far as they can be accepted for purposes of comparison, the main differences may be explained by the recovery of the district from the effects of the previous scarcity. Thus the increase in the imports of European piece-goods, salt, sugar, tobacco and kerosine oil and the decrease in the imports of rice may be safely put down to this cause, to which the Deputy Commissioner also ascribes the large increase in the exports of ghee. There has been a considerable increase in the trade in lac. The falling off in the imports of coarse country-made cloth may be due either to a revival of activity amongst the local looms, or, as is thought by the Deputy Commissioner, to the competition of the foreign article. A noticeable feature in the trade of this district is the smallness of the imports of salt. At the average accepted rate of consumption, the value of the imports of this article should be about three times that shown during the past year.* If the figures given are at all in accordance with facts, they certainly go to show the pressing necessity for opening up the country by rail and the advantage to the Government revenue that is likely to result.

* I leave out of account the very low figures for 1897-98, as they seem so low as to be incredible.

* * * * * * *

XIII.—CRIME.

87. With the return of good seasons and favourable crops, there was a large falling off in crime, both cognizable and non-cognizable, though the total number of cases reported under the head cognizable was still much larger than that of 1896. Compared with 1896, the increase in cognizable cases is observed largely in offences against property, which goes to show either that a residue of the lower classes were still in want, or that the thieving propensities acquired during the preceding scarcity could not easily be given up. The total number of cognizable cases reported and brought under investigation in 1898 was 11,944 against 15,642 in 1897 and 8,899 in 1896, while the total number of non-cognizable cases reported and brought under enquiry was 3,581 against 4,005 in 1897 and 4,719 in 1896. The decrease in cognizable crime as compared with 1897 is shared by all the districts of the Division, while that in non-cognizable crime is contributed by all, except Ranchi, which shows a very trifling increase of six cases. The following statement compares the number of cognizable and non-cognizable cases reported from, and brought under investigation in, the several districts during the past two years:—

District.	Cognizable cases.				Non-cognizable cases.			
	1897.	1898.	Increase.	Decrease.	1897.	1898.	Increase.	Decrease.
1	2	3	4	5	6	7	8	9
Hazaribagh ...	3,698	2,506	...	1,192	608	347	...	261
Ranchi ...	3,480	2,878	...	602	1,113	1,119	6	...
Palamau ...	2,052	1,391	...	661	362	358	...	4
Manbhum ...	4,390	3,413	...	977	1,306	1,271	...	35
Singhbhum ...	2,022	1,806	...	216	616	486	...	130
Total ...	15,642	11,944	...	3,648	4,005	3,581	6	430

88. The following statement shows the number of cognizable cases decided and the number in which convictions were obtained :—

District.	Cases decided.		Cases convicted.		Percentage.	
	1897.	1898.	1897.	1898.	1897.	1898.
1	2	3	4	5	6	7
Hazaribagh	1,943	1,507	1,539	1,139	79·2	75·5
Ranchi	1,283	1,120	860	723	67·03	64·5
Palamau	969	657	832	525	85·8	79·9
Manbhum	2,015	1,713	1,577	1,356	78·2	79·1
Singhbhum	1,102	987	940	819	85·3	82·9
Total ...	7,312	5,984	5,748	4,562	78·6	76·2

89. The following statement shows the total number of persons brought to trial for cognizable offences and the total number convicted in the several districts during the past two years :—

District	Persons brought to trial in—		Persons convicted in—		Percentage in—	
	1897.	1898.	1897.	1898.	1897.	1898.
1	2	3	4	5	6	7
Hazaribagh	3,016	2,216	2,016	1,385	67·8	61·6
Ranchi	2,548	2,231	1,305	1,043	51·2	46·7
Palamau	1,364	900	1,047	606	76·7	67·3
Manbhum	3,574	2,769	2,054	1,728	60·8	63·7
Singhbhum	1,632	1,626	1,281	1,192	78·5	73·3
Total ...	11,934	9,712	7,733	5,951	64·8	61·3

The above figures indicate that the results of trials in all the districts, except Manbhum, were less satisfactory than in the previous year. The explanation probably is that in 1897 a large portion of the offences were those occasioned by hunger in which the proof was clear and simple and the guilt not denied.

90. Out of 11,944 cognizable cases dealt with during the past year, 509, or about 4·2 per cent., were declared to be maliciously false against 3·1 per cent. in the previous year. The percentage has remained fairly constant, except in Ranchi and Palamau, where there has been a marked increase. This may possibly be attributable to the practice of too readily entering cases as "false" where, though there is obviously exaggeration, there is also a substratum of truth sufficient to bar any chance of a successful prosecution. I have elsewhere expressed my opinion that "doubtful" should be added to the two existing descriptions (" true " and "false").

91. Under class I there were altogether 123 true cases reported and brought under investigation during the past year against 152 in 1897. The decrease is shared by all the districts, except Ranchi, which shows an increase of ten cases. The majority of the cases under this class were cases of rioting connected with land disputes. Two cases of serious riots occurred in the Ranchi district, one ending in loss of life and the other in grievous hurt. In another case in Palamau guns were discharged.

92. Under class II there were altogether 404 true cases reported and investigated during the year against 388 in 1897. The increase of 16 cases was the net result of increases in Ranchi and Manbhum and of decreases in the other three districts. Taking the Division as a whole, the increase under this class is most marked in offences against women and in grievous hurt. Possibly better feeding and increased means of obtaining drink may have had some influence in these results. At the same time it is satisfactory to note that there was a marked decrease in the use of dangerous weapons.

93. Under class III the total number of true cases reported and investigated during the past year was 2,552 against 4,846 in the previous year. The decrease, which is shared by all the districts, was most marked under the two heads of dacoity and burglary, the number of reported cases under the former having decreased from 145 in 1897 to only 36 in 1898, and that under the latter from 4,644 to 2,423.

94. Under class V the number of true cases reported and investigated was 3,650 against 4,857 in 1897. The decrease under this class was also shared by all the districts, and is chiefly noticeable under the head of theft, the total number of reported cases under which fell off from 5,057 in 1897 to 3,593 in the past year.

95. Under class VI there was a net decrease of 46 in the total number of true cases, the figures for the past year having been 2,944 against 2,990 in 1897. There was greater activity shown in the detection of excise cases in all the districts, except Palamau, and in the prosecution of public and local nuisances in all, except Ranchi and Palamau. Bad characters were effectually dealt with in Hazaribagh and Singhbhum and offences against the Arms Act in Ranchi and Singhbhum. The prosecution of bad characters appears to have been much neglected in Ranchi and to some extent in Manbhum, while more strict enforcement of the Arms Act and rules seems desirable in Hazaribagh, Palamau, and Manbhum.

96. Compared with 1897, the past year showed a decrease of 23·4 per cent. in the number of cognizable cases dealt with and of 30·9 per cent. in the number of A forms sent up: but the number of A forms was still largely in excess of that of 1896. Of the 3,051 A forms sent up during the past year, 908, or about 29·9 per cent., were disposed of at first hearing, 21·2 per cent. after one remand, 15·6 per cent. after two remands, 19·9 per cent. after three to five remands, and 8 per cent. after six remands, against percentages of 29 08, 26·1, 16·2, 18·5, and 6·8 in the preceding year. The worst results were shown in Ranchi, where only about 17 per cent. of the A forms sent up were disposed of at first hearing against 22 per cent. in Hazaribagh, 45· per cent. in Palamau, 24· per cent. in Manbhum, and 47· per cent. in Singhbhum. The results of sessions trial are given below :—

District.	Number of cases committed in the previous year, but pending at commencement of the year.	Number committed during the year.	Total number for disposal.	Number disposed of.	Number in which conviction was obtained.	Number in which sentence was modified or reversed by High Court.	Number of cases acquitted by Sessions Judge.	Number of cases otherwise disposed of.	Percentage of cases resulting in conviction to total cases disposed of.
1	2	3	4	5	6	7	8	9	10
Hazaribagh	5	14	19	16	10	1	6	...	62·5
Ranchi	13	18	31	21	15	...	6	...	71·4
Palamau	1	5	6	6	5	...	1	...	83·3
Manbhum	10	21	31	30	20	3	10	...	66·6
Singhbhum ..	4	11	15	13	11	1	2	...	84·6
Total .	33	69	102	86	61	5	25	...	70·9

97. The results compare very favourably with those of 1897, in which the percentage of cases ending in conviction on the total number disposed of was only 56·2, and the maximum percentage obtained in any one district was only 66·"

* * * * * * *

99. The following statement compares the number of non-cognizable cases instituted and tried in the different districts during the past two years:—

District.	Number of cases instituted in—		Number of cases actually tried in—		Number of persons tried in—		Number of persons convicted in—		Percentage of convictions in—	
	1897.	1898.	1897.	1898.	1897.	1898.	1897.	1898.	1897.	1898.
1	2	3	4	5	6	7	8	9	10	11
Hazaribagh ...	608	347	393	153	500	210	327	111	65·4	52·8
Ranchi ...	1,113	1,119	506	570	699	730	375	422	53·6	57·8
Palamau ...	362	358	122	195	164	245	106	167	64·6	68·1
Manbhum ...	1,306	1,271	656	512	776	629	510	397	65·7	63·1
Singhbhum ...	616	486	345	250	414	672	328	600	79·2	89·3
Total ...	4,005	3,581	2,022	1,680	2,553	2,486	1,646	1,697	64·4	68·2

There has been a decrease in the number of institutions everywhere, except Ranchi, which shows a trifling increase of six cases. The number of persons tried for non-cognisable offences has decreased very largely in Hazaribagh and to a small extent in Manbhum. On the other hand, the number tried in the remaining three districts has increased more or less. The percentage of convictions has increased in the majority of the districts, with the result that there has been an advance in the average divisional percentage from 64·4 in 1897 to 68·2 in 1898, and which compares particularly favourably with the percentages of 44·3 and 38·7 in the two preceding years 1896 and 1895, respectively. I attribute this improvement in a chief measure to the introduction in this Division of what is called the "Patna system" in receiving complaints and distributing the criminal work of the subordinate courts.

* * * * * * *

ROAD PATROLS.

102. There was no change in the permanent staff of the road patrol police force employed in the Division. In Hazaribagh the force consisted of 105 sardars and 315 digwars, who were stationed on the main roads and jungly tracts for the protection of travellers and the prevention of crime. During the last year a temporary patrol was established between Chatra in Hazaribagh and Sherghatty in the Gaya district. It is reported that this patrol proved most efficacious in checking crime, as since its institution not a single case of dacoity or highway robbery has taken place on the road in question. In Ranchi the force consisted of 105 ghatwals, but certain reductions have been ordered since the close of the year, and a reorganisation of the whole system is now under consideration. In Palamau there were 35 ghats with 58 ghatwals.

103. The road patrols in the three districts of Hazaribagh, Ranchi, and Palamau are paid out of the ghatwali cess imposed on certain zamindars and tenure-holders under Part III of Act V (B.C) of 1887, their remuneration varying from Rs. 3 to Rs. 3-8 per mensem, and they are paid regularly along with the regular police force of the districts.

04. The ghatwals of Manbhum and of pargana Dhalbhum in Singhbhum are remunerated by lands which they hold on payment of small quit-rents to the zamindars. In Manbhum the ghatwals regularly patrol the roads between the different stations, but I find, from enquiries I have had to make in appeals against punishments that have come before me, that the rules on the subject of their attending at the police-stations and submitting special or periodical reports are wanting in definiteness, and I have drawn the attention of the Deputy Commissioner to this matter. In Singhbhum one-third of the total number of ghatwals are employed on beat duty, reporting results to station and outpost offices. The Chaibassa, Midnapore, Bohoragora, and Dumaria roads are regularly patrolled by them. Ghatwali posts are maintained in all the districts at intervals along the roads patrolled by the ghatwals. In Hazaribagh, Ranchi, and Palamau they are maintained out of the ghatwali or, as locally known, the "digwari" cess levied in the districts. In Manbhum they are maintained partly at the cost of the zamindars within whose jurisdictions they are established and partly out of special grants sanctioned by Government. In Singhbhum they are maintained partly by subscriptions raised among the ghatwals and partly by contributions made by the Dhalbhum Estate.

* * * * * * *

XVI.—REGISTRATION OF DEEDS.

122. The following table shows the number of deeds registered during the past two years in the several districts of the Division:—

District.		Deeds registered in 1897-98.	Deeds registered in 1898-99.
1		2	3
Hazaribagh	...	8,077	6,129
Ranchi	...	8,353	5,785
Palamau	...	1,977	1,664
Manbhum	...	19,112	15,928
Singhbhum	...	861	1,017
Total	...	38,380	30,523

There has been a net decrease of 7,857 in the total number of deeds registered. The decrease is shared more or less by all the districts, except Singhbhum, and is, no doubt, rightly attributed by the District Officers to the late excellent harvests and the consequent absence of any pressing necessity amongst the cultivating and land-owing classes to raise money by sales, mortgages or other bonds. The results are in striking contrast in this respect with those of the preceding two years, when opposite conditions obtained. The increase is attributed to the opening of a new sub-registry office at Ghatsilla, and to the general development of the district in consequence of the advent of the Bengal-Nagpur and Sini-Kharagpur Railways.

123. The following table compares the receipts in the several districts during the past two years:—

District.			Receipts. 1897-98.	Receipts. 1898-99.
1			2	3
			Rs.	Rs.
Hazaribagh	...	...	9,885	7,728
Ranchi	...	...	8,800	7,473
Palamau	...	...	3,812	3,536
Manbhum	...	...	18,155	15,607
Singhbhum	...	...	998	1,116
Total		...	41,650	35,460

The receipts have decreased everywhere, except Singhbhum, where there has been an increase of Rs. 118. In the other districts the result has merely been in keeping with the falling off in the number of registrations.

124. There was one prosecution in Singhbhum under section 82 (*a*) of Act III of 1877 (for making a false statement before a registering officer), ending in the conviction of the accused, who was sentenced to one month's imprisonment.

125. There were 12 rural sub-registry offices in the Division, viz., 4 in Hazaribagh, 1 in Ranchi, 1 in Palamau, 5 in Manbhum, and 1 in Singhbhum, against 9 in the preceding year. Three new offices, viz., one at Gola, in Hazaribagh, one at Chas, in Manbhum, and a third at Ghatsilla, in Singhbhum,

were opened during the year. Mr. Streatfeild, the Deputy Commissioner of Ranchi, very properly observes that, considering the area of his district, there ought to be more rural offices there. Regarding the only one there is, viz., at the town of Lohardaga, he gives a very unsatisfactory account. When he inspected it in February last, he found the office in a disgraceful state, and had to suspend all the amla. The rural sub-registrar has taken leave; and is not, he believes, to be given re-employment.

XVII.—CONDITION OF THE DIVISION AS REGARDS LAND AND LAND REVENUE ADMINISTRATION.

126. The demands and collections of land revenue in the several districts of the Division for the past two years are compared below:—

District.	Number of estates.		Demands.						Collections.					
	1897-98.	1898-99.	1897-98.			1898-99.			1897-98.			1898-99.		
			Current.	Arrear.	Total.	Current.	Arrear.	Total.	Current.	Arrear.	Total.	Current.	Arrear.	Total.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15
			Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Hazaribagh	192	161	1,30,083	2,714	1,32,797	1,31,247	1,916	1,33,163	1,28,295	2,653	1,30,948	1,29,207	1,833	1,31,040
Ranchi	218	218	48,365	5,914	54,279	48,469*	6,790	55,259	44,295	3,081	47,376	40,777†	3,555	44,332
Palamau	261	261	1,02,103	34,492	1,36,595	1,02,299	43,328	1,45,627	63,841	29,827	93,668	65,074	38,558	1,03,632
Manbhum	29	29	82,462	...	82,462	82,462	2,532	84,994	79,930	...	79,930	79,297	...	79,297
Singhbhum	3	4	1,34,893	2	1,34,895	1,36,107	2,110	1,38,217	1,32,293	2	1,32,295	1,32,891	2,100	1,34,991
Total ...	703	673	4,97,706	43,122	5,40,828	5,00,584*	56,676	5,57,260	4,48,654	35,563	4,84,217	4,47,246†	46,046	4,93,292

* Includes Rs. 4,686 on account of Tributary States.
† Includes Rs. 4,286 on account of Tributary States.

There was a net decrease of 30 estates in the Division resulting from a decrease of 32 estates under class II in Hazaribagh against increases of one estate each in the districts of Hazaribagh and Singhbhum under class III.

127. The decrease of 32 estates in Hazaribagh under class II was due to their amalgamation with one of the estates under class III on the cancellation of the leases of certain farmers of Government villages for default in payment of rent. The increase of one estate under class III in Hazaribagh is due to the addition to the roll as a new estate of railway B class lands, and that in Singhbhum to the town lands of Chaibassa, which had hitherto been in the possession of the municipality, having been resumed and formed into a separate *khas mahal*.

128. The total current demand of revenue in the several districts, including the Chota Nagpur Tributary States, was Rs. 5,00,584 against Rs. 4,97,706 in the previous year, showing an increase of Rs. 2,878, due mainly to the addition to the rent-roll of the estates noticed above.

129. The collections on account of current demand amounted to Rs. 4,47,246 against Rs. 4,48,654 in 1897-98, thus showing a decrease of Rs. 1,408, due chiefly (1) to the non-payment of the revenue due by the Patkum Encumbered Estate in Manbhum in consequence of continued failure of the Patkum Indigo and Trading Company (now insolvent) to pay the *izara* rent due by them to the estate, and (2) to the delay in the payment of the rent for the villages in the Barkagarh Government Estate in Ranchi leased to the estate of the late Mr. Henry Stainforth owing to the sudden departure from India of the surviving executor and the consequent temporary confusion in the affairs of the estate. Taking the districts separately, it appears that the current collections have been satisfactory in Hazaribagh, Manbhum, and Singhbhum, being respectively 98·44, 96·16, and 97·63, per cent., but indifferent in Ranchi and Palamau, being 84·1 and 63·6 per cent., respectively. The decrease in the collections in Ranchi is due to causes explained above, and that in Palamau to the poor collections in the Government khas mahals, attributable partly, I fear, to lax

supervision by the Sub-Deputy Collector in charge, but also in a great measure to the final kist of 4 annas falling due only three days before the end of the year and before the raiyats have had time to bring their *rabi* crops to market. I have recently recommended to the Board a change of date for this kist.

Operations of the sale law.

130. The number of estates which became liable to sale during the year for non-payment of Government dues was 6 in Hazaribagh and 6 in Palamau. Of these, 3 in Hazaribagh and 4 in Ranchi were exempted on payment of all the arrears due, and steps are being taken under the law to realise the arrears due by the rest. Of the 4 estates in Hazaribagh which were notified for sale in the previous year, 2 were exempted from sale on payment of all the arrears after issue of the sale notices. The remaining 2 were sold in due course, but in 1 of these cases the sale was subsequently annulled by this office on appeal.

Road and public works cesses.

131. The following table shows the demands, collections, remissions and balances of road and public works cesses in the several districts of the division:—

District.	Net demand after excluding reductions and remissions.			Collections, including advance collections.	Percentage of collections on current demand (columns 2 and 5).	Balances.	Percentage of balances on gross demand (columns 4 and 7).	Remissions.
	Current.	Arrear.	Total.					
1	2	3	4	5	6	7	8	9
	Rs.	Rs.	Rs.	Rs.		Rs.		Rs.
Hazaribagh ...	1,01,997	5,871	1,07,868	91,786	89·9	15,826	14·6	6 8
Ranchi ...	94,528	13,221	1,07,749	83,142	87·9	24,609	22·8	...
Palamau ...	37,727	9,427	47,154	37,915	100·5	9,099	19·2	...
Manbhum ...	97,227	27,280	1,21,507	88,231	90·7	36,271	29·1	...
Singhbhum ...	16,862	19	16,881	16,729	99·2	171	1·01	682
Total ...	3,48,341	56,818	4,04,159	3,17,808	91·2	85,976	21 2	1,240

In all the districts both the cesses were levied at the maximum rates allowed by law.

132. In Singhbhum the current collections were above 90 per cent.; in Hazaribagh they were above 80 per cent., but below 90; and in Ranchi, Palamau, and Manbhum they were above 70 per cent., but below 80.

133. The arrear demands in Ranchi and Singhbhum were collected in full. In Hazaribagh and Palamau 91·9 and 99·6 per cent., respectively, of the arrear demands were collected, while in Manbhum the percentage of collections was only 66·5.

134. In Hazaribagh, out of the total outstanding balance of Rs. 15,826, a sum of Rs. 9,990 has been realised since the close of the year, and the remainder is in course of recovery under the certificate procedure. In Ranchi the entire balance has been realised since the close of the year. In Palamau attachment orders have been issued for the arrears of the October 1898 and January 1899 kists, and for those of the March 1899 kist certificates have been issued. The greater portion of the arrears in this district were, however, due on account of estates, the last kist of which fell due only three days before the close of the year.

135. In Manbhum, out of the balance of Rs. 36,271, a sum of Rs. 9,134 represents the balance on account of arrear demand and Rs. 27,137 balance on account of current demand. Nearly the whole of the arrear balance is due

from the Patkum Encumbered Estate owing to the persistent failure, elsewhere noticed, of the Patkum Indigo and Trading Company to pay its ijara rent. Out of the balance on account of current demand, a sum of Rs. 4,000 has been collected since the close of the year; Rs. 9,500 are due from encumbered estates, Rs. 8,330 relate to the last kist of the year, and for the residue certificates have been issued.

136. In Singhbhum the arrears of Rs. 171 represent balance on account of cesses under Chapter V of the Act—a chapter which the Deputy Commissioner reports, owing to the short-termed period of leases which prevails in the district and the migratory character of the petty lessees of forests and quarries, is most difficult to work. Certificates have, however, been issued against the defaulters, and a part of the arrears due from them recovered.

Revaluation.

137. In last year's report it was mentioned that a general revaluation of the Ranchi and Palamau districts had been sanctioned by Government, and that operations in the former had commenced in December 1897. The work was steadily proceeded with during the year of report, with the result that out of a total of 30,627 ascertained tenures 4,271 had been revalued at a cost of Rs. 6,546 out of a sanctioned estimate of Rs. 15,086 by the end of the year. It should be stated, however, that the above by no means represents the whole of the work that has been done, for returns have in addition been received in respect of all, or nearly all, of the remaining tenures, and the Deputy Commissioner expects the rest of the work to be completed within the sanctioned cost. So far as it has gone, the result has been a prospective increase in the assessment by 26·6 per cent., which may be considered satisfactory and quite a sufficient warrant for the adoption of the measure. The total amount sanctioned for the revaluation proceedings was Rs. 15,086, of which Rs. 1,699-10-7 were spent in 1897-98 and Rs. 4,846-15-11 in 1898-99. In Palamau, out of 764 estates, the revaluation of 419, including 1,604 sub-tenures, was completed during the year at a cost of Rs. 6,813 out of a sanctioned estimate of Rs. 10,636. It is expected that the whole work will be finished by August or September of the current year. So far as the proceedings have gone, the result has been to show the urgent necessity of the measure, the annual value of the 419 estates that have been disposed of having been determined at Rs. 4,77,793 in place of Rs. 2,70,911, at which it had hitherto been fixed, thus raising the cess demand from Rs. 16,583 to Rs. 29,584, or by 78·4 per cent. This is a matter for congratulation in so backward a district, where the need of improved means of communication has so long been felt. It is also a matter for satisfaction that only eight petitions of objection have so far been filed. Of these, seven have been disposed of and one is pending local enquiry.

Public Demands Recovery Act.

138. The total number of certificates pending from the previous year was 1,041,* and the number filed during the year was 6,408, making a total of 7,449 for disposal, of which 4,960 were disposed of, leaving 2,489 pending. Of the 2,489 pending cases, 849 were pending for more than six months. The number of institutions during the year of report shows an aggregate increase of 4,127, which is shared more or less by all the districts. In Singhbhum the increase is mainly due to a large number of institutions for the recovery of rents due by the raiyats in the Dhalbhum Encumbered Estate. In all of the other districts the increase is, in a great measure, due to the filing of certificates for the recovery of advances that were made during the late famine under the Land Improvement and Agriculturists' Loans Act. In Hazaribagh an additional cause was the realisation by the certificate procedure of penalties imposed under the Land Registration Act; in Ranchi the recovery of fines for failure to file returns under the revaluation proceedings; and in Palamau the issue of a large number of certificates for the recovery of arrears of rent due by the raiyats in the Government khas mahals.

* Includes two cases from other districts.

* * * * * * *

XIX.—EXCISE.

156. The number of licenses issued for the sale of the different exciseable articles and the revenue derived from them during the past two years are compared below:—

Description of spirit or drug.	1897-98. Number of licenses.	License fees.	Duty and distillery fees.	Consumption.	Total revenue.	1898-99. Number of licenses.	License fees.	Duty and distillery fees.	Consumption.	Total revenue.	INCREASE. Number of licenses.	Revenue.	DECREASE. Number of licenses.	Revenue.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15
		Rs.	Rs.	Mds. s. ch.	Rs.		Rs.	Rs.	Mds. s. ch.	Rs.		Rs.		Rs.
Country spirit ...	538	6,20,389	6,263	...	6,26,652	580	6,94,376	9,383	...	7,03,739	42	77,087	...	...
Tari ...	222	7,253	...	...	7,253	227	7,739	...	...	7,739	5	486	...	...
Pachwai	156	11,836	...	...	11,836	157	13,198	...	...	13,198	1	1,362	...	...
Rum, imported wine, &c.	15	1,724	...	...	1,724	13	1,782	...	...	1,782	...	58	2	...
Charas, majum, chandu and madak.	...	15	..	...	15	1	53	...	...	53	1	38	...	...
Ganja and bhang	162	41,476	37,868	170 17 7	79,344	165	39,664	39,347	173 22 7½	79,011	3	...	...	333
Opium	50	17,347	39,923	57 21 0	57,270	41	17,688	41,036	57 36 0	58,724	...	1,454	6	...
Druggists' licenses ...	5	4	...	...	4	7	7	...	...	7	2	3	...	.
Miscellaneous ...	...	...	...	..	353	...	..	...	...	322	...	..	..	31
Total ...	1,148	7,00,044	84,054	...	7,84,451	1,194	7,74,507	80,746	...	8,64,575	54	80,488	8	364

157. Out of the total excise revenue of the year, amounting to Rs. 8,64,575, as much as Rs. 7,03,739, or about 81·4 per cent., was contributed by country spirits; Rs. 79,011, or 9·1 per cent., by ganja; and Rs. 58,724, or 6·8 per cent., by opium. Pachwai and tari accounted between them for Rs. 20,937, or 2·4 per cent.

158. There was, on the whole, a net increase of Rs. 80,124 in the excise revenue over the receipts of the previous year, of which as much as Rs. 77,087 was under the head of Country spirits.

This was due generally to the larger purchasing power amongst customers owing to the excellent harvests which encouraged the sale of licenses at higher rates; but it was also due, in no small degree, to the favourable outturn of the *mahua*, from which country liquor is manufactured, gathered in the spring of the year under review. Not only was the crop fully up to the standard in most of the districts, but the demand on it as an article of food* was much less than in the preceding years of scarcity. Thus the promise of ample and cheap materials was a further encouragement to the candidates for licenses to increase their bids.

*It is eaten boiled with rice.

159. The increase in revenue was contributed generally by all the districts, except Manbhum, where there was a falling off of Rs. 13,172 under the heads of Opium, Country spirits and Ganja. The falling off in this district under the revenue from opium was caused by the fluctuations in purchases by the Native States, some of which obtained larger supplies from Ranchi than in the preceding year; while that under Country spirits and Ganja is explained by the heavy losses sustained by the vendors during the previous scarcity, and

especially owing to the dullness of the coal and lac trade in the year immediately preceding. As a consequence, both here and to some extent in other districts also, the auction-bidders at first proceeded cautiously and endeavoured to combine to keep down the selling prices. This they succeeded for some time in doing, and a number of the shops were not let until the month of August, when one-third of the year had already expired.

160. The outstill system is in force throughout the division, except two small areas within the Giridih and Gobindpur subdivisions in the Hazaribagh and Manbhum districts, where the distillery system is maintained to meet the requirements of a large mining population working in the collieries. There is only one sadar distillery in Giridih, which supplies liquor to 13 shops. The distillery shops within the Gobindpur subdivision obtain their supplies from the Burdwan district. Hilly and sparsely populated as the division for the most part is, the outstill system is the best suited to its requirements.

161. As noticed in paragraph 145 of last year's report, the question of the extension of the privilege of home-brewing *pachwai* to a number of the semi-aboriginal tribes in the district of Ranchi came under discussion during the preceding year. Hitherto the concession has been allowed to 15 sects of aborigines who are accustomed to use *pachwai* in their social and religious observances. The result has been a considerable crop of police and excise raids and prosecutions of persons belonging to other semi-aboriginal castes amongst whom it is claimed that similar social customs obtain. The expediency of extending the privilege to a number of these other castes was therefore considered, but it soon became apparent that there would be a great difficulty in drawing the line, thus extended, between these people and the rest of the general population. Under the circumstances, the Deputy Commissioner, Mr. Streatfeild, was of opinion that the proper remedy would be to allow free home-brewing generally throughout the Ranchi district. The view held by the Board of Revenue, however, was that the arguments for the abolition of all restrictions would equally apply to the whole province; whilst, on general principles, the circle of exceptional treatment should, with the progress of civilisation, be narrowed and not extended. It was, therefore, ruled that matters should be left as they are. On this subject the Deputy Commissioner now offers the following remarks:—

"By recent orders the Board of Revenue have declined to amend the existing rules as to the privilege of home-brewing pachwai in the district, and consequently, while 16 aboriginal and semi-aboriginal castes have the privilege of home-brewing, any person not belonging to these castes brewing pachwai will continue to be liable to prosecution. This, however, is the universal custom among many of the unexempted castes, such as Ahirs, Telis and Kumhars. These invariably brew rice-beer on the occasion of any festival, and the houses of members of these castes are consequently constantly being raided upon on such occasions by the Police and Excise staff, and their owners prosecuted. The opportunities for levying blackmail offered by this state of affairs are also, of course, very great, and the harassment and oppression connected with such prosecutions considerable. Realising this, the Excise Commissioner has of late discouraged prosecutions for brewing pachwai, while proposals for extending the privilege of free home-brewing have been under consideration. These proposals having been rejected, such prosecutions must again be encouraged, and I cannot but regard this as perpetuating serious abuses. At the same time I am convinced that there is no practical alternative between going on as at present and accepting my proposals to abolish all restrictions on home-brewing, by whatever caste."

162. The question is no doubt a difficult one, but on the whole, if it be admitted, as it seems to be, that there is no *media via*, I think that the decision arrived at by the Board is the proper one. It is a noticeable fact that the above-mentioned privilege of home-brewing does not appear to have been fully taken advantage of by the Hos of Singhbhum, as out of 227 licenses granted in the division during the past year for the sale of *pachwai*, no fewer than 84 were in force in the Singhbhum district, while out of a total revenue of Rs. 13,198 derived from *pachwai*, Rs. 6,658, or over 50 per cent., was realised in that district. Mr. Thomson, the Deputy Commissioner, thinks that more pachwai shops should be opened in the Singhbhum Kolhan in order to prevent the growth of a taste for country liquor among the Kols. The matter shall have consideration.

163. There was a greater show of activity in the detection of breaches of the excise and opium laws, as the number of arrests made in the division rose from 355 in 1897-98 to 442 in the past year, and of those arrested, 372 were convicted during the past against 302 in the previous year. There were, however, very few cases of illicit manufacture of country spirits detected during the year, though this particular offence, I have reason to believe from the enquiries made by me during my cold-weather tour, is of frequent occurrence in the outlying parts of the districts. The total amount of fines imposed in excise and opium cases was Rs. 7,127, out of which Rs. 3,881, or about 54·4 per cent., was realised during the year against Rs. 5,652 imposed and Rs. 2,649 realised, or a percentage of 46·8, in the previous year. As in 1897-98, the realisation in Ranchi was exceptionally bad, as out of Rs. 1,037 imposed, only Rs. 348 or about 33·5 per cent., was realised. One reason for this may, I think, be traced to the tendency amongst the Courts to pass inadequate sentences of imprisonment in default of payment of fine. It often does not seem to strike trying officers that, given a certain fine as an appropriate punishment, the alternative punishment awarded should as a rule at least be sufficient to extract it. The following table gives the particulars of the persons arrested and convicted, the fines imposed and realised, and the amounts distributed as rewards in the several districts during the past year:—

District.	Number of persons arrested.	Number of persons convicted.	Amount of fines imposed.	Amount of fines realised.	Amount of rewards paid to— Police officers.	Excise officers.	In-formers	Total.
1	2	3	4	5	6	7	8	9
			Rs.	Rs.	Rs	Rs	Rs.	Rs.

Singhbhum	153	143	3,364	1,914	433	567	1,666	2,666
Total ...	442	372	7,127	3,881	1,607	1,842	2,605	5,945

XX.—STAMPS.

164. The following statement compares the receipts and charges on account of stamps in the districts of this Division during the past two years:—

Heads of Receipt and Expenditure.	1897-98. Hazaribagh.	Ranchi.	Palamau.	Manbhum.	Singhbhum.	Total.	1898-99. Hazaribagh.	Ranchi.	Palamau.	Manbhum.	Singhbhum.	Total.
1	2	3	4	5	6	7	8	9	10	11	12	13
Receipts.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.

Miscellaneous	95	140	28	142	36	441	103	163	27	135	32	460
Total Charges ...	1,973	2,944	712	4,589	524	10,742	1,725	2,736	797	3,433	344	9,035
Net Revenue ...	1,01,928	1,13,580	32,834	1,70,492	23,888	4,42,722	95,316	1,13,790	35,382	1,72,800	20,684	4,37,972

165. There has been a decrease of Rs. 4,750 in the net revenue for the Division, the result of decreases of Rs. 6,612 and Rs. 3,204 in the districts of Hazaribagh and Singhbhum, respectively, and of increases of Rs. 210, Rs. 2,548 and Rs. 2,308 in the districts of Ranchi, Palamau, and Manbhum, respectively. The falling off in Hazaribagh is attributed in a great measure to a decrease in the number of transactions with money-lenders, owing to the late good harvests, and also to the fact of several of their larger clients having come under the operation of the Encumbered Estates Act, and thus being no longer open to their blandishments. There has also been a decrease in the number of civil suits of high value, and also a more free use than formerly of currency notes in the place of *hundis* for the purpose of making remittances. In Singhbhum the falling off is attributed chiefly to the two last-mentioned causes, especially to the absence during the past year of any important suits by railway contractors several of which kind of cases were filed during the year preceding. The increase in the districts of Ranchi, Palamau, and Manbhum is due to the increase in the number of rent suits and criminal cases and to the issue of a larger number of certificate cases.

166. The following statement compares the number of cases in which stamp duty and penalty were levied under sections 34 and 37 of the Indian Stamp Act:—

District.	Number of cases.	
	1897-98.	1898-99.
1	2	3
Hazaribagh	47	71
Ranchi	80	105
Palamau	28	18
Manbhum	57	45
Singhbhum	10	7
Total ...	222	246

167. There has been a marked increase in the number of cases in Hazaribagh and Ranchi, which Mr. Streatfeild thinks may perhaps purely be due to people resorting more and more to the careless and ill-informed petition-writers for the drawing up of their documents. The decrease in Manbhum is attributed by the Deputy Commissioner to income-tax assessors and ministerial officers having been forbidden by the Board of Revenue's Circular Order No. 11 of March 1896 to take part in the detection of cases of evasion of the stamp duty.

168. Altogether there were 16 prosecutions for infringement of the provisions of the stamp law against 20 in the preceding year. The number of persons brought to trial was 16, of whom only 9 were convicted, against 47 persons tried and 21 convicted in the preceding year. The fines imposed in cases in which convictions were obtained amounted to Rs. 54 against Rs. 143 in the preceding year.

XXI.—INCOME-TAX.

169. The following statement compares the number of persons and the amount of tax assessed in the several districts during the past two years:—

District.	Persons originally assessed.		Persons finally assessed.		Original assessment.		Final assessment.	
	1897-98.	1898-99.	1897-98.	1898-99.	1897-98	1898-99.	1897-98.	1898-99.
1	2	3	4	5	6	7	8	9
					Rs.	Rs.	Rs.	Rs.
Hazaribagh	1,316	1,364	1,287	1,283	25,817	26,693	25,245	25,246
Lohardaga	936	930	930	916	17,662	18,051	17,582	17,683
Palamau	810	812	793	782	13,071	14,103	13,606	13,470
Manbhum	1,085	1,084	1,068	1,073	35,001	41,031	33,833	39,938
Singhbhum	464	440	458	431	14,390	12,116	14,297	11,511
Total ...	4,611	4,630	4,536	4,485	1,06,841	1,11,994	1,04,563	1,07,843

170. There was a falling off in the number of assessees finally assessed in all the districts, except Manbhum. The decrease in Hazaribagh, Ranchi, and Palamau is slight, while that in Singhbhum is due to the fact that a number of railway contractors and shop-keepers left the district, owing to the completion of the greater portion of the Sini section of the Bengal-Nagpur Railway. The final demand on account of tax was Rs. 1,07,843 as compared with Rs. 1,04,563 in the previous year, showing an increase of Rs. 3,280, which is the result of an increase of Rs. 6,202 in the districts of Hazaribagh, Ranchi, and Manbhum, and of a decrease of Rs. 2,922 in Palamau and Singhbhum. The increase in Manbhum is large, being Rs. 6,100, or about 18 per cent., of the demand of the previous year, and is said to be due to greater care on the part of the assessor in making enquiries The decrease in Palamau is due in some measure to remissions in cases appealed to this office, while that in Singhbhum is attributed to the reasons already given above. The gross collections during the year amounted to Rs. 1,11,515, including arrears of tax and penalties, &c., as compared with Rs. 1,11,183 in the previous year. The collections on account of the current year's tax alone amounted to Rs. 1,04,995 as compared with Rs. 1,01,136 in the preceding year. The percentage of collections on all accounts, including tax, penalties, and arrears, came to 95·2 against 93·4 in the previous year. The result is on the whole satisfactory. Of the outstanding balance of Rs. 4,501, Rs. 3,084 are reported to be good and under realisation, Rs. 747 doubtful, and Rs. 670 bad and irrecoverable.

171. The total charges incurred during the year amounted to Rs. 8,997, representing 8 per cent. of the total collections against 8·3 per cent. in the previous year. The net revenue of the past year thus amounted to Rs. 1,02,152 against Rs. 1,01,867 in 1897-98, showing an increase of Rs. 285, or about ·3 per cent., on the previous year's revenue.

172. Out of 4,630 persons originally assessed, 710, or about 15·3 per cent., filed petitions of objections against 12·9 per cent. in the previous year. The objections were comparatively heaviest in Manbhum, Hazaribagh and Palamau, in the first two of which districts the work of the assessors was probably on the whole the best, and in the last the worst in the division, thus exemplifying the fact that the filing of a large number of objections may equally be the result of careful, though strict, assessments as of careless and inequitable ones. The number of successful objections was 228, or 32·7 per cent., the number of succcessful cases being highest in Hazaribagh and Palamau. Out of 4,485 persons finally assessed, distress warrants were issued against 202; property was distrained in 49 cases and actually sold in 16 as compared with 267, 82, and 26, respectively, in the previous year.

173. The average incidence of the tax in the division was Re. 1 to every 42·9 persons against Re. 1 to every 44·2 persons in the previous year. The proportion of persons assessed to every 100 villages for the whole

division was 16·8 as compared with 17 in the previous year. Ranchi continues as before to be considerably the most lightly assessed district in the division (the incidence there being only Re. 1 to every 64 persons), though there seems no special reason for this. I have suggested to the Board the advisability of interchanging assessors, in such cases, between the more heavily and the lighter assessed districts, and I have proposed that this should now be done in the case of Ranchi.

* * * * * * *

XXVI.—EDUCATION.

199. The following is a comparative statement of the number of schools of different descriptions in the division and of pupils attending them during the last two years:—

Institutions.	1897-98.		1898-99.	
	Schools.	Pupils.	Schools.	Pupils.
1	2	3	4	5
Public Instruction.				
Secondary—				
High English Schools	9	1,700	10	1,907
Middle English Schools ...	41	2,569	40	2,546
Middle Vernacular Schools ...	33	2,047	32	1,879
Primary Instruction.				
Upper Primary	129	5,903	129	5,883
Lower Primary	2,053	53,131	2,148	55,435
Special or Technical	13	197	12	236
Female	108	2,826	118	2,940
Total Public Instruction ...	2,386	68,373	2,489	70,826
Private Institutions.				
Advanced—				
Teaching Arabic or Persian ...	26	485	30	45
Teaching Sanskrit	5	112	9	233
Elementary—				
Teaching vernacular only or mainly ...	56	621	44	313
Teaching Koran only	2	50	6	148
Other schools	...	...	...	...
Total Private Institutions ...	89	1,268	89	1,145
GRAND TOTAL ...	2,475	69,641	2,578	71,971

It is satisfactory to note that there has been an increase in the number of public schools, which rose from 2,386 to 2,489. The number of private schools remained unchanged. The increase in the number of public schools is observed chiefly under the class of "Lower Primary Schools." The number of pupils attending public schools also shows a satisfactory increase, viz., from 68,373 to 70,826.

200. The number of high schools was 10 with 1,907 pupils against 9 with 1,700 pupils in the previous year. This increase is due to the opening of a new school at Chirkunda in the Govindpur subdivision in Manbhum. The results of the last Entrance Examination were satisfactory, as out of 70 candidates sent up, 48, or nearly 68·5 per cent., passed against 56 per cent. in the preceding year. The Ranchi Zilla School did especially well, as all the candidates sent up passed, two in the first and six in the second division, one of the successful candidates being an aboriginal Christian. A non-Christian Ho boy passed during the year the Entrance Examination for the first time from the Chaibassa Zilla School.

201. The number of middle English schools fell from 41 to 40 and their pupils from their 2,569 to 2,546. This decrease is due to the abolition of two schools in Ranchi in consequence of the withdrawal of Government aid owing to their mismanagement, while a new school was started in Singhbhum. The number of candidates who appeared in the Middle English Scholarship Examination was 64, of whom 29, or 45·3 per cent., passed, against 40·7 (35 out of 85) in the previous year. Regarding the middle English education, Mr. Streatfeild, the Deputy Commissioner of Ranchi, writes:—

"The demand for middle education in this district is very small, and middle schools can, as a rule, only exist when an influential local man or family is prepared to bear a large proportion of the charges. I do not believe in bolstering up unsatisfactory schools that do not meet a real demand, but in all cases I have made every effort to infuse vitality into such schools before recommending their abolition."

I entirely agree in these remarks, and that local funds raised for the benefit of the mass should not be diverted, in the interests of the well-to-do few, for the support of secondary education. This remark applies especially to English education, which should, as a rule, be self supporting; or if it be decided, as a matter of policy, that extraneous help should be given, this should be done at the expense of the general tax-payer, from the Provincial revenues, and not be a charge on the local funds.

202. During the year there has been a decrease in the number of middle vernacular schools by one, and a falling off in the number of students attending them from 2,047 to 1,879. This decrease was owing to the abolition of one school in Singhbhum. Of 32 schools existing during the year, 24 were departmental and 8 were aided. Of the departmental schools four are in Hazaribagh, seven in Ranchi, three in Palamau, three in Manbhum and seven in Singhbhum. Of the aided institutions, one is in Ranchi and seven in Manbhum. At the last Middle Vernacular Scholarship Examination 123 candidates appeared, of whom 61, or 50 per cent., were successful, against 68 per cent. (62 out of 91) in the preceding year.

203. The aggregate number of upper primary schools in the Division was the same as in the previous year, Palamau showing an increase of four schools, while in Hazaribagh, Ranchi, and Manbhum there was a decrease of one, one, and two, respectively. The decrease of two schools in Manbhum was due to the fact of these schools having been raised to a higher status. The number of candidates sent up for the last Upper Primary Scholarship Examination was 405, of whom 182, or nearly 45 per cent., passed against 43·5 per cent. in the previous year.

204. The number of lower primary schools was 2,148 with 55,435 pupils against 2,053 with 53,131 pupils in the previous year. This increase is the net result of increases of 4, 42, 76, and 19 schools in Hazaribagh, Ranchi, Manbhum, and Singhbhum, respectively, and a decrease of 46 schools in Palamau. The decrease in Palamau was due to the withdrawal under orders of the late Deputy Commissioner, Mr. Renny, of stipends from a number of badly managed and otherwise inefficient schools. In the last Lower Primary Examination 2,705 candidates appeared, of whom 1,309, or nearly 48 per cent., were successful against 45·4 per cent. in the previous year.

205. In connection with primary education, Mr. Thomson, the Deputy Commissioner of Singhbhum, remarks:—

"It is regrettable that so few of the pupils ever get beyond the lower primary schools. This is to a great extent due to the insufficiency of the qualifications of the teachers, many of whom, and especially when the aboriginal population preponderates, are quite unfit to teach even in lower primary schools. I have made proposals since the end of the year for remedying this by establishing a training school for aboriginal teachers in the Kolhan and Porahat."

This proposal is, I understand, under consideration by the Educational authorities.

206. The number of special schools has decreased from 13 to 12, while the number of pupils attending them has increased from 197 to 236. In Singhbhum there were only two such schools against five in the previous year, owing to the abolition of three training classes attached to middle schools in 1897-98. One new school was opened in Hazaribagh. In Ranchi and Palamau the number of these schools remained unchanged, but the number of pupils in the Ranchi schools rose from 136 to 153. In Manbhum a new Sanskrit *tol* at Murardi was opened.

Mr. Streatfeild, the Deputy Commissioner of Ranchi, gives the following account of the industrial school in his district:—

"The roll number of the Ranchi industrial school rose from 35 to 43. During the year under report the school deposited into the treasury the sale-proceeds of the articles manufactured to the amount of Rs. 1,766 against Rs. 1,604 in the preceding year. The amount drawn for purchase of raw materials was Rs. 1,000 as in the previous year. The net expenditure from the Provincial revenue was Rs. 1,317, exclusive of Rs. 766, which was the profit of the sale-proceeds against Rs. 1,986 of the previous year, which included Rs. 604, the profit of that year. The receipts from the interest on the assets of the Chutia Fair Fund amounted to Rs. 382 against Rs. 443. Blacksmith work, carpentry, carriage building and painting as well as a little of reading, writing, and arithmetic were taught as in the previous year. All the 43 boys were aborigines—40 Christians and 3 heathens. The proposal of introducing steam-power and furnishing the school with a set of better instruments, as recommended by Mr. Slater, Principal of the Sibpur Engineering College, is under consideration; His Honour the Lieutenant-Governor having, when inspecting the school in November last, expressed an opinion in favour of some extension of the scope of the school.

"There were during the year under review three other industrial schools aided from the Primary Fund at Silli, Basenda, and Bundu, with 1,820 and 23 pupils, respectively: the first two taught blacksmith's work and the last both blacksmith's work and carpentry."

There is also a question under consideration, on a suggestion by Mr. Slater, of establishing a technical class in the Ranchi Zilla School in connection with the industrial school. Reports will be submitted in due course by this office on both of the above matters as soon as certain enquiries now being made have been completed.

Mr. Thomson, the Deputy Commissioner of Singhbhum, reports that the teacher of the Ghatsilla Industrial School is not well up to his work, as he has had no practical training; that the school has always been in a more or less unsatisfactory condition under his management. A proposal has been made to have him replaced by a properly qualified teacher from the Sibpur Civil Engineering College, provided that funds can be obtained to raise the pay of the post from Rs. 15 to Rs. 25. This is one of the many matters which would be solved by the extension of the Local Self-Government Act to these districts.

207. During the year female schools numbered 118 with 2,940 pupils against 108 with 2,826 pupils in the previous year. Of the 118 schools, 29 were in Hazaribagh, 33 in Ranchi, 19 in Manbhum, and 23 in Singhbhum. Compared with the figures of the preceding year, there were increases of seven, two, and three schools in Ranchi, Manbhum, and Singhbhum, respectively, while in each of the Hazaribagh and Palamau districts the number decreased by one. Altogether 11 girls appeared at the Upper Primary and 67 at the Lower Primary Examination, of whom 3 and 48 respectively were successful. Of the three girls who passed the Upper Primary Examination, two were from the Ranchi Bengali and Anglican Mission Upper Primary Schools for girls, the former carrying away a scholarship.

208. The percentage of boys of a school-going age attending schools was 19 against 18·4 in the previous year. The percentage was highest in Ranchi,

viz. 20·3, while it was lowest in Palamau, being only 13. In Hazaribagh it was 14·1, in Manbhum 20·2, and in Singhbhum 15.

209. A comparative statement is annexed below showing the total expenditure incurred on education during the past two years:—

Class of schools.	1897-98.			1898-99.		
	Expenditure.			Expenditure.		
	Provincial revenue.	Municipal fund and private sources.	Total.	Provincial revenue.	Municipal fund and private sources.	Total.
1	2	3	4	5	6	7
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Secondary ...	34,697	61,608	96,305	33,660	71,800	1,05,460
Primary ...	59,684	65,668	1,25,352	62,258	77,963	1,40,221

Miscellaneous ...	7,950	27,680	35,630	7,069	40,729	47,798
Superintendence ...	48,617	158	48,775	49,809	168	49,977
Total ...	1,73,740	1,82,000	3,55,740	1,77,372	2,04,363	3,81,735

The above figures show an increase of Rs. 25,995 in the total expenditure on education, which is mainly due to the large increase in the number of schools. The cost per pupil for the Division was Rs. 5-4-10 against Rs. 5-3-2 in the previous year. It ranged from Rs. 42-11-2 in Singhbhum to Rs. 18-3-2 in Manbhum for high schools, from Rs. 13-1-7 in Hazaribagh to Rs. 8-11-2 in Palamau for middle schools, from Rs. 2-15-2 in Manbhum to Rs. 1-14-5 in Singhbhum for primary schools, and from Rs. 54-9-7 in Ranchi to Rs. 5-9-7 in Hazaribagh for special schools.

210. There are no separate schools for the education of Muhammadan boys. The report from Hazaribagh district in connection with the subject of Muhammadan education is, however, encouraging, as 36 Muhammadan boys from that district passed in the several examinations, viz., one in the Middle Vernacular and 35 in Lower Primary Examination, of whom 4 obtained scholarships. In Ranchi two Muhammadan boys passed the Middle Vernacular Scholarship and 9 the Lower Primary Examination.

211. In Palamau a case of fraud by one of the inspecting pandits was discovered during the year. The Deputy Commissioner writes:—

"The pandit took a month's leave, which he overstayed by a month. To hide his absence, however, he sent fictitous inspection notes of various schools, having previously provided himself with blank forms, to a guru postmaster with instructions to again despatch these to the gurus of the different schools to be entered in the inspection register. Luckily the Deputy Inspector visited some of the schools which had been provided with these false inspection reports, and on enquiry found the pandit had not been there. Further enquiries energetically carried out by the Deputy Inspector exposed the whole fraud. The pandit having sent in a bill for his pay for the month rendered himself liable to a criminal prosecution, and eventually got three months for cheating."

The result, it may be hoped, will counteract the effect of the lessons in morality the pandit may be supposed to have taught his pupils.

XXVII.—DISPENSARIES AND HOSPITALS.

212. The following statement shows the statistics of the dispensaries maintained in the several districts during the past two years :—

District.	Dispensary.	1897.			1898.			Total expenditure incurred in—	
		Number of in-patients treated.	Number of out-patients treated.	Total number of patients treated.	Number of in-patients treated.	Number of out-patients treated.	Total number of patients treated.	1897.	1898.

	Total ...	2,501	61,268	63,769	1,338	63,707	65,045	34,673	22,303

213. No new dispensary was opened during the year, but at Hazaribagh a new and well equipped dispensary was built consisting of three wards under separate roofs on a new site given by Government. Funds for the purpose were provided by a handsome donation of Rs. 4,000 from the late Raja of Padma (Ramghar), by the sale of the old building and premises for Rs. 3,000, by a grant of Rs. 2,000 from Government and other smaller subscriptions, the total sum raised aggregating Rs. 3,099-8. The new building was opened on the 8th May of the present year. It is proposed as soon as possible to remove the Lady Dufferin hospital to the same locality, the site granted by Government being, it is thought, sufficiently large for the purpose.

214. As reported in the previous year, the dispensaries at Hazaribagh, Chatra, Ranchi, Lohardaga, Purulia, Raghunathpur, Jhalda, and Chaibassa depend mainly for their support upon the municipalities of those places, while the rest are maintained either by private individuals or by local subscriptions.

The total income of the dispensaries amounted to Rs. 22,237, made up of Rs. 7,321 contributed from Municipal Funds, Rs. 11,340 from private subscriptions, and Rs. 3,576 supplied by Government, against Rs. 7,638, Rs. 13,139, and Rs. 2,984, respectively, from the same sources in the previous year. The Government contribution generally consisted of the diet expenses in police cases and the cost of registers and forms, &c.

215. Taking one year with another, the main feature financially is the gradual falling off in voluntary subscriptions and the corresponding increase in the calls upon local funds for the support of these institutions. To check this tendency amongst subscribers to curtail their charity, it has lately been proposed to form a separate fund from such subscriptions under the control of the medical officers instead of allowing them to be merged with the several local funds. I lately reported, in reply to an enquiry by Government, in favour of the above proposal, but I am inclined on further consideration to think that the best system would probably be for each dispensary to be managed by its own Committee (instead of by the local fund or Municipal Committee) and to have a fund of its own made up from voluntary subscriptions, local fund grants and any other existing sources. I propose shortly to address Government on this subject.

216. The in-patients and out-patients treated in the dispensaries numbered 1,338 and 63,707 respectively against 2,501 and 61,268 in 1897, the daily average being 6·36 for in-patients and 32·22 for out-patients. The considerable decrease in the number of in-patients is explained by the much larger number of cases of debility requiring in-door treatment during the famine

year 1897, while the increase in the number of out-door patients, which was contributed mainly by the Hazaribagh dispensary, seems to be due to the gradually growing popularity of the different institutions amongst the general population.

217. The total expenditure incurred amounted to Rs. 22,303 against Rs. 34,673 in 1897, the decrease being chiefly due to the inclusion in the expenditure of 1897 of the cost incurred in the construction of the new dispensary at Daltonganj. If the Daltonganj figures for both years be omitted, the total expenditure of all the other dispensaries was Rs 20,566 as compared with Rs. 21,789 in the preceding year. For the dispensaries in municipalities the relative figures are Rs. 11,553 in 1898 as compared with Rs. 11,258 in 1897, an increase of Rs. 295; for the rural dispensaries the figures are Rs. 9,013 in 1898 as against Rs. 10,531 in 1897, a decrease of Rs. 1,518. These latter are supported entirely by voluntary subscriptions, the general falling off in which may be fairly correctly gauged by the above result. The fact is that in this Division assistance is needed by all the dispensaries generally, and especially by the rural dispensaries from the Road Cess funds. This, however, cannot legally be given, as the Local Self-Government Act is not in force here. I have already addressed Government once on this subject, and propose shortly to do so again.

218. During the year an effort was made to advance the position of the Purulia dispensary which stands generally in much need of improvement, and a public meeting was held by the Deputy Commissioner of Manbhum in December last for the purpose of raising subscriptions for (1) increasing the accommodation for in-patients; and (2) the entertainment of an Assistant Surgeon in place of the present Civil Hospital Assistant.

The first object promises to be attained, the zamindar of Jherria having offered the handsome donation of Rs. 5,000 towards the purpose, and His Honour the Lieutenant-Governor also having promised to supplement the voluntary subscriptions that may be raised by a Government grant. But the Deputy Commissioner does not appear to be very hopeful of the second object being secured. I think myself that there should be no doubt about the matter at all in a well-to-do town like Purulia, and I am still in correspondence with the Deputy Commissioner on the subject.

219. Besides the dispensaries shown in the above list, there are two private dispensaries in the Hazaribagh district, viz., one at Hazaribagh, maintained by the Dublin University Mission, and the other at Pachamba near Giridih by the Scottish Mission. In Ranchi there are also two private dispensaries, viz., one at Ranchi and the other at Lohardaga, both supported by the German Lutheran Mission.

Leper Asylums.

220. In Ranchi there are two asylums in connection with the German Lutheran Mission at Lohardaga—one for lepers and the other for other incurables. In the asylum for lepers there were 24 patients and in that for incurables 22 during the year. On the subject of the leper asylums the Revd. F. Hahn, under whose care it is, writes:—

"The inmates of the asylum are of all castes and creeds. Every body is permitted to respect the rules of his caste or religion, consequently there is no common kitchen, but each patient received Rs. 2-8 per mensem, with which he provides for himself as he thinks proper (the food being procurable from *modis* specially appointed, close to the asylum, for the purpose). Drunkenness and other vicious habits and begging are not tolerated. The Bible is taught in the asylum, as I find it comforts the patients and strengthens them to bear their bitter lot, but no one is ever *compelled* to listen to the instructions given or to attend prayers which are held daily in the chapel attached to the asylum."

The expenses in connection with the Leper Asylum, amounting during the past year to Rs. 1,913, are defrayed by the Mission to Lepers in India and the East, having its head-quarters in Dublin and Edinburgh. The expenses incurred on account of other incurables amounted to Rs. 720, and were met from subscriptions collected by Mr. Hahn from funds in India, Germany, and America.

Regarding the management of these asylums, the Deputy Commissioner, Mr. Streatfeild, writes:—

"I have inspected these institutions recently. They are unquestionably excellently managed and doing very good work."

A full account of the important and well-managed Leper Asylum at Purulia was given in paragraph 201 of last year's report. Unfortunately, owing to the ill-health of Revd. Mr. Uffmann, in whose charge it is, the Deputy Commissioner has been unable to obtain particulars of its working during the past year. I am able to say, however, that it continues to be maintained with the same efficiency as ever, and that the number of applicants for admission continued to steadily increase. This asylum, the largest of its kind, I believe, in India, with a total of about 500 inmates, is also maintained by the above-mentioned Society (Dublin and Edinburgh Mission to Lepers in India and the East) at an annual cost of about quarter lakh of rupees. The asylum was visited on the 29th November 1898 by His Honour the Lieutenant-Governor during his tour through Chota Nagpur.

Lady Dufferin's Fund.

221. The Hazaribagh Zenana Hospital was in charge of a qualified lady doctor throughout the year, who treated 12 in-patients and 2,175 out-patients against 14 and 2,115 in 1897. Mrs. B. B. F. Dutt, a qualified lady doctor, was in charge of the Ranchi Zenana Hospital throughont the year. She treated 43 in-door patients and 391 out-patients during the year, besides a few other poor patients who were allowed her services gratis at their homes in the town. The number of surgical operations performed in the hospital was 15, of which 12 were performed by the lady doctor and three by the Civil Surgeon.

The midwife attached to the institution at Daltonganj attended 16 cases during the year, and is said to have acquitted herself well.

Vaccination operations.

222. The following statement compares the statistics of the vaccination operations in this Division during the past two years:—

District.	1897-98.					1898-99.				
	Number of operations.			Total number of successful operations.	Percentage of successful operations.	Number of operations.			Total number of successful operations.	Percentage of successful operations.
	Primary.	Revaccination.	Total.			Primary.	Revaccination.	Total.		
1	2	3	4	5	6	7	8	9	10	11
Hazaribagh	30,194	1,676	31,870	30,893	96·9	28,079	597	28,676	28,032	97·7
Ranchi	37,905	2,320	40,225	39,079	97·1	32,339	614	32,953	31,901	96·8
Palamau	14,858	1,246	16,104	15,408	95·6	14,754	1,554	16,308	14,831	90·9
Manbhum	33,715	1,733	35,448	34,021	95·9	28,142	2,174	30,316	29,672	97·8
Singhbhum	14,922	747	15,669	14,992	95·7	15,988	3,844	19,832	18,579	93·7
Total ...	131,594	7,722	139,316	134,393	96·4	119,302	8,783	128,085	123,015	96·4

The total number of operations performed during the year was 128,085, viz., 119,302 primary and 8,783 revaccination operations against 131,594 and 7,722, respectively, or a total of 139,316 in the preceding year. In Hazaribagh, Ranchi, and Manbhum, there was a considerable decrease in the number of primary operations, while in Singhbum there was an increase of 1,066 operations, due probably to increased efforts on the part of the local officers to stamp out the virulent attack which had broken out in certain villages bordering the Midnapore district. The low birth-rate towards the beginning of the year, immediately after the late famine, the unusually large emigration to Assam during the preceding year, and the agitation in connection with the plague, which led the people to confound vaccination operations with plague inoculation, have all contributed towards effecting a decrease in the number of primary operations. Besides these facts, during the famine year of 1896-97 about 2,000 children in the Gobindpur subdivision in Manbhum, who had been left unprotected on account of the famine, were operated in the following year (1897-98), thereby swelling the figures of that year. The increase in the number of revaccination operations is due to the prevalence of small-pox in certain parts of the districts of Palamau, Manbhum, and Singhbhum. Regarding the attitude of the people towards vaccination, the Civil Medical Officer of Singhbhum reports that the aborigines of the district accept vaccination without any opposition, except in very rare instances,

while the imported classes, such as Marwaries, Gowalas, Muhammadans, and upcountry men, are generally more or less obstructive. In the large village of Chakradharpur vaccination has not been accepted for five years amongst the foreign element, and he suggests that the Compulsory Vaccination Act should be introduced there. The proposal will be considered.

* * * * *

XXXII.—POST OFFICES AND TELEGRAPH.

246. The number of Imperial post offices in the Manbhum district increased by four, owing to the establishment of new offices at Madhutali, Kalikapur, Mahulia, and Haludpakur. In the other districts of the Division the number remained unchanged. There was no change in the mail lines of the Division, except in Singhbhum, where the opening of the Sini-Midnapore section of the Bengal-Nagpur Railway necessitated alterations in the dâk arrangements, whereby the zamindari dâk line from Chaibassa to Ghatsilla was abolished from 1st November 1898 and a new line from Haldipaker to Asanboni was opened, while the mails to Dhalbhum are now sent by rail *viâ* Chakradharpur and Sini. A contribution of Rs. 1,200 a year has been sanctioned by Government for the maintenance of the zamindari dâk lines in the Kolhan Government Estate, and two new offices, viz., one at Katbari and the other at Gamaria, have been opened. The contribution of Rs. 1,700-10 formerly paid by the Dhalbhun Estate to the Zamindari Dâk Fund of the district was reduced during the year to Rs. 1,000; but a proposal has since been made to raise it to Rs. 1,350.

Telegraph.

247. In Manbhum three new telegraph offices were opened during the year at Dhanbad, Katras, and Jherria. The number of offices in the other districts remain unchanged. Before the opening of the Sini-Midnapore section of the Bengal-Nagpur Railway line the post offices in Dhalbhum used to send telegraphic messages to Chaibassa for despatch. This has been discontinued, and the messages are now sent from the railway stations. This accounts for the falling off in the business of the Government office at Chaibassa, as shown in the statement in the next paragraph.

248. The transactions in the telegraphic offices of the several districts during the past two years are compared in the following table :—

District.	Messages received.		Messages transmitted.		Remarks.
	1897-98.	1898-99.	1897-98.	1898-99.	
1	2	3	4	5	
Hazaribagh	5,564	4,727	4,967	5,171	
Ranchi	4,319	4,700	4,546	4,934	
Palamau	2,540	2,176	2,678	2,623	
Manbhum	5,525	5,662	4,726	4,364	
Singhbhum	1,445	1,294	1,530	1,294	
Total ..	19,393	18,559	18,447	18,386	

The increase both in the number of messages received and transmitted from Ranchi was due partly to the increased use of telegraph by the public, and partly to the large number of messages received and sent during His Honour the Lieutenant-Governor's visit in November 1898. The traffic in Palamau, allowing for the absence of telegrams in connection with the former scarcity, gives signs of increasing, whilst the falling off in Singhbhum has been explained above. In Hazaribagh there was a slight increase in the number of messages transmitted, but a falling off in Manbhum, which has not been explained, but may also perhaps be due to fewer trade operations than during the preceding year of scarcity.

* * * * * * *

XXXVII.—GENERAL REMARKS.

Return of prosperity.

268. The most noticeable feature of the past year has been the return, owing to the late excellent harvests, of a general state of prosperity. This has at the same time been marked, especially in some districts, by an unusual number of murders, the increase in this crime being ascribed to various reasons, amongst which quarrels about crops and the increased means of obtaining drink figure conspicuously.

The Pathan pest.

269. One striking fact is the number of wandering Pathans now to be met with in most of these districts, as well as the part they have lately been taking in several serious dacoities—a species of crime to which they were, I believe, but seldom addicted to formerly. I have seen a suggestion lately that the finger-impressions of these men should be taken in each district they honour with a visit. I think the suggestion a good one, more particularly in districts like these, bordering upon the Native States, where the police and villager are powerless to deal with them, and where in consequence they are becoming a regular pest.

Daltonganj-Baroon Railway.

270. A step in advance towards civilisation was marked by the opening of the Sini-Midnapore branch of the Bengal-Nagpur Railway, and the turning of the first sod of the Daltonganj-Baroon Railway, after several years of uncertainty and delay. The urgent need of further opening out the Division has been noticed elsewhere in this report.

Freedom from plague.

271. Chota Nagpur has happily so far been free of the plague, with the exception of one solitary instance, in April of the present year, viz., that of an imported case in the person of a Marwari of Chaibassa, who paid a flying visit to Calcutta, and fell ill three days after his return, and died on the following day.

Obituary.

272. The deaths occurred during the year under review of Raja Nilmony Singh Deo, of Pachete, in the Manbhum district, and of Raja Namnarain Sing, of Padma (Ramghar), in the district of Hazaribagh. They were both native gentlemen of ancient lineage, of the orthodox school, and of loyal character. Each has been succeeded by his eldest son. Amongst the Chiefs of the Native States, has to be chronicled the death of Raja Indra Deo Bahadur, of Bonai, who has been succeeded by his son Raja Chandra Deo.

The Kol agitation.

273. The feeling of unrest amongst the Kols has, for a time at least, entirely subsided, and there are signs that these people are at last becoming aware of the true character of the professional agitators by whom they have for so long been exploited. Birsa Bhagwan, the semi-mad man, whose preposterous claims to the Chota Nagpur Raj, as well as to the position of a *deota*, were noticed in last year's report, has entirely disappeared, as mentioned elsewhere in this report, apparently to avoid the warrant which he no doubt knows is in force for his arrest.

His Honour the Lieutenant-Governor's visit.

274. The principal event of the year, from both an official and a non-official point of view, was the visit, an account of which has already been given, of His Honour the Lieutenant-Governor, during the month of November last, to the most backward and charming corner of his Province.

RESOLUTION ON THE REPORT OF THE DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL, FOR THE YEAR 1898-99.

REVENUE DEPARTMENT—AGRICULTURE.

Darjeeling, the 9th November 1899.

RESOLUTION—No. 952T.R.

READ—

(1) Letter No. 819A., dated the 11th August 1899, from the Board of Revenue, submitting the Report of the Department of Land Records and Agriculture, Bengal, for the year 1898-99.

(2) The Report itself.

Read also—

(3) The Resolution of the Government on the Report for the year 1897-98.

MR. P. C. LYON was in charge of the Department during the whole of the year, and Messrs. Nagendra Nath Banerjee and Dijenlala Roy were the Assistant Directors employed under him. The report was submitted with commendable punctuality.

2. *Chapter II of Report.—Land Records Establishment.*—The brief account given by the Director in his present report of the working of the Land Records Maintenance Act, III (B.C.) of 1895, in the two districts of Muzaffarpur and Champaran, is not of a reassuring nature, and supports the conclusions which he arrived at in the special report submitted by him on the subject in July 1898, that the Act has failed to attain the immediate object for which it was framed, and that any elaborate scheme devised for its working, which does not provide for a periodical revision of the records on the ground, will prove unsuccessful, and lead to unnecessary harassment of the tenantry. The Lieutenant-Governor reserves the issue of final orders on the subject until the whole question is laid before him in a comprehensive form.

3. The Act was in operation, as in the previous year, in the Hajipur and Bettiah thanas, and there were registering offices at Hajipur, Mahnar, and Bettiah. The total number of notices for registration of mutations filed during the year amounted to 3,873, of which 2,061 were voluntarily presented by the parties under section 6, and the remaining 1,812 were prepared by the Registrars of Mutations themselves under the provisions of Rule 5 of the Rules made by Government under the Act, the corresponding numbers of notices filed under these two heads during the year 1896-97 being 4,287 and 1,248, and those during the year 1897-98 being 4,063 and 2,109, respectively. The large decrease in the number of notices filed under section 6 indicates that the raiyats are no longer taking the same amount of interest in the voluntary registration of mutations of their holdings, and the evidence accumulates that a system, which depended on their prompt and faithful report of transfers, will not succeed.

4. The following table compares the number of mutations registered during the year with those registered during the preceding two years :—

Thana.	Office.	Permanent tenures.						Temporary tenures.						Holdings at fixed rates.					
		Transfer.			Succession.			Transfer.			Succession.			Transfer.			Succession.		
		1896-97.	1897-98.	1898-99.	1896-97.	1897-98.	1898-99.	1896-97.	1897-98.	1898-99.	1896-97.	1897-98.	1898-99.	1896-97.	1897-98.	1898-99.	1896-97.	1897-98.	1898-99.

Do. ...	Mahnar ...	538	1,433	1,370	57	788	1,457	7	88	58	...	69	48	649	2,539	3,093
	Total ...	2,795	3,541	2,394	227	1,085	1,747	125	284	148	10	92	75	3,618	5,790	4,802

The increase in the figures for the Mahnar office is reported to be due to the clearance of heavy arrears during the year under report. The figures for the Hajipur office have considerably fallen, but the Bettiah office shows the worst result of all. Financially, the three offices worked at a net loss of Rs. 1,710 during the year as against a loss of Rs. 895 during 1897-98 and a net gain of Rs. 507 during 1896-97.

5. *Orissa Settlement Records.*—As regards the maintenance of the settlement records in the temporarily-settled estates of Orissa, a draft Bill, based on lines approved by the Government of India, for the imposition of a patwari cess and the creation of a special staff of patwaris and kanungos, together with rules for the working of the entire scheme, has been prepared, but the introduction of the scheme has been postponed pending the consideration of a special report from the Board on the comparative merits of the patwari system and of a periodic local revision of the records.

6. *Maintenance of jamabandis in Government and Wards' Estates*—The year's record of work in the Government and Wards' Estates is, for the most part, one that leaves much to be desired. The number of tenancies in 14 of the Backergunge Government Estates in which mutations were registered, formed 11·4 per cent. of the total number, and this proportion was the highest attained in the province; but even there it is reported that no mutations were recorded in the eight other estates. The explanation of this may be sufficient, but it has not yet been offered. There was some increase in the number of mutations registered by the Burdwan Raj, but the local officials unhesitatingly maintain that under prevailing customs occupancy rights cannot be transferred without their consent, an opinion which Government has accepted. The Board have not noticed the Director's suggestion that the returns of this estate as at present prepared are useless and might be discontinued. Since it has been decided that the Manager should not be compelled to give effect to an alleged custom, the existence of which he denies, it would appear that the Director's proposal might be accepted, but the Board are desired to consider and pass orders on this matter. The Manager of the Maldwar Estate is reported to have paid great attention to the maintenance of an

accurate jamabandi; and his efforts, combined with the reduction in the mutation fees, led to a notable increase in the corrections made. Elsewhere there is little in the report of the Director of Land Records of a hopeful character; and though the Lieutenant-Governor is fully aware of the difficulties which beset the question, he is constrained to express his disappointment at the small progress made in the Government estates, where the obstacles to be overcome are least serious. He approves the action taken by the Collector of Backergunge for the improvement of the returns on his Wards' Estates.

In future reports the Director of Land Records should give particulars showing for what percentage of the number of tenants were the rent-rolls examined in the villages concerned by the Collector or his deputies, and the results of such examination as regards the number of transfers which had not been noted in the records or reported by the tahsildars. It is quite certain, from the experience in other provinces, that if such examination be properly conducted, different villages being selected yearly without any previous notice being given, much may be done to improve the present state of things, and all Collectors should understand that this is an important part of the duty of themselves and their subordinates in their winter tours. As soon as the estate officials see that this is done, marked advance will very quickly follow in the maintenance of correct records.

7. *Maintenance of boundary marks.*—The boundary marks which, according to the direction of the Board, it is incumbent on the District Collectors to have inspected, are those which have been erected in connection with cadastral and other surveys which demarcate the boundaries of estates or tenures or of lands which have been the subject of dispute in the course of settlement proceedings. As the Director of Land Records correctly points out, the District Officer can have this work adequately done only in the case of a few of the most important boundary pillars in his district; and anything like a complete inspection of the boundary marks of a district which has been cadastrally surveyed will require a carefully prepared map showing such marks and a special staff. The Lieutenant-Governor awaits the scheme now under the consideration of the Director of Land Records, and meantime is pleased to see that, in the majority of the districts, great attention is devoted to this important matter. The attention of the Commissioner of the Rajshahi Division will be drawn to the remarks concerning this matter which the Director has made about the districts of Jalpaiguri and Bogra.

8. *Chapter III.—Utilisation of Land Records.*—The Lieutenant-Governor has read with much interest the remarks which the Director of Land Records has made on this subject, and though acknowledging that strictly speaking this chapter is reserved for a description of the work of a land records staff, provision for which does not at present exist in these provinces, he will be glad if the Director of Land Records will in future reports continue to show, as he has done in this, what use, so far as he can judge, has been made for administrative purposes of the record-of-rights of these districts which have been wholly dealt with. Rules requiring that in such districts the identification of lands referred to in deeds presented for registration shall take the form of a reference to the survey maps are under consideration.

Recently the Lieutenant-Governor's attention has been drawn to a remarkable decrease in the number of rioting cases in Muzaffarpur, due in part to an intelligent use, initiated by Mr. Hare in the Criminal Courts there, of the district record-of-rights, and His Honour will cause the District Magistrates who are concerned to be consulted as to the advisability of general instructions to Magistrates drawing their attention to the value of the record-of-rights in all cases dealing with land disputes. Subsequently it may be necessary to ascertain to what extent these instructions are being complied with.

9. *Chapter IV.—Scientific and National Enquiry under Imperial Control.*—The examination of various kinds of leguminous crops which was undertaken by Major Prain, I.M.S., during the year 1897-98 was finished during the year under report, but his report on the result of his investigation has not yet been published. The botanical examination of the varieties of *betel leaf* and *sola* which Dr. G. Watt, C.I.E., Reporter on Economic Products, has been making

since the years 1896-97 and 1897-98, respectively, with the help of the Agricultural Department, was in progress throughout the year. His report on the result of his investigation into the causes of the outbreak of betel-nut plague in East Bengal during the years 1895-96 and 1896-97 has not yet been received. Enquiries about *juar*, jute, *rhea*, and *dal* were also made during the year.

10. At the instance of the Government of India, enquiries were instituted during the year by this Government through the Agricultural Department into (1) the extent of the occurrence of sugarcane disease and the remedial measures adopted, and (2) the effects of the increasing imports of refined sugar from foreign countries, on the cultivation of sugarcane and the profits from the sugar industry. No definite conclusion has been arrived at as to whether the disease due to *Trichosphaeria sacchari* exists in these provinces, though it has been ascertained that the crop so far is not affected to any serious extent. The enquiries made on the second point pointed to the following conclusions:—

(1) That the importation of foreign sugars had greatly reduced the price of refined sugars in the Indian market.

(2) That the Indian sugar-refining industry had been much injured by this reduction in price, that a large number of refineries have been closed, and that the remaining ones were mostly working at a loss.

(3) That the price of unrefined sugars, known as *gur* and *rab*, had not on the whole fallen.

(4) That mainly on account of the demand for raw sugar the area under sugarcane cultivation and the profits derived from that cultivation have not diminished in the past few years.

11. *Chemical analyses of soil-water, &c.*—The services of Dr. J. W. Leather, the Assistant Agricultural Chemist to the Government of India, were utilised during the year in connection with the chemical analyses of different specimens of soils obtained from certain selected districts in East Bengal and the Orissa Division, as well as of soils impregnated with *reh* in certain tracts of the North Bihar districts. Enquiries were also made regarding the supposed injurious effects of irrigation in the districts of Darbhanga, Muzaffarpur, and Champaran, where the belief is widely prevalent that certain kinds of soil, if once irrigated, must always be irrigated. The Lieutenant-Governor trusts that, as funds are available, efforts may be made to throw more light on this important question.

12. *Working of the Civil Veterinary Department.*—A separate Resolution, No. 2630, dated the 8th August 1899, has been recorded by this Government on the annual progress report of the Civil Veterinary Department, Bengal, for the year 1898-99.

13. *Experimental farms.*—As already remarked in the Government Resolution recorded on the last year's annual report, the Sibpur farm was utilised during the year as a demonstrative farm for the practical training of the students of the agricultural classes attached to the Engineering College at that place As an experimental farm, it does not appear to have achieved results of much importance. In the Burdwan and Dumraon farms almost the same series of experiments which had been conducted during the year 1897-98 were repeated during the year under report, with identical results in most cases. As in the previous year, the experimental cultivation of paddy, sugarcane, maize, *juar*, and potatoes was tried at Burdwan, and of paddy, wheat, potatoes, maize, and *bajra* in the Dumraon farm. The trials with different varieties of sugarcane and wheat in the latter farm proved that the *khari* variety of sugarcane and the Buxar and the Muzaffarnagar (white varieties of wheat were superior to other varieties of the same crops in regard to productiveness, and it is gratifying to find that the results thus arrived at have been practically endorsed by the neighbouring raiyats. The experiments conducted in the two farms with the Naini Tal potato showed that the method of planting cut sets was more lucrative than when whole tubers were used. As usual, seeds and manures were distributed during the year from the two farms among the neighbouring cultivators and raiyats of Wards' and Government estates.

14. *Agricultural experiments in Government, Wards', and Private Estates.*—The orders conveyed in the Resolution on the last year's annual report, calling upon managers and officers in charge of Wards' and Government estates to pay increased attention to the introduction of agricultural improvements in estates in their respective charges bore some fruit during the year under report. American maize did well in the Tributary States of Orissa, and potatoes were successfully grown in several districts. Many experiments were failures owing to untimely sowing or unsuitable seed ; but such must be expected, for rapid progress in a matter of this kind cannot reasonably be depended on. The Lieutenant-Governor notices with much satisfaction the Director's mention of the names of Mr. Robindra Nath Tagore (who has also shown much enterprise in his silk-rearing experiments), Mr. Pal Chaudhuri, Babu Gauri Sankar Rai, and Babu Charu Krishna Mazumdar. There are few objects to which zamindars of means and leisure can devote their time, with greater pleasure to themselves, and greater profit to their follow-countrymen, than experiments in the garden and the farm ; and it is greatly to be desired that the example which these gentlemen have set should be widely followed.

The record of the experiments made during the year by the Agri-Horticultural Society has been read with interest.

15. *Silk experiments.*—As already remarked in the Government Resolution recorded on the last year's annual report, an important change took place in the management of sericultural operations during the year under report. Until that year the operations were conducted under the immediate control and supervision of the Agricultural Department, Government making a fixed annual grant of Rs. 3,000 for the purpose. Under the new arrangement sanctioned by Government, the entire management and control of the operations, together with the services of the travelling Sericultural Overseer and all sericultural appliances in his hands, were transferred to an independent committee consisting of members who are representatives of the chief silk firms in the Murshidabad district, on their agreeing to spend Rs. 5,000 annually, for a period of three years, for the purpose of teaching M. Pasteur's system of rearing silk-worm to the cocoon-rearers of Murshidabad, Rajshahi, Malda, and Birbhum. In appreciation of the enterprise of the Committee, Government agreed to subsidise it to the extent of Rs. 3,000 annually, on the condition that the subscriptions promised were duly paid in. Operations during the year were confined to the districts of Malda, Birbhum, and Murshidabad. In the first two districts the new system of rearing resulted in an increased produce of cocoons amounting to 50 per cent. and an increase in the selling price of the cocoons of about 60 per cent., results which are highly satisfactory. In Murshidabad the work was commenced too late in the year to show any good outturn. The receipts of the Committee during the year amounted to Rs. 6,332 against an expenditure of Rs. 7,104. Against the deficit of Rs. 772 there was a set-off of Rs. 766, the unrealised value of appliances sold. Considering this to be the first move on the part of persons directly interested in the silk industry of the country towards the adoption of European methods of silk-worm rearing, the Lieutenant-Governor is of opinion that the result of the year's working of the new scheme has been extremely good, and he will watch the progress of this movement with great interest.

16. The progress in the sericultural work of the Rampur Boalia Industrial School was also very satisfactory. During the year Government sanctioned an annual subsidy of Rs. 500 to the school to enable it to send out trained men into the villages for teaching the scientific method of rearing silk-worms. Its financial condition was very prosperous, the figures of receipts and expenditure being as noted on the margin. The success of the school is largely due to the Secretary of the Committee, Babu Akhoy Kumar Maitra, who is reported to have devoted much time and ability to its welfare.

	Rs.
Opening cash balance on 1st April 1898 . .	6,470
Contributions during the year	3,764
Total ...	10,234
Deduct disbursements during the year	3,838
Closing balance	6,396

17. *Chapter VI.—Agricultural education.*—The agricultural classes at Sibpur have now been working for one year, and the results, so far as can be at present judged, though to a certain extent satisfactory, point to the necessity

of extending the curriculum. Before passing orders on this point, the Lieutenant-Governor would like to see the results of another year's working of the classes.

18. *Agricultural exhibitions.*—Altogether 12 agricultural exhibitions or shows were held during the year at the places noted on the margin compared with 10 in the preceding year, and Government spent a sum of Rs. 1,670 in the distribution of prizes and certificates. Two of these exhibitions, namely those at Madhupur and Cuttack, were primarily designed for flower shows. The rest, with the exception of the Alipur and Falakata fairs, which are held for political reasons, are cattle and horse fairs, with or without exhibition of agricultural produces. The Suri Cattle and Agricultural show held in January 1899 was conspicuously successful. The Madhupur show is due to the exertions of Babu Hem Chandra Mitra, zamindar, whose efforts to improve the agriculture of his neighbours are to be commended.

(1) Suri.
(2) Kalimpong in Darjeeling.
(3) Alipur } Jalpaiguri.
(4) Falakata }
(5) Bera in Pabna.
(6) Rukindipur in Bogra.
(7) Sonepur.
(8) Sitamarhi.
(9) Berhampore in Shahabad.
(10) Tintanga in Bhagalpur.
(11) Madhupur in the Sonthal Parganas.
(12) Cuttack.

19. *Cost of agricultural experiments.*—The total expenditure from Government funds during the year on agricultural enquiry and improvement (excluding the pay of the superior establishment, the expenditure on silk experiments, the cost of the Civil Veterinary Department, and the cost of maintenance of the Sibpur farm) amounted to Rs. 6,155-11-9 as against Rs. 8,406-12-7 in the preceding year. This apparent decrease is due to the transfer of the Sibpur farm, on which over Rs. 3,000 were spent last year, to the Education Department. The expenditure on seed potatoes has increased from Rs. 250 to Rs. 2,000, and that on cattle breeding from Rs. 200 to Rs. 1,037.

20. *Conclusion.*—The thanks of the Lieutenant-Governor are tendered to Mr. P. C. Lyon for the ability with which he supervised the work of the many branches of the Department during the year. The commendation bestowed by the Director on his Assistant Director, Mr. Nagendra Nath Banerjee, and his Personal Assistant on the settlement side, Mr. Rowland Nagendra Lal Chandra, will be noted by the Appointment Department.

ORDER.—Ordered that the Resolution be published in the *Calcutta Gazette*, and that a copy of it, together with the Report and the forwarding letter of the Board of Revenue, be submitted to the Government of India, in the Revenue and Agricultural Department, and a copy also be forwarded to the Board of Revenue.

By order of the Lieutenant-Governor of Bengal,

F. A. SLACK,

Offg. Secy. to the Govt. of Bengal.

RESOLUTION ON THE FINAL REPORT ON THE SURVEY AND SETTLEMENT OF THE GOVERNMENT ESTATE OF TUSHKHALI IN THE DISTRICT OF BACKERGUNGE.

REVENUE DEPARTMENT—LAND REVENUE.

Darjeeling, the 11th November 1899.

RESOLUTION—No. 959T.R.

READ—

The Final Report on the Survey and Settlement of the Government Estate of Tushkhali in the district of Backergunge.

Read also—

Letters No 163T.S, dated the 8th June 1899, from the Director of Land Records, and No. 718A., dated the 22nd July 1899, from the Board of Revenue, reviewing and submitting the above report

History of the tract under survey-settlement; its population; and cost of the present settlement.

ABAD TUSHKHALI is a resumed estate, the proprietary right of which belongs to Government, consisting of about 36 square miles of land, originally jungle, on the east bank of the Baleshwar river, and intersected by a net-work of water-courses. The encroachment of the neighbouring zamindars about 1830 first drew the attention of Government to the estate, possession of which was obtained from the Court in 1836. It was not easy, however, to collect rents. The population, which now numbers about 30,000, in the proportion of 3 Muhammadans to 1 Hindu, has always been turbulent, and has proved too strong for any other than khas management. The last settlement was in 1875-76, and was for 20 years; and consequently a new survey was begun in 1894, by Babu Peari Mohan Basu, Deputy Collector. It was anticipated that the operations would cost Rs. 9,400, and be completed before the expiry of the old settlement; but these hopes were not realized, for the cost exceeded Rs. 16,000, and final publication was not made until February 1898. The Director of Land Records is of the opinion that the work could have been completed in time for the new rate of rents to come into use a year earlier than they did.

Area of the estate.

2. The estate comprises 24 villages, containing, according to the present survey, a total area of 23,038 acres, of which 21,356 acres (or about 93 per cent. of the total area) have been assessed to rent. The total area found at the previous settlement of 1875-76 was 22,754 acres, of which 21,934 acres (or 96 per cent.) were assessed. Thus though the total area has increased by 284 acres, the assessable area has decreased by 578 acres, for which satisfactory explanations are given.

Area under assessment.

3. Of the 24 villages, 3 (Algi, Badura and Mirukhali khas), containing an area of 1,934 acres (viz., 1,808 acres assessed to rent and 126 acres left out of assessment), were excluded from reassessment, because, owing to the silting up of the irrigation *khals*, the productiveness of their lands has been much diminished. This would point to the necessity of making some temporary reduction in the rents of these villages, which His Honour assumes the Board has already considered and dealt with. Measures have been taken to improve the channels, and it is expected that after five years, when it is proposed to resettle them, the restored fertility will justify an increment in the rent. While the survey and attestation were finished for the entire estate, the settlement of revenue has been made in respect of 21 villages only, containing 21,104 acres, of which 19,548 were assessed, the rest being left unassessed. Of this area, 16,501 acres are cultivated, 2,591 acres are culturable, but not cultivated, and 2,012 acres consist of homestead and other non-culturable lands, or are covered by rivers and jhils. Of the whole assessed area, a little over five-sixths is settled with raiyats and the rest with tenure-holders, while of the unassessed area, 839 acres are at the disposal of Government and 717 acres are included in the holdings of the raiyats.

Crops.

4. Rice is the principal crop, covering an area of about 13,000 acres, the remaining 3,501 acres of the cultivated area of the 21 villages settled being principally occupied by fruit-bearing orchards and garden crops. Experiments were made in 1897, in which year the rice crop was estimated at 12 annas, to test the productiveness

of the best rice lands: and an outturn of 32 maunds 30 seers of paddy per acre was obtained, equal to about 22½ maunds of husked rice. The average local price of common rice being Rs. 2-13-3 a maund, the gross value per acre of the grain merely of a three-quarters crop is about Rs. 63-8, or nearly ten times the rent assessed.

Incidence of holding.

5. In the 21 villages which have now been surveyed and settled, there are 3,455 tenants directly holding under Government, classed as follows:—

Tenure-holders.	Osat talukdar	1	Raiyats.	Settled raiyats ...	3,076
	Howladars	26		Occupancy raiyats ...	293
	Nim howladars	30		Non-occupancy raiyats ...	29

When Government recovered possession of the estate in 1830 many claims to tenures were advanced; but it was ruled that they were the creation of mere trespassers, and all were disallowed. In 1861, however, the Board rewarded deserving raiyats by granting them tenures, and the number of tenure-holders has subsequently increased by partition.

It appears that the Settlement Officer recognized as separate tenures the subdivisions of the original tenures caused by the Mahammadan law of succession. His reasons for this policy, whereby the number of tenures was increased, are not stated. His Honour is by no means inclined to view such proceedings with favour, save under very exceptional circumstances, as it tends to increase the cost of management. He therefore trusts that the Board, if they have not already done so, will strongly impress on Settlement Officers the danger involved in recognizing as separate tenures and holdings private subdivisions of the same.

The right of transfer of their occupancy-holding was formally conceded to the raiyats in 1876, and it is widely exercised. The Muhammadans, who are prohibited from the practice of usury by their local religious teachers, evade the restriction by an ingenious exercise of the right of transfer. The borrower nominally sells his *jot* to the lender, and becomes his under-raiyat at a rate of rent frequently more than 50 per cent. above the rent payable to Government, until such time as he succeeds in repaying the loan. Then, in accordance with a verbal stipulation, he is given back his rights. This is one more illustration of the difficulties inherent in usury laws.

Rates of assessment.

6. Before 1860 the rate fixed for the cultivators was an all-round average one of Re. 1-5 per bigha of the standard measure, but this was never accepted by the tenants, and great difficulties were experienced in realising rents. At the settlement of 1859-60, the lands were divided into five classes according to their productive quality and assessed accordingly; and the same division was adhered to in the settlement of 1875-76, whilst the rates were enhanced. At the present settlement the number of classes has been retained, and a very extensive redistribution of the lands therein has been made. The final report has failed to show the area under each class as compared with that of the previous settlement, or the reasons for such changes as were made. Although in paragraph 9 of his letter No. 22T., dated the 25th December 1896, the Settlement Officer, with reference to these villages, states that they have been generally improved both by natural causes and by works of improvement carried on during the currency of the past settlement, at the expense of Government, involving an expenditure exceeding Rs. 70,000, yet the results of the Settlement Officer's classification, as given in the table below, would point clearly to an opposite conclusion for which no reasons are assigned:—

Class.	Area. According to former settlement.	Area. According to present settlement.
	Bighas.	Bighas.
First	46,091	18,421
Second	5,437	24,374
Third	7,598	6,934
Fourth	24	4,794
Fifth	1,475	4,621
Total	60,625	59,144

The rent has been enhanced on account of the rise in the prices of food-grains in the last ten years, as compared with the first ten years of the old settlement, by which an increase of annas 3-4 in the rupee, or 20 per cent., could have been demanded, but this right has not been exercised to the full. The following table compares the rates fixed at the several settlements made:—

	1859-60.	1875-76.	1897-98.
	Rs. A. P.	Rs. A. P.	Rs. A. P.
1st class ...	1 4 0	1 10 0	1 14 0
2nd " ...	1 3 0	1 9 0	1 13 0
3rd " ...	1 2 0	1 6 0	1 11 0
4th " ...	1 1 0	1 5 0	1 8 0
5th " ...	1 0 0	1 3 0	1 6 0

Rent and its incidence.

7. As stated before, only 21 villages were affected by the present settlement, the rental of which has been increased by Rs. 8,929, from Rs. 93,282 to Rs. 1,02,211, or by 9 per cent. only. The increase has been formally accepted by all the tenants concerned without objection. This gives an average of Rs. 6-3-1 per acre of the cultivated area of 16,501 acres. The rental of the three villages not settled remains at Rs. 9,027, exclusive of Rs. 123, which is the income at present obtained from the bazars.

Attitude of the tenants.

8. The Lieutenant-Governor is pleased to find that the relations with the tenants during the operations were, contrary to expectation, of so cordial a character; though it may perhaps be considered that the amiability they displayed was not unconnected with the great disproportion between the actual assessment made by the Assistant Settlement Officer, and that which might legally have been imposed. His Honour has noticed with regret that as regards duration and costs these operations greatly exceeded the original estimates, while as concerns the probable increase in the rent, it would appear that the anticipations, according to which the additional rent would proportionately for these villages have been about Rs. 45,000, were not based on any reliable data.

Works of improvement.

9. The Lieutenant-Governor notices with satisfaction that during the last 20 years the estate was under khas management, various works of improvements, such as embankments, bunds, tanks, roads, bridges, costing an aggregate sum of Rs. 94,257, have been executed by the Khas Tahsil Department and the District Board of Backergunge; but it is doubtful if they were registered under the Bengal Tenancy Act, a remissness which it is hoped will not recur. His Honour trusts that this subject will continue to receive the careful consideration of the officers entrusted with the management of the estate, and that each year some useful work will be executed, within the means at their disposal, which will add to the prosperity and comfort of the tenants.

Term of settlement.

10. The estate will be managed khas during the pleasure of Government, and its settlement is hereby confirmed under Rule 4 (IV), Part III, Chapter 13, page 102 of the Survey-Settlement Manual.

ORDER.—Ordered that this Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

F. A. SLACK,

Offg. Secy. to the Govt. of Bengal.

Purchase of Stores in England and locally by the General and Irrigation Branches of the Public Works Department of the Government of Bengal, during 1898-99.

No. 5162A.

Government of Bengal.

PUBLIC WORKS DEPARTMENT.

ACCOUNTS.

Dated Calcutta, the 13th November 1899.

RESOLUTION.

READ—

(1) Letter from the Government of Bengal, Public Works Department, No. 4589A., dated the 18th September 1899, submitting to the Government of India, Public Works Department, the statement of expenditure on stores in the General and Irrigation Branches of the Public Works Department of the Government of Bengal for the year 1898-99.

(2) Letter from the Government of India, Finance and Commerce Department, No. 1426S.R., dated 25th March 1895, pointing out that, as it is understood, that several of the principal engineering firms in India now possess the apparatus necessary for the proper testing, both of the raw material and of the finished product, the fullest use should be made, subject to the prescribed precautions, of the liberty to procure supplies in India.

(3) Resolution on the operations of the Public Works Department, Bengal, in 1897-98 in respect of purchases of stores in England and locally.

REMARKS.—The following information is published to show the operations of the Public Works Department of this Province during 1898-99, in respect to the purchase of European stores in England and locally.

2. The total value of the stores so purchased amounted to Rs. 2,96,441. This sum is made up as follows :—

	Rs.	Rs.
(*a*) Cost of stores obtained though the Secretary of State ...		1,56,843
(*b*) Cost of stores locally purchased—		
(*i*) Of European manufacture	92,270	
(*ii*) Of Indian manufacture from imported material	47,328	
		1,39,598
		2,96,441

3. The principal items of the stores obtained though the Secretary of State were the following:—

	Rs.
Steel joists	59,413
Iron and steel T's, L's, flats, round, channel, etc. ...	57,857
Portland cement	15,906
Steam Road-roller	5,781
Paints	4,833
Plate glass	4,120
Glazed Tiles	2,518
Miscellaneous	6,415
	1,56,843

None of the above articles could have been entirely manufactured in India.

4. Of stores of European manufacture locally purchased on the score of urgency the following is a detailed list:—

	Rs.
Steel joists	31,542
T's, L's, channels and flats	35,934
Corrugated-iron sheets	4,292
Galvanized-iron pipes	4,341
Portland cement	3,600
Silicate paint	1,478
Fencing	1,190
Mansfield gas apparatus	1,680
Thresh's Steam disinfectors	8,213
	92,270

Taking India Office prices and adding freight and incidental charges the cost of these articles if purchased through the Secretary of State is estimated at Rs. 73,098; the estimated loss to Government being 26·22 per cent. against a corresponding figure of 22·21 per cent. in the previous year.

5. The total value of stores locally manufactured from imported material, or substituted for stores formerly imported shows a slight increase over the figure of the previous year, being Rs. 47,328 against Rs. 38,726. The items making up this total are—

	Rs.
Wrought-iron roof trusses	13,068
Ditto Bridge-girders	7,500
Ditto Record racks	10,008
Ditto Well curbs	3,348
Cast-iron columns	6,689
Do. pipes	1,234
Do. grills	1,784
Pile shoes, and bolts and nuts	2,644
Raw Linseed oil	1,053
	47,328

6. The policy prescribed in Resolution No. 1426S.R., of the 25th March 1895, by the Government of India, continues to receive the attention of the Local Government.

ORDER.—Ordered, that a copy of this Resolution be published in the Supplement to the next issue of the *Calcutta Gazette.*

Ordered, also, that a copy of this Resolution be forwarded to the Bengal Chamber of Commerce; the Calcutta Trades' Association; and the Bengal National Chamber of Commerce.

By order of the Lieutenant-Governor of Bengal,

D. JOSCELYNE,

Secy. to the Govt. of Bengal.

LIBERALITY OF BABU KANAI LAL BOGLA.

No. 641T.—M, dated Darjeeling, the 9th November 1899.

From—E. N. Baker, Esq., Offg. Secy. to the Govt. of Bengal, Municipal Dept.,
To—The Sanitary Commissioner, Bengal.

I am directed to acknowledge the receipt of your letter No. 1499D., dated the 19th October 1899, in which you report that Babu Kanai Lal Bogla, of the firm of Messrs. Mongnyram Kanai Lal, of Calcutta, has given a donation of Rs. 25,000 through Rai Kailas Chandra Bose Bahadur, of Calcutta, for improving the accommodation at Puri for pilgrims visiting the shrine of Jaggernath. You state that the donor desires the money to be spent under your direction, and that you will shortly inform Government how you propose to spend the money. You suggest that in the meantime his liberality may be suitably acknowledged in the *Calcutta Gazette.*

2. In reply, I am desired to request that the thanks of the Lieutenant-Governor may be conveyed to the donor for his liberality and public spirit, and that proposals for the disposal of the money may be submitted to Government for sanction before any expenditure is incurred.

3. The correspondence will be published in the *Calcutta Gazette.*

Rangpur.—No rain. *Rabi* crops are being sown. Prospects of crops good. Common rice selling at 16½ seers per rupee. Fodder and water sufficient. Cattle-disease prevailing in Nilphamari.

Bogra.—No rain. Prospects of crops good. Cultivation of *rabi* crops going on. Fodder and water sufficient. Common rice selling at 18 seers per rupee.

Pabna.—No rain. Weather fine and cool. Prospects of crops good. Price of common rice 14 seers 11 chitaks per rupee.

Dacca.—Rainfall nil. Weather seasonable. Prospects of standing crops good. Harvesting of paddy going on. Fodder available. No cattle-disease. Price of common rice stationary.

Mymensingh.—Rainfall nil. Weather seasonable. Prospects of crops good. Fodder and water sufficient. Common rice sells as follows :—

				Srs.	
Sadar	...	...	...	18	per rupee.
Tangail	...	...	...	18	
Netrokona	...	...	...	17	
Kishorganj	...	...	...	17	
Jamalpur	...	...	...	16	

Backergunge—Rainfall nil. Weather seasonable. Prospects of crops fair. Common rice sells at 14 seers per rupee.

Faridpur.—No rain. Weather seasonable. State and prospects of crops generally good. Common rice sells at 15 seers per rupee.

Tippera.—No rain. Weather seasonably cool. *Aman* paddy doing well. Pulses being harvested. Lands being prepared for spring crops. Average price of common rice 17 seers per rupee.

Noakhali.—No rain. Prospects of crops good. Cultivation of land for *rabi* crops going on. Treatment of cattle-disease at Changalnaya continues. The disease at Senbag abated. Fodder and water good. Common rice (*aman*) 16 seers and (*aus*) 18 seers per rupee.

Chittagong.—Rainfall ·02. Prospects of crops good. Water and fodder sufficient. Common rice 15 seers per rupee.

Patna.—No rain. Prospects of paddy fair. Sowing of *rabi* still continues. Weeding of *rabi* commenced in many places. Condition of cattle good. Fodder and water for cattle plentiful. Common rice in Patna sells at 17 seers per rupee.

Gaya.—No rain. Early paddy being harvested. *Rabi* and poppy being sown. Common rice selling at 15 seers per rupee.

Shahabad.—Rainfall nil. *Rabi* being sown. Paddy partly died out for want of rain. Fodder and water abundant. Seventy-five cases of cattle-disease in Sasaram. Common rice at Sadar 12 seers per rupee.

Saran.—No rain. Weather seasonable. Prospects of standing crops good. Fodder and water sufficient. Average prices are—Common rice 13 seers 2 chitaks and *makai* 14 seers 1 chitak per rupee.

Champaran.—No rain. Winter rice maturing. Prospects moderate. *Rabi* sowing still proceeding and germinating well. Poppy sowing progressing, although retarded by heat. Price of common rice 14½ seers and maize 16½ seers per rupee.

Muzaffarpur.—Rainfall nil. *Rabi* sowings in progress. Prospects good. Prices are—Common rice 12¼ seers, wheat 13½ seers, barley 16 seers, *makai* 16 seers, gram 14 seers, *rahar* 14½ seers, and *marua* 20 seers per rupee.

Darbhanga.—No rain. Weather temperate. Prospects of standing crops good. *Rabi* sowings going on. Fodder and water sufficient. No cattle-disease reported. Common rice sells as follows:—

	Srs.	ch.	
Sadar	11	0	per rupee.
Samastipur	14	0	
Madhubani	13	13	

Monghyr.—No rain. Weather seasonable. *Rabi* sowings continue. Prospects of standing crops fair. Common rice sells as follows:—

	Srs.	
Monghyr	12¼	per rupee.
Beguserai	12	
Jamui	13½	

Bhagalpur.—Rainfall nil. Weather seasonable. Winter rice in ear and doing well. *Rabi* sowings continue. Cattle-disease all over the district. Fodder and water sufficient. Prices of common rice are as follows:—

	Srs.	ch.	
Sadar	15	2	per rupee.
Supaul	18	0	
Madhipura	13	0	
Banka	12	13	

Purnea.—Rainfall nil. Weather seasonable. Prospects of *aghani* rice good. *Rabi* sowings commenced. No cattle-disease reported. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	
Sadar	16	per rupee.
Kishanganj	17	

Malda.—Rainfall nil. Weather seasonable. Sowing of *rabi* crops going on. Prospects of standing crops good. Fodder and water sufficient. No cattle-disease. Coarse rice selling at 16 seers per rupee.

Sonthal Parganas.—No rain. Prospects of crops very good. Cutting of paddy has begun. Cattle-disease reported from Rajmahal. Average price of common rice 13 seers 6 chitaks and Indian-corn 19 seers 10 chitaks per rupee. Fodder and water sufficient.

Cuttack.—Rainfall nil. Weather seasonable. *Laghu sarad* ripening and being reaped in places, *Guru sarad* in ear. *Arhar* and sugarcane growing. Condition of cattle generally good. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Cuttack	14	7	per rupee.
Jajpur	17	1	
Kendrapara	19	11	
Banki	16	0	

Balasore.—Rainfall nil. *Sarad* in ear. *Asu* being harvested. Sowing of *rabi* crops continues. Sugarcane good. Rice sells at 18¾ seers per rupee in the interior, and at 16 and 18 seers per rupee at Balasore and Bhadrak respectively. Cattle-disease reported from Basudevpur and Dhamnagar Circles. Fodder and water sufficient.

Angul.—No rain. Paddy in ear and in some places *laghu* paddy ripening. Gathering of *biri* commenced. Other *rabi* sowings completed. Cotton being gathered, Sugarcane doing well. More rain wanted for *rabi*. Fodder sufficient. Common rice sells at 16 seers per rupee at Angul and 8¼ seers at Bisipara.

Puri.—No rain. Weather seasonable. *Laghu sarad* being harvested. *Bara sarad* in flower. *Kulthi*, *biri*, and other pulses thriving. Sugarcane being pressed. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	13	2	per rupee.
Khurda	14	0	
Interior of district	14	2	

Test-works discontinued except in Satpara and Malud, which have been opened quite recently.

Hazaribagh.—No rain. Weather seasonable. Harvesting of rice in progress. Common rice sells at 12 seers per rupee.

Ranchi.—Rainfall nil. Weather seasonable. Harvesting of winter rice continues. Rice selling at Ranchi 10 seers, and in the interior 13½ seers per rupee. No cattle-disease. Fodder and water sufficient.

Palamau.—No rain. Weather seasonable. Rain urgently required for *rabi* sowing. Prices at Sadar are—Common rice 11 seers 5 chitaks, barley 15 seers 12 chitaks, *makai* 13 seers 8 chitaks, *gram* 14 seers 10 chitaks, *marua* 16 seers 14 chitaks, wheat 11 seers 5 chitaks and *mahua* 33 seers 12 chitaks per rupee. Cattle-disease reported from a few places. Fodder and water sufficient.

Manbhum.—Rainfall nil. Weather seasonable. *Bhadoi* crops fair. Winter rice an average crop. *Rabi* crops promise well. Cattle-disease reported from thanas Purulia, Topchanchi, and Tundi. Fodder and water sufficient. Average price of common rice at Sadar 13¼ seers and at Gobindpur 12 seers per rupee. Supply sufficient.

Singhbhum.—No rain. *Rabi* crop needs rain. Rice sells at 12 seers on the railway line hat, 13 seers in Chaibassa; average price in district, 16 seers 5 chitaks per rupee.

General Summary.—No rain has been reported during the week except a slight shower in Chittagong. The general prospects of the crops continue practically the same as in the previous week. The rice crop is maturing, and on the high lands the harvesting has begun in some districts. The sowing of the spring crops is going on except in some parts of the Chota Nagpur Division, where it is retarded for want of rain. The *rabi* crops in Angul are also in need of some more rain. The test-works in Puri have been discontinued except those at Satpara and Malud, which have been opened quite recently. No important change in the price of common rice is reported except at Bisipara in Angul, where it rose from 12 to 8¼ seers a rupee. Cattle-disease is reported from a few districts. Fodder is everywhere plentiful.

By order of the Lieutenant-Governor of Bengal,

F. A. SLACK,

Offg. Secretary to the Govt. of Bengal.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF OCTOBER 1899.

WEATHER during the greater part of October was of the kind usual at the end of the monsoon season with pressure above the normal and northerly winds fairly frequent and continuous, especially in the eastern districts. Temperature differed but little from the normal, and the sky was generally cloudless or lightly clouded with an almost entire absence of rainfall, the only exception being fairly numerous light showers in North Bengal. In the western districts exceptionally dry weather prevailed, so that over a wide area, including Chota Nagpur and the greater part of Bihar, the rainfall for the month is largely below the normal. On an average for these two divisions only 34 per cent. of the fall usual in October was received.

There were two occasions of disturbed weather which continued for about three days each time. The first was in the middle of the month, the second towards the end. On both occasions the disturbance was due to a depression which began in the south of the Bay, and moving, as has been almost invariably the case, during the present monsoon season, in a north-easterly direction, passed over Southern and Eastern Bengal. Cloudy rainy weather obtained over a great part of the province, and heavy rain fell over considerable tracts of country, chiefly in Orissa, East Bengal, and Arakan.

The first of these depressions appeared off the coast of the Circars on the 14th, and moving almost parallel to the coast line was in the north-west angle of the Bay on the morning of the 15th, and in East Bengal on the 16th, after which it rapidly filled up.

The second began about a week later in the extreme south-west of the Bay, where it caused squally weather and in places very heavy rainfall for two or three days. On two consecutive days Negapatam reported 11 inches each day, and the total fall at that station due to the disturbance was about 25 inches. The depression moved slowly northwards, and appears, when near the centre of the Bay to have become diffused and broken up into several smaller depressions, one of which approached the Bengal Coast on the 27th and was over East Bengal on the 28th. A second, two or three days later, crossed the coast of the Circars as a disturbance of small extent and of less than average severity.

During the week following the 22nd weather was disturbed over a wide area, and that it was squally or stormy over the Bay was shown by the strong winds at Diamond Island, where velocities of close on 20 miles an hour continued from the 26th to the 30th.

The squally weather was not marked in the north of the Bay, but more or less heavy rain fell over the greater part of the province, and the heavy falls continued between Chittagong and Akyab for two or three days.

In both of these storms the most marked feature was the absence of stormy weather in the north of the Bay and the very heavy rainfall which was irregularly distributed with regard to the area immediately affected by the depression—a feature which it may be remembered was noticeable in the case of the previous disturbance which caused the heavy rainfall in the Darjeeling Hills towards the end of September.

In consequence of the continued tendency for the cyclonic disturbances to move towards the north or north-east, the distribution of rainfall has been more irregular than usual in October. Over a great part of Chota Nagpur less than 1 inch fell, and the average for the whole division was 1 inch as compared with the normal fall of 2·94 inches. Over a great part of the west of Bihar falls were less than half an inch, and only a few stations in any part of the division received more than 1 inch. These were mostly in the Hajipur and Tajpur districts, where heavy falls of more than 2 inches were almost general on the 28th. The average fall for the whole of Bihar for the month was slightly under 1 inch and about one-third of the normal fall.

Towards the south-east amounts increased considerably, especially in East Bengal, in the southern part of which they varied from 10 to more than 25 inches. Patuakhali in Backergunge received 22 inches, Bauphal 26, Noakhali 19, Cox's Bazar 27, Chittagong 24, Kutubdia 28, Satkanya 21, and Fenoa 24. In the north-east also heavy rain fell, the heaviest being 19 inches at Baxa and 14 inches at Bhagatpur.

At the beginning of the month the pressure distribution was still of the south-west monsoon type with readings highest in the south-east of the Bay and lowest in the west of Bihar, the excess being greater over the Bay than at inland stations. Winds were light and variable and temperature differed by only small amounts from the normal. A rise of pressure which had begun on the 1st continued for some days, and by the 3rd a reversal of the gradient resulted with highest pressure in Assam and lowest in Madras. This arrangement was modified by a brisk fall on the 5th, but it was for a short time only, as readings were again highest in Assam on the 7th. From that date onwards the distribution underwent small changes, except during the two periods of unsettled weather. At times pressure was low in the west of Bihar, and winds were not unfrequently southerly or south-easterly in the western and central districts. Owing to the same cause winds were more variable than usual in North Bengal, and with the change of winds occasional light showers fell; but generally throughout the first-half of the month fine settled weather with variable or light variable winds prevailed, with temperature at times about 2° above the normal.

On the 13th pressure began to fall over the south of the Bay, and winds which were increasing in strength became more regularly cyclonic at the coast stations. On the following day a shallow depression of small extent was near Vizagapatam, at which pressure had fallen ·13 inch, but the greatest defect was only ·07 inch, and wind velocity was above 20

miles an hour at that station only. The depression moved rapidly north-eastward without intensifying and having little influence on the general atmospheric conditions, except that very heavy rain fell in the coast districts. Between the 14th and 15th at 8 A.M. Cuttack received 11 inches, and Puri, False Point, Balasore, and Saugor Island about 5. The fall of pressure in the north-west of the Bay was ·16 inch, but the difference from the normal was still only about ·1 inch. On the 16th the depression was in East Bengal, and general rain had fallen in Bengal Proper, but none of the falls were heavy, except at Noakhali, which received 8 inches. The next heaviest fall was 3 inches at Barisal. With the filling up of the depression rainfall ceased almost immediately, very little being reported on the 17th.

While weather was disturbed, very low day temperatures were recorded owing to the heavy cloud and general rainfall. The mean defect on the 16th varied from 2° in Bihar to 11° in the central districts, and was very little under 10° at any of the stations in Bengal Proper.

From the 17th cool weather conditions obtained for some days. Pressure was highest in the north of the province and above 30 inches; and it steadily diminished towards the south of the Bay with general light northerly winds.

The second disturbance began in the south-west of the Bay on the 22nd, and at 8 A.M. on the morning of the 23rd was causing unsettled weather with squalls of some force in that area, the station most affected being Negapatam. As the depression moved northwards and broke up before reaching the coast, the land observations give little or no information regarding its development during the earlier days of its existence—between the 22nd and 26th. The main feature while it was in the neighbourhood of the Madras coast was the heavy rainfall, especially at Negapatam, which received about 25 inches; and it is possible that this remained the most important feature throughout its movement northwards. But the strong winds at Diamond Island between the 26th and 30th show that squally or stormy weather probably prevailed for some days in the south and south-east of the Bay.

Only a small shallow depression reached the north of the Bay, and crossed the coast between Saugor Island and Chittagong on the 27th, but the weather in Bengal was disturbed over a much wider area than is usual with a depression of such depth and extent, rainfall being reported in greater or less quantity from all stations, except a few in Chota Nagpur. The heaviest falls occurred in the extreme south-east of the province on the 28th, Barisal receiving 6, Noakhali 5, and Chittagong 4; and general rainfall moderate to heavy in amount continued for some time in Arakan and Assam. The most notable circumstance was the continuous rainfall at Chittagong, which received 1·23 inches on the 27th, 2·83 on the 28th, 5·53 on the 29th, and 4·62 on the 30th, a total of more than 14 inches. A second noteworthy circumstance was the general and in places heavy rainfall in Bihar, where there is usually dry cloudless weather when depressions move in a north-easterly direction from the Bay.

After the shallow depression filled up on the 28th, weather recovered more slowly than is usual in similar cases at the end of October, when the transition period between cyclonic and fine cool weather is very short. The sky remained cloudy, and, as already noted, heavy rainfall continued in the east, but by the end of the month rainfall had entirely ceased, and northerly winds with low temperature were becoming general.

Pressure was generally above the normal during the early part of the month; and as both the depressions of the month were shallow, there was no occasion of very low pressure. In consequence the average pressure for the month is above the normal by considerable amounts. Excess varies from ·06 inch in the south of Assam and the adjacent part of East Bengal to ·04 inch in the west of Bihar. The greatest defect was ·15 inch on the 16th, when the first depression was over East Bengal.

Temperature.—As cloudy weather was more frequent and continuous during the latter half of the month in Bengal Proper than in the western districts, there is a considerable difference in maximum temperature in the west as compared with the east of the province. In the west of Bihar and Chota Nagpur, that is, in the area of deficient rainfall, there was an average excess in day temperatures of about 3°, and at some stations of nearly 4°. In the central districts maximum temperature was about normal, and in the east there was defect of 1° to 2°.

Minimum temperature shows a reverse arrangement, there being a small excess in the east and defect of 1° to 2° in the west.

The mean temperature for the month is in consequence very nearly normal, only a few stations showing a difference of more than 1°.

Rainfall.—With the exception of a few light scattered showers, chiefly in North Bengal, no rain fell during the month, except at the times of disturbed weather, on the 15th and 16th and on the 27th and 28th. On those dates it was general over a great part of the province, but the falls were light, except in the eastern districts and Orissa, more particularly in East Bengal and the extreme north-east of North Bengal, where they were considerably in excess of the normal.

On an average for the larger divisions of the province, Bihar and Chota Nagpur received only 34 per cent. of the normal fall of about 3 inches, North Bengal 63 per cent., and South-West Bengal 90 per cent. In Orissa the average fall was 47 per cent. in excess and in East Bengal 94 per cent.

The following table gives a comparison between the actual monthly and total rainfall and the normal rainfall of the province up to the end of October in the same form as has been employed in the previous monthly abstracts of the present year. The figures represent

the ratio of the rainfall of each month of the present year to the normal rainfall expressed as a percentage. The table thus gives a condensed summary of the rainfall data of the year for each meteorological division. The first ten columns give the percentage amount of rainfall received in each month, and the last column the percentage rainfall of the whole period from the 1st of January to the end of October:—

Meteorological Divisions.	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	Actual rainfall of first ten months of 1899 expressed as a percentage of the normal fall for the period.

The following table gives full data for the comparison of the actual and normal rainfall of the month of October in all districts of the Province. The first column gives the average district rainfall as determined from the rainfall observations of the past 26 years; the second column gives the actual district rainfall as determined from the actual weighted rainfall of the month at the reporting stations in the district; the third column expresses the ratio of the actual district rainfall to the normal as a percentage; and the fourth the same information in a slightly different form:—

Percentage Table for October 1899.

Division.	District.	Normal district rainfall for October.	Actual district rainfall for October 1899.	Percentage of actual to normal rainfall.	Percentage, excess (+), defect (—).

	Inches.
The mean pressure of the seven days	29 927
The average pressure of the corresponding period for 24 years, Surveyor-General's Office	29·935
	Hours.
The total number of hours of bright sunshine	62·1
The maximum possible number of hours of sunshine	77·9
The mean temperature of the seven days	71·1
The average temperature of the corresponding period for 24 years, Surveyor-General's Office	77·1
The extreme variation of temperature	24·0
The maximum temperature	84·2
	Miles.
The highest velocity of the wind in one hour	10
	%
The mean relative humidity	74
The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office	74
	Inches.
The total fall of rain from 5th to 11th November 1899	Nil
The average fall of the corresponding period for 24 years, Surveyor-General's Office	0·39
The total fall from 1st January to 11th November 1899	71 95
The average fall of the corresponding period for 24 years, Surveyor-General's Office	65·09

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

≏, dew; ≡, fog.

METEOROLOGICAL OFFICE, GOVT. OF INDIA,
Calcutta, the 13th November 1899.

G. W. KUCHLER,

* There are no separate leases for sugarcane on the Sone Canals. All leased fields of that crop now come under one of the other heads.

CALCUTTA,
The 14th November 1899.

A. H. C. MACCARTHY,
Under-Secy. to the Govt. of Bengal.

IRRIGATION DEPARTMENT,—BENGAL.

Statement showing heights over mean sea-level and low-water in the Rivers Ganges, Bhagirathi, Jalangi, and Brahmaputra, for the month of September 1899.

Printed at the Printing Office, and published by the Book Depôt, of the Bengal Secretariat, Writers' Buildings, in the City of Calcutta, on 15th November 1899.

...bstituted for pages 2247 and ... the Supplement to the *Calcutta* ... dated 22nd November 1899.

... the Lieutenant-Governor hopes that the ... failure of this all-important branch of ... on the amount of energy and attention ... their subordinates. If proper attention is given by them, ... an hardly fail to effect a much-needed improvement; if it does not do so, it will at least be obvious in future with whom the responsibility for its failure must rest. Proposals were submitted by the Health Officer for still further and more radical reforms in the establishment. These, however, did not receive the sanction of the Corporation.

Another important improvement has been the introduction of an afternoon, in addition to a morning, conservancy service. This is much appreciated by the public. It should be noted that the new scheme has as yet hardly had time to get into working order, and that its operations have been hampered by scarcity of labour during the past year.

It is hoped that in the future the greatest vigilance will be exercised in keeping this most important branch of administration up to a proper level of efficiency, and that the state of the public streets in Calcutta will no longer give reason for the severe but well-merited comments which have been so constantly made upon it in the past.

15. During the year there were two outbreaks of plague in Calcutta,—the first, which was restricted in incidence, in April, and the second, which was most extended and persistent, in the middle of the cold weather of 1898-99. By orders issued under the Epidemic Diseases Act of 1897, measures for the prevention and extirpation of plague in Calcutta are entrusted to the Chairman alone, assisted by a special staff, and are not subject to the control of the Commissioners. The matter is therefore not dealt with in the present Report, and falls outside the scope of this review. It would be out of place on the present occasion to discuss the policy which has actuated the Government in dealing with plague in Calcutta, the measures which were from time to time adopted, or the success or failure which attended them. This will be done when the history of plague in Bengal comes under review. For the present the Lieutenant-Governor desires to avail himself of the opportunity of publicly expressing his acknowledgments to those whose efforts have contributed to keeping the epidemic within narrow bounds. Amongst officials are the successive Chairmen, Mr. Greer and Mr. Bright; Major Green, I.M.S., the Chief Plague Officer, and Dr. Hossack, one of his Assistants. The character of their duties demanded a constant patience, firmness and kindly temper, and this difficult but essential combination of qualities all four possessed and showed. Many of the Municipal Commissioners gave excellent help on the Vigilance Committees, which formed the first of the plague measures in Calcutta. Amongst private gentlemen, two were eminent—Babu Hari Ram Goenka and Dr. Rai Koylash Chandra Bose Bahadur. The former, a Municipal Commissioner and an active member of the Vigilance Committee of his Ward, not merely subscribed large sums towards the establishment of an admirable hospital for his fellow-caste men, but by his activity and influence contributed largely to secure the co-operation of the public with the efforts of the authorities. The latter rendered invaluable service in bringing to light the progress of the disease, and by his sympathy and tact in winning over the ignorant to acquiesce in the measures necessary for its suppression.

By order of the Lieutenant-Governor of Bengal,

E. N. BAKER,

Offg. Secretary to the Govt. of Bengal.

WEATHER AND CROP REPORT.

For the week ending the 20th November 1899.

Burdwan.—No rain. Weather seasonable. Condition of *aman* paddy and sugarcane good. Sowing of *rabi* crops continues. Cultivation of potato going on. Fodder and water sufficient. Common rice selling as follows:—

	Srs.	
Sadar	15	per rupee.

NOTIFICATION—No. 4059L.R.

The 21st November 1899.—Whereas a survey is being made and a record of rights is being prepared in respect of all lands in North Bihar:

In exercise of the powers conferred upon him by section 101 of the Bengal Tenancy Act, VIII of 1885, as amended by Act III (B.C.) of 1898, and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor of Bengal is pleased to direct that a survey shall be made and a record of rights prepared in respect of the lands situated in thanas Benipatti and Phulparas in the district of Darbhanga. The particulars to be recorded in the record of rights shall be the following:—

(*a*) The name of each tenant or occupant.
(*b*) The class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat, or under-raiyat, and if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure.
(*c*) The situation and quantity and one or more of the boundaries of the land held by each tenant or occupier.
(*d*) The name of each tenant's landlord.
(*e*) The rent payable at the time the record of rights is being prepared.
(*f*) The mode in which that rent has been fixed, whether by contract, by order of a Court, or otherwise.
(*g*) If the rent is a gradually increasing rent, the time at which, and the steps by which, it increases.
(*h*) The special conditions and incidents, if any, of the tenancy.
(*i*) The name of each proprietor, including rent-free owner, with the character and extent of his interest, and the situation, quantity, and boundaries of the proprietor's private lands, as defined in Chapter XI of the Act.
(*j*) If the land is claimed to be held rent-free, whether or not rent is actually paid, and, if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and, if so entitled, under what authority.

F. A. SLACK,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION—No. 4060L.R.

The 21st November 1899.—The following draft of a rule which it is proposed to make under section 189 of the Bengal Tenancy Act, VIII of 1885, as amended by the Bengal Tenancy (Amendment) Act, III of 1898, and to be substituted for Rule 3, Chapter I of the Rules published under notification dated the 21st December 1885 in Part I of the *Calcutta Gazette* of the 23rd idem, is hereby published for general information under the provisions of section 190 (*1*) of the said Act. The modification which it is proposed to make in the existing rule is shown in italics in the draft rule below.

Any objection or suggestion which any person may desire to make with respect to the draft should be submitted to the Secretary to the Government of Bengal in the Revenue Department, Calcutta, before the 23rd December 1899, on which date the draft will be taken into consideration.

F. A. SLACK,
Offg. Secy. to the Govt. of Bengal.

Draft Rule.

3. Where no other mode of service of notice is prescribed by the Tenancy Act or by these rules, service shall be effected in the manner prescribed for the service of a summons on a defendant under the Code of Civil Procedure, if the notice is addressed to only

one person; and if it is addressed to a number of persons occupying or owning land in the same village, the notice shall be served *in the manner prescribed for the service of summons on a defendant under the Code of Civil Procedure*, or by proclamation and beat of drum, and by posting it in the presence of not less than two persons on some conspicuous place in the village, and also by fixing it up in the village office, if any, where the rent is usually paid.

NOTIFICATION—No. 4015L.R.

The 22nd November 1899.—With reference to the Notification dated the 26th October 1899, published in to-day's Gazette, in which the Board, with the sanction of Government, substitute the word "acres" for "local *máns*" in their Notification dated 7th July 1888, relating to the registration of revenue-free tenures in the district of Cuttack, the Lieutenant-Governor is pleased to direct that the Board's Notification dated the 26th October, 1899, shall take effect from this date.

F. A. SLACK,
Offg. Secy. to the Govt. of Bengal.

DECLARATION—No. 4050L.R.

The 16th November 1899.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for construction of a post office building at Nagra, in the village of Kadipur, pargana Bal, zilla Saran, it is hereby declared that for the above purpose a piece of land measuring, more or less, 5 cottahs 8¼ dhurs, equal to 27¾ poles of standard measurement, bounded on the—

North—By village road,
South—By District Board road from Chapra to Satterghat,
East—By field of Dhonra Raut and others,
West—By field of Bally Raut and Chooni Raut,

is required within the aforesaid village of Kadipur.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Land Acquisition Officer at Chapra.

The 16th November 1899.—The following notifications by the Government of Madras prohibiting pilgrimage to certain festivals in the Madras Presidency are republished for general information.

E. N. BAKER,
Offg. Secy. to the Govt. of Bengal.

No. 876, dated Fort St. George, the 24th October 1899.

NOTIFICATION—By the Government of Madras, Local and Municipal Dept.

WHEREAS the Governor of Fort St. George in Council is satisfied that there is danger of an outbreak of plague at Kalgunda and Subramanya in the Uppinangady taluk of the South Canara district, if persons from the Bombay Presidency, the Mysore State and other plague-infected parts are permitted to visit those places on the occasion of the ensuing cattle fair and Subramanya Shasti festival respectively:

In exercise of the powers delegated to him under the Epidemic Diseases Act, 1897, His Excellency the Governor in Council directs that no cattle fair shall be allowed to be held at Kalgunda this year, and that no person from the Bombay Presidency or Mysore State or other plague-infected places intending to be present at the Subramanya Shasti festival shall be permitted to visit that place from the 13th November to 9th December 1899, both days inclusive. All persons proceeding to either of the above-mentioned places in contravention of this notification will be sent back.

No. 890, dated Fort St. George, the 31st October 1899.

NOTIFICATION—By the Government of Madras, Local and Municipal Dept.

WHEREAS His Excellency the Governor of Fort St. George in Council is satisfied that there is danger of an outbreak of plague at Dharmastala in the Uppinangadi taluk of the South Canara district, if persons from the Bombay Presidency, the Mysore Province and other plague-infected parts are permitted to visit that place on the occasion of the ensuing illumination festival at the said place:

In exercise of the powers delegated to him under the Epidemic Diseases Act, 1897, His Excellency the Governor in Council prohibits the attendance at the said festival from the 24th November to the 2nd December 1899, both days inclusive, of persons from the places mentioned above. All persons proceeding to the festival in contravention of this notification will be sent back.

No. 894, dated Fort St. George, the 31st October 1899.

NOTIFICATION—By the Government of Madras, Local and Municipal Dept.

WHEREAS His Excellency the Governor of Fort St. George in Council is satisfied that there is danger of an outbreak of plague at Chidambaram in the district of South Arcot, if persons from the Salem district, the Bombay Presidency, the States of Mysore and Hyderabad and other plague-infected areas are permitted to visit that place on the occasion of the ensuing Arudradarsanam festival:

In exercise of the powers delegated to him under the Epidemic Diseases Act, 1897, His Excellency the Governor in Council prohibits the attendance at the said festival, from 4th December 1899 to the 18th December 1899 (both days inclusive), of persons from the

abovementioned places, and directs that between the said dates no tickets to travel by railway shall be issued within the Salem district to the Railway stations of Alappakkam, Porto Novo, Kille, Chidambaram, Coleroon and Shiyali on the South Indian Railway to any person intending, or believed to be intending, to attend the festival. All persons proceeding to the festival in contravention of this notification will be turned back.

No. 895, dated Fort St. George, the 31st October 1899

NOTIFICATION—By the Government of Madras, Local and Municipal Dept.

WHEREAS His Excellency the Governor of Fort St. George in Council is satisfied that there is danger of an outbreak of plague at Virinjipuram in the Vellore taluk of the North Arcot district, if pilgrims from the Salem district, Mysore State, and other plague-infected parts are permitted to assemble at that village on the occasion of the ensuing Kadanayar festival:

In exercise of the powers delegated to him under the Epidemic Diseases Act, 1897, His Excellency the Governor in Council is pleased to prohibit the attendance at the said festival from the 4th December 1899 to the 14th December 1899, both days inclusive, of persons from the abovementioned plague-infected parts. All persons proceeding to the festival in contravention of this notification will be sent back.

NOTIFICATION—No. 2515 $\frac{\text{Medl.}}{\text{F.}}$

The 17th November 1899.—The following notice issued by Mr. R. T. Greer, the officer in charge of the arrangements for despatching pilgrims desirous of proceeding to the Hedjaz during the ensuing season, is published for general information.

E. N. BAKER,

Offg. Secy. to the Govt. of Bengal.

PILGRIMAGE TO MECCA.

Notice to Bengal, Bihar and Assam Pilgrims.

THE Government, while desirous of impressing upon intending pilgrims that they would be well advised in deferring their purpose until another season, in view of the stringent quarantine rules imposed by the Turkish Government and the inconvenience to which it is likely they will be subjected on arriving in Arabia, have decided to permit the pilgrimage to the Hedjaz during the current season of 1899, subject to certain conditions as below :—

(*a*) In consequence of the prevalence of plague, no person resident permanently or temporarily in the Presidency of Bombay, including Sind, the Presidency of Madras, the Mysore and Hyderabad States, Coorg, Calcutta and the Saran district of Bihar, the Nagpur Division of the Central Provinces or the Hoshiarpur district of the Punjab, shall be permitted to embark from any port in India with the object of making a pilgrimage to Mecca.

(*b*) No person shall be permitted to embark with the object of making a pilgrimage to Mecca, except at the port of Chittagong in the Lower Provinces of Bengal, and unless and until such person has been kept under observation in a place appointed for the purpose.

(*c*) All intending pilgrims shall proceed to Chittagong, avoiding Calcutta, and shall at Chittagong be received into a camp, where they will remain for a period of 10 days, or until a steamer is ready for their reception.

2. Every pilgrim seeking admission to the Chittagong camp is required to provide passage money, Rs. 80 (including feeding expenses). He is advised to have enough money for the return journey from the Hedjaz also. Each pilgrim will be required to provide himself with a return ticket by rail or steamer for the journey from Calcutta to his home or to deposit the price of such ticket in the Post Office Savings Bank, Chittagong, in the name of the officer in charge of the pilgrim camp. The return tickets for the journey from Calcutta should be deposited with this officer.

3. Tickets for the steamer journey must be purchased at the Chittagong camp, and on leaving the camp, pilgrims holding those tickets will be given certificates that they have undergone 10 days' quarantine and are free from all suspicion of infection.

4. Intending pilgrims need not bring with them food for the journey, as the steamer will be required to keep a stock of all necessary articles of food to be sold at rates which have been authoritatively approved.

5. The camp at Chittagong will be ready for the reception of pilgrims on the 1st December. The first steamer will leave about the 15th December.

CALCUTTA,
The 14th November 1899.

R. T. GREER, I.C.S.

NOTIFICATION.

No. 696T.M.— The 12th November 1899.—It is hereby notified that, under section 24 of the Bengal Local Self-Government Act, III of 1885, the Lieutenant-Governor is pleased to reappoint the Magistrate of Chittagong to be the Chairman of the District Board of Chittagong.

E. N. BAKER,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 700T.M. — The 12th November 1899.—It is hereby notified for general information that on the application of the Commissioners of the Faridpur Municipality, in the district of Faridpur, the Lieutenant Governor has been pleased to declare that the provisions of section 3, Act XX of 1887, with respect to wild birds, shall apply, so far as regards the rules framed by the Municipal Commissioners of Faridpur, to hares and deer.

E. N. BAKER,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 701T M —The 12th November 1899.—It is hereby notified for general information that the Lieutenant-Governor intends to confirm, under clause 4, section 3, Act XX of 1887, the following rules framed by the Commissioners of the Faridpur Municipality, in the district of Faridpur, under section 3 of the Act, for the protection of wild birds and game within the limits of that Municipality unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the said Municipality:—

Rules under section 3 of Act XX of 1887 for the Faridpur Municipality.

1. "Wild bird" for the purposes of these rules shall include jungle-fowl, pea-fowl partridges, quail, plover, whistling teal, painted snipe, cotton teal, and every bird killed for the sake of its plumage.

2. The Local Government having by notification declared that the provisions of section 3, Act XX of 1887, shall apply to hares and deer, the following rules will apply to these animals as well as to wild birds.

3. The breeding season for the purposes of these rules shall extend from 1st April to the 30th September.

4. Whoever during the breeding season has in his possession within the limits of the Municipality of Faridpur any wild bird, deer or hare recently killed or taken, or exposes for sale any such bird or animal, living or dead, shall be liable to a fine not exceeding Rs. 5 for each bird or animal.

5. Whoever during the breeding season imports into the town the plumage of any kind of wild bird, recently killed or taken, or the fur or skin of any hare or deer recently killed or taken, shall be liable to a fine not exceeding Rs. 5 for the plumage of every such bird or the fur or skin of every such hare or deer.

6. In the case of a second conviction the fine may extend to Rs. 10 for each such bird, hare, deer, plumage, fur or skin.

7. All birds, plumage, fur or skin, &c., in respect of which a conviction has been had under rules 4, 5 and 6, shall be confiscated.

8. A reward not exceeding half the fine imposed and realised under rules 4, 5 and 6 may be granted by the adjudicating Magistrate to any person who has afforded information leading to a conviction for a breach of any of the above rules.

E. N. BAKER,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The Calcutta Gazette.

WEDNESDAY, NOVEMBER 22, 1899.

PART II.

Advertisements.

[N. B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette cannot be received after Noon on Monday.]

LAND SALE NOTICES.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Faridpur, will be put up to sale at the Faridpur Collectorate on the 22nd December 1899, corresponding with 8th Pous 1306 (B.S.)

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of the estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Faridpur Collectorate, the 7th November 1899.

K. C. DE, Collector.

Notice under Rule 19, Section II.

NOTICE is hereby given that the lease of the land specified in the Schedule hereunto annexed, and of which the plan is open to inspection at the office of the Commissioner of the Sundarbans, has been applied for by Captain C. G. B. Jensen, and will be sold at 12 o'clock noon on the 15th February 1900, Thursday (the 4th Falgoon 1306 B.S.), at the Sundarbans Commissioner's Office at Alipore, unless meantime the sale is stopped or postponed in consequence of claims or objections under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands), or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below, as well as to the general terms annexed to the rules for the sale of leases of waste lands in the Sundarbans of the 24-Parganas Khulna, and Backergunge, dated 12th November 1879:—

Conditions.

That the land shall be subject to all existing rights of way and water and other easements.

That the right of using all streams and channels in any way navigable shall be reserved to the public, as also the use of a towpath, not less than 25 feet in width, on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances, or which may be used on the land; but for wood and timber exported for sale, a duty shall be levied at such rate and in such manner as may from time to time be prescribed by Government.

That the Government reserves to itself the right to all minerals on the land, together with such rights of way and other reasonable facilities as may be requisite for working, getting, and carrying away such minerals. It also retains its proprietary right in the land, and only confers on the lessee an occupancy right, which shall be hereditary and transferable.

Schedule.

Sundarbans Commissioner's Office, Alipore, the 31st October 1899. P. ROSS, Commissioner, Sundarbans

Notification.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates or shares of estates in the district of Khulna will be put up for sale at the Collector's office of that district on 21st December 1899 for arrears of revenue and other demands which, by the Regulations and Acts in force, are directed to be realised in the same manner as arrears of revenue.

When in columns 5, 7 and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share, and the other share or shares in the estate are excluded from the sale.

Khulna Collectorate, the 9th November 1899. S. C. MUKHERJEE, Collector.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Midnapore will be put up to sale at the Midnapore Collectorate on Wednesday, the 10th January 1900, corresponding with the 27th of Pous 1306 B.S. and 28th of Pous 1307 A.S.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—Each estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchasers of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them, subject to the revenue fixed in perpetuity.

2nd.—The sales to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the date of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisements, as in the case of original sale.

337	Ditto ditto 10 tons, per cwt.	0 8 0	0 4 0	0 8 0

Consignees to load carts. 1. Consignees must provide coolies for loading carts.

Removal charge on heavy lift. 2. On all packages exceeding four tons in weight the removal charge will under all circumstances, have to be paid if consignees do not take delivery at the jetty head.

3. The rates for unloading into boats will be one-third of the landing charges. For rails and iron sleepers the charge will be *one-fifth* of the landing charges; but vessels discharging into boats under this rule may, after 36 hours' notice in writing, be required to haul out to moorings in the stream if the Commissioners required this jetty.

Delivery into boats.

Charges to vessels for use of jetty.

4. Every ship unloading at the jetties will be charged Rs. 35 per idem.

5. No charge for wharf-rent will be made until the third day after landing, *e.g.*, goods landed on Monday will not be liable to wharf-rent if removed before Wednesday evening, and no charge for wharf-rent will be made for holidays when, owing to the Custom-house being shut, consignees are unable, without any fault on their part, to clear their goods.

Wharf-rent when incurred.

6. Damaged goods, for which a claim is brought against the ship, will not be charged wharf-rent until the fourth day after landing; provided notice of survey is given to the Jetty Superintendent within 48 hours after the goods have been received from the ship.

Wharf-rent on damaged goods.

7. A hoisting charge, equivalent to one-third of the landing charges, will be levied for the use of the hand-cranes by consignees of goods for loading carts at the jetties.

Use of cranes for loading carts.

Chittagong, the 8th November 1899.

F. R. S. COLLIER, Chairman, Port Commissioners.

Shippers to unload carts. 1. Exporters must provide coolies for discharging carts.

Wharf-rent when incurred. 2. On all cargo shut out from the vessel for which it has been sent to the jetties for shipment, wharf-rent is charged after 24 hours have elapsed from the time such cargo was shut out until documents for shipment on board another vessel loading at the jetties have been received, or the cargo is removed from the jetty. The vessel which shuts out the cargo incurs the wharf-rent charge.

Goods for direct shipment. 3. The following goods will not be received in the sheds in course of shipment, viz., assafoetida, cutch, safflower, camphor, turmeric, aniseed, hog's lard, and ghee, all oils, India-rubber, molasses, myrabollams, treacle. Silk, silk piece-goods, indigo, and opium must be sent direct on board the vessel.

F. R. S. COLLIER, Chairman, Port Commissioners.

UJJAL CHUNDER SEN, *Acctt.*,
for *Exe. Engr., Nadia Rivers Division.*

Berhampore, the 13th November 1899.

Annual Statement of the Sea-borne Trade and Navigation of the Bengal Presidency and of its Chief Port (Calcutta), and each of its Subordinate Ports (Chittagong, Balasore, Cuttack, Pooree, and Narainganj), Volumes I and II. Price Rs. 20 for 1897-98. Published at the Calcutta Custom House. Previous years' volumes can also be obtained at the same price

Parts I, II and III of a Descriptive Catalogue of the Sanskrit Manuscripts in the Library of the Calcutta Sanskrit College, prepared by Pandit Hrishikesa Sastri and Babu Siva Chandra Gui, M.A., B.L., of that College are offered to the public for sale. The Catalogue is to be completed in 23 parts, the price of each part being 12 annas a copy, exclusive of postage. Copies can be obtained, from the Principal of the Sanskrit College, Calcutta.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series, *including postage* (Inland rate) Rs. 22-8

Ditto ditto (Overland rate) Rs. 28.

	Without postage. Rs.	A.	P.	With postage. Rs.	A.	P.
For the Calcutta Series [illegible] ...	10	0	0	12	8	0
„ each of the Madras, [illegible] Bombay, and Allahabad Series [illegible] ...	6	0	0	7	0	0
„ a part of the Calcutta Series purchased separately (*inclusive of postage in India*) ...	......			2	0	0
„ a part of each [illegible] the Madras, Bombay, and Allahabad Series purchased separately (*inclusive of postage in India*) ...				1	0	0

The following is the rate [illegible] which deductions will be made for parts out of print and at [illegible] which duplicate copies will be supplied to subscribers when required [illegible] in place of copies lost in transit :—

	For town. Rs.	A.	P.	For mufassal. Rs.	A.	P.
For the Calcutta Series [illegible] copy ...	0	8	9	0	10	6
„ each of the Madras, [illegible] Bombay, and Allahabad Series, [illegible] copy	0	5	3	0	5	9
„ the Calcutta Series [illegible] for the year	7	2	6	8	6	3
„ each of the Madras, [illegible] Bombay and Allahabad Series, [illegible] for the year	4	4	6	4	11	3

Persons desiring to subscribe for or purchase the Report should apply to—

Superintendent, Government Press, Madras.

The Superintendent, Government Central Press, Bombay.

„ Curator of Government Books, North-Western Provinces and Oudh.

Officer in charge, Bengal Secretariat Book Depôt.

Orders and subscriptions [illegible] should be at once registered and remitted by money-order [illegible] to the Accountant and Treasurer, Bengal Secretariat, Calcutta.

ADVERTISEMENTS will [illegible] received for publication on the papers of the Indian [illegible] Reports, Calcutta Series, at the following rates, payable [illegible] in advance—

	Full page.	Half page.		Quarter page.	
For one issue ...	20	Rs.	14	Rs.	9
„ three issues ...	55	„	36	„	24
„ six „ ...	100	„	68	„	45
„ nine „ ..	145	„	96	„	64
„ twelve „ ...	180	„	120	„	80

SEVERAL volumes of the BENGAL LAW REPORTS from August 1868 to December [illegible] and FULL BENCH RULINGS, Parts I and II, are available [illegible] at the following rates:—

	Without postage. Rs.	A.	P.	With postage. Rs.	A.	P.
Bengal Law Reports for one [illegible]	20	0	0	22	8	0
Single copies, Rs. 2 per copy.						
Full Bench Rulings, Parts [illegible]	20	0	0	22	8	0

Obtainable at the Bengal Secretariat Book Depôt, Writers' Buildings, Calcutta.

Remittances to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers' Buildings, Calcutta.

The complete series of the INDIAN LAW REPORTS of the following years having now been reprinted, are available, and may be purchased for all the years, or any particular year, on application to the Officer in charge, Bengal Secretariat Book Depot.

The wanting parts of the Reports for the remaining years are being reprinted, and complete Reports from the beginning to date will be available shortly. The subscription, Rs. 22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat :—

† Originally published at Rs.15, reduced to Rs. 8.

selves, proved directly remunerative. The Canals twenty years ago paid from five to six per cent. on their capital. Now the percentage on the average of the last five years has been reduced to a little over three per cent and in 1897-98 the net revenue only gave two per cent. on the capital. The past year was, in some respects, exceptional, and an increase in the traffic and in the returns is anticipated. The receipts during the year were Rs. 4,09,281, against Rs. 4,26,203 in the previous year, showing a decrease of Rs. 16,922, and the working expenses were Rs. 2,80,677, or Rs. 79,272 more than those of the year 1897-98. There was a decrease of Rs. 96,194 in the net revenue of the year. Of this, nearly sixty thousand was due to an increase in establishment charge, which was partly real, but mainly due to the fact that, in the previous year, there had been certain adjustments of accounts which had resulted in a somewhat artificial enhancement of the net revenue of that year. There was a decrease in the number and maundage of the boats using the channels and in the number of the steamers and flats. Altogether the results of the year were unsatisfactory, but there is reason to think that this was to some extent exceptional and mainly due to the fact that the year was an unfavourable one for the jute trade, which largely affects the canal revenue.

25. The steamers and flats using the Sundarban route continued to increase. The channel known as the Angeria creek, is [illegible]e only connection suitable for steamers, which exists on one portion of the [illegible]oute: more than one attempt has been made, but unsuccessfully, to find [illegible] alternative to it. It is therefore an important link in the connection be[illegible]en Calcutta and Assam. Some improvements were effected in it during t[illegible] year. One alternative route, which has been suggested, is that known as [illegible]e Bhil channel, between the Madhumati and Kumar river in the Faridpur di[illegible]t This channel has since 1894 been improved at a cost of some Rs. 25,00[illegible] and in 1897-98, Rs. 4,000 were expended in making a diversion in the 1[illegible] mile of the route. It is rather disappointing to find that the facilities which [illegible] been afforded, by the expenditure which has been incurred, have not l[illegible]o the general use of the channel when it is open in the rainy season. In 1[illegible] and in 1899 the steamers did not use the channel at all, although it obv[illegible]sly presents great advantages. There is reason to think that it could be [illegible]tly improved, at comparatively moderate expense, if it is only kept op[illegible]or a limited time when the neighbouring rivers are high; but if the impro[illegible]ents which have been carried out do not attract the traffic, it seems dou[illegible]l whether further expenditure is justifiable. The Chamber of Commerc[illegible]nd the Steamer Companies correctly represent the great advantages of [illegible]rou[illegible] not only in itself in saving distance, but also as an alternative to[illegible] mentioned above, and the matter is receiving the attention of Go[illegible]ment; but, so far, the results which have attended the improvements act[illegible] executed are not encouraging.

26. The **Orissa Coast Canal** is a continuation [illegible]the Hijili Tidal Canal. Its revenue suffered in the same way. The r[illegible]pts amounted to Rs. 73,094, against Rs. 85,450 in the previous year, and t[illegible] working expenses were Rs. 82,288, as compared with Rs. 61,045. The fina[illegible]l results of the year are far from satisfactory, the net revenue being [illegible]ficit of Rs. 9,194, against a profit of Rs. 24,405 in 1897 98.

The opening of the Bengal-Nagpur Railway no [illegible]ubt affected the revenue of this canal, and will continue to do so.

27. The **Saran Canals** remained closed during t[illegible]ear under review.

28. The **Nadia Rivers** are gradually losing [illegible]ir position as a great trade route to Calcutta. In the five-yearly period e[illegible] in March 1893 the average weight of cargo paying toll was about 88 lak[illegible]d [illegible]f maunds—in the quinquennial period ending in March 1898 it was only so[illegible]ing more than 60 lakhs of maunds, and in 1898-99 this had fallen to rather [illegible] than 40 lakhs of maunds. As railway communication develops these [illegible]s must probably continue to decrease in importance. Meanwhile, econom[illegible] expenditure has somewhat reduced the loss which these rivers now involv[illegible] The receipts were Rs. 89,416 as compared with Rs. 89,043 in the previous year, and the working expenses were Rs. 99,422 against Rs. 1,08,859; the net revenue being a reduction in the deficit from Rs. 19,816 to Rs. 10,606. But these results bring little

satisfaction when it is remembered that in the quinquennial period ending March 1888, the average results were an annual profit of about one lakh of rupees: in the similar period ending March 1893, they were about 70 thousand rupees: and in the similar period ending March 1898, there was an average annual loss of about one thousand rupees only.

29. The **Eden Canal** was worked during the year at a much smaller loss than usual. The receipts from the canal were Rs. 28,725 against Rs. 35,835, and the working expenses were Rs. 39,380, as compared with Rs. 67,037 in the previous year, the result being a reduction in the deficit from Rs. 31,202 in 1897-98 to Rs. 10,655 in 1898-99.

The area irrigated during the year was 29,757 acres as compared with 24,487 acres in the previous year, showing an increase of 5,270 acres. The arrears of uncollected revenue at the end of the year was Rs. 9,312, which, although it is less than in former years, is still an unduly large amount.

30. The **Madhuban Canal** irrigated during the year 3,190 acres as compared with 2,000 acres in 1897-98, showing an increase of 1,190 acres. This was due to the great demand for water from the middle of October to the end of December. For maintaining the canal Rs. 9,569 were expended during the year against Rs. 6,471 in the previous year.

31. The **Gaighatta and Buxi khal** was maintained during the year at a cost of Rs. 395 against Rs. 681 in the previous year. Rupees 4,500, being the amount of the annual lease, less Rs. 36 refunded, were realised from the lessees during the year.

32. The improvement in the collection of the canal revenue on the three large irrigating systems, which were noticed in previous years, was carried still further in the year under review. The facts are very striking when it is remembered how large the arrears used to be in former years. In the five years ending March 1889 the uncollected balance at the end of each year averaged nearly 6 lakhs of rupees, in the the next quinquennial period it was rather more than 3½ lakhs, while in the last period it was about Rs. 36,000. At the end of the year now under review (1898-99), the outstanding uncollected balance is less than Rs. 6,000, while in the Orissa and Sone canals there is no outstanding at all: the whole demand has been collected. This improvement in collections has been accompanied by a very marked decrease in the number of certificates issued (as shown in paragraph 7 of this Resolution), which indicates that the people are satisfied and content to pay the demands without compulsion. Further, the remissions and amounts written off as irrecoverable show, at the same time, a marked decrease, indicating greater accuracy and promptness on the part of the officers who are responsible for the assessments. The Lieutenant-Governor acknowledges, again, the excellent work done by the Deputy Collectors and especially by Maulvi Syed Mahomed Nasiruddin and Babu Madhav Lal in reorganizing and improving the work of the collection staff.

33. The year 1898-99 was one of very high floods in the Cossye, Selye, Subarnarekha and Damodar rivers in June 1898, and in the Sikrana or Boor-Gandak and Bagmati rivers in September 1898. The floods which occurred in the Cossye and Sikrana rivers were extraordinary and unprecedented, and very disastrous in their effects. The Cossye floods did considerable damage to the embankments, canal works and distributaries in the Midnapore district.

The Sikrana floods submerged a vast area of country in the Champaran and Muzaffarpur districts, and did considerable damage to the Champaran, Tirhut and Turki embankments, as also to the District Board roads and bridges and railway embankments. The floods destroyed many houses and standing crops; many cattle were lost and human lives also. The damage done to the embankments and canal works by the floods of the Selye, Subarnarekha and Damodar rivers was not serious.

34. The Irrigation Department of this Province was in charge of Colonel A. D. McArthur, R.E., Chief Engineer, during the year. Since it expired he has retired from the Public Works Department, after serving in it, in the Irrigation Department of Bengal, for more than 30 years. The Lieutenant-Governor desires to record his appreciation of the work done by Colonel McArthur, in almost all parts of the Province, during his long service in it.

The Superintending Engineers, Mr. Inglis, Mr. Horn and Mr. Toogood, were in charge of the three Irrigation Circles. The Lieutenant-Governor acknowledges the efficiency of their services. The large reduction in the expenditure on repairs during the last few years in the Sone Canals, and especially in the Arrah Division, is partly due to the able management of Mr. C. H. DeMello.

ORDER.—Ordered that a copy of this Resolution and of the Chief Engineer's note and its accompaniments be submitted to the Government of India, in the Public Works Department, and published in the *Calcutta Gazette*. Also that it be circulated to other Governments and to all Departments and officers of this Government as usual.

By order of the Lieutenant-Governor of Bengal,

R. B. BUCKLEY,

Secy. to the Govt. of Bengal,
Irrigation Department.

Government of Bengal.

IRRIGATION DEPARTMENT.

REVENUE REPORT.

Note by R. B. BUCKLEY, ESQ., *Chief Engineer, on the Canal Revenue Reports of Bengal for the year 1898-99.*

THE Capital expenditure on Irrigation Works in 1898-99 was as follows:—

	Direct charges.	Indirect charges.	Total.
	Rs.	Rs.	Rs.
Capital expenditure on Major Irrigation Works not charged against Revenue ...	36,304	2,715	39,019
Capital expenditure on Minor Works and Navigation for which Capital and Revenue Accounts are kept	93,632	1,404	95,036
	1,29,936	4,119	1,34,055

2. The total Capital outlay at the end of the year 1898-99, including indirect charges, was:—

	Direct charges.	Indirect charges.	Total.
	Rs.	Rs.	Rs.
Major Irrigation Works—			
Productive Public Works	6,24,63,875	17,50,443	6,42,14,318
Minor Works and Navigation—			
Protective grants—Imperial ...	8,66,000	......	8,66,000
Ordinary revenue { Imperial and Provincial. } ...	1,12,93,765	3,16,942	1,16,10,707
Total ...	7,46,23,640	20,67,385	7,66,91,025

3. The outlay abstracted above is shown in the following statement divided under the different projects:—

WORKS.	During 1898-99.			To end of 1898-99.		
	Direct charges.	Indirect charges	Total.	Direct charges.	Indirect charges.	Total.
1	2	3	4	5	6	7
Major Irrigation Works—	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Orissa Canals ...	67,748	2,322	70,070	2,57,88,378	5,84,773	2,63,73,151

Total ...	93,632	1,404	95,036	1,21,59,765	3,16,942	1,24,76,707
GRAND TOTAL ...	1,29,936	4,119	1,34,055	7,46,23,640	20,67,385	7,66,91 025

EVENUE. 4. The statement below shows the totals for the last five years of the receipts, working expenses, and interest charges for Major Irrigation Works:—

PARTICULARS.	1894-95.	1895-96.	1896-97.	1897-98.	1898-99.
1	2	3	4	5	6
	Rs.	Rs.	Rs.	Rs.	Rs.
Receipts from all sources (less refunds of revenue)	15,20,127	15,07,729	19,02,205	21,72,182	18,39,942
Working expenses (direct and indirect charges)	14,62,049	13,84,340	13,66,707	14,37,681	14,27,467
Net revenue ...	58,078	1,23,389	5,35,498	7,34,501	4,12,475
Charges for interest	24,81,895	24,94,499	24,98,009	24,97,817	24,97,828
Deficit	24,23,817	23,71,110	19,62,511	17,63,316	20,85,353
Rate per cent. on Capital outlay ...	3·79	3·69	3·05	2·74	3·25

5. The financial results of Major Irrigation Works to the end of the year 1898-99 were as follows:— FINANCIAL RESULTS.

		Major Irrigation Works.
		Rs.
Direct revenue		3,21,18,203
Working expenses (direct charges)		2,92,95,827
Results on direct charges only ...	Profit	28,22,376
Indirect charges debitable to revenue ...	...	17,55,835
Results on both direct and indirect charges	Profit	10,66,541
Charges for interest on Capital ...	...	5,86,06,726
Net results, including interest to end of 1898-99	Loss	5,75,40,185

6. The financial results to the close of the year 1898-99 of Minor Works and Navigation are shown below:—

		Works for which capital and revenue accounts are kept.	Works for which only revenue accounts are kept.
		Rs.	Rs.
Direct revenue	...	2,60,38,981	92,91,127
Working expenses (direct charges)	...	1,15,62,792	54,33,788
Results on direct charges only	Profit	1,44,76,189	38,57,339
Indirect charges debitable to revenue	...	3,55,125	2,95,150
Results on both direct and indirect charges	Profit	1,41,21,064	35,62,189

The total expenditure incurred during the year 1898-99 chargeable against 33—Famine Relief was Rs. (—) 566.

7. The areas irrigated by the Major Irrigation Works, during the year 1898-99 and the five previous years, are shown in the following statement:— AREAS IRRIGATED.

Year.	Orissa Canals.				Midnapore Canal.				Sone Canals.				Total.			
	Kharif.	Rabi.	Perennial.	Total.	Kharif.	Rabi.	Perennial.	Total.	Kharif, including five-year and long-term leases.	Rabi, including five-year and long-term leases.	Perennial and hot-weather.	Total.	Kharif.	Rabi.	Perennial.	Total.

The results of the working of each of the canal systems of the Province during the year will now be described separately, as in previous years.

GENERAL.

In all statements showing totals of receipts or expenditure, the figures are those of the Examiner of Accounts. In dealing with details, the figures of the Superintending Engineer have been taken.

ORISSA CANALS.

CAPITAL ACCOUNT.

8. The Capital, Interest, and Revenue Accounts of these canals are given below:—

I.—CAPITAL ACCOUNT.

HEADS OF ACCOUNT.	Outlay during 1898-99.	Outlay to end of 1898-99.
1	2	3
DIRECT CHARGES.	Rs.	Rs.
I.—Works	72,229	1,88,53,980
II.—Establishment	16,495	46,81,444
III.—Tools and plant	1,034	20,71,663
IV.—Suspense accounts	(—)22,010	16
Loss by exchange	......	2,68,070
Total ...	67,748	2,58,75,173
V.—*Less*—Receipts on Capital Account	......	86,795
Net total Direct Charges ...	67,748	2,57,88,378
INDIRECT CHARGES.		
Capitalization of abatement of land-revenue	13	33,246
Leave and pension allowances	2,309	5,51,527
Total Indirect Charges ...	2,322	5,84,773

The construction estimate of these canals is closed. The works carried out during the year at a cost of Rs. 72,229 chargeable to the open Capital Account under the head 43—Minor Works and Navigation, were the construction of permanent outlets, Minor distributaries and village channels, and the restoration of the flood bank of the Kendrapara Extension Canal between Marshaghai and Jumboo which had been wrecked by the flood of July-August 1896. The last work was practically completed within the year.

INTEREST ACCOUNT.

2.—INTEREST ACCOUNT.

	Rs.
Interest charges to end of 1897-98	2,27,67,013
Ditto for 1898-99	10,30,180
Total ...	2,37,97,193

8.—REVENUE ACCOUNT—(Actuals.)

REVENUE ACCOUNT.

Particulars.	Expenditure— During 1897-98.	Expenditure— During 1898-99.	Particulars.	Receipts— During 1897-98.	Receipts— During 1898-99.
1	2	3	4	5	6
	Rs.	Rs.		Rs.	Rs.
Direct charges.					
I.—Works, maintenance, and repairs ...	4,15,789	3,78,227	Water rates ...	3,14,729	2,72,832
II.—Revenue management.	89,326	83,309	Navigation ...	2,11,279	1,72,649
			Miscellaneous ...	28,749	24,523
Total Direct Charges	5,05,115	4,61,536			
			Total ...	5,54,757	4,69,554
Indirect charges ...	34,804	33,677			
Total Working Expenses	5,39,919	4,95,213	*Less*—Refunds of revenue.	2,833	4,062
Net revenue ...	12,005	(—)29,721			
Total ...	5,51,924	4,65,492	Total receipts ...	5,51,924	4,65,492

There was a decrease of Rs. 86,432 in the receipts, and of Rs. 44,706 in expenditure, the result being a deficit of Rs. 29,721, against a profit of Rs. 12,005 in 1897-98.

EARNINGS.

9. The following statement compares the earnings with the outlay for the last two years. The term "earnings" as applied to Irrigation denotes the assessed water-rate value of the Irrigation effected during the year; as applied to Navigation, it denotes the amount of tollage assessed during the year, together with the actual realizations of miscellaneous revenue charged to Navigation. The miscellaneous earnings are the actual receipts during the year under this head:—

Earnings.	1897-98. Rs.	1898-99. Rs.
Irrigation	2,71,401	2,70,272
Navigation	2,10,017	1,67,807
Miscellaneous	28,749	24,523
Total ...	5,10,167	4,62,602
Deduct refunds ...	2,833	4,062
Net earnings ...	5,07,334	4,58,540
Outlay	5,39,919	4,95,213
Net deficit	32,585	36,673

FINANCIAL RESULTS.

10. The revenue receipts and working expenses for the last ten years are tabulated below :—

PARTICULARS.	1889-90.	1890-91.	1891-92.	1892-93.	1893-94.	1894-95.	1895-96.	1896-97.	1897-98.	1898-99.

Total Orissa Canals ...	201¼	75	1,094¾	543,695	571,981	400,751	195,602*	48·88	204¾	75	1,101¼	562,114	596,876	467,834	194,847†	41·65

Note.—In column 13 the areas which are under direct command from the Main Canals are included. Column 14 includes areas which cannot be irrigated unless the Distributary system is extended.

* Includes the chakdars' jagir lands, but excludes areas, of which remission on account of non-irrigation was given.

† Ditto ditto ditto ditto on which the rates were not assessed on account of non-irrigation.

During the year there was no change in the lengths of the canals. In the length of distributaries there was an increase of 6½ miles, due to the construction of minors. The areas shown as commanded and provided with distributaries were revised, as those shown last year were found to be incorrect.

The Superintending Engineer gives, on page 5 of his report, a statement which has been prepared to show the land commanded by the canals which is suitable, or otherwise, for irrigation. The following statement, which has been prepared from it, is interesting as showing the area which is likely to be irrigated ultimately:—

		Acres.	Percentage of gross area.
Gross area commanded by the canals ...	...	562,114	100·0
Area which has been provided with distributaries	...	467,834	85·2
(*a*) Area which has been found irrigable at the full rate (*i.e.* land which more generally requires irrigation) ...	207,326	...	36·8
(*b*) Area found irrigable at reduced rate (*i.e.* land which rarely requires irrigation) ...	21,640	...	3·8
Total area likely to be irrigated ...	...	228,966	40·6
Area which for one reason or another has been classed as not suitable for irrigation	...	238,868	42·4

This shows that about 40 per cent. of the gross area commanded by the canals, or about half the area commanded by existing distributaries, is suitable for irrigation. The remainder for one reason or another is not suitable or does not need irrigation.

12. The number of permanent and temporary outlets which were in use during the year are given in the following table:— OUTL

Division.	Canal system.	Permanent outlets.	Temporary outlets.	Total.	Total area irrigated.	Average area per outlet.
1	2	3	4	5	6	7
		No.	No.	No.	Acres.	Acres.
Mahanadi ...	Taldanda	62	426	488	17,982	37
	Machgong	95	1,018	1,113	33,193	30
Brahmini-Byturni	Kendrapara	181	2,560	2,741	52,038	19
	Gobri	1	129	130	3,708	28
	Do. Extension ...	...	102	102	3,602	35
	Pattamoondi	8	437	445	15,023	34
Acquapada-Jajpur	High Level Canal, Range I	209	309	518	22,232	43
	Ditto, do. II	...	33	33	3,181	96
	Ditto, do. III	3	280	283	29,248	103
	Jajpur	...	307	307	10,624*	35
	Total, 1898-99 ...	559	5,601	6,160	190,414*	31
	„ 1897-98 ...	525	5,793	6,318	195,602	31
	„ 1896-97 ...	524	5,895	6,419	185,048	28

* NOTE.—In the case of the Jajpur Canal the area of the *kharif* season only is taken, as the *rabi* irrigation is done through natural channels without outlets.

During the year a considerable number of permanent outlets was built in the Mahanadi Division and some in the Brahmini-Byturni Division. The total increase was 34 compared with the previous year. In temporary outlets there was a decrease of 192.

RAINFALL. 13. The average rainfall of the last five years at thirteen stations, situated within the canal-irrigated area, is shown below for the *kharif* and *rabi* seasons:—

	Average of thirteen stations.				
	1894-95.	1895-96.	1896-97.	1897-98.	1898-99.
1	2	3	4	5	6
	Inches.	Inches.	Inches.	Inches.	Inches.
Kharif season ... July ...	16·34	8·89	13·93	13·71	9·34
Kharif season ... August ...	9·59	15·91	16·63	12·23	18·14
Kharif season ... September ...	6·79	8·37	9·42	7·48	8·70
Kharif season ... October ...	6·37	5·46	0·02	9·31	10·68
Total ...	39·09	38·63	39·00	42·73	46·86
Rabi " ... November ...	3·07	0·41	0·03	1·72	......
Rabi " ... December ...	0·03	......	......	0·12	0·18
Rabi " ... January ...	0·02	......	0·01	......	0·06
Rabi " ... February ...	0·60	......	2·87	0·07	0·37
Total ...	3·72	0·41	2·91	1·91	0·61
Whole year ...	58·91	63·12	65·86	55·99	58·87

The average fall for the year was 58 87 inches, as compared with a mean average for the last 30 years of 57·45 inches. The average rainfall recorded at nine stations in the Central Provinces, from which area of country the Mahanadi river derives the greater part of the supply, was 48·68 inches in 1898-99, as compared with 52·45 inches in 1897-98.

IRRIGATION. 14. The assessed areas for the last ten years, with the yearly rainfall, are shown in the following statement:—

Year.	Kharif.	Rabi.	Perennial or sugarcane.	Total.	Rainfall.
1	2	3	4	5	6
	Acres.	Acres.	Acres.	Acres.	Inches.
1888-89 ...	156,319	2,779	194	159,292	49·07
1889-90 ...	180,568	5,897	162	186,627	67·95
1890-91 ...	175,829	4,250	220	180,299	63 17
1891-92 ...	173,453	3,943	289	177,685	61·03
1892-93 ...	158,025	2,594	333	160,952	56·43
1893 94 ...	100,406	2,904	216	103,526	74·83
1894-95 ...	118,116	4,102	343	122,561	58·91
1895-96 ...	111,131	7,909	420	119,460	63·12
1896-97 ...	168,533	13,121	375	182,029	65·86
1897-98 ...	185,158	6,972	546	192,676	55·99
Average of previous five years ...	136,669	7,001	380	144,050	63·74
1898-99 ...	186,171	5,054	624	191,849	58·87

NOTE.—The area irrigated during the year was 194,847 acres, against 195,602 in 1897-98. These areas include chaukidars' jagir lands which were excluded from assessment (*vide* paragraph 11).

The area assessed was 827 acres less than the year 1897-98, which showed the largest figure on record since the opening of the canals for irrigation, but it exceeds the average of the previous five years by 47,799 acres.

The Superintending Engineer says:—

"The total area assessed is slightly below that of the previous year, owing to a smaller *rabi* irrigation. This is always liable to fluctuations. It is almost entirely *dalwa* (spring) rice situated in tracts open to floods, and at present we have no proper channels for leading the water to the tracts for which it is wanted. A scheme is under consideration for making a channel for this purpose, which, if it can be carried out, at not too great cost, should lead to an extension of *rabi* irrigation."

15. The following statement shows the details of the assessments, as compared with the figures of the two preceding years:— ASSESSMENT OF CROPS.

Crop.		Rate per acre.	1896-97.		1897-98.		1898-99.	
			Area.	Amount.	Area.	Amount.	Area.	Amount.
1		2	3	4	5	6	7	8
		Rs. A. P.	Acres.	Rs.	Acres.	Rs.	Acres.	Rs.
Kharif	Flow ...	1 8 0	130,504	1,97,590	164,819	2,47,548	165,026	2,47,946
	Lift ...	1 0 0	...	...	...	...	...	...
Dhoya	...	0 8 0	13,287	6,656	19,177	9,584	19,749	9,942
Perennial crops ...	Flow ..	6 0 0	350	1,738	500	2,209	622	3,048

	Lift ...	0 5 0 to 1 8 0	...	...	...	...	...	...
Dhoya	...	0 8 0	31	51	...	...	...	...
Unauthorised irrigation ...	Kharif	...	...	...	.	...	...	...
	Rabi	...	...	...	...	...	...	...
Additional kharif demand assessed after the close of the year.	Flow ...	...	20,173	35,119	1,055	1,519	1,178	1,594
	Dhoya...	...	4,569	2,533	107	52	218	101
Additional perennial crops assessed after the close of the year.	Flow ...	...	1	8	46	228	2	10
	Dhoya	...	...	...	...	...	...	...
Additional rabi assessed after the close of the year.	Flow ...	...	13,064	19,565	6,972	10,261	5,030	7,592
	Dhoya	...	26	39	...	.	...	...
Total ...		...	182,029	2,63,420	192,676	2,71,401	191,849	2,70,272

The total areas leased and assessed, as compared with the previous year, are shown below:—

Crops.	1897-98.		1898-99.	
	Leased.	Assessed.	Leased.	Assessed.
1	2	3	4	5
	Acres.	Acres.	Acres.	Acres.
Long leases	189,451	185,097	191,019	186,058
Season leases.				
Sugarcane	546	546	624	624
Rice, Autumn	61	61	113	113
Rabi (including *dalua* rice) ...	10,051	6,972	5,122	5,054
Unauthorised rice	......	......	......	......
Total ...	200,109	192,676	196,878	191,849

The Superintending Engineer thus explains the difference between the areas leased and assessed:—

"The difference in the areas of long leases shown as leased and assessed is due to the exclusion from assessment of chaukidars' lands of 2,998 acres and to the non-assessment of lands which have been remitted as not irrigable, although they had been leased. The leased areas should have been reduced also by the areas so remitted, and instructions are being given to have the recorded areas amended accordingly."

The distribution by divisions and canal systems of the areas leased, irrigated and assessed is given in the following table, in which sugarcane is classed as *kharif*:—

Division.	Canal system.	1898-99.								
		Leased.			Irrigated.			Assessed.		
		Kharif.*	Rabi.	Total.	Kharif.*	Rabi.	Total.	Kharif.*	Rabi.	Total.

* Includes *Perennial*.

DUTY OF WATER.

16. The statement below shows the duties obtained in the *kharif* season on each of the canals:—

	Supply at head.	Supply used for irrigation.	Duty on supply used.	* Rainfall for period.
1	2	3	4	5
	Cubic feet per second.	Cubic feet per second.	Acres per second.	Inches.
Taldanda system ...	759	663	78	46·96
Kendrapara „ ...	1,117	1,031	71	46·08
High Level Canal, Range I	300	153	145	37·44
Ditto, do. II	35	35	85	35·83
Ditto, do. III	238	238	122	37·62
Jaipur Canal ...	113	90	118	42·53

The figures are of little value, as any duties calculated on averages are misleading. There was no opportunity of testing the real duty during a period of pressure, which is the only true test, as there was ample rain in October.

Some observations on the quantity of water required during the period when the rice is being ploughed in or transplanted in July and August were made in the Jajpur subdivision by Babu Kristo Dhone Banerjee, Supervisor. These showed that in the absence of rain, or with only slight assistance from rain, a duty of only 58 acres per cubic foot per second, as measured at the outlet, was obtained.

Details of the duty on each distributary are given in Appendix I. Until the outlets are adjusted so as to be suitable to the areas to be irrigated, and the supply in the distributaries can, consequently, be better regulated, the results obtained have but little value.

17. The following table gives the general results for the year 1898-99 of the crop experiments, classed under broadcast and transplanted rice :— CROP EXPERIMENTS.

Division.	IRRIGATED LANDS.										UNIRRIGATED LANDS.									
	Number of experiments.	Broadcast.				Number of experiments.	Transplanted.				Number of experiments.	Broadcast.				Number of experiments.	Transplanted.			
		Paddy.		Straw.			Paddy.		Straw.			Paddy.		Straw.			Paddy.		Straw.

„ 1894-95 ...	...	19·59	50·38	...	17·68	37·01	32·86	5·60	29·82	4·24
„ 1895-96 ...	...	17	37	...	15	33	26	4	23	4
„ 1896-97 ..	...	17	38	...	14	33	32·4	4·2	26·6	3·7
„ 1897-98 ...	...	17	29	...	15	28	32	3	27·3	3

The Superintending Engineer writes:—

"The result generally indicates that the crops, both irrigated and unirrigated, were inferior to those of the previous three years, and this, I understand, is the general opinion among the rice merchants. The difference in favour of the irrigated crops is very marked, but our experiments are on too small a scale to be of any great value, though they are undoubtedly of some use as giving indications of the comparative yield."

The average value of the rice outturn from the irrigated lands in Orissa is given by the Superintending Engineer as Rs. 28 per acre, while from the unirrigated lands it is given as Rs. 18 per acre.

18. The demands, collections, and balances of water-rates are shown below for the last five years:— ASSESSMENT AND COLLECTIONS.

Years.	Amount outstanding at commencement of the year.	Amount falling due during the year.	Total for recovery.	Cash realizations.	Remitted or written off.	Balance at the end of the year.
1	2	3	4	5	6	7
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1894-95 ...	63,350	1,68,449	2,31,799	1,93,550	6,109	32,140
1895-96 ...	32,140	2,31,727	2,63,867	2,24,648	4,876	34,343
1896-97 ...	34,343	2,35,517	2,69,860	2,46,777	18,486	4,597
1897-98 ...	4,597	3,16,520	3,21,117	3,14,729	5,724	664
1898-99 ...	664	2,73,191	2,73,855	2,72,382	1,473	Nil

There was no outstanding balance at the end of the year. This is very satisfactory and reflects much credit on the Deputy Collector, Babu Madhub Lall, and his staff. The demands were collected from more than 150,000 persons

Of the total Rs. 1,473 remitted and written off, Rs. 1,338 were classed as remission, and Rs. 135 written off as irrecoverable. Including miscellaneous revenue the total amount realized by the Deputy Collector was Rs. 2,73,211, as against Rs. 3,25,336 realized in the previous year.

CERTIFICATES. 19. The amount of certificate work done in each district is shown in the following statement:—

	Cuttack.				Balasore.				Total.			
	1897-98.		1898-99.		1897-98.		1898-99.		1897-98.		1898-99.	
	Number.	Amount.	Number.	Amount.	Number.	Amount.	Number.	Amount.	Number.	Amount.	Number.	Amount.
1	2	3	4	5	6	7	8	9	10	11	12	13
		Rs.		Rs.		Rs.		Rs.		Rs.		Rs.
Cases for disposal—												
1. Cases pending at the close of the preceding year ...	2	23	...	...	...	...	...	...	2	23	...	...
2. Cases instituted during the year	960	10,749	614	4,940	207	1,932	72	940	1,167	12,681	686	5,880
Total ...	962	10,772	614	4,910	207	1,932	72	940	1,169	12,704	686	5,880
Cases disposed of—												
1. By being struck off	23	669	12	12	7	270	...	...	30	940	12	12

Total ...	962	10,772	614	4,940	207	1,932	72	940	1,169	12,704	686	5,880
Balance ...	...	...	...	...	...	...	...	...	...	...	...	...

The number of certificate cases instituted has shewn a marked decrease for some years past. This is most satisfactory and the Chief Engineer trusts that the decrease will still continue, as there is yet room for improvement. During the year under review the number of cases instituted was 686 against 1,167 in the preceding year, showing a decrease of 481 cases. The certificate process was only resorted to in extreme cases after every other effort to collect the water-rates had failed. There were no certificate cases pending at the close of the year under review, and in no case was any landed property sold or any defaulter sent to jail.

COMPLAINTS. 20. The following table shows the number of objections filed against assessment and disposed of during the year :—

Division.	I.—Ordinary remissions.				II to V.—Other complaints.			Total received during the year.	Pending at end of year.
	Received during the year and pending from previous year.	How disposed of—		Pending.	Received during the year and pending from previous year.	Disposed of.	Pending.		
		Remission allowed.	Remission refused.						
1	2	3	4	5	6	7	8	9	10
	No.	No.	No.	No.	No.	No.	No.	No.	No.
Mahanadi	194	83	110	1	57	57	...	251	1
Brahmini-Byturni ...	201	71	130	...	22	20	2	221	2
Acquapada-Jajpur	224	134	82	8	24	24	...	242	8
Revenue	271	224	42	5	166	163	3	418	8
Total ...	890	512	364	14	269	264	5	1,132	19

The total number of cases received during the year was 1,132, as compared with 1,737 in the previous year. The number pending at the end of the year was reduced from 29 to 19: this is a moderate number.

21. The statement below gives the details of the amounts remitted and written off as irrecoverable during the year, on account of water-rates, &c., which were adjusted in the accounts by a reduction of demand, compared with the figures of the previous year:— REMISSIONS.

Revision of Assessment.

		1897-98.	1898-99.
		Rs.	Rs.
(a) Unirrigated crops	... ...	2,220	1,199
(b) Damage "	... ...	461	43
(c) Chaukidar's jagir	... ...	42	28
Total	...	2,723	1,270

Remissions.

(d) Waste land	... ...	34	40
(e) Land occupied by canals	... ...	...	9
(f) Twice assessed	... ...	149	3
(g) Change of rates	... ...	2,368	2
(h) Erroneous assessments	... ...	83	14
(i) Loss of crops	... ...	349	...
(j) Error in accounts	... ...	...	...
Total	...	2,983	68

Written off.

Irrecoverable demands	... ...	20	135
Total	...	5,726	1,473
Deduct remissions under Miscellaneous Revenue	...	...	...
Net Remissions	...	5,726	1,473
Refunds authorised	... ...	2,536	3,328
GRAND TOTAL	...	8,262	4,801

The amount allowed to be written off as irrecoverable is insignificant and the fact is satisfactory. The account furnished by the Deputy Collector as to the progress made in paying out the amounts authorised to be refunded, is as follows:—

		Rs.
Balance on books as on 1st April 1898	... ...	895
Refunds authorised during year	... ...	3,328
Total	...	4,223
Payments made during year ...	... ...	3,995
Balance on books on 31st March 1899	...	228

This shows an improvement, and the accounts of these payments and of balance unpaid are now being kept in a more methodical manner.

22. There were no appeals to the Collectors of districts from the orders of Canal officers during the year. Eight cases were dealt with by the Superintending Engineer in revision of the proceedings of Divisional Officers. In two cases the decision of Divisional Officers was revised, and in six it was upheld. APPEALS.

23. *Criminal cases.*—In the Mahanadi Division there were three cases instituted, in two of which convictions were obtained and the third was dismissed. In the Brahmini-Byturni Division three cases were instituted, and in the Acquapada-Jajpur Division two cases, in all of which convictions were obtained. The cases were not of a serious nature.

REVENUE ESTABLISHMENT. 24. The cost of the Revenue Establishment for the last five years is shown below:—

	1894-95.	1895-96.	1896-97.	1897-98.	1898-99.
1	2	3	4	5	6
Establishment under Deputy Collector.	Rs.	Rs.	Rs.	Rs.	Rs.
Permanent establisment, including travelling allowance.	43,679	42,735	43,840	46,942	46,572
Temporary establishment	11,166	6,161	14,812	7,886	4,221
Contingencies	3,206	2,457	2,634	3,346	2,520
Headmen's fees	80	172	48	12	...
Establishment under Executive Engineer.					
Permanent and temporary establishments, including travelling allowances.	8,568	8,905	8,623	9,653	9,266
Water-regulation establishment	2,982	2,809	2,821	3,347	3,535
Total ...	69,681	63,239	72,778	71,186	66,114
Collections of water-rates and miscellaneous revenue.	2,12,178	2,43,076	2,63,800	3,25,336	2,73,211
Percentage ...	32·8	26·01	27·58	21·88	24·19

There was a reduction in the cost of both permanent and temporary establishments employed under the Deputy Collector and the Executive Engineers which is so far satisfactory, but the Chief Engineer considers that there is room still for further economy in these establishments. A slight increase took place in the water-regulation establishment.

NAVIGATION. 25. The following statement shows the receipts from "Navigation" for the last five years:—

Year.	Taldanda Canal System.		Kendrapara Canal System.		High Level Canal, Range I.		High Level Canal, Range II.		High Level Canal, Range III.		Jajpur Canal.		Total.	
	Number of miles open.	Tollage receipts.	Number of miles open.	Tollage receipts.	Number of miles open.	Tollage receipts.	Number of miles open.	Tollage receipts.	Number of miles open.	Tollage receipts.	Number of miles open.	Tollage receipts.	Number of miles open.	Tollage receipts.*

1897-98	55¾	18,787	78	1,16,580	33	23,814	12¼	3,554	19	1,120	6½	314	204½	1,64,169
1898-99	55¾	22,236	78	88,313	33	21,466	12¼	3,148	19	813	6½	341	204½	1,36,317

* Exclusive of the receipts from Transport Service and hire of boats and steamers.

The receipts during the year were considerably less than in the previous year. This was chiefly due to the opening of the Bengal and Nagpur Railway.

Regarding the articles of traffic carried on the canals, the Superintending Engineer writes:—

"There was a large reduction in the rice carried, due to slackness in the export trade from Orissa. The reductions in metals and building materials are due to less materials for the railway works having been brought over the canals.

There was some increase in oilseeds, salt and miscellaneous goods, but generally traffic was slack. The railway was open for goods traffic for a few months at the close of the year under review, but it cannot be said to have as yet had any effect on the goods traffic over the canals."

The number of passengers carried during the year was 138,277 against 173,152 in the previous year, showing a reduction of 34,875. This was caused by the opening of the railway. It is probable that before long the passenger traffic on the canals will be almost entirely diverted.

TRAFFIC.

The traffic on the Orissa Canals is detailed below for the last ten years, the Transport Service being excluded:—

		1889-90.	1890-91.	1891-92.	1892-93.	1893-94.	1894-95.	1895-96.	1896-97.	1897-98.	1898-99.

TRANSPORT SERVICE.

26. The total receipts from the Transport Service amounted to Rs. 36,332 against Rs. 47,110 in the previous year, showing a decrease of Rs. 10,778. The cost of working the Transport Service was Rs. 15,989 for establishments, fuel and stores, and Rs. 4,087 for repairs, in addition to which Rs. 4,073 were spent in fitting up a passenger barge. The service worked at a profit of Rs. 12,183.

The Superintending Engineer states:—

"The traffic was well maintained in the early part of the year, but fell off latterly on the temporary opening of the railway for passenger and goods traffic. After December 1899, when the railway will be opened permanently, this service will have to be withdrawn. It can be tried on the Taldanda Canal to see if enough traffic will offer to pay for the working."

MISCELLANEOUS RECEIPTS.

27. The following statement shows the Miscellaneous Receipts in detail for the last five years:—

DETAILS.		1893-94.	1894-95.	1895-96.	1896-97.	1897-98.	Average of previous five years.	1898-99.
1		2	3	4	5	6	7	8

PLANTATIONS.

28. The following table shows the state of the plantations for the last two years:—

Division.	Upwards of 12 feet.		Saplings from 4 to 12 feet.		Seedlings below 4 feet.		Total.	
	1897-98.	1898-99.	1897-98.	1898-99.	1897-98.	1898-99.	1897-98.	1898-99.
1	2	3	4	5	6	7	8	9
Mahanadi ...	22,687	26,113	7,801	5,378	5,269	4,077	35,657	35,568
Brahmini-Byturni ...	45,980	46,899	12,432	11,118	13,776	16,832	72,188	74,849
Acquapada ...	18,134	19,283	4,827	6,956	4,906	6,707	27,867	32,946
Total ...	86,701	92,295	25,060	23,452	23,951	27,616	135,712	143,363

The receipts from plantations amounted to Rs. 3,628 against Rs. 2,346 in the previous year. The expenditure under this head chargeable to the Revenue Account was Rs. 1,403 against Rs. 1,033. There was no expenditure under Capital Account during the year.

FLOODS.

29. The maximum flood-levels recorded during the year are compared in the following table with the maximum levels in 1897-98 and with the highest recorded levels:—

Name of river.	Locality.	1897-98.		1898-99.		Highest recorded flood.	
		Date.	Reading.	Date.	Reading.	Date.	Reading.
1	2	3	4	5	6	7	8
Mahanadi	Naraj above weir	14th August 1897 ...	86·10	15th August 1898 ..	85·30	26th July 1892 ...	92·10
	Do. below weir	14th " " ...	86·05	15th " " ...	85·20	26th " " ...	92·10

Patia .. " ...	Jokodia above weir	24th " " ...	63·60	10th August " ...	61·90	26th " 1894 ...	69·10
	Do. below weir	24th " " ...	63·10	10th " " ..	61·60	26th " " ...	68·70

The year under review was marked by an absence of any high floods in any of the rivers, a similar state of things to that which obtained during the previous year.

MAINTENANCE AND REPAIRS.

30. The charges for maintenance and repairs of the canals during the year compared with the five previous years are shown in the following statement:—

Charges.	1893-94.	1894-95.	1895-96.	1896-97.	1897-98.	Average of previous five years.	1898-99.
1	2	3	4	5	6	7	8
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Extension and improvements.	29,355	6,547	4,768	5,859	15,071	12,320	14,300
Head-works ...	45,757	59,800	57,291	52,859	64,746	56,091	44,615
Main and branch canals	1,27,400	1,21,928	83,277	1,10,116	1,03,547	1,09,253	82,456
Distributaries ...	29,261	27,950	32,694	31,658	29,445	30,202	28,870
Drainage and protective works.	8,237	5,480	8,946	14,734	11,616	9,803	12,904
Cost of working Transport Service.	15,707	13,094	12,851	8,326	8,780	11,751	10,984
Total ...	2,55,717	2,34,799	1,99,827	2,23,552	2,33,205	2,29,420	1,93,629

There was a reduction of Rs. 39,576 in the cost of maintenance and repairs, as compared with 1897-98, the chief economy lay in the expenditure on the main canals and on the distributaries.

The chief works carried out under "Extensions and Improvements" were the construction of a boat dock at Rahama on the Taldanda Canal, and a minor distributary from No. 11 distributary, Taldanda Canal; a wooden bridge across the Machgong Canal at Barabag cattle crossing; an extension of No. 11 distributary, Machgong Canal; a syphon under No. 19B.I. distributary, Machgong Canal; an extension of No. 2 distributary, Pattamoondi Canal; and two minor distributaries on the Pattamoondi Canal.

HEAD-WORKS.

31. The cost of maintaining each of the weirs is shown below:—

NAME OF WEIR.	Length.	EXPENDITURE.			RATE PER RUNNING FOOT.		
		1896-97.	1897-98.	1898-99.	1896-97.	1897-98.	1898-99.
1	2	3	4	5	6	7	8
	Feet.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Naraj	3,833	3,889	3,090	3,652	1·01	0·80	0·96
Mahanadi ...	6,349	14,018	20,372	13,970	2·21	3·20	2·20
Beropa	1,980	7,595	6,337	4,415	3·84	3·20	2·23
Barhmini... ...	4,000	1,119	3,064	2,258	0·28	0·76	0·56
Pattia	783	3,200	4,634	6,357	4·09	5·92	8·12
Bytarni	1,062	4,975	2,199	445	4·12	2·19	0·43
Burra	526	5,311	1,881	906	10·10	3·57	1·72
Total of all weirs ...	18,497	40,107	41,577	32,003	2·11	2·25	1·73

The expenditure on the weirs during the year was Rs. 9,574 less than the previous year and about Rs. 12,000 less than the average of the previous five years; this is satisfactory.

The miscellaneous charges incurred during the year on head-works, exclusive of those on the weirs, were Rs. 12,750 against Rs. 23,259 and Rs. 13,304 in the years 1897-98 and 1896-97.

MAIN AND BRANCH CANALS.

32. The following statement shows the expenditure on each canal for the last three years:—

MAIN AND BRANCH CANALS.		EXPENDITURE.			RATE PER MILE.		
		1896-97.	1897-98.	1898-99.	1896-97.	1897-98.	1898-99.
1		2	3	4	5	6	7
	Miles.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Kendrapara Canal	39	35,688	22,826	21,599	915	585	554
Kendrapara Extension Canal	15	1,848	23,810	4,202	123	1,587	280
Pattamoondi Canal	47	7,433	6,720	5,451	156	143	116
Gobri Canal	15	6,791	8,498	7,189	453	562	479
Gobri Extension Canal	9	2,919	2,506	3,082	324	278	342
Taldanda Canal	51¾	18,151	15,550	14,545	351	299	280
Machgong Canal	32	9,092	7,643	8,145	284	239	254
High Level Canal, Range I	33	15,085	8,433	11,028	457	256	334
Ditto, do. II	12½	2,455	1,897	1,629	196	152	130
Ditto, do. III	19	4,553	3,789	3,573	210	199	188
Jajpur Canal	6½	1,411	1,552	1,873	217	239	288
Total ...	279¾	1,05,416	1,03,151	82,316	377	368	294

There was a reduction of Rs. 20,838 compared with the previous year.

The reason for increase and decrease of each of the canals is given below:—

Kendrapara Canal.—There was a considerable reduction in the charges for silt clearance and dredging.

Kendrapara Extension Canal.—The expenditure was normal. In the previous year, the heavy increase in cost was due to special work required for filling in the breaches caused by the flood of July-August 1896.

Pattamoondi Canal.—The expenditure was rather below normal.

Gobri Canal.—The cost of renewing the upper gates of the Kendrapara Lock and the lower gates of the Gundakia Lock, which was incurred partly in the previous year and partly in the year under review, was exceptional; otherwise the expenditure was ordinary.

Gobri Extension Canal.—The expenditure was a little more than in the previous year. The charges for repairs to canal banks were rather high, owing to the wash of steamers.

Taldanda Canal.—The expenditure was moderate. Some silt clearance was done in the first two miles of the canal where the bed was somewhat choked.

Machgong Canal.—The expenditure was about normal. It was a little more than in the previous year.

High Level Canal, Ranges I, II and III.—The expenditure was normal and moderate. In Range I the weeds were especially bad, as the canal was kept open throughout without any closure. When the steamer service is withdrawn, it will be necessary to close the canal for a considerable period each hot weather to destroy the weeds.

Jajpur Canal.—The expenditure was a little more than last year. It was due to substantial repairs to buildings having been carried out.

DISTRIBUTARIES. 33. The maintenance cost of the distributaries, per mile, is shown below. The average rate of Rs. 26 shows a decrease, as compared with the average mileage rates of 1897-98 and of 1896-97, which were Rs. 27 and Rs. 31, respectively. The cost is less than in the Sone Canals and is extremely moderate:—

	1896-97.			1897-98.			1898-99.		
	Miles.	Cost.	Per mile.	Miles.	Cost.	Per mile.	Miles.	Cost.	Per mile.
1	2	3	4	5	6	7	8	9	10
DISTRIBUTARIES.	No.	Rs.	Rs.	No.	Rs.	Rs.	No.	Rs.	Rs.
Kendrapara Canal System, including Gobri and Gobri Extension	412	10,871	26	412	10,183	[illegible]	520¾*	14,299	27
Taldanda Canal	99¾	2,485	25	100¾	2,549	25	311½ (Taldanda and Machgong)	8,029	26
Machgong Canal	210½	8,662	41	210½	4,933	23			
High Level Canal, Range I	131¼	2,916	22	131¼	4,517	34	260¼† (Ranges I and III)	5,443	21
Ditto, Range III ...	49½	2,447	49	49½	1,803	37			
Pattamoondi Canal	106¾	4,062	38	106¾	2,904	27	...	...	...
Jajpur Canal	...	221	...	79¾	2,555	32	...	[illegible]	[illegible]
Total ...	1,009¾	31,664	31	1,090½	29,444	27	1,092½	28,371	26

NOTE.—The lengths of distributaries in the above are those which have been brought on the revenue account, and consequently differ from the lengths given in paragraph 13 which include all so far advanced as to be fit for use, whether the capital account is still open or not.

* Includes length of Pattamoondi canal.

† Includes length of Jajpur canal.

Regarding distributaries the Superintending Engineer remarks:—

"The expenditure was moderate—indeed, it was, if anything, too moderate, and some of the distributaries require to be brought to a higher standard. It will be as well to spend rather more in these very important works for the next few years. We have now leases nearly up to our full capacity, and it is necessary that the distributaries should be in a position to carry full supplies."

The Chief Engineer concurs in these remarks: it is always difficult to determine the standard to which distributaries should be maintained, but, obviously, that standard should enable the channels to be thoroughly efficient.

DRAINAGE AND PROTECTIVE WORKS. 34. The total expenditure on Drainage and Protective Works was Rs. 12,904 against Rs. 11,920 in 1897-98. It includes the upkeep of 207½ miles of flood embankments, and 279¾ miles of drainage cuts.

On the Taldanda Canal system the expenditure was chiefly confined to raising the flood banks along the Suk Pyka river and at Paradip. The

expenditure on the other systems was normal, and does not call for any special comment.

35. The following table shows the cost of silt-clearing and dredging during the year 1898-99:— DREDGING AND SILT-CLEARING.

Name of Canal.	Silt-clearing.			Dredging.		
	Quantity in cubic feet.	Rate per 1,000 cubic feet.	Cost.	Quantity in cubic feet.	Rate per 1,000 cubic feet.	Cost.
1	2	3	4	5	6	7
	C. ft.	Rs.	Rs.	C. ft.	Rs.	Rs.
Taldanda	1,032,270	3·3	3,392	1,73,883	8·6	1,500
Machgong	44,034	3·1	138	..	...	...
Kendrapara	404,325	2·6	1,051	70,210	5·5	386
Ditto Extension ...	90,896	2·2	200	44,126	5·0	220
Gobri	391,620	2·5	979	15,278	6·0	90
Do. Extension ...	...	...	...	17,340	6·3	110
Pattamovndi	11,050	2·8	31	...	...	...
High Level Canal, Range I	215,372	5·1	1,089	1,68,709	4·2	711
Ditto, do. II	43,811	4·2	183	13,096	4·8	63
Ditto, do. III	2,9[illegible]0	2·4	7	...	...	...
Jajpur	12,765	2·4	31	...	...	...
Total ...	2,249,063	3·2	7,101	5,02,642	6·1	3,080
Total, 1897-98 ...	2,154,356	3·80	8,191	5,99,464	7·34	4,400

Some silt was removed from the heads of the Taldanda and Kendrapara Canals and from the head of the 1st Range of the High Level Canal. It was necessary to dredge the head of the Taldanda Canal, as there was an accumulation of sand, which was reducing the discharge and which could not be moved by the flow of the water. The remaining dredging was in the lock entrances and in clearing ring bunds made during closures. The high rate for the silt clearance in the 1st Range, High Level Canal, is due to the work being done without closing the canal. It was really of the nature of dredging, but by the manual labour instead of by steam.

The cost of rasing and removing the silt lifted by steam dredgers is shown in the following table:—

Name of Canal.	Cost of raising silt by dredging.			Cost of removing silt dredged.		
	Quantity in cubic feet.	Rate per 1,000 cubic feet.	Cost.	Quantity in cubic feet.	Rate per 1,000 cubic feet.	Cost.
1	2	3	4	5	6	7
	C. ft.	Rs.	Rs.	C. ft.	Rs.	Rs.
Taldanda	173,883	4·31	750	173,883	4·31	750
Kendrapara	70,210	3·75	263	70,210	1·75	123
Gobri	15,278	4·0	60	15,278	2·0	30
Do. Extension ...	17,340	4·25	75	17,340	2·0	35
Kendrapara Extension Canal	44,126	3·25	143	44,126	1·75	77
High Level Canal, Range I	168,709	2·0	3[illegible]9	168,709	2·12	372
Ditto, do. II	13,096	3·13	41	13,096	1·68	22

On the Taldanda Canal the high rate for lifting was due to some expensive works at the terminal lock at Paradip. Here Rs. 199 were spent in raising 18,600 cubic feet of silt, the cost of hauling the dredger 50 miles each way being a considerable item. For the silt taken out of the head of the canal 155,283 cubic feet were lifted at a cost of Rs. 549-12-10, which gives a rate of Rs. 3·55 per 1,000.

MIDNAPORE CANAL.

CAPITAL ACCOUNT.

36. The Capital, Interest, and Revenue Accounts of this canal are given below:—

1.—CAPITAL ACCOUNT.

HEADS OF ACCOUNT.	Outlay during 1898-99.	Outlay to the end of 1898-99.
1	2	3
	Rs.	Rs.
Direct charges	Nil	83,12,324
Less—Receipts on Capital Account	Nil	31,558
Total direct charges ...	Nil	82,80,766
Indirect charges	Nil	1,84,661

The construction estimate of this canal was closed on 31st March 1889. There was no expenditure during the year chargeable to Capital Account.

INTEREST ACCOUNT.

2.—INTEREST ACCOUNT.

	Rs.
Interests charges to end of 1897-98	83,93,059

On extensions and improvements an expenditure of Rs. 10,630 was incurred during the year against Rs. 7,001 in the previous year. The work carried out was the revetting of portions of the inner slope of the canal banks with laterite stone for protection against erosion caused by the wash of the steamers. The total length of the banks protected was 13,725 feet. The total expenditure, inclusive of indirect charges, was Rs. 2,73,980 against Rs. 2,40,232 in the previous year, or Rs. 33,748 more, which was mainly due to the abnormal flood of June 1898. The total receipts during the year were Rs. 45,305 less than the previous year. The net revenue of the year was a deficit of Rs. 45,248 against a profit of Rs. 33,805 in the year 1897-98.

LENGTHS OF CANALS AND DISTRIBUTARIES.

39. In the following statement are tabulated particulars concerning the canals and distributaries. There has been no change in the lengths of canals and distributaries, or in the areas protected or commanded:—

Name of Canal	1897-98.								1898-99.							
	Navigable canals.	Canals for irrigation and navigation.	Distributaries and village channels.	Area protected from floods.	Area under command.	Area provided with distributaries.	Area irrigated.	Percentage of area irrigated to area provided with distributaries.	Navigable canals.	Canals for irrigation and navigation.	Distributaries and village channels.	Area protected from floods.	Area under command.	Area provided with distributaries.	Area irrigated.	Percentage of area irrigated to area provided with distributaries.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17
	Miles.	Miles.	Miles.	Acres.	Acres.	Acres.	Acres.	Acres.	Miles.	Miles.	Miles.	Acres.	Acres.	Acres.	Acres.	Acres.
Under Midnapore weir	44	44	260·30	204,400	180,000	100,000	64,002	64·00	44	44	260·30	204,400	180,000	100,000	62,950	62·95
Under Panchkurah weir ...	12	12	35·25	112,640		23,000	7,472	32·48	12	12	35·25	112,640		23,000	10,554	45·89
Under Tidal reaches, Ranges I and II ...	16	16	18·00	30,080		2,000	732	36·60	16	16	18·00	30,080		2,000	1,397	69·85
Total Midnapore Canal ...	72	72	313·55*	437,120	180,000	125,000	72,206	57·76	72	72	313·55*	437,120	180,000	125,000	74,901	59·92

* Of this the length of distributaries is 283·97 miles, and village channels 29·58 miles.

OUTLETS.

40. The following statement shows the areas commanded by the distributaries, and the number of outlets in use:—

Portion of canal.	Total length of channel.	Area commanded.	Number of temporary outlets.		Number of permanent outlets.	
			1897-98.	1898-99.	1897-98.	1898-99.
1	2	3	4	5	6	7
	Miles.	Acres.				
Under Midnapore weir ...	230·72	100,000	795	755	41	40
Do. Panchkurah weir ...	35·25	23,000	187	187	2	3
Do. Tidal reaches, Ranges I and II	18·00	2,000				
Total ...	283·97	125,000	982	942	43	43

There was a decrease of 40 temporary outlets. The number of permanent outlets during the year remained the same as last year. It would appear to be desirable to increase the number of permanent outlet, and the question will be considered.

RAINFALL.

41. The average rainfall of the last five years at four stations within the canal-irrigated area is shown below:—

Stations.	1894-95.	1895-96.	1896-97.	1897-98.	1898-99.	Average of former years.	
						No. of years.	Average rainfall.
1	2	3	4	5	6	7	8
	Inches.	Inches.	Inches.	Inches.	Inches.		Inches.
Midnapore ...	48·99	48·39	50·17	55·32	59·18	30	55·35
Panchkurah ...	71·62	31·54	61·61	40·89	48·14	30	54·56
Luchmapur ...	54·22	39·50	53·92	48·83	52·55	14	55·63
Mowah ...	53·77	27·12	54·64	49·03	46·04	14	51·61
Average ...	55·90	36·66	55·08	48·52	51·48	...	54·29

The rainfall throughout the year was seasonable and favourable for the rice crops. It was heavy in June and August, when 15·64 and 13·82, inches respectively, were registered at Midnapore.

The rainfall in the *kharif* season was distributed as follows:—

MONTH.	Midnapore.	Panchkurah.	Luchmapur.	Mowah.	Average, 1898-99.	Average, 1897-98.
1	2	3	4	5	6	7

1897-98 ...	72,206	...	...	72,206	48·52
Average of previous five years ...	70,426	1,278	...	... 71,704	53·36
1898-99 ...	70,741	4,160	...	74,901	51·48

* Average of four stations throughout the irrigated areas under the Midnapore and Panchkurah weirs.

The total area irrigated during the year was 74,901 acres, including 4,160 acres of *boro* rice classed as *rabi*, as compared with 72,206 acres of the previous year, showing an increase of 2,695 acres. There was no *rabi* irrigation in 1897-98. The area of *kharif* irrigation was slightly less than that of last year.

LEASES.

43. The total area under lease during the year was 76,696 acres, against 72,206 acres in the previous year, showing an increase of 4,490 acres. The following table gives particulars regarding the leases:—

PARTICULARS.	KHARIF.			Sugarcane and other perennial irrigation.	Rabi.	Total.	REMARKS.
	*Long leases.	Annual leases.	Surreptitious irrigation.				
1	2	3	4	5	6	7	8
	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	
Leases in force in 1897-98 ..	71,960	32	214	......	......	72,206

Leases in force at the beginning of 1899-1900 ..	69,402	......	......	......	......	69,402	

* Out of this leased *kharif* area, 1,795 acres which were not irrigated during the year owing to damage done by floods were excluded from assessment.

The Superintending Engineer states:—

"It will be seen from the above table that the area leased under *kharif* was slightly greater than that of the previous year. The area under *rabi* is also shown in the above table, although the water-rates for *rabi* will not be realized until 1899-1900. The total area under lease was not fully irrigated during the year. This was due to an abnormal flood in the Cossye on the 19th June 1898, which breached the Main Canal and also Nos. 1 and 4 distributaries, and thus rendered irrigation impossible for about two months. Fortunately the rainfall was seasonable, so the want of canal-water was not much felt, except on an area of about 6,000 acres on No. 1 distributary, for which a remission of a third of the water-rates was granted. As the flood-water did not subside quickly enough, a large area in the Panchkurah subdivision was thrown out of cultivation, which was afterwards cultivated with *boro* rice. In the Balichak subdivision a limited area could not be irrigated owing to obstructions caused by the new railway. These two areas amounting to 1,795 acres have been excluded from assessment as noted in the statement. A 10 per cent. deduction on account of increase in area by measurement was allowed, as in previous years, an area of 490 acres being thus excluded from lease in 160 villages, the leases of which were completed after measurement during the year. An area of 2,978 acres represents the net increase brought under lease after measurement of the villages, which were previously under provisional license."

44. The duty obtained from the discharge utilized is given below for the last three years:— DUTY OF WATER.

			Under Midnapore weir.	Under Panchkurah weir.	Tidal Reaches, Ranges I and II.	Total.
1			2	3	4	5
1896-97	Kharif ...	Acres	56,334	7,763	1,086	65,183
		Duty on gross supply ...	232	228	...	...
	Rabi ...	Acres	...	...	...	...
		Duty on discharge utilized	..	..	...	...
1897-98	Kharif ...	Acres	64,000	7,472	732	72,206
		Duty on gross supply ...	173	146	...	...
	Rabi ...	Acres	...	...		...
		Duty on discharge utilized	...	...	...	...
1898-99	Kharif ...	Acres	62,950	6,394	1,397	70,741
		Duty on gross supply ...	434	274	...	...
	Rabi ...	Acres	...	4,160	...	4,160
		Duty on discharge utilized	...	191		...

The duties on this canal are generally very large, but some of them are quite abnormal, and, indeed, only possible under most extraordinary circumstances. The matter will be enquired into and further details given in the next report.

45. The total number of experiments made on land irrigated with canal water was 26. The average outturn of the irrigated crop per acre was 17 maunds $27\frac{1}{2}$ seers of paddy and 36 maunds 3 seers of straw. The number of experiments made on unirrigated land was 26. The average outturn of the unirrigated crop per acre was 17 maunds $17\frac{2}{3}$ seers of paddy and 38 maunds and 9 seers of straw weighed dry. The Executive Engineer reports that in one experiment made by the Subdivisional Officer of Luchmapur, the paddy weighed wet 30 maunds 25 seers and straw 82 maunds 28 seers per acre. CROP EXPERIMENTS.

In addition to the above, twelve experiments were made by the zilladars under the Special Deputy Collector, Revenue Division. They gave an average outturn of 17 maunds of paddy and 33 maunds of straw, weighed dry, per acre on irrigated land, against 16 maunds of paddy and 32 maunds of straw per acre on unirrigated land.

The crop experiments on the Midnapore canal are not as fully reported as they should be.

46. The balances, assessments, and recoveries of water-rates on the Midnapore Canal during the last five years are shown in the following statement:— ASSESSMENTS, COLLECTIONS, AND BALANCES.

YEAR.	Amount outstanding at commencement of year.	Amount falling due during the year.	Total for recovery.	Cash realization.	Remitted or written off.	Balance at the end of the year.
1	2	3	4	5	6	7
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1894-95 ...	7,027	1,35,016	1,42,043	1,36,882	612	4,549
1895-96 ...	4,549	1,04,111	1,08,660	98,059	477	10,124
1896-97 ...	10,124	1,05,660	1,15,784	1,00,618	3,727	11,439
1897-98 ...	11,439	1,13,079	1,24,518	1,19,909	1,091	3,518
1898-99 ...	3,518	1,12,341	1,15,859	1,07,554	2,587	5,718

There was a decrease of Rs. 738 in the assessments, and Rs. 12,355 in the collections during the year as compared with the corresponding figures of the previous year, and an increase of Rs. 1,496 in remissions granted. The outstanding balance at the end of the year showed also an increase of Rs. 2,200.

Regarding the increase and decrease the Superintending Engineer writes:—

"Though the balance was a little larger than that of the preceding year, the collections must be taken to be satisfactory, considering the peculiar circumstances. Owing to damage caused to the canal by floods, the villagers at the beginning of the irrigation season could not get water. In October, when the crops were ripening, a plague of grasshoppers came and attacked the rice in No. 1 distributary and did considerable damage, so that the cultivators did not get a good outturn. As a rumour got about that remissions would be granted to those villages in which the crop suffered, the villagers in the Antra subdivision declined to pay up their rates. Notices had therefore to be served in the villages explaining that if remissions were sanctioned by Government, the amount realized would be refunded, but meanwhile the assessment due must be paid in full. It was on this account that the balance at the end of the year was greater than that of the previous year."

"Out of Rs. 1,07,554 collected, Rs 3,275 only were realised by certificate procedure. Twelve tahsildars had to realise a water-rate demand of Rs. 1,04,243 from 39,544 rate-payers in 933 villages within a period of three months. As a matter of fact, the greater part of the demand was realized in two months. The result cannot but be considered satisfactory, and reflects great credit on the Special Deputy Collector and his staff."

REMISSION. 47. The sum of Rs. 2,587 was remitted during the year 1898-99, against Rs. 1,091 in the previous year.

The following are the details:—

	Rs.	A.	P.
Remission granted by Superintending Engineer under rule 28 of the Midnapore Canal Rules	103	8	3
Remission granted by the Special Deputy Collector under rule 24, clause I	144	4	6
Remission granted by the Special Deputy Collector under rule 24, clause II	2,141	6	3
Total ..	2,389	3	0
On account of one-third remission granted, *vide* Bengal Government letter No. 382*I*, of 23rd March 1899 ..	197	15	0
GRAND TOTAL ...	2,587	2	0

The remissions granted during the year were considerably more than in the previous year. They chiefly come under rule 24, II, for damage to crops on account of non-supply of canal-water owing to breaches caused by the flood already referred to. A large number of notices of remissions were issued during the year.

CERTIFICATES. 48. The extent to which recoveries by means of certificates were made during the year is shown in the following statement:—

PARTICULARS.	MIDNAPORE.			
	1897-98.		1898-99.	
	No.	Amount.	No.	Amount.
1	2	3	4	5
Cases for disposal.		Rs.		Rs.
1. Cases pending at the close of the preceding year	31	200	6	80
2. Cases instituted during the year ...	427	3,740	347	3,970
Total ...	458	3,940	353	4,050
Cases disposed of.				
1. By being struck off, owing to the demand having been remitted ...	10	62	4	28
2. By being wholly satisfied	442	3,798	345	3,926
Total ...	452	3,860	349	3,954
Balance outstanding at the close of the year	6	80	4	96

The number of certificate cases instituted during the year was 347, against 427 in the previous year, showing a satisfactory decrease of 80. The number of outstanding cases at the end of the year was 4 against 6 of the year before.

No judgment-debtor was arrested, nor was the immoveable property of any judgment-debtor sold during the year. In one case a warrant of arrest was reported to have been resisted. On enquiry, however, the evidence not being found satisfactory, no prosecution was instituted.

49. The number of complaints filed during the year, and the nature of their disposal, is shown in the following statement:— COMPLAINTS.

Year.	Class of complaints.	Received.			Disposed of.			Balance pending at end of the year.		
		Balance pending from previous year.	Received during the year.	Total.	Allowed.	Refused.	Total.	Received during previous years.	Received during the year.	Total.
1	2	3	4	5	6	7	8	9	10	11
1897-98 ...	Ordinary remission ...	81	261	342	122	169	291	...	...	51
	Other complaints	1	59	60	30	24	54	...	...	6
	Total ...	82	320	402	152	193	345	...	...	57
1898-99 ...	Ordinary remission ...	51	608	659	343	241	584	...	...	75
	Other complaints	6	137	143	124	12	136	...	...	7
	Total ...	57	745	802	467	253	720	...	...	82

It will be seen that out of a total number of 802 cases against 402 in 1897-98, 720 cases were disposed of by the Special Deputy Collector during the year, against 345 in the preceding year. The increase in the number of complaints was due to the large number of applications filed by the villagers for remission of water-rate owing either to non supply of water or damage to crops by flood-water.

50. The cost of the revenue establishment during the last five years is shown below:— REVENUE ESTABLISHMENT.

Establishment under the Collector.	1894-95.	1895-96.	1896-97.	1897-98.	1898-99.
1	2	3	4	5	6
	Rs.	Rs.	Rs.	Rs.	Rs.
Permanent establishment, including travelling allowances.	18,436	17,530	18,650	19,654	20,799
Temporary establishment ...	1,289	332	1,566	2,476	3,242
Contingencies	873	677	1,111	1,689	1,304
Headman's fees	813	656	...	...	...
Total ...	21,411	19,195	21,327	23,819	25,345

In addition to the above, the following sums were paid by the Executive Engineer for water regulation:—

	Water regulation.	
	Permanent.	Temporary.
	Rs.	Rs.
1894-95	1,187	263
1895-96	1,208	129
1896-97	1,095	241
1897-98	1,219	138
1898-99	1,633	...

51. The navigation receipts were Rs. 1,03,681, against Rs. 1,32,235 in the previous years, showing a decrease of Rs. 28,554. The decrease was partly due to the plague, partly to depression in trade, but mainly to the opening of the Bengal-Nagpur Railway. The passenger traffic by the steamers has decreased by nearly 20 per cent. in two years; but there is not any marked decrease, as yet, in the passengers carried by native boats, owing, probably, to the fact that this traffic is mainly between Uluberia and Bansberia only, while the steamer passengers, who chiefly go to and from Calcutta, are more affected by the railway. NAVIGATION.

The Superintending Engineer writes:—

"The tolls received from the Calcutta Steam Navigation Company are almost the same as last year. This is due to the fact that during the year the tollage for the daily double service in the canal was raised from two-fifths to half full tolls and for special trips from half to three-fifths full tolls. These rates will remain in force until the railway enters into direct competition with the canal. The causes which led to the decrease in the private tolls from Rs. 94,566 in 1897-98 to Rs. 66,336 in the year under review, will be explained in the following paragraphs."

"There was a general falling-off both in the export and import trade, the total quantities of goods exported and imported during the year being 53,960 and 43,511 tons, against 86,265 and 45,234 tons, respectively, in 1897-98. The traffic in 1896-97 was the best on record, but that was due to famine in other districts which increased the export trade, and the construction of the Bengal-Nagpur Railway gave a great impetus to the import traffic.'

"The decrease in trade was due partly to the panic caused by the presence of plague in Calcutta, and also to the high flood in the river in June which did considerable damage to the canal banks. The low rates for produce in Calcutta were also not favourable for exports.

"The portion of the canal from Midnapore to Panskura and the Narainghur Distributary was closed for silt clearance and repairs from the 20th March to the 20th April 1898, and again from 19th June to 8th July 1898.

"The traffic on the portion of the canal from Midnapore to Buramulla was stopped by the flood of 19th June 1898, which breached the canal banks in several places. Although traffic on the main canal was restored on the 8th July, it was not till the 21st of August 1898 that the Narainghur Distributary could be re-opened.

"Under 'Exports' decreases are noticeable principally in the case of 'rice' (11,600 tons), 'other food-grains' (15,000 tons), 'sugar' (850 tons), 'building materials' (3,600 tons) and 'miscellaneous goods' (1,500 tons). There was a slight increase in 'oil-seeds' (450 tons) and 'timber' (600 tons). Under 'Import' the principal items which contributed to the decrease were 'oils' (550 tons), 'salt' (850 tons), 'building materials', (900 tons), 'miscellaneous goods' (650 tons), and 'coal and coke' (2,600 tons), the only item which showed any important improvement being 'other food-grains' (4,800 tons). The increase in the import of "other food-grains" was wholly in paddy brought from Calcutta to the Ghatal subdivision of the Midnapore district and the neighbouring tracts, where the effect of the extraordinary high flood in June was most disastrous. The rise in the importation of coal and coke, which began in 1895-96, and was very high in the following year, is gradually falling off as the railway works are approaching completion, and although it was reduced by about 2,600 tons this year, it is still above the normal by about 3,000 tons. The total value of imports and exports was respectively 61 lakhs of rupees and 50 lakhs against 66 and 82 lakhs in 1897-98."

The following statement shows the quantities and values of rice and paddy carried during the principal months of the year as compared with those of 1897-98:—

Months.	99.				1897-98.			
	Rice.		Paddy.		Rice.		Paddy.	
	Tons.	Value.	Tons.	Value.	Tons.	Value.	Tons.	Value.
	2	3	4	5	6	7	8	9
		Rs.		Rs.		Rs.		Rs.
September	1,234	1,23,428	1,701	84,427	3,504	4,36,212	3,054	2,04,110
October ..	1,810	1,75,322	1,708	77,263	2,307	2,69,094	1,596	94,703
November	910	79,587	2,285	99,116	2,201	2,56,250	2,427	1,22,037
December	969	74,506	1,941	61,683	3,002	3,08,395	2,137	95,190
January	1,145	78,017	2,058	91,848	1,795	1,78,516	3,617	1,57,156
Total	6,068	5,30,860	10,291	4,14,337	12,809	14,48,467	12,831	6,78,196

The table illustrates the decrease in trade in these items which are the ones which form the bulk of the traffic on the canal.

TRAFFIC. Particulars regarding the traffic on the canal for the last ten years are tabulated below:—

Description.		1889-90.	1890-91.	1891-92.	1892-93.	1893-94.	1894-95.	1895-96.	1896-97.	1897-98.	1898-99.

Total ..	24,319	22,308	22,017	24,924	23,492	23,412	22,537

53. The expenditure on plantations during the year was Rs. 143 against Rs. 111 of the previous year. The following table compares the condition of the plantations in 1898-99 with 1897-98:— PLANTATIONS.

Year.	Trees upwards of 12 feet high.	Saplings between 4 and 12 feet.	Seedlings below 4 feet.	Total.
1	2	3	4	5
	No.	No.	No.	No.
1897-98 ...	16,358	4,789	4,187	25,334
1898-99 ...	16,122	4,824	4,552	25,498

54. The following table shows the highest levels of the Cossye and Rupnarain rivers, compared with those of last year, and with the highest recorded levels:— FLOODS.

River.	Locality.	1897-98.		1898-99.		Highest recorded.	
		Date.	Reading.	Date.	Reading.	Date.	Reading.
1	2	3	4	5	6	7	8
Cossye ...	Midnapore above weir ...	16th August 1897 ...	85·60	19th June 1898 ...	93·30	19th June 1898 ...	93·30
	Ditto below weir ...	Ditto ..	80·00	Ditto ...	Not observed.	Ditto ...	Not observed.*
	Panchkurah above weir	Ditto ...	32·20	16th September 1898	32·50	10th October 1876 ...	35·00
	Ditto below weir	Ditto ...	32·10	Ditto ...	Not observed.	Ditto ...	34·00
Rupnarain	Dainan	16th July 1897 ...	15·20	1st September 1898	15·50	26th August 1885 ...	17·30
	Kantapukhur	Ditto ...	15·41	Ditto ...	15·90	Ditto ..	16·80

* Highest previous recorded flood at Midnapore 92·30 in 1868.

There were unprecedented floods in the rivers Cossye and Selye on the 19th of June 1898. The maximum height of the flood at Mohunpore was 93·30 and at the workshops 95·50 against 92·30 and 91·70, the previous highest

known readings. The flood caused an immense amount of damage to the canal works. The river Cossye broke through the dock embankment at Mohunpore, and, the flood water passing down the canal, caused breaches in both embankments of the first reach, and did very considerable damage to the distributaries, particularly to Nos. 1 and 4. At Latchmapore the right bank was breached just above the lock, for a length of about 200 feet, and the earth, behind the upper abutments, was scoured out to a depth of 30 feet. Two big breaches occurred in Reach II. One, just above Buramulla lock, was 250 feet in length. The head sluice of No. 28 distributary which was at the site of this breach was carried away completely. The spill on the left bank of the Cossye scoured the north abutment of the anicut to its foundations and severely damaged the apron near the same place.

MAINTENANCE AND REPAIRS.

55. The actual cost of maintenance and repairs during the last five years is shown below:—

	1893-94.	1894-95.	1895-96.	1896-97.	1897-98.	Average of previous five years.	1898-99.
1	2	3	4	5	6	7	8
	Rs.	Rs.	Rs.	Rs.		Rs.	Rs.
Head works, including buildings.	9,480	15,461	26,774	12,693	9,260	14,724	21,476
Main canal and branches...	67,404	68,702	77,291	65,331	74,899	70,725	94,310
Distributaries ...	20,932	18,501	24,601	25,222	19,485	21,748	40,260
Drainage and protective works.	2,058	1,240	3,261	1,898	2,171	2,126	4,684
Working steam-launches and *bholios*.	3,354	698	3,120	3,011	2,882	2,593	2,976
Total ...	1,03,178	1,04,602	1,35,047	1,08,155	1,08,697	1,11,916	1,63,706

The outlay during the year was Rs. 55,009 more than that of the preceding year. The increase took place in all items of the charges. It was mainly due to the very heavy flood of June 1898, which did considerable damage to the canal works, banks and distributaries.

HEAD-WORKS.

56. The expenditure on head-works was Rs. 15,601 against Rs. 5,660 in the previous year, showing an increase of Rs. 9,941. On ordinary repairs Rs. 9,075 were expended, and on flood-damage repairs Rs. 6,526.

The expenditure on the Midnapore and Panchkurah head-works during the year was Rs. 15,601 and Rs. 5,875, respectively, against Rs. 5,660 and Rs. 3,600 in the previous year. On weirs the expenditure was at the rate of Rs. 2·91 per foot run at Midnapore, and Re. 1·7 at Panchkurah, as compared with Re. 0·92 and Re. 1·68, respectively, last year.

MAIN CANAL.

57. The mileage rate for repairs to the main canal was Rs. 2,572, as compared with Rs. 1,858 in the previous year. This, again, was due to heavy repairs made necessary by the flood.

The cost of working steam-launches and *bholios* used for inspection purposes was Rs. 2,976 against Rs. 2,882 in 1897-98. This expenditure was chiefly confined to working the steam-launch *Kaladuck* and Superintending Engineer's inspection launch *Maud.*

The expenditure on Tools and Plant was Rs. 23,776, as compared with Rs. 33,755 in the previous year. The outlay was mainly incurred on thorough repairs to dredging plant at a cost of Rs. 19,499.

DISTRIBUTARIES.

58. On distributaries, the expenditure on repairs was Rs. 40,260, or Rs. 142·26 per mile, against Rs. 19,485, or Rs. 68·85 per mile, in the previous year.

The damage caused to distributaries Nos. 1, 4 and 6 by the flood of June 1898 was excessive, the banks being levelled down in places and the beds filled up especially in the first reaches, where the flood-water was hemmed in between the canal and the railway embankment. No additions or alterations were made to any of the distributaries during the year.

The cost of maintenance per mile of both the main canal and the distributaries is given below for each of the last ten years:—

Year.	Main Canal and Head Works, &c.			Distributaries.		
	Length of canal open.	Total cost of work.	Rate per mile.	Length of distributary channels.	Total cost of work.	Rate per mile.
1	2	3	4	5	6	7
	Miles.	Rs.	Rs.	Miles.	Rs.	Rs.
1889-90 ...	48	93,738	1,953	283	19,769	69
1890-91 ...	48	93,187	1,941	283	11,851	41
1891-92 ...	48	1,30,897	2,727	283	10,365	36
1892-93 ...	48	74,818	1,558	283	12,612	44
1893-94 ...	48	82,246	1,713	283	20,931	74
1894-95 ...	48	86,001	1,792	283	18,501	65
1895-96 ...	48	1,10,446	2,301	283	24,601	87
1896-97 ...	48	82,983	1,728	283	25,222	89
1897-98 ...	48	89,212	1,858	283	19,485	69
1898-99 ...	48	1,23,446	2,572	283	40,260	142

The rate of the distributaries is generally very high.

59. The following statement shows the quantity of work done by each dredger and excavator, and the amount expended on their working during the year:— DREDGING AND SILT CLEARING.

Name of Dredger.	Quantity of earth dredged.	Actual cost of lifting.	Cost of removing.			Lifting rate per 1,000 cubic feet.	Removing rate per 1,000 cubic feet.	Total rate per 1,000 cubic feet.
			Steam-hopper barges and S. L. *Cricket*.	Ordinary hopper barges.	Total.			
1	2	3	4	5	6	7	8	9
	C. ft.	Rs.	Rs.	Rs.	Rs.			
Hector	2,083,395	10,848	2,963	...	13,811	5·20	1·42	6·62
Ajax	2,613,329	6,224	3,715	..	9,939	2·38	1·42	3·80
Atlas	1,826,270	4,870	2,598	...	7,468	2·66	1·42	4·08
Combination	...	320	...		320		...	..
Cadmus	668,106	3,151	...	...	3,151	4·71	...	4·71
Total for 1898-99 ...	7,193,100	25,413	9,276	...	34,689	3·53	1·29	4·82
Total for 1897-98 ...	4,870,508	20,141	9,777	...	29,918	4·13	2·00	6·13

The quantity of silt excavated during the year was considerably more than in the previous year, viz., 7,193,100 cubic feet, against 4,870,508 cubic feet in 1897-98. The cost of lifting and removing was Rs. 34,689, as compared with Rs. 29,918 in the year previous. The rate per 1,000 cubic feet was Rs. 4·82 against Rs. 6·13 in 1897-98: a decrease in rate usually attends an increase in quantity, but the result is satisfactory.

The total quantity of silt cleared by hand during the year was 1,761,998 cubic feet at a cost of Rs. 8,114, or Rs. 4-9-8 per 1,000 cubic feet against 1,151,404 cubic feet at Rs. 7,011, or Rs. 6-1-6 per 1,000 cubic feet in the preceding year. The reduction in cost of the removal of silt was due to the fact that local labour was available at a cheaper rate, as the men could not obtain further employment on the Bengal-Nagpur Railway in the Midnapore district.

60. The receipts from all sources show a decrease of Rs. 45,305, and the working expenses have exceeded those of last year by a sum of Rs. 33,748. The net revenue has decreased from that of last year by a sum of Rs. 79,053. The loss in revenue is mainly due to the depressed state of trade, and the increase in working expenses was caused by the heavy expenditure which had to be incurred in making good the damage done to the canal by the unprecedented flood of June 1898. GENERAL RESULTS.

HIJILI TIDAL CANAL.

CAPITAL ACCOUNT.

61. The Capital, Interest and Revenue accounts of this canal are given below:—

1.—CAPITAL ACCOUNT.

HEAD OF ACCOUNT.	Outlay during 1898-99.	Outlay to end of 1898-99.
1	2	3
	Rs.	Rs.
DIRECT CHARGES	Nil	25,52,654
Less—Receipts on capital account	Nil	925
Net total direct charges ...	Nil	25 51,729
INDIRECT CHARGES.		
Capitalization of abatement of land revenue	Nil	11,210
Leave and pension allowances	Nil	52,303
Total indirect charges ...	Nil	63,513

The remodelling works on the canal were completed in the year 1896-97. During the year no expenditure was incurred chargeable to capital account.

INTEREST ACCOUNT.

2.—INTEREST ACCOUNT.

	Rs.
Interest charges to end of 1897-98	21,39,517
Ditto for 1898-99	1,02,069
Total ...	22,41,586

REVENUE ACCOUNTS.

3—REVENUE ACCOUNT (Actuals).

PARTICULARS.	EXPENDITURE—		PARTICULARS.	RECEIPTS.	
	During 1897-98.	During 1898-99.		During 1897-98.	During 1898-99.
1	2	3	4	5	6
DIRECT CHARGES.	Rs.	Rs.		Rs.	Rs.

Net revenue ...	52,043	24,277			
Total ...	91,431	74,306	Net total receipts	91,431	74,306

67. **The following table shows the state of the plantations for the last two years:—** PLANTATIONS.

YEAR.	Trees upwards of 12 feet in height.	Saplings from 4 to 12 feet in height.	Seedlings under 4 feet.	Total.
1	2	3	4	5
	No.	No.	No.	No.
1897-98	6,683	5,789	436	12,908
1898-99	7,714	5,121	5,276	18,111

The receipts during the year were Rs. 22 against Rs. 14 in the previous year, and the expenditure was Rs. 57 against Rs. 42. The increase in the number of trees was due to a more correct count having been taken by the Executive Engineer.

68. There were no high floods in 1898-99 in any of the rivers crossed by the canal, and no breaches occurred. The following statement shows the highest-flood levels recorded at the locks of the rivers Hooghly, Haldi and Rassalpur during the year compared with the previous year and the highest known floods. FLOODS.

	1897-98.		1898-99.		Highest known flood.	
1	2	3	4	5	6	7
Hooghly river at Gewankhali lock	115·30	On 13th August 1897	115·50	On 3rd August 1898	123·23	Cyclonic storm, 1874
Haldi river at Etamagra lock ...	115·50	Ditto ...	115·90	On 1st September 1898.	120·23(a)	......
Rassalpur river at Kalinagar lock	114·10	On 14th August 1897	114·20	On 4th August 1898	118·50	26th August 1888.

(a) Mr. Vertannes' record without date.

NOTE.—Etamagra readings have been given instead of those at Terapakia. Mr. Vertannes' record refers to Etamagra, and it being a subdivisional head-quarters and close to the river gives better returns than Terapakia. Datum is 103·97 below mean sea-level at False Point.

The highest canal level in Range I at Etamagra was 112·50 on 15th September 1898, and in Range II at Kalinagar it was 112·20 on 13th March 1899 against 112·80 on 25th November and 111·80 on 15th August 1897, respectively.

69. The quantity of silt dredged from Ranges I and II of the canal, and the cost of lifting and removal are shown in the statement below:— DREDGING AND SILT CLEARING.

NAME OF DREDGER.	Cubic feet dredged.	Cost of lifting 1,000 c.ft.	Cost of removing 1,000 c.ft.	Total cost of 1,000 c.ft.	Site of work.
1	2	3	4	5	6
Marchant No. I ...	297,750	4·31	5·00	9·31	Range I, Gowankhali supply channel. Bund between supply channel and main canal at Gowankhali and Gewankhali lock chamber.
Ditto ...	17,500	12·74	5·03	17·77	Range II at Terapakia.
Bruce No. II (new) ...	549,000	3·51	5·00	8·51	Range I and Gowankhali supply channel.
Ditto ...	40,000	3·51	5·00	8·51	Range II at Terapakia.
Total ...	904,250	3·95	5·00	8·95	

No dredging was done in the Sadar khal, which was in a much better state during the year.

The dredgers were kept at work in Ranges I and II, 846,750 c.ft. and 57,500 c. ft. of silt, respectively, being removed at a total cost of Rs. 8,100, as compared with 53,400 c. ft. and 77,500 c. ft. removed from these two ranges during the previous year at a cost of Rs. 5,613. The cost of maintenance per mile of the year was Rs. 1,617, as compared with Rs. 1,385 per mile in the preceding year.

In Range I of the canal the only silt clearance done by hand labour was near Gowankhali. Out of the total length of 6,670 feet to be silt-cleared, about one-third of the work was done during the year. The amount of silt removed was 111,560 c. ft., at a cost of Rs. 798, or an average rate of Rs. 7·15 per 1,000 c. ft., against Rs. 5 per 1,000 allowed last year. Owing to great demand for labour in the neighbourhood, this higher rate was unavoidable.

GENERAL RESULTS.

70. The results of the year are disappointing. There is an increase in expenses and decrease of revenue; the latter, however, is probably only due to the depression in trade and is one of the fluctuations which must be expected.

SONE CANALS.

CAPITAL ACCOUNT.

71. The Capital, Interest and Revenue Accounts of these canals are given below:—

I.—CAPITAL ACCOUNT.

HEADS OF ACCOUNT.	Outlay during 1898-99.	Outlay to end of 1898-99.

Total Indirect charges ...	393	9,17,496

The construction estimate of these canals is closed. During the year the original works sanctioned and carried out, chargeable to the open capital account under 43—Minor works and Navigation, were an escape channel from the Kathrain distributary, Gurra Chowbey Branch Canal, and some permanent outlets on distributaries for long leased areas. The total expenditure incurred on their construction and in completing some of the permanent outlets and regulators, and the syphon and sub-distributary from the Behea Branch Canal, which were in progress in the previous year, was Rs. 12,522. Other original works for extensions and improvements, the estimated cost of each of which, for works alone, amounted to Rs. 1,000 or under, were charged to the revenue account, in accordance with the rules laid down in paragraph 36, Chapter V, Volume II of the Public Works Department Code.

INDIRECT CHARGES	1,007	1,606	2,014	1,385	2,284	1,947	2,518	1,701	1,719	2,474
Total working expenses ...	26,722	53,574	50,683	33,089	56,501	47,426	61,398	40,191	39,388	50,029
Net revenue ...	15,230	(—)25,530	(—)13,768	20,301	2,695	11,099	578	50,755	52,043	24,277

The working expenses were Rs. 50,029, as compared with Rs. 39,388, in 1897-98. On extensions and improvements, the following works were completed or in progress during the years:—

Two lock-bridges—one at Etamagra and the other at Terapakia, for which an estimate amounting to Rs. 3,990 was sanctioned.

A new toll office at Gewankhali: this was sanctioned at a cost of Rs. 1,496, but the expenditure of the year was Rs. 611 only. The work could not be completed owing to the delay in the arrival of iron-work from England.

A weir in front of the Gewankhali supply sluice: this is to exclude the heavy silt-laden water from the supply channel when the sluice is working: the expenditure on this work was Rs. 1,627.

The canal was maintained in an efficient condition throughout the year. The total cost of maintenance, and repairs (exclusive of extensions and improvements, but inclusive of establishment and tools and plant and indirect charges), was Rs. 45,913, as compared with Rs. 39,388 in the previous year. There were no special repairs done to the canal. The whole length was open to traffic throughout the year, with the exception of a short length (about 6,670 feet), which was cross-bunded for silt clearance by hand labour. This, however, did not cause any interruption to traffic, as the supply channel at Gewankhali was used for navigation purposes. About one third of the work was completed during the year under report. The remaining portion will be cleared during 1899-1900.

63. The length of the Canal, Ranges I and II, remains the same as last year, viz., 29 miles from the junction of the lock channel and the Hooghly river at Gewankhali to Kalinagar on the Rassalpur river, of which $12\frac{1}{4}$ miles are in the former range, including the Haldi river crossing, and $16\frac{3}{4}$ miles in the latter. The supply channel at Gewankhali will probably have to be eventually extended still further, as a considerable quantity of silt is carried beyond the supply channel into the canal. LENGTHS OF CANAL, SUPPLY CHANNEL AND PASS KHAL.

64. The rainfall registered at Contai was 55·62 inches against 61·38 inches in the previous year. It was below the average in May and June, up to the average in July, August and September, and in October it was heavier than usual. At Etamagra the rainfall was 55·47 inches against 45·55 inches in the previous year. RAINFALL.

NAVIGATION. 65. The traffic statistics of the canal for the last ten years are given below:—

PARTICULARS.	1889-90.	1890-91.	1891-92.	1892-93.	1893-94.	1894-95.	1895-96.	1896-97.	1897-98.	1898-99.

(a) Inclusive of tolls, paid by the Calcutta Steam Navigation Company.
(b) Inclusive of passengers carried by the Company's steamers.

The tollage receipts were Rs. 73,759 against Rs. 90,755 in the previous year, showing a decrease of Rs. 16,996.

The Superintending Engineer writes:—

"The number of boats that took tickets was 17,694, as compared with 21,438 of 1897-98, and the gross tonnage was 2,29,306 against 2,82,272 in the preceding year. It will be seen from the above that the tonnage and number of boats passing and the tollage receipts were less than in the previous year. The falling-off in tollage was chiefly owing to diminished export trade in rice, paddy and straw due partly to the plague scare and also to the low prices which prevailed in the Calcutta market.

"The receipts from steamer companies were Rs. 6,729 against Rs. 5,787 in the previous year, of which the Calcutta Steam Navigation Company paid Rs. 6,337. The number of passengers carried was 22,422 against 19,924 in the previous year. The India General Steam Navigation Company paid Rs. 392 as tollage on steamers and barges going to Calcutta for repairs and returning therefrom. A few goods and passengers were also taken by them for which they paid Rs. 78 as tollage.

"The exports of rice and paddy were less during the year, but there was an increase in the export of jute, hides and skins.

"Altogether 52,020 tons of rice passed through the canal against 68,911 tons in the preceding year. Its distribution by ranges is given below:—

	1898-99.	1897-98.
1	2	3
	Tons.	Tons.
Range I	21,793	30,239
Range II	13,777	16,286
Both Ranges I and II ...	16,450	22,286
Total ...	52,020	68,911

"The import trade on the Hijili Tidal Canal showed a decrease in rice, miscellaneous goods, metal, salt, tobacco, coal, coke and mustard, as compared with the previous year, while there were increases in sugar, other food-grains, kerosine oil and building materials.

"The issue of through tickets from Kalinagar to Gewankhali and *vice versâ* was sanctioned by Government from 1st February 1899. The effect of this concession in rates in drawing traffic from the Rassalpur and Haldi rivers will be reported on next year."

MISCELLANEOUS RECEIPTS. 66. The miscellaneous receipts for the last five years are shown below:—

The water-rate receipts during the year were Rs. 2,13,228 less than in the previous year, 1897-98. This is due to the fact that the former year was an exceptional one, mainly owing to the fact that the water-rates on the large area of *rabi* irrigated in the famine year 1896-97 were collected in 1897-98. They were, however, more than the average of the last five years by Rs. 56,369. The navigation receipts for the year showed an increase of Rs. 17,138 over those of the preceding year, and were the largest on record since the opening of the canals for traffic. This increase is not likely to be maintained as it is largely due to the construction of the Mogulsarai-Gya Railway.

Under "Working expenses" the works carried out were—the construction of regulators in distributaries, permanent outlets, culverts under roads in connection with village channels, tahsil sheds, remodelling of roofs of lock khalasis' sheds with Allahabad tiles, and minor improvements to drainage. The cost of maintenance and repairs exceeded that of the previous year by Rs. 17,179. The increase was owing to the removal of silt above and below the locks and at the bifurcation by hand, and more extensive repairs to the masonry works.

The Eastern Main series of canals was closed from 26th April to the 5th June 1898, and the Western Main series from 26th March to 9th April 1898.

LENGTHS OF CANALS AND DISTRIBUTARIES.

74. The following table shows the length of canals and distributaries in operation and the areas commanded, provided with distributaries, and irrigated at the close of each of the last two years, respectively:—

Name of Canal.		1897-98.								1898-99.							
		Navigable canals.	Canals for irrigation only.	Distributaries.	Area protected from flood.	Area under command.	Area provided with distributaries.	Area irrigated.	Percentage of area irrigated to area provided with distributaries.	Navigable canals.	Canals for irrigation only.	Distributaries.	Area protected from flood.	Area under command.	Area provided with distributaries.	Area irrigated.	Percentage of area irrigated to area provided with distributaries.

The length of the main canals is the same as last year, while there is an increase of 2 miles in distributaries. This increase is due to the construction of the Pitumpur sub-distributary of the Behea Branch Canal in the Arrah Division. There are no changes in the areas commanded and provided with distributaries.

75. The lengths of village channels and the number of outlets in use during the year were as follows:— VILLAGE CHANNELS AND OUTLETS.

DIVISION.	Total length of village channels completed up to end of 1898-99.		Total number of temporary and permanent outlets in use during 1898-99.	Number of permanent outlets.	Number of temporary outlets.
1	2		3	4	5
	M.	Ft.	No.	No.	No.
Eastern Sone ...	529	3,804	1,660	1,065	595
Arrah	1,345	2,890	2,495	1,915	580
Buxar	1,106	1,587	1,592	672	920
Total, 1898-99 ...	2,981	3,001	5,747	3,652	2,095
Total, 1897-98 ...	2,616	414	6,020	3,634	2,386

During the year the permanent outlets increased from 3,634 to 3,652, and the temporary outlets decreased from 2,386 to 2,095. A total number of 29 permanent outlets was constructed in the Eastern Sone Division, and 17 in the Buxar Division. Many more outlets have been sanctioned for the Buxar Division, the construction of which is in progress. The progress made in the construction of these outlets is not as good as it should be.

As regards village channels made by the villagers themselves, there has been an increase of about 358 miles in length, which may be considered very satisfactory. Progress is also being made in improving the channels, but the Superintending Engineer reports that in order to effect this it has been necessary to bring pressure on the owners by refraining to renew their leases until the improvements are carried out. This is quite right, and the Chief Engineer trusts that the local officers will firmly insist on the improvement of channel as it is by that means that the irrigation is rendered more efficient.

76. The following is a statement of rainfall in the vicinity of the Sone Canals for the last five years:— RAINFALL.

		Average of 22 Stations.				
		1894-95.	1895-96.	1896-97.	1897-98.	1898-99.
1		2	3	4	5	6
		Inches.	Inches.	Inches.	Inches.	Inches.
Kharif season	August ...	14·81	10·41	9·69	12·32	18·32
	September ...	9·50	5·90	2·81	5·40	13·14
	October ...	8·06	0·33	...	5·18	1·05
	Total ...	32·37	16·64	12·50	22·90	32·51
Rabi season	November ...	2·08	...	0·73	...	...
	December ...	0·03	0·14	0·31	...	0·06
	January ...	0·56	0·01	0·03	...	1·64
	February ...	0·61	...	1·08	1·39	0·23
	Total ...	3·28	0·15	2·15	1·39	1·93
	Whole year ...	58·22	36·56	32·05	52·98	54·91

The rainfall of the year was somewhat in excess of the previous one. In the *kharif* season the excess was considerable. It was, however, not nearly so favourably distributed. There was no large fall in June, so useful for ploughing and early sowing, whilst there was a heavy fall, to which the excess in

the *kharif* season is chiefly due, in September during the "Utra Naichhatra," the period of *nigar* or draining of the rice-fields; this was of little advantage to the crops. The "Hathia" rain, on which the maturing of the rice crop is so largely dependent, entirely failed, and the rain held off till nearly the middle of October; the falls, moreover, after the middle of October, were generally light in the irrigated tracts, and there was, in consequence, a heavy demand for canal-water from the 5th of October. The *rabi* rainfall was a normal one and more favourable for the crops than that of the previous year.

The following table shows the rainfall during the "Hathia Naichhatra" and for the succeeding ten days since 1888; it is based on the 22 stations mentioned in subsidiary Form IVE(*a*):—

YEAR.	Average rainfall during the "Hathia," 25th September to 8th or 9th of October.	Average rainfall during ten days after the "Hathia."	In the Shahabad district only. Period of maximum demand for water in any period of ten days.	In the Shahabad district only. Average daily discharge during that period per 100 acres leased.
1	2	3	4	5
	Inches.	Inches.	October.	C. ft.
1888	0·18	Nil	12th to 21st	2·00
1889	0·02	0·11	6th to 15th	1·92

1898-99 ...	304,778	110,035	25,983*	440,796	55·74

* Hot-weather crop.

The figures in columns 4 and 5 above and below the black line are not strictly comparable owing to different system of dealing with the hot-weather irrigation.

The total area irrigated was 7,351 acres more than that in the previous year.

IRRIGATION UNDER LEASES.

78. The following statement gives the areas of each crop irrigated under season and long term (seven and three-year) leases from 1893-94 to 1898-99 under the new rules:—

CROPS.		1893-94.	1894-95.	1895-96.	1896-97.	1897-98.	Average of previous five years.	1898-99.
1	2	3	4	5	6	7	8	9
		Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.
Kharif ...	Long-term leases.	254,515	233,756	227,761	244,122	269,234	245,877	278,760
	Season leases	26,013	24,605	33,724	72,819	29,827	37,398	26,018
		280,528	258,361	261,485	316,941	299,061	283,275	304,778
Rabi ...	Long-term leases.	37,231	30,234	31,157	30,709	34,239	32,714	35,567
	Season leases	29,227	11,430	84,186	184,681	69,132	75,731	74,468
		66,458	41,664	115,343	215,390	103,371	108,445	110,035
Hot-weather...	Season leases	19,790	17,109	18,394	22,825	31,013	21,826	25,983
Total ...		366,776	317,134	395,222	555,156	433,445	413,546	440,796
	Total long-term leases.	291,746	263,990	258,918	274,831	303,473	278,591	314,327
	Total season leases.	75,030	53,144	136,304	280,325	129,972	134,955	126,469

Under the new rules for the Sone Canals there are no separate leases for sugarcane: they are included in each season lease.

The total areas irrigated under each form of lease are abstracted as follows for convenient reference:—

	1893-94.	1894-95.	1895-96.	1896-97.	1897-98.	Average of previous five years.	1898-99.
1	2	3	4	5	6	7	8
	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.
Area irrigated under long-term leases.	291,746	263,990	258,918	274,831	303,473	278,591	314,327
Area irrigated under season leases.	74,292	51,913	120,392	259,323	127,190	126,622	119,337
Area irrigated by sale by volume	57	55	13,856	18,100	1,077	6,629	3,777
" " without permit	681	1,176	2,056	2,902	1,705	1,704	3,355
Total ...	366,776	317,134	395,222	555,156	433,445	413,546	440,796

During the year there was an increase of 10,854 acres in the areas irrigated under long-term leases. The area of *rabi* crops irrigated varies greatly with the season; when there is good rainfall in October the *rabi* area is always small. The *rabi* crop is mainly irrigated under season leases, only a small portion of the area falls within the long-term leases.

Owing to the failure of rain during the *hathia* there was a very heavy demand for canal-water from the 5th of October. This excessive demand was met in a satisfactory manner.

The hot-weather irrigation decreased from 31,013 acres in 1897-98 to 25,983 acres, but though less than last year, it was still above the average of previous years. There is only a small volume of water available for this kind of irrigation, and the area can not be very largely increased.

SUGARCANE.

As sugarcane is the only crop for which canal water is taken during the hot weather, the irrigation during that season may be accepted with accuracy as the area of sugarcane irrigated as one crop. The areas irrigated in the several divisions are given below:—

	Acres.
Eastern Sone	3,462
Arrah	16,483
Buxar	6,038
Total ...	25,983

DISTRIBUTION BY SUBDIVISIONS.

The areas irrigated in 1898-99 in each division and subdivision are shown below:—

	Acres.	Acres.
Eastern Sone Division—		
Daudnagar subdivision	45,492	
Bikram ditto	44,986	
		90,478
Arrah Division—		
Nasriganj subdivision	39,222	
Koath ditto	67,724	
Ramnagar ditto	60,151	
Agiaon ditto	34,663	
		201,760
Buxar Division—		
Sikroul subdivision	80,289	
Jamrore ditto	47,216	
Basawan ditto	21,053	
		148,558
Total ...		440,796

LONG-TERM LEASES.

Particulars of the long-term leases are given in the following statement:—

Division.	Leases which lapsed on 31st March 1898.	Leases in force on 1st April 1898.		Seven-year leases entered into during 1898-99.	Total area under long-term leases in 1898-99.
		Seven-year leases.	Three-year leases.		
1	2	3	4	5	6
	Acres.	Acres.	Acres.	Acres.	Acres.
Eastern Sone ...	178	67,782	...	3,859	71,641
Arrah ...	33	138,450	644	1,003	140,097
Buxar ...	......	80,730	...	5,740	86,470
Total ...	211	286,962	644	10,602	298,208

The leases which lapsed on the 31st March 1898 were all three-year leases: the 644 acres of three-year leases which remained in force on the 1st April 1898 have lapsed on the 31st March 1899. So three-year leases are now extinct. No seven-year leases lapsed on the 31st March 1898, and consequently none were renewed, the 10,602 acres leased during the year are for new blocks.

UNAUTHORIZED IRRIGATION.

79. The assessments for the unauthorized use of water and for wastage were greater than those of the previous year. The figures are:—

	1893-94.	1894-95.	1895-96.	1896-97.	1897-98.	Average of previous five years.	1898-99.
1	2	3	4	5	6	7	8
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Unauthorized use of water.	4,760	6,910	8,568	13,253	9,576	8,613	23,309
Wastage of water ...	615	682	1,103	2,460	1,196	1,211	3,529

80. The assessments for water sold by "volume" amounted to Rs. 6,044, against Rs. 1,762 in the previous year. SALE BY VOLUME.

The approximate area irrigated is given below:—

DIVISION.	Approximate area, 1897-98.	Approximate area, 1898-99.
1	2	3
	Acres.	Acres.
Eastern Sone	184	417
Arrah	893	2,842
Buxar	...	518
Total ...	1,077	3,777

This increase of 2,700 acres during the year is due to the smaller rainfall in the *Hathia*.

81. The following statement shows the areas of the several crops actually irrigated in each Division since the year 1892-93, when the new rules came into force:— IRRIGATION IN EACH DIVISION.

YEAR.	EASTERN SONE DIVISION. Long-term leases.	Season Leases. Kharif.	Rabi.	Hot-weather.	Total.	ARRAH DIVISION. Long-term leases.	Season Leases. Kharif.	Rabi.	Hot-weather.	Total.	BUXAR DIVISION. Long-term leases.	Season Leases. Kharif.	Rabi.	Hot-weather.	Total.	TOTAL FOR ALL DIVISIONS. Long-term leases.	Season Leases. Kharif.	Rabi.	Hot-weather.	Total.

97-98	70,823	7,372	7,503	3,808	80,506	148,515	3,636	32,203	18,664	203,077	84,185	18,810	29,367	8,541	140,863	303,473	29,827	69,132	31,013	433,445
98-99	74,090	6,635	5,691	3,462	90,478	149,642	6,579	29,056	16,483	201,760	89,095	12,504	39,731	6,038	148,588	314,327	26,018	74,468	25,983	440,796

82. The following table gives the duties obtained during the *kharif* and *rabi* seasons on the several canals for the last three years:— DUTY OF WATER.

Kharif.

	1896-97.		1897-98.		1898-99.	
	Acres.	Duty.	Acres.	Duty.	Acres.	Duty.
1	2	3	4	5	6	7
Eastern Main Series	82,366	53·97	72,802	61·75	75,490	62·08
Arrah Canal System	141,569	64·35	133,053	82·79	136,794	75·66
Buxar Canal System	93,006	64·05	93,206	86·70	92,494	77·73
Western Main Series	234,575	63·38	226,259	83·52	229,288	76·04
Sone Canals	316,941	60·64	299,061	76·92	304,778	72·03

But these duties are of no practical value, as the real duty of the water is that of the maximum period of demand in October.

Rabi.

1	1896-97. 2	3	1897-98. 4	5	1898-99. 6	7
	Acres.	Duty.	Acres.	Duty.	Acres.	Duty.
Eastern Main Series	23,879	64·19	12,896	54·64	11,526	48·63
Arrah Canal System	76,523	87·26	51,360	78·65	48,483	93·06
Buxar Canal System	114,988	125·40	39,115	74·93	50,026	75·45
Western Main Series	191,511	106·75	90,475	77·00	98,509	83·20
Sone Canals	215,390	99·44	103,371	73·31	110,035	77·44

The Superintending Engineer writes:—

"On the assumption that the whole *kharif* area was irrigated during the ten days of maximum demand in October, the duty works out to 55 acres per cubic foot of discharge in the Main Western Canal. This, though higher than in 1896-97, may be attributed to the greater moisture in the soil in the year under review owing to the very heavy rain in the early part of September. On the Main Eastern Canal the duty is given by the Executive Engineer as 53 acres nearly. The *kharif* season duty is vitiated by the running of the flushes to clear silt. A slightly better duty was obtained during the *rabi* season.

"The Executive Engineer of the Arrah Division repeats the table, which has now been given for some years, showing the aggregate depth of water placed on the rice-fields, on the hypothesis that the entire 'utilized' discharge of the canal reached the fields. The figures take cognizance of the months July to October inclusive, thus:—

Year.	Aggregate depth due to— Rainfall.	Aggregate depth due to— Canal water.	Total.
1	2	3	4
	Feet.	Feet.	Feet.
1887-88 ...	2·56	2·60	5·16
1888-89 ...	3·47	2·93	6·40
1889-90 ...	2·81	2·62	5·43
1890-91 ...	3·36	2·42	5·78
1891-92 ...	1·60	3·75	5·35
1892-93 ...	2·37	3·04	5·41
1893-94 ...	2·89	2·14	5·03
1894-95 ...	3·59	2·09	5·68
1895-96 ...	2·33	3·02	5 35
1896-97 ...	1·56	3·22	4·78
1897-98 ...	3·29	2·37	5·66
1898-99 ...	3·94	2·31	6·25

The total area irrigated on the distributaries during the year and the duty of water on them are shown in the subjoined abstract statement. The detail of each distributary is given in Appendix II.

The season duty as given in the tables is of little practical use so far as the *kharif* irrigation is concerned, as its limitation is the duty obtainable during the "Hathia." A comparison made by the Executive Engineer, Arrah Division, for a number of distributaries in the Koath subdivision shows the "Hathia" or effective duty to be on an average one-third of the season duty. Some experiments were made on the loss of water in distributaries in the Eastern Sone and

Arrah Divisions. The loss per cent. per mile varies from about 1 to 3·5 cubic feet according to the nature of the soil through which the distributaries run:—

Distributary.	Areas irrigated in acres.				Mean duty in acres per cubic foot of discharge.			Remarks.

CROP EXPERIMENTS.

83. *Crop experiments.*—The results of the experiments made during the year to determine the yield of rice and wheat crops irrigated from the canal are given in the following tables:—

TABLE I.—RICE.

Result of experiments on "good" rice crops irrigated with canal water for the year 1898-99.

Division.	Number of experiments.	Average yield per acre weighed dry. Grain. Maunds.	Grain. Seers.	Straw. Maunds.	Straw. Seers.
1	2	3	4	5	6

Arrah	29	17	15	33	16
Buxar	31	14	33	22	28
Sone Circle average ...	82	17	21	29	25

The difference between Table I and Table III shows 5 maunds 6 seers of grain per acre in favour of the canal-irrigated lands. In the previous year, when there was better rainfall in October, the similar difference was only 1 maund 7 seers. The Superintending Engineer is of opinion that this

difference illustrates the fact that the crops which are matured without canal-water suffer much more in a comparatively dry October than crops irrigated from the canals.

The following tables deal with *rabi* crops. The results indicate little or no difference between the yield of crops irrigated from canal water and those otherwise raised:—

TABLE I.—RABI.

Result of experiments on "good" rabi crops irrigated with canal water for the year 1898-99.

Division.	Staple.	Irrigated with canal water. Number of experiments made.	Average yield per acre. Grain. Maunds.	Grain. Seers.	Straw. Maunds.	Straw. Seers.

DEMANDS, COLLECTIONS AND BALANCES.

84. The demands, collections, and balances of water-rates for the last five years are shown below:—

Year.	Amount outstanding at commencement of year.	Amount falling due for recovery during the year.	Total for recovery.	Cash realisation.	Remitted or written off.	Balance at the end of the year.
1	2	3	4	5	6	7
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1894-95 ...	1,01,858	6,86,905	7,88,763	7,43,863	4,091	40,809
1895-96 ...	40,809	6,56,246	6,97,055	6,69,045	5,017	22,993
1896-97 ...	22,993	9,50,866	9,78,859	9,58,926	5,505	9,428
1897-98 ...	9,428	11,38,356	11,47,784	11,42,244	4,065	1,475
1898-99 ...	1,475	9,30,504	9,31,979	9,29,016	2,963	...

ARREARS.

85. The following statement shows the extent to which the arrears as well as the current demand have been worked off:—

	Demand of 1898-99, consisting of—	Collected or remitted in 1898-99.	Percentage of demand adjusted.	Unadjusted balance at close of year.
1	2	3	4	5
	Rs.	Rs.		Rs.
Arrears outstanding on 1st April 1898 ...	1,475	1,475	100	...
Current demand for 1898-99	9,28,088	9,28,088	100	...
Total ...	9,29,563	9,29,563	100	...

The fact that the entire outstanding demand of the previous year and the current demand of the year itself have been adjusted in full is exceedingly satisfactory. The results are highly creditable to the Deputy Collector, Moulvi Syed Mahomed Nasiruddin, and his staff.

86. The following statement gives the collections in each district:— COLLECTION.

DISTRICT.	DEMAND.			ADJUSTMENTS.				Balance on 31st March 1899.	Percentages, column 8 on column 4.
	Arrears on 31st March 1898.	Current demand for 1898-99.	Total.	Collection.	Remission made by canal officers.	Written off as irrecoverable.	Total.		
1	2	3	4	5	6	7	8	9	10
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Shahabad	1,450	7,36,724	7,38,174	7,35,382	2,404	388	7,38,174	Nil	100
Patna	25	88,113	88,138	88,064	7	...	88,138	Nil	100
Gaya	...	1,03,251	1,03,251	1,03,154	97	...	1,03,251	Nil	100
Total ...	1,475	9,28,088	9,29,563	9,26,600	2,575	388	9,29,563	Nil	100

Besides the collections of water-rates amounting to Rs. 9,26,600 shown above, a further sum of Rs. 2,776 was collected as miscellaneous revenue by the Canal Revenue Department and credited to water-rate accounts.

87. The sums remitted in 1898-99 and previous five years, according to the figures supplied by the Superintending Engineer, were:— REMISSIONS.

	1893-94.	1894-95.	1895-96.	1896-97.	1897-98.	Average of previous five years.	1898-99.
1	2	3	4	5	6	7	8
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
i. Written off by Civil officers as irrecoverable.	3,226	2,665	3,811	716	722	2,228	388
i. Remissions granted by Executive Engineers, including refunds.	2,180	2,640	2,430	8,529	10,050	5,166	2,992
i. Extraordinary remissions by Superintending Engineers.	...	189	298	730	428	329	701
v. Remitted on revised and cancelled khatians.	15,251	8,370	3,574	4,527	2,250	6,794	1,520
Total ...	20,657	13,864	10,113	14,502	13,450	14,517	5,601
Number of certificates issued during the year.	2,219	2,019	1,253	1,036	774	1,460	376

There was considerable improvement during the year in all items connected with the refund or remission of water-rates. The total amount remitted was Rs. 5,601, against Rs. 13,450, in the previous year and Rs. 14,517 in the average of the previous five years. The heading ii includes both remissions and refunds; the remissions are, in most cases, the correction of wrong assessments made before the demands have been collected; the refunds are mostly similar assessments which have been collected and have to be refunded in cash. It is these last which give the most trouble, both to the people, who pay improperly, and to the collecting staff which has to collect and then to refund. It is satisfactory to notice that these refunds which were Rs. 7,136 in 1897-98 were only Rs. 1,118 in 1898-99, indicating that a larger proportion of remission papers reached the Deputy Collector before the rates were collected Of the extraordinary remissions of Rs. 701, the amount remitted by the Superintending Engineer was Rs. 81 only, and the balance, Rs. 620, was written off as unsettled balance outstanding for three years, which could not be vouched for by actual receipts pending in the hands of the collecting officers. But the most satisfactory feature of all is the marked reduction of the numbers of certificates issued. During the previous five years the average number was 1,460, but in the year

under review the entire sum has been collected with only 376 certificates. This fact indicates that the people are contented and pay their water-rates willingly.

The following table gives the details of the remissions (including refunds) made by Executive Engineers by Divisions :—

Class.	Causes.	Eastern Sone Division.	Arrah Division.	Buxar Division.	Total 1898-99.	Total 1897-98.
1	2	3	4	5	6	7
		Rs.	Rs.	Rs.	Rs.	Rs.
a	Charge by mistake for land cultivated by others	...	...	...	...	...
b	Excess measurement or errors in calculation	25	395	223	643	1,508
c	Lift charged as flow	8	15	20	43	313
d	Irrigation not denied, but remitted as not chargeable under the Act	2	17	25	44	68
e	Land not having been irrigated at all	67	119	188	374	1,083
f	Injury to crop due to insufficient supply	...	38	30	68	1,711
g	Land thrown temporarily out of cultivation (applicable to long leases only)	24	11	69	104	8
h	Failure of crop originally shown, Rule 82	72	753	763	1,588	5,040
i	Land appropriated for other purposes than cultivation ...	6	2	23	31	29
j	Double assessment, as when land assessed on a season lease is subsequently included in a long lease in the same year	8	33	56	97	290
	Total ...	212	1,383	1,397	2,992	10,050

The totals for the last six years are given below :—

1893-94.	1894-95.	1895-96.	1896-97.	1897-98.	Average of previous five years.	1898-99.
Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
2,180	2,040	2,430	8,529	10,050	5,166	2,992

More than half the amount remitted during the year by Executive Engineers was on account of failure of crops, for which a reduced rate was levied. It occurred chiefly in the hot-weather season.

The percentage of remissions on the gross demand was as follows in each Division :—

	Percentage of remissions to gross demand. 1897-98.	1898-99.
Eastern Sone Division	0·17	0·08
Arrah ditto	0·26	0·22
Buxar ditto	0·27	0·25

88. The following statement shows the cost of the revenue establishment for the last five years:— REVENUE ESTABLISHMENT.

PARTICULARS.	1894-95.	1895-96.	1896-97.	1897-98.	1898-99.
1	2	3	4	5	6
Establishment under Collector.	Rs.	Rs.	Rs.	Rs.	Rs.
1. Permanent establishment, including travelling allowances	54,311	55,460	62,633	66,259	65,370
2. Temporary establishment ...	3,217	3,960	3,030	5,553	4,374
3. Contingencies	5,596	4,248	6,053	6,048	4,783
4. Headmen's fees	8,309	9,431	99	...	...
5. Fees to patwaris	114	...	...	...	...
6. Fees to contractors of long-term leases	...	2,485	2,674	2,643	2,562
Total establishment under Collector ...	71,547	75,590	74,489	80,503	77,089
Establishment under Superintending and Executive Engineers.					
Permanent and temporary establishment, including travelling allowances ...	45,335	46,703	51,357	50,085	46,175
Contingencies	3,936	2,745	4 240	5,494	4,786
Water-regulation establishment ...	2,246	2,270	2,357	2,573	2,316
Headmen's fees	23,896	15,003	18,087	24,203	22,326
Total establishment under Executive Engineers.	75,413	66,721	76,041	82,355	75,603
Total ...	1,46,960	1,42,311	1,50,530	1,62,858	1,52,692
Collections of water-rates and miscellaneous revenue by the Canal Revenue Department	7,45,691	6,79,702	9,59,350	11,43,593	9,29,376
Percentage	19·7	20·9	15·6	14·2	16·4

There was a total reduction of Rs. 10,166 in the cost of establishment on account of the less demand for the year. The reduction took place under all heads. The decrease under permanent and temporary establishments, including travelling allowances and contingencies, was chiefly due to grain allowances being stopped, to a smaller number of substitutes being employed in place of men on leave, to a reduction in the number of the temporary establishment and to the reduction in headmen's fees which followed the reduction in demand. The Chief Engineer believes that a reduction is still possible in the establishment under the Deputy Collector, and trusts that the Superintending Engineer will see if it cannot be effected.

89. The total cost of the revenue establishment under each Executive Engineer, per acre irrigated, is shown below:— COST PER ACRE.

DIVISION.	1898-99.			1897-98.
	Revenue* establishment.	Area irrigated.	Cost per acre.	Cost per acre.
1	2	3	4	5
	Rs.	Acres.	A. P.	A. P.
Eastern Sone	17,933	90,478	3 2	3 3
Arrah	31,081	201,760	2 6	2 7
Buxar	26,588	148,558	2 10	3 6
Total Sone Canals ...	75,602	440,796	2 9	3 0

* Includes proportion of water-regulation establishment employed on the head works.

COMPLAINTS.

90. The following statement gives particulars of the disposal of complaints. Claims for ordinary remission are distinguished from other complaints, such as petitions alleging damage from the canals, complaints against individuals, and other miscellaneous claims. The totals are compared with those of the two previous years:—

Division.	Claims for Ordinary Remission—				Other Complaints—			Total complaints received during the year, excluding those pending from previous year.	Pending.
	Received during the year and pending from previous year.	Disposed of—		Pending.	Received during the year and pending from last year.	Disposed of.	Pending.		
		Remission allowed.	Remission refused.						
1	2	3	4	5	6	7	8	9	10
	No.	No.	No.	No.	No.	No.	No.	No.	No.
Eastern Sone ...	187	99	82	6	92	91	1	270	7
Arrah	1,562	743	743	76	1,068	1,055	13	2,573	89
Buxar	1,302	463	783	56	500	493	7	1,528	63
Total, 1898-99 ...	3,051	1,305	1,608	138	1,660	1,639	21	4,371	159
Total, 1897-98 ...	4,251	1,806	2,224	221	2,140	2,021	119	5,351	340
Total, 1896-97 ...	8,928	3,303	4,780	845	588	393	195	9,005	1,040

The reduction in the number of complaints pending at the close of the year from 340 to 159 is satisfactory. There has been a marked improvement in the Buxar Division, but the large figures in 1896-97 were due to the heavy demand for *rabi* irrigation in that year.

APPEALS.

91. The following statement shows the number of appeals to the Collectors of districts against Executive Engineers' decisions on a total of 4,552 cases of complaints and how they were disposed of:—

Division.	Number of Appeals—		Appeals allowed.	Appeals discharged.	Pending.
	Pending from last year.	Instituted during the year.			
1	2	3	4	5	6
	No.	No.	No.	No.	No.
Eastern Sone ...	...	...	...	...	...
Arrah ...	1	6	2	4	1
Buxar ...	...	2	...	2	...
Total ...	1	8	2	6	1

Of the appeal cases, two were against assessment for unauthorised irrigation rates Of these two, one only was modified.

CASES UNDER ACT III (B.C.) OF 1876.

92. Thirty-seven cases were tried by Executive Engineers vested with magisterial powers under the Act. Forty-four persons accused were convicted, and 19 discharged. The fines imposed amounted to Rs. 180. Of the 37 cases, 35 were instituted in the Bikrum subdivision, the result being 20 convictions and 15 acquittals. They were principally for neglecting to prevent wastage of water from village channels, interference with supply and obstructing flow, under section 93 of the Irrigation Act. Only one case was tried under section 16 of the Navigation Act V of 1864.

93. The usual comparative statement of certificate cases instituted during 1897-98 and 1898-99 against defaulters for failing to pay water-rates, in the districts of Shahabad, Patna, and Gaya, is given below:— CERTIFICATE CASES.

	Shahabad.				Patna.				Gaya.				Total.			
	1897-98.		1898-99.		1897-98.		1898-99.		1897-98.		1898-99.		1897-98.		1898-99.

94. The navigation receipts for the last five years are shown in the statement below:— NAVIGATION.

NAVIGATION RECEIPTS.

Year.	Eastern Main Series.			Western Main Series.			Total.	Total tollage only.
	Number of miles open.	Tollage receipts.	Transport service receipts.	Number of miles open.	Tollage receipts.	Transport service receipts.		
1	2	3	4	5	6	7	8	9
	No.	Rs.		No.	Rs.	Rs.	Rs.	Rs.
1894-95 ...	86¼	19,787	...	132¼	29,562	9,550*	58,899	49,349
1895-96 ...	86¼	22,082	...	132¼	29,288	9,891*	61,261	51,370
1896-97 ...	86¼	20,249	...	132¼	36,196	13,561*	70,006	56,445
1897-98 ...	86¼	22,687	...	132¼	42,355	23,384*	88,426	65,042
1898-99 ...	86¼	37,394	...	132¼	55,657	12,512*	1,05,563	93,051

* There is no longer any Government transport service. These receipts are on account of hire of steamers, boats and sundries.

The receipts show an increase of Rs. 17,137 compared with the previous year, and are the largest on record since the opening of the canals for traffic. The increase is mainly due to the transport of coal and building materials to Dehri for the Mogulserai-Gaya Railway. This traffic will now soon cease. There was also a large export in oil seeds, food-grains, timber and bamboos, which contributed partly to the increase.

TOLLAGE (ASSESSED). TOLLAGE.

STEAMER SERVICE.

95. The steamer service on the canals continued to be worked by Messrs. Radford and Company.

The following table shows the extent of the steamer traffic worked by them:—

Particulars.			Patna Canal.	Arrah Canal.	Buxar Canal.	Total.
1			2	3	4	5
Passengers carried	Up	No.	4,165½	11,863½	6,133	22,162
	Down	„	4,017	13,435½	6,315	23,767½
Cargo carried ...	Up	Tons	1,129	887	520	2,536
	Down	„	1,249	829	889	2,967

During the year the traffic on the Buxar Canal, which had fallen off in last year, revived to some extent. On the Patna and Arrah Canals it remained steady.

On the Patna Canal the steamer makes one trip a week each way. On the Arrah and Buxar Canals there is a service twice in the week. The receipts from the transport service on account of the hire of accommodation boats, mud punts, and jolly boats was Rs. 12,512, as compared with Rs. 17,354 in the previous year.

The four steamers and 42 of the mud punts, having been sold, and the railway works for the conveyance of the materials for which mud punts were hired by Messrs. Bird and Company nearing completion, the receipts under this head in future years will be insignificant.

MISCELLANEOUS RECEIPTS.

96. The details of the miscellaneous receipts for the last five years are given below:—

Particulars.		1893-94.	1894-95.	1895-96.	1896-97.	1897-98.	Average of previous five years.	1898-99.
1		2	3	4	5	6	7	8
		Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Sale of water		730	867	347	1,280	541	753	1,547
Plantations		1,164	1,671	3,239	2,958	1,714	2,149	2,883

Total ...		29,578	35,620	33,148	35,961	36,304	34,322	40,685

The increase in land rents is satisfactory. The matter is receiving the attention of the Superintending Engineer, and the receipts under this head should continue to increase gradually.

97. The number of trees, classified according to size, in the plantations on the canals in each division, compared with the provious year, is shownbelow :— PLANTATIONS.

DIVISION.	1897-98.				1898-99.				Increase.	Decrease.
	Trees over 12 feet in height.	Saplings between 4 and 12 feet.	Seedlings under 4 feet.	Total.	Trees over 12 feet in height.	Saplings between 4 and 12 feet.	Seedlings under 4 feet.	Total.		
1	2	3	4	5	6	7	8	9	10	11
	No.	No.	No.	No.	No.	No.	No.	No.	No.	No.
Eastern Sone	100,914	19,460	30,933	151,397	98,534	22,7[illegible]3	33,962	155,210	3,913	...
Arrah	[illegible]	10,954	16,424	93,578	64,223	13,522	20,785	98,530	4,952	...
Dehri Workshops Subdivision	46,565	6,536	3,485	56,586	41,401	13,043	7,339	61,783	5,197	...
Buxar	27,255	8,791	10,008	46,054	27,636	8,913	10,445	46,994	940	...
Total ...	240,934	45,741	60,850	347,525	251,704	58,231	72,531	362,526	15,001	...

There was an increase of 15,001 trees during the year. The increase took place in all divisions.

The financial results of the tree plantations for the last two years are expressed in the following table:—

DIVISION.	RECEIPTS.		EXPENDITURE.	
	1897-98.	1898-99.	1897-98.	1898-99.
1	2	3	4	5
	Rs.	Rs.	Rs.	Rs.
Eastern Sone ...	922	1,133	1,048	999
Arrah	469	822	1,757	706
Dehri Workshop Subdivision.	250	771	1,556	1,693
Buxar	73	157	1,057	1,027
Total ...	1,714	2,883	5,418	4,425

The receipts are Rs. 1,169 more, and the expenditure Rs. 993 less, than in the previous year. A number of trees died, especially in the Arrah Division, which were cut down, sold, and credited to "Plantations."

98. The floods in the Sone during the year were of less maximum height than those of 1897, but were more uniformly continuous, and necessitated more frequent closures of the canals. The highest level at the Dehri weir was 1·10 feet lower than the highest level in 1897-98, and that at the Barun weir 1·50 feet as is shown in the statement below :— FLOODS.

RIVER SONE.

LOCALITY.	1897-98—21st August 1897.		1898-99—15th August 1898.		Highest known, 1876-77—7th July 1876.

Canals	18,663	19,787	18,855	10,415	8,596	11,712	13,189	13,848	18,816	42,267	42,231	49,383
Branch Canals	8,393	9,182	11,835	9,996	8,351	8,064	...	...	..	18,389	17,533	19,899
Distributaries	17,901	17,021	12,834	14,761	12,424	10,971	10,200	8,737	8,517	42,862	38,182	32,322
Drainage and protective works	120	3,556	1,185	306	109	620	355	374	710	781	4,039	2,515
Total ...	60,571	59,548	54,799	38,694	32,167	35,357	28,475	25,168	33,171	1,27,740*	1,16,883†	1,23,327

* Exclusive of Rs. 23,974, Rs. 2 and Rs. 5,048 expended on maintenance and repairs of Sone weir and head works, compensation and refunds respectively.

† Exclusive of Rs. 23,134 and Rs. 12,184 expended on maintenance and repairs of the Sone weir and head works and refunds, respectively.

‡ Exclusive of Rs. 33,852, Rs. 14 and Rs. 3,853 expended on maintenance and repairs of the Sone weir and head works, compensation and refunds, respectively.

The expenditure on "Maintenance and Repairs" during the year shows a small increase of Rs. 6,444.

SILT-CLEARING AND DREDGING.

102. The following table gives particulars of dredging operations during the year, compared with the results of the two previous years:—

Canals.	1896-97. Quantity dredged.	1896-97. Cost, including removal over spoil bank, or discharge into river.	1896-97. Rate per 1,000 cubic feet.	1897-98. Quantity dredged.	1897-98. Cost, including removal over spoil bank, or discharge into river.	1897-98. Rate per 1,000 cubic feet.	1898-99. Quantity dredged.	1898-99. Cost, including removal over spoil bank, or discharge into river.	1898-99. Rate per 1,000 cubic feet.
1	2	3	4	5	6	7	8	9	10
	C. ft.	Rs.	Rs. A. P.	C. ft.	Rs.	Rs. A. P.	C. ft.	Rs.	Rs. A. P.
Eastern Main and Patna Canals	445,649	2,759	6 3 0	692,336	3,179	4 9 6	677,857	3,188	4 11 0
Western Main Canal (head to regulator).	34,716	67	1 14 0	221,081	420	1 14 4	151,520	861	2 6 1
Western Main Canal (regulator to 9th mile).	...	...	...	29,770	137	4 9 6	25,036	121	4 13 3
River Sone	3,244,365	5,079	1 9 0	1,017,135	1,463	1 7 0	1,408,935	2,292	1 10 0
Head Lock	31,156	98	3 2 4	58,881	251	4 4 2	31,777	143	4 8 0
Total Main Western Canal ...	3,310,237	5,244	1 9 4	1,326,867	2,271	1 11 4	1,617,268	2,917	1 12 9

The rates given above include the cost of lifting the silt into barges, and carrying it over the spoil banks or discharging it into the river.

The increase in the quantity dredged in the river Sone was due to the sand banks in the river having advanced towards the weir, so that a deeper channel than usual had to be cut before cross traffic could be established. The extra rate in dredging was due to a large quantity of belting having to be replaced on all the dredgers.

REPAIRS TO DREDGERS.

103. The expenditure on repairs to dredgers is shown below for the last five years:—

	1893-94.	1894-95.	1895-96.	1896-97.	1897-98.	Average of previous five years.	1898-99.
1	2	3	4	5	6	7	8
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
9 Fouracres' dredgers ...	6,467*	6,036*	3,254*	1,846*	2,110*	3,943	1,795†
2 Bruce's ditto ...	627	362	114	97	218	284	29
2 English ditto ...	3,575	2,724	560	188	239	1,457	91
Mud punts ...	3,075	2,508	1,242	724	1,252	1,760	6
Total ...	13,744	11,630	5,170	2,855	3,819	7,444	1,921

* Cost of repairs to 12 Fouracres' dredgers.
† Ditto to 9 ditto.

The reduction in the cost of maintenance of the dredgers is thus explained by Superintending Engineer:—

"During the year the English and Bruce's dredgers had little done to them: hence the small expenditure shown against them. There being only nine Fouracres' dredgers now, three having been dismantled, the cost of repairs for them is less. To the heavy expenditure last year on repairs to mud punts and the agreement with Messrs. Bird and Company, to whom they were hired, that any damage done was to be made good at their expense, the very small amount expended on them this year is due."

The capital cost of the dredging plant now on the Sone Canals is given below:—

	Two English dredgers.	Two old Bruce's dredgers	Nine Fouracres' dredgers.	Two new Bruce's dredgers.	Mud punts.	Total.
1	2	3	4	5	6	7
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Capital cost as shown in the Revenue Report of 1897-98	1,21,205	33,027	80,176	547	3,12,863	5,47,818
Capital expenditure during 1898-99	...	...	...	...	(—)32,000	(—)32,000
Total capital cost of plant at end of 1898-99 ...	1,21,205	33,027	80,176	547	2,80,863	5,15,818

The reduction in capital cost is due to the credit of Rs. 32,000 during the year on account of the value of 32 mud punts at Rs. 1,000 each, which was recovered from the Port Commissioners, to whom the punts were sold.

The following statement shows the quantity of silt lifted by each class of dredger and the charges which should be added to the rates for dredging on account of interest on capital and repairs to the plant: no allowance is made for depreciation of the plant:—

PARTICULARS.			Prime cost.	Interest at 4 per cent.	Charge for interest per 1,000 cubic feet.	Cost of repairs.	Charge for repairs per 1,000 cubic feet.	Charge for interest and repairs in 1898-99.
1			2	3	4	5	6	7

	C. ft.	Rs.	Rs. A. P.	C. ft.	Rs.	Rs. A. P.	C. ft.	Rs.	Rs. A. P.
Eastern Main and Patna Canals ...	1,085,945	2,858	2 10 1	3,386	43	12 11 2	602,609	1,591	2 10 0

The Superintending Engineer writes:—

"The quantity cleared by hand in the Eastern Main Canal was immediately inside the Head Sluices for a short extension of the berm towards them, as a bar was found to form there in the wider channel, and also just below the off-take of the Patna Canal, *i.e.*, in the 5th mile. The extension of the berm proved satisfactory, as the bar to a great extent disappeared. In the Patna Canal the silt removed by hand and by dredgers was entirely in the channels just above and below the lock: the closure enabled a larger quantity to be removed by hand than in the previous year, which accounts for the less rate, viz., Rs. 3-3 9, against Rs. 3-12."

The Western Main Canal was closed from 26th March to 9th April 1898, but no silt clearance by hand was carried out between the Regulator and the 9th mile in the Dehri Workshops subdivision during the year under review.

In the Arrah Division silt clearance by hand to the extent of 435,112 cubic feet, costing Rs. 953, was executed in the lock channels during the closure of the canal.

In the Buxar Division during the closure the following silt clearances were effected by hand:—

	C. ft.	Cost.
		Rs.
Western Main Canal and its distributaries ...	399,342	992
Locks I to VIII, Buxar Canal and branches and distributaries	245,727	612
Total ...	645,069	1,604

105. The following figures give the cost of weed-clearing for the last five years:— WEED CLEARING.

DIVISION.	1893-94.	1894-95.	1895-96.	1896-97.	1897-98.	Average of previous five years.	1898-99.
1	2	3	4	5	6	7	8
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Eastern Sone ...	584	...	4	3	...	118	...
Arrah	1,391	638	346	108	74	512	9
Dehri Workshops ...	1,656	2,273	1,748	1,218	97	1,398	89
Buxar ...	1,134	179	123	451	385	454	189
Total ...	4,765	3,090	2,221	1,780	556	2,482	287

The cost of weed clearance in the Sone Canals has greatly reduced in late years. The result is a considerable saving in expenditure. The Executive Engineer of the Arrah Division, Mr. DeMello, has made various observations and experiments in one of the lower reaches of the Canal, which tend to show

that the diminution in the weeds is mainly due to the large discharges which have been kept up, of late years, in the Canal to flush the Canal. The Chief Engineer is disposed to think that the reduction in the weeds, at the heads of the Canals, is due partly to this, but, mainly, to the fact that the flushing system has resulted in removing the deposits of mud, and substituting fine sand, to a large extent, in the channels.

The Superintending Engineer writes:—

"The amounts shown as expended in the Arrah Division and Dehri Workshops were for clearing the sites where the discharge observations are taken. There was actually no weed clearance proper, except in two reaches of the Buxar Canal, and, as subsequent events showed, these might have been left alone In connection with the subject of weed clearance Mr. DeMello, Executive Engineer, Arrah Division, writes:—

'The weeds have again been kept down by the system of flushing the canal during the cold and hot-weather months. The result was perfectly satisfactory both in the Western Main and Arrah Canals, the only drawback being that the system has to be intelligently worked and the results to be carefully watched, owing to the constant changes effected by the growth and decay of the weeds.' He gives instances to show the necessity of the watchfulness and intelligence required in working the system but for which weed clearance would certainly have been started, and adds:—'Further experience will hereafter enable the Sub-divisional Officers to meet the varying circumstances that occur during the season, but at present it is somewhat novel, and they have to be carefully guided. In working this system the aim has been to run the canal as high as possible, while at the same time keeping the surface slope as great as possible by lowering the gauge levels at the end of the reach.' That weeds grow in most of the reaches of the canals is undeniable, but the Superintending Engineer is of opinion that if the system of flushing described above is adopted, their removal is unnecessary, so long as all the water required for irrigation at the period of their most vigorous growth can be supplied, and so far there has been no trouble in this respect. The obstruction to navigation is of small consequence. Possibly the weeds may retard the passage of a steamer between the terminal stations an hour. As soon as the floods set in they die down to revive again in the cold weather."

MILEAGE RATES OF REPAIRS OF CANALS AND DISTRIBUTARIES.

106. The following statement compares the cost of repairs to main canals and distributaries per mile, during the year, with the cost in the two previous years:—

Canal.	Division.	1896-97.		1897-98.		1898-99.	
		Number of miles.	Cost per mile.	Number of miles.	Cost per mile.	Number of miles.	Cost per mile.
1	2	3	4	5	6	7	8
		No.	Rs.	No.	Rs.	No	Rs.
Eastern Main Canal ...	Eastern Sone ...	7¼	625	7¼	277	7¼	680
Western ditto ...	Dehri Workshops Sub-division.	9	1,721	9	1,111	9	1,121
	Buxar	12⅓	257	12⅓	215	12⅓	319
Buxar Canal ...	Do.	45¼	230	45¼	190	45¼	259
Patna do. ...	Eastern Sone ...	79	167	79	175	79	238
Arrah do. ...	Arrah	65½	279	65½	296	65½	282
Dumraon Branch ...	Do.	40¼	117	40¼	139	4 ¼	157
Behea do. ...	Do.	31	119	31	115	31	178
Chowsa do. ...	Buxar	39⅓	135	39⅓	120	39⅓	126
Gurrah Chowbey Branch	Do.	38	122	38	95	38	81
Distributaries ...	Arrah	470	38	470	36	472	37
	Buxar	409	36	409	30	409	27
	Eastern Sone ...	350¼	29	350¼	25	350¼	24

The reduction in the cost of the repairs of the distributaries in the Arrah Division is satisfactory. The expenditure in this Division, which used to be on a rather lavish scale, has now been reduced to a very moderate figure: this, the Chief Engineer is aware, is mainly due to the steady perseverance of the Executive Engineer, Mr. DeMello.

MILLS.

107. The receipts during the year from the mills were Rs. 1,031, against Rs. 1,015 in 1897-98, and the expenditure incurred on their upkeep was Rs. 382, against Rs. 240 in the previous year. The Nasriganj turbine was not leased during the year owing to the depression in the sugar trade caused by the importation of bounty-fed sugar. The amount realised was on account of rent of the previous year.

CALCUTTA AND EASTERN CANALS.

108. The Capital and Revenue Accounts of these canals are given below:— CAPITAL ACCOUNT.

1.—CAPITAL ACCOUNT.

HEADS OF ACCOUNT.	Outlay during 1898-99.	Outlay to end of 1898-99.
1	2	3
	Rs.	Rs.

Under extensions and improvements a diversion cut was made in the Bhil route between the Kumar and Madhumati rivers, and certain gauges were fixed in the Boytaghatta khal. The expenditure was Rs. 2,828 compared with Rs. 1,324 in the previous year.

The percentage of the net revenue on the capital outlay is shown below for ten years :—

Year.	Capital outlay (direct and indirect).—		Receipts and Working Expenses.			Percentage of net revenue to capital outlay to end of year.
	During the year.	To end of the year.	Gross revenue.	Charges (direct and indirect).	Net revenue.	
1	2	3	4	5	6	7

1892-93	74,279	53,57,849	4,80,114	2,52,177	2,27,937	4·2
1893-94	(—)403	53,57,446	4,20,541	2,87,129	1,33,412	2·5
1894-95	1,076	53,58,522	4,43,003	2,89,267	1,53,736	2·8
1895-96	1,27,831	54,86,353	4,55,244	2,91,640	1,63,604	2·9
1896-97	4,68,975	59,55,328	4,39,938	2,30,759	2,09,179	3·5
1897-98	4,39,638	63,94,966	4,26,203	2,01,405	2,24,798	3·5
Average of previous five years ...	2,07,423	57,10,523	4,36,986	2,60,040	1,76,946	3·1
1898-99	66,286	64,61,252	4,09,281	2,80,677	1,28,604	2·0

The total receipts amounted to Rs. 4,09,281, as compared with Rs. 4,26,203 in the previous year, showing a decrease of Rs. 16,922. This falling-off was mainly attributable to the general dulness in trade and to the plague scare. The working expenses increased from Rs. 2,01,405 to Rs. 2,80,677. The increase chiefly took place in the maintenance and establishment charges of the year. The excess expenditure on maintenance was due to the heavy cost of silt clearance of Tolly's Nala and to the improvements carried out to the Angeria Creek in the steamer route. In the previous year the establishment charges, owing to an adjustment of account, were a minus quantity: in 1898-99 they were not only a positive charge, but, as there was very little expenditure on capital works during the year, the establishment charges were not divided between the capital and revenue as in the previous year. So that under establishment alone there was an increase of about Rs. 70,000. The net revenue of the year was Rs. 1,28,604 against Rs. 2,24,798, showing a decrease of Rs. 96,194. The result of the year's working was very disappointing. The number of steamers and flats which used the canals during the year was 194 against 274 in the preceding year. These figures are exclusive of the vessels which use the Sunderbans route; the number which passed through this route during the year was 2,672 against 2,197 in 1897-98 and 1,336 in 1896-97. The flats and steamers pay a nominal toll of Rs. 5 for each trip for using the route.

110. The lengths of channels open for navigation remained the same as last year, viz., 737 miles, as detailed below:— LENGTHS OF CANALS.

		Miles.	Miles.
(1) Calcutta and New Cut Canal			10
(2) Tolly's Nala, including 20 miles of Kaorapukhur khal ...			37
(3) Eastern Canals ...	Inner boat route ...	189	
	Outer ditto ...	127	
		——	316
(4) Sunderbans steamer route			350
(5) Bhil route between Kumar and Madhumati rivers connecting Khulna with Madaripur			24
Total Calcutta and Eastern Canals ...			737

NAVIGATION. 111. The following statement shows the collections made during the year by the Collector and Supervisor of the Canals, and by the Executive Engineer, respectively:—

CANALS.	Number of boats and rafts.	COLLECTIONS BY COLLECTOR AND SUPERVISOR.						COLLECTIONS BY EXECUTIVE ENGINEER.	GRAND TOTAL, GROSS REVENUE.
		Tolls from boats and rafts.	Demurrage.	Ferry tolls.	Tolls from steamers and flats.	Rents of buildings, fishery rent, and other miscellaneous receipts.	Total.	Rents of buildings, lands, and other miscellaneous receipts.	
1	2	3	4	5	6	7	8	9	10
	No.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Calcutta and Eastern Canals	65,030	2,81,636	2,962	3,995	13,360	5,660	3,07,613	28,060	
Tolly's Nala ...	48,356	71,785	1,036	1,003	...	277	74,101		
Total, 1898-99 ..	113,386	3,53,421	3,998	4,998	13,360	5,937	3,81,714	28,060	4,09,774
Total, 1897-98 ...	123,952	3,90,453	6,301	5,218	12,485	6,045	4,20,502	5,848	4,26,350

The total tolls from boats and rafts plying on these canals and Tolly's Nala amounted during the year to Rs. 3,53,421, against Rs. 3,90,453 of the previous year, showing a decrease of Rs 37,032.

The decrease on the Calcutta and Eastern Canals was Rs 42,163. It was mainly due to the bad trade in jute and lime, and to the diversion of kerosine oil, coal and salt traffic to railways and flats. The plague scare had also some effect on the decrease.

On the Tolly's Nala there was an increase of Rs. 5,131, which was caused by the better rice traffic during the year.

The large increase in the collection of miscellaneous receipts by Executive Engineer was to a large extent due to the sum of Rs. 20,000, being the amount of the results of the sale of the Balliaghatta godown to Messrs. George Henderson & Co., having been credited as receipts during the year.

The following are the principal articles of traffic on the Calcutta Canals and Tolly's Nala in 1898-99, the increase or decrease in collections and maundage being shown against each:—

ARTICLES.	+ or − in maunds.	+ or − in collection.	REMARKS.
1	2	3	4
		Rs.	
Rice	+11,09,266	+20,147	
Jute	−17,65,389	−30,598	
Firewood	−5,10,260	−7,532	
Spices	+12,540	+102	
Empty boat	...	−1,034	
Fish	−14,610	−621	
Salt	−1,06,962	−3,538	
Lime	−4,21,350	−6,076	
Coal	−12,590	−1,077	
Kerosine oil	−1,33,913	−1,795	
Passenger boat ...	...	−450	

During the year there was a general falling-off in all articles of traffic except in rice and spices. The decrease in jute traffic was due to the partial failure of jute crop which was an unusually bad one. The falling-off in empty boats was also due to the same cause.

In rice traffic there was an increase of Rs. 20,147. The increase took place principally at Dhappa and Chitpur toll stations where the trade was very active.

112. The table below classifies the boats which used the canals during the last two years:— TRAFFIC.

Year.	Canal.	Number and Class of Boats exclusive of Rafts.					
		Up to 100 maunds.	Between 100 and 1,000 maunds.	Between 1,000 and 2,500 maunds.	Between 2,500 and 5,000 maunds.	Over 5,000 maunds.	Total.
1	2	3	4	5	6	7	8
1898-99	Calcutta and Eastern Canals.	23,607	35,405	4,805	1,063	81	64,961
	Tolly's Nala	19,013	11,435	159	...	...	30,607
	Total, 1898-99 ...	42,630	46,840	4,964	1,068	81	95,568
1897-98	Calcutta and Eastern Canals.	20,771	45,518	5,633	1,106	44	73,072
	Tolly's Nala	18,958	11,440	129	...	...	30,527
	Total, 1897-98 ..	39,729	56,958	5,762	1,106	44	1,03,599

There was a decrease of 8,031 in the total number of boats which entered the canals during the year as compared with the number in 1897-98, and in that year there was a decrease of 5,376 as compared with 1896-97

The number of small boats, or *saltis*, which entered Tolly's Nala from Kaorapukhur and paid tolls at Russa during the year was 17,716 against 20,244 in the previous year, showing a decrease of 2,528. The decrease was partly due to the shallow state of the Kaorapukhur khal and partly to the closure of Tolly's Nala for silt clearance. Including the *saltis*, the total number of boats was 113,284 against 123,843 in the previous year.

The number of steamers, launches, flats, and barges that entered the canals during the last five years is given below:—

1894-95	...	221	1897-98	...	274
1895-96	...	312	1898-99	...	194
1896-97	...	349			

There was a decrease of 80 vessels during the year compared with the previous year. The Superintending Engineer explains:—

"No flats now enter at Dhappa, which accounts for the decrease during the year in the number of vessels entering the Circular Canal. This class of traffic is being gradually replaced by cargo-boats and barges which are towed by steam-launches."

These figures are exclusive of the vessels that used the Sunderbans route and of the exempted vessels (155 in number), which mostly belonged to the Forest Department.

The number of steamers and flats that paid toll at the rate of Rs. 5 for using the Sunderbans route during the last five years is given below:—

1894-95	...	1,385	1897-98	...	2,497
1895-96	...	1,482	1898-99	...	2,672
1896-97	...	1,336			

The large increase of 1,161 in 1897-98 and of 1,336 during the year, compared with the year 1896-97, was due to the opening of a new line of steamers by the India General Steam Navigation Company between Cachar and Calcutta. There would no doubt have been a further increase during the year had the jute crop been better.

The tonnage of boats, as determined by canal measurement, and the estimated weight and value of the cargo and the tolls realized are shown in the comparative statement below:—

YEAR.	Canal.	Number of boats, including passenger and empty boats, but excluding rafts.	Tonnage of boats by canal measurement.	Weight of cargo.	Value of cargo.	Tollage, including demurrage.	Percentage of toll on value of cargo.
1	2	3	4	5	6	7	8
		No.	Tons.	Tons.	Rs.	Rs.	
1898-99 ...	Calcutta and Eastern Canals	64,961	691,866	487,053	3,91,87,559	2,97,679	...
	Tolly's Nala ..	48,323	241,295	168,953	99,08,996	72,700	...
	Total, 1898-99 ...	113,284	933,161	656,006	4,90,96,555	3,70,379	0·75
1897-98 ...	Calcutta and Eastern Canals	73,072	781,129	560,175	4,89,32,787	3,41,184	...
	Tolly's Nala ...	50,771	235,528	160,290	1,00,10,946	67,760	...
	Total, 1897-98 ...	123,843	1,016,657	720,465	5,89,43,733	4,08,944	0·69

There was a decrease of Rs. 98,47,178 in the value of cargo, due to the large decrease in weight of cargo carried.

MISSING TICKETS.

113. The number of missing tickets in each of the last ten years is shown below:—

YEAR.	No.	YEAR.	No.
1889-90	238	1894-95	170
1890-91	212	1895-96	155
1891-92	210	1896-97	86
1892-93	169	1897-98	91
1893-94	252	1898-99	66

WRECKS.

114. In the Circular Canal 27 boats were wrecked during the year. Of these 25 were made over to their owners on payment of cost incurred, 1 was sold as unclaimed, and 1 sunk in deep water and could not be recovered. In Tolly's Nala 18 boats were wrecked, of which 17 were made over to their owners and 1 was sold. Of the 62 boats wrecked in the Eastern Canals, 36 were removed by their owners, 19 by the Public Works Department, the cost of removing being realized by recovery of salvage from owners by the sale of cargo, and 7 were destroyed by fire; 3 boats were arrested for plying without tickets, and 1 man was fined 8 annas by the Magistrate of Sealdah for committing nuisance on the canal banks.

CHECK MEASUREMENT OF BOATS.

115. During the year 15,527 boats were checked by the Supervisor, Calcutta Canals, and his subordinates. Of these 15,465 boats were found correctly measured, 41 under-measured, and 21 over-measured; Rs. 18-11 were realized on account of under-measurement and Rs. 13-7 refunded for over-measurement.

REVENUE ESTABLISHMENT.

116. The following statement compares the cost of the revenue establishment for each of the last five years:—

PARTICULARS.	1894-95.	1895-96.	1896-97.	1897-98.	1898-99.
1	2	3	4	5	6
	Rs.	Rs.	Rs	Rs.	Rs.
Salary and commission of Supervisor ...	9,946	10,481	8,971	4,121	9,037
Salary of Canal Inspectors ..	4,882	5,307	5,283	5,160	5,160
Supervisor's office establishment ...	6,931	6,847	7,191	7,742	8,269
Canal police	2,067	2,046	2,146	2,288	2,102
Supervisor's steam-launch establishment	...	...	...	...	...
Inspector's boat establishment ...	685	693	731	796	724
Dhappa water-boat establishment ...	168	167	165	192	177
Dafadars	828	829	872	923	859
Travelling allowances	42	151	19	52	22
Contingencies	1,624	1,675	1,684	1,721	1,550
Toll-collecting establishment ..	12,232*	12,710*	13,214*	13,605*	13,035*
Total cost of establishment ...	39,405	40,966	40,276	36,600	40,935

* Includes salaries of darogas, clerks, cashiers, kootnavises, koyals, toll peons, and dinghi crews.

The increase or decrease in the expenditure is thus explained by the Superintending Engineer:—

"Under the head "Salary of Supervisor" there was an increase of Rs. 4,916, due to Mr. Cooksey having drawn the usual commission during the year, which his *locum tenens* did not get while the Supervisor was on furlough in the previous year. Although there was an increase of Rs. 527 in the Supervisor's office establishment, there was a corresponding decrease in the toll office establishment, owing to the transfer of a cashier from the latter office to the head office, in accordance with the orders of Government In the police establishment there was a decrease of Rs. 186, due to the discontinuance of famine allowance. In the boat establishment there was a decrease of Rs. 151 ,due to the same reason."

117. The miscellaneous receipts during the year amounted to Rs. 32,682, against Rs. 10,794 in 1897-98, showing an increase of Rs. 21,888. This increase was due principally to the sale-proceeds (Rs. 20,000) of the Balliaghatta godown buildings being credited under this head, and partly to more rent having been realized from Mr. Cooksey for occupying the residence at Chitpur. MISCELLANEOUS RECEIPTS.

118. The state of the plantations for the last two years is shown below:— PLANTATIONS.

YEAR.	Trees over 12 feet.	Saplings from 4 to 12 feet.	Seedlings below 4 feet.	Total.
1	2	3	4	5
	No.	No.	No.	No.
1897-98 ...	3,756	874	842	5,472
1898-99 ...	3,843	825	875	5,543

The expenditure during the year was Rs. 757 against Rs. 679 in 1897-98. There were no receipts.

119. The statement below shows the distribution of the maintenance charges under the several sub-heads, as compared with the previous year:— MAINTENANCE AND REPAIRS.

CANALS.		Locks.	Masonry bridges.	Roads.	Buildings.	Plantations.	Dredging.	Channel and bank.	Tow-path.	Rustic bridges.	Steam-launches.	Miscellaneous.	Drainage.	TOTAL.
1		2	3	4	5	6	7	8	9	10	11	12	13	14
		Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.

	1897-98	863	...		2,033	371	1,066	21,258	8,682	19,471	...	7,852	...	61,596
Total	1898-99	4,481	4,109	4,889	3,988	757	28,608	36,300	7,931	23,940	4,186	25,857	89	1,45,155
	1897-98	4,288	7,263	9,532	4,455	679	20,780	32,028	10,879	20,282	4,526	23,729	96	1,38,537

The maintenance charges show an increase of Rs. 6,598.

120. The work done by the dredgers and the cost, including that of delivering the mud, are shown below:— DREDGING AND SILT CLEARING.

	Quantity dredged.	Cost.	Rate per 1,000 cubic feet.
1	2	3	4
	C. ft.	Rs.	Rs. A. P.
Steam dredger *Victoria* ...	1,313,400	11,703	8 14 6
Fouracres' dredger ...	741,600	6,216	8 6 1
Marchant's dredger ...	54,310	590	10 13 9
Hydraulic dredger *Clinker* ...	758,160	6,400	8 7 0
Bruce's dredger No. 3 ...	411,480	3,699	8 15 9

The actual rates of dredging, excluding the cost of delivering the mud, and the cost of repairs, were as follows:—

	Rs.	A.	P.	
Steam dredger *Victoria*	3	7	10	Per 1,000 cubic feet.
Fouracres' dredger	2	15	5	
Marchant's dredger	2	4	3	
Hydraulic dredger *Clinker*	3	13	0	
Bruce's dredger No. 3	4	7	10	

The total cost of work done during the year was Rs. 28,608 against Rs. 20,780 in the previous year, showing an increase of Rs. 7,828 The increase took place mainly in the working of the dredgers *Victoria* and *Clinker*, which had to be kept constantly employed in the Circular Canal for removing the silt which had accumulated in the previous year between the Chitpur lock entrance and the new cut canal. The result of the dredging operations was satisfactory. No complaints were made during the year of boats being detained at Chitpur for want of sufficient depth of water.

The average number of mud punts which worked daily with the *Clinker* was five, with the *Victoria* seven, with the *Fouracres* three, and with the *Bruce* three. In addition to these, six mud punts were received from the Sone Circle during the year.

STEAMER ROUTES.

121. The expenditure on the Sunderbans steamer route, and the receipts from steamers and flats using it, are shown below for each of the last ten years:—

YEARS.	Receipts.	EXPENDITURE— On capital account.	On revenue account.	Total.	Net revenue.
1	2	3	4	5	6
	Rs.	Rs.	Rs.	Rs.	Rs
1889-90 ...	4,640	......	2,094	2,094	2,546
1890-91 ...	5,425	......	2,268	2,268	3,157
1891-92 ...	4,640	......	1,920	1,920	2,720
1892-93 ...	4,955	28,964	2,094	31,058	(—) 26,103
1893-94 ...	5,495	627	2,094	2,721	2,774
1894-95 ...	6,925	754	2,094	2,848	4,077
1895-96 ...	7,410	......	3,803	3,803	3,607
1896-97 ...	6,680	......	3,462	3,462	3,218
1897-98 ...	12,485	......	2,566	2,566	9,919
1898-99 ...	13,360	......	9,657	9,657	3,703
Total ...	72,015	30,345	32,052	62,397	9,618

There was an increase of Rs. 875 only in the receipts, while in the expenditure the increase was Rs. 7,091; consequently the net revenue was Rs. 3,703 against Rs. 9,919 in the previous year.

The increase in receipts was due to increased traffic on the line of daily steamers run by the India General Steam Navigation Company between Cachar and Calcutta and *vice versâ.* There was no expenditure on capital account. The large outlay of Rs. 9,657 on revenue account was incurred in working the heave-up boat and for carrying out improvements in the Angeria Creek, on which alone Rs. 7,563 were expended, against an estimate for Rs. 17,043 which was sanctioned by Government.

During the year 1897-98 the Managing Agents of the India General Steam Navigation Company, Limited, and also the Rivers Steam Navigation Company, Limited, drew the attention of Government to the deteriorated condition of the Angeria Creek in the district of Backergunge. This creek had gradually silted up, and the navigation of steamers, during low water, was a matter of danger and difficulty. This creek forms the only connecting link between

the Eastern and Western Sundarbands, and also, with the exception of the outer route, is the only convenient communication between Calcutta and the eastern river-borne traffic. The shelving bank of the creek was cut away by hand during the cold weather in the worst places for a width of 30 feet and to a depth of 1 foot below low-water level.

ORISSA COAST CANAL.

122. The capital and revenue accounts of this canal are given below:— CAPITAL ACCOUNT.

1.—CAPITAL ACCOUNT.

HEADS OF ACCOUNT.	Outlay during 1898-99.	Outlay to end of 1898-99.
1	2	3
	Rs.	Rs.
Direct charges	14,838	44,29,089
Less—Receipts on capital account ...	......	3,293
Total direct charges ...	14,838	44,25,796
Indirect charges	98	1,06,616

Under the capital account there was an expenditure of Rs. 3,095 (exclusive of tools and plant and establishment charges and suspense accounts) during the year on the works detailed below:—

(*a*) Construction of a circuit embankment round the inspection bungalow at Jamkunda in Range IVA of the canal to protect it from floods.

(*b*) Dredging in Ranges IVA, IVB, and V of the canal.

The expenditure incurred during the year on the embankment was Rs. 368 only, and that on the dredging was Rs. 2,727. The bungalow was completed in 1897-98, and the embankment during the year under review. The total outlay incurred on the bungalow was Rs. 4,597, and that on the embankment was Rs. 4,549.

2.—REVENUE ACCOUNT—(Actuals). REVENUE ACCOUNT.

Under extensions and improvements the expenditure incurred during the year was Rs. 16,338 for the protection of the Nalcool lock by means of a rubble revetment along the left bank of the Burrabullong river, against the revised estimate sanctioned for the work amounting to Rs. 26,066. There was no expenditure under this head in the previous year. The total working expenses during the year was Rs. 82,288, against Rs. 61,045, or Rs. 21,243 more, while the receipts were Rs. 73,094, against Rs. 85,450, or Rs. 12,356 less, the net revenue being a deficit of Rs. 9,194, against a profit of Rs. 24,405.

TRAFFIC.

124. The following table compares the traffic of the year with that of 1897-98:—

YEAR.	Number of boats *	Tonnage of boats.	Value of cargo, including rafts.	Toll.
1	2	3	4	5
	No.	Tons.	Rs.	Rs.
1897-98 ...	19,373	203,069	47,83,562	84,294
1898-99 ...	15 993	167,345	32,72,462	72,954

* Includes passenger and empty boats.

There was a general decrease in all heads of the traffic. Regarding this falling-off, the Superintending Engineer writes:—

"The receipts from the Calcutta Steam Navigation Company were Rs. 12,213 against Rs 12,753 in the previous year. The decrease is trifling and calls for no remark. The tolls realized from the India General Steam Navigation Company were Rs. 6,769 against Rs. 4,669 in the previous year, while from Messrs. McNeill and Company no tolls were realized. The falling-off is due to the fact that steamers and boats no longer take rice from Balasore to Chandbali.

"There was a slight increase in the number of passengers carried, but it is anticipated that with the opening of the Bengal-Nagpur Railway to Calcutta the passenger traffic will almost entirely disappear from the canal".

"The tollage assessed on the Balliaghai drains, as compared with the previous year, is shown below:—

	1898-99.	1897-98.
	Rs.	Rs.
Taken at Surpai on account of Orissa Coast Canal	2,731	3,321
On tickets taken in Hijili Tidal Canal, part due to Orissa Coast Canal	1,078	934
Total ...	3,809	4,255
Number of boats	1,684	1,821
Maundage	4,20,576	4,71,314

"The actual cash receipts at Surpai during the year were Rs. 5,292 (of which Rs. 2,980 were due to the Hijili Tidal Canal on through tickets), against Rs. 5,829 in the previous year.

"The falling-off in traffic was partly caused by the plague scare in Calcutta, and partly owing to the silted condition of the Balliaghai drain, by which much of the traffic was diverted to the Orissa Coast Canal by the road to Jhareshwari. A dredger has been set to work in this drain, and it is hoped that next year's realizations will show an improvement.

"The amount of local traffic compared with the through down traffic shows the proportion of rice going to Calcutta from the Balliaghai drain *viâ* the Rassulpur river and the Hijili Tidal Canal and is 748 to 1,001, against 1,091 to 965 in 1897-98. Similarly, for boats to to Balliaghai, boats *viâ* the river against those *viâ* the Hijili Tidal Canal were 860 to 1,041, against 1,259 903 in the previous year."

"Table IID accompanying this report shows the details of goods carried by the Orissa Coast Canal during the year. The exports of rice and paddy fell off from 44,807 tons in 1897-98 to 28,862 tons during the year under review, and this heavy falling-off may be attributed partly to the plague scare and partly to the low price of rice prevailing in Calcutta market. There was, however, an increase in the export of jute, oil, spices, building materials, firewood, other food-grains, bamboos and miscellaneous goods, and a decrease in all other items, as compared with 1897-98.

"The import trade of the Orissa Coast Canal did not show any marked improvement during the year. There was some increase in spices, tobacco, other food-grains, and miscellaneous goods, but a considerable decrease is noticed in cotton, raw and manufactured, metals, oils, provisions, sugar, firewood, coke and coal. The fluctuations in other items need no comment.

"The number of boats check-measured by officers and subordinates of the canal are shown in Statement No. 2 attached to this report: 203 boats were check-measured during the year, of which 185 were found to be correctly measured and 18 under-measured. Rupees 71-10-8 were realized from the manjis for boats under measured."

125. There was no Government transport service maintained on the canal. A bi-weekly service is run by the Calcutta Steam Navigation Company between Gewankhali and Nalcool in connection with the India General Steam Navigation Company's steamers between Balasore and Cuttack. TRANSPORT SERVICE.

126. The length of the canal from Bhaitghur on the Rasalpur river to Charbatia on the Metai river remained the same as last year, viz., $102\frac{1}{2}$ miles, including $5\frac{1}{2}$ miles of river-crossing: the whole length was open to traffic throughout the year. LENGTH OF CANAL.

127. The rainfall registered at Balasore was 53·32 inches compared with 56·55 inches in 1897-98. The average of the previous five years was 70·47 inches. The rainfall at Charbatia and Bhograi was 55·05 and 63·40 inches, RAINFALL.

against 54·20 and 51·55 inches respectively in the previous year. That at Contai was 55·62 inches against 61·38 in 1897-98.

MISCELLANEOUS RECEIPTS.

128. The miscellaneous receipts are shown below :—

1893-94.	1894-95.	1895-96.	1896-97.	1897-98.	Average of previous five years.	1898-99.
Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
2,477	1,937	2,580	2,403	2,431	2,366	2,082

PLANTATIONS.

129. The state of the plantations for the last two years is shown in the following statement:—

YEAR.	Trees upwards of 12 feet in height.	Saplings from 4 to 12 feet in height.	Seedlings below 12 feet.	Total.
1	2	3	4	5
	No.	No.	No.	No.
1897-98 ...	3,141	4,782	4,278	12,201
1898-99 ...	5,830	5,136	4,788	15,754

There was a total increase of 3,553 in the number of trees, saplings and seedlings during the year. The increase was due to new plantations and to more correct count made by the Executive Engineer.

FLOODS.

130. The highest flood levels, recorded on the various rivers crossed by the canal, are shown in the following table :—

NAME OF RIVER.	Locality.	1897-98.		1898-99.		HIGHEST ON RECORD.		REMARKS.
		Date.	Reading.	Date.	Reading.	Date.	Reading.	
1	2	3	4	5	6	7	8	9
Subarnarekha	Bhograi ...	17th August 1897 ...	113·80	19th June 1898	117·90	June 1868 ...	121·50	
Panchpara ...	Panchpara ...	14th " " ...	111·80	17th September "	112·20	Not known ...	118·00	Without date on Mr. Vertannes' plan.
Burrabullong	Nalkul ...	18th October " ...	114·30	15th " "	115·70	22nd September 1885.	118·00	
Mutai ...	Charbatia	3rd August 1897 ... 26th October 1897	110·20	19th " "	110·40	Not known ...	116·50	Ditto ditto.

There was one high flood in the Subornarekha river on the 18th June, 1898, when the river rose 11 feet in 12 hours. The highest reading was 117·90 at midnight of the 19th. The high flood level was due to the obstruction caused by the embankment of the Bengal-Nagpur Railway running parallel to the Subarnarekha river for a distance of 10 miles. The Railway Company have since largely increased the water-way of their bridges, and it is anticipated that the next high flood will cause no obstruction. The flood did very little damage to the canal or to the flood embankments. There was only one breach 30 feet long, in Range IV in the 77th mile of the canal.

The highest monsoon levels in the various rages were as follows :—

	1897-98.	1898-99.
Range III.—Bhograi	... 110·50, 19th October 1897	111·00, 14th October 1898
" *IVA.*—Jamkunda	... 111·60, 19th " "	115·00, 19th June "
" *IVB.*—Nalkul	... 113·50, 18th " "	114·70, 15th September "
" *VB.*—Charbatia	... 113·60, 17th " "	113·80, 12th October "

131. The expenditure on maintenance and repairs, by main sub-heads, for the year and for the five previous years, is shown below:— MAINTENANCE.

SUB-HEADS.	1893-94.	1894-95.	1895-96.	1896-97.	1897-98.	Average of previous five years.	1898-99.

Ditto No. III (*Sibpur*)	... ...	1,586	12	6
15 Mud punts ...	... ...	4,253	9	0
	Total ...	13,445	14	7

No silt clearance by hand labour was done either in the Orissa Coast Canal or the Balliaghai drain during the year.

SARAN CANALS.

CAPITAL ACCOUNT. 133. The project was completed in March 1886, and the Capital Account closed from the year 1886-87. During the year under review, Rs. 15,015 were expended, chargeable to—33 Famine Relief, Imperial, and Rs. (—)14 to 43—Minor Works and Navigation under Capital Account. The Revenue account is given below:—

REVENUE ACCOUNT. REVENUE ACCOUNT - (Actuals).

II.—Roopan Chap Sota		27·00		...	. .	...	...	...	. .	27·00	...	...	.	...	...	...

The canals remained closed during the year.

136. The average rainfall on the area under command is shown by seasons in the table below for the last five years:— RAINFALL.

	1894-95.	1895-96.	1896-97.	1897-98.	1898-99.
	Inches.	Inches.	Inches.	Inches.	Inches.
Kharif season (August, September, and October) ...	28·55	22·02	10·76	21·39	33·27
Rabi season (November to February)	2·62	0·50	0·99	0·76	1·27
Total of year	51·28	43·42	28·94	51·17	55·93

The rainfall of the year was 55·93 inches, or 4·76 inches more than the previous year. It was more than the year 1896-97 by 26·99 inches. There was long and continued rain for three weeks in September, the total being 21·05 inches during the month, against an average of 7·85 inches.

137. The discharge of the river Gandak taken at Rewa and Siswa on the 8th and 18th March 1899 was 12,063 and 12,990 cubic feet per second, respectively. RIVER DISCHARGE.

IRRIGATION.

138. There was no irrigation done during the year as the canals were closed. The total area irrigated in 1897-98 was 1,552 acres.

The areas irrigated since 1881-82 are given below:—

Year.	Area.	Year.	Area.
1	2	1	2
	Acres.		Acres.
1881-82	666	1890-91	2,226
1882-83	1,747	1891-92	5,965
1883-84	21,122	1892-93	3,560
1884-85	7,223	1893-94	1,568
1885-86	4,565	1894-95	Nil
1886-87	2,146	1895-96	Nil
1887-88	4,218	1896-97	4,080
1888-89	7,213	1897-98	1,552
1889-90	4,215	1898-99	Nil

ASSESSMENTS AND COLLECTIONS.

139. The assessments, remissions, and collections are shown below.—

YEAR.	Assessments.	Remitted or written off.	Collection to end of March 1899.	Balance to be collected.
1	2	3	4	5
	Rs.	Rs.	Rs.	Rs.
1896-97 ...	6,416	232	7,544	2,468
1897-98 ...	3,828	......		
1898-99 ...	Nil	......		
Total ...	10,244	232	7,544	2,468

During the year there was no assessment of water-rates, as the canals were closed, but a great improvement was made in the collection of arrears. Out of Rs. 10,244 assessed for 1896-97 and 1897-98, Rs. 7,544 were collected and Rs. 232 remitted or written off, leaving a balance of Rs. 2,468 at the end of the year still to be collected.

MISCELLANEOUS RECEIPTS.

140. The miscellaneous receipts were Rs. 674, against Rs. 464 in the previous year.

PLANTATIONS.

141. The state of the plantations for the last two years is shown below:—

YEAR.	Trees over 12 feet.	Saplings from 4 to 12 feet.	Seedlings below 4 feet.	Total.
1	2	3	4	5
	No.	No.	No.	No.
1897-98 ...	10,142	5,767	7,376	23,285
1898-99 ...	10,186	5,750	7,349	23,285

142. The highest flood in the river Gandak occurred on 8th September, and reached 241·30 at Siswa. No damage was done to the cross bunds or sluices. FLOODS.

The heavy rain during the month of September caused local floods, but little or no damage was done.

The expenditure during the year was Rs. 60, against Rs. 60 and Rs. 77 in 1897-98 and 1896-97.

143. The expenditure on maintenance and repairs during the past five years is shown below:— MAINTENANCE AND REPAIRS.

	Miles.	1894-95.	1895-96.	1896-97.	1897-98.	1898-99.
1	2	3	4	5	6	7
		Rs.	Rs.	Rs.	Rs.	Rs.
Repairs to head cut and river protective works	6·34	432	459	392	304	231
Repairs to Daha feeder ...	3·34	166				
" to Gandaki feeder ...	1·57	150	397	2,568	2,349	405
" to Dhanai feeder ...	1·00	119				
" to Gangri feeder ...	6·57	170				
" to dams and channels ...	...	...	...	1,493	324	...
" to Sadowa channel ...	5·23	...	...	...	10,279	(—)229
Total ...	...	1,037	856	4,453	13,256	407
Establishment	...	447	437	2,185	2,160	172
Tools and plant (actual) ...	...	(—)5	...	26	28	...
Refund of revenue	...	3,182	75	370	1,102	...
GRAND TOTAL ...	...	4,661	1,368	7,034	16,546	579

The expenditure of Rs. 579 on maintenance during the year is exclusive of Rs. 654 expended on the Gandaki and Gangri feeders, and charged to 33—Famine Relief, Imperial. This amount was subsequently adjusted by the Examiner of Public Works Accounts, Bengal, against the Revenue Account, Saran Canals.

144. There is no dredging on these canals, as all silt is removed by hand. DREDGING AND SILT CLEARING.

NADIA RIVERS.

145. The rivers comprised in this system are the Bhagirathi, Bhairab-Jalangi, Mathabhanga, and part of the Hooghly. The approximate lengths of the rivers shown below remained the same as last year:— LENGTHS OF RIVERS.

Bhagirathi	... ...	157 miles to Nadia.
Bhairab-Jalangi	... ...	144¼ ditto.
Mathabhanga	... ...	137 miles to junction of the Hooghly river.
Hooghly	... ...	32 miles from Nadia to Chakdaha.
Total	...	470¼ miles.

REVENUE ACCOUNT.

146. No capital account of these rivers is kept. The revenue account for the last two years is given below:—

PARTICULARS.	EXPENDITURE— During 1897-98.	EXPENDITURE— During 1898-99.	PARTICULARS.	RECEIPTS— During 1897-98.	RECEIPTS— During 1898-99.

The financial result is a slight improvement over that of the previous year.

RAINFALL.

148. No rainfall register is kept up for these rivers.

IRRIGATION.

149. There is no regular irrigation from the Nadia rivers. During the flood season water was supplied, as usual, through the embankment sluice between Lalbagh and Plassey for the irrigation of the rice crop.

150. The several classes of boats which plied on the rivers and the tolls collected from them are tabulated below:— NAVIGATION

Name of River.	Number and class of boats.								Collections by Toll Collectors.					
	Up to 100 maunds.	Between 100 and 1,000 maunds.	Between 1,000 and 2,500 maunds.	Between 2,500 and 5,000.	Over 5,000 maunds.	Total.	Number of rafts.	Number of steamers and flats.	Tolls from boats.	Tolls from rafts.	Tolls from steamers and flats.	Total tolls.	Miscellaneous receipts.	Total collections.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15

* Inclusive of empty and passenger boats.

The total realizations of the year showed an increase of Rs. 383 compared with the previous year, in spite of the falling-off both in the number of vessels and collections of tolls at the Sarupganj toll-station. There would probably have been a considerable increase of revenue had not the plague scare of Calcutta interfered with the traffic; the Superintending Engineer reports that boats passing down the rivers actually paid toll to go back again when the boatmen heard of the plague in Calcutta. The reduction in prices during the first six months of the year, combined with the unfavourable state of the Bhagirathi river, also affected the traffic to some extent. The number of steamers using the rivers increased from 284 in the previous year to 314 in 1898-99. The flats increased from 56 to 97. The increase was due to the fact that the steamer companies again commenced to run steamers in the Bhagirathi and Jalangi rivers.

151. The following is a statement of the number of boats, their tonnage, the weight and value of their cargo, and the toll collection :— TRAFFIC.

Name of River.	Number of boats, steamers and flats (exclusive of rafts).	Tonnage of boats by canal measurement.	Weight of cargo.	Value of cargo (exclusive of rafts).	Toll* collection.	Percentage of toll on value of cargo.
1	2	3	4	5	6	7
	No.	Tons.	Tons.	Rs.	Rs.	
Bhagirathi	8,564	101,725	45,788	32,91,545	20,066	...
Ditto and Bhyrub-Jalangi	23,498	468,532	69,177	88,76,858	44,947	...
Mathabhanga and Ichamati ...	11,371	116,726	41,177	41,98,469	23,725	...
Total, 1898-99 ...	43,433	686,983	156,142	1,63,66,872	88,738	0·54
Total, 1897-98 ...	43,816	475,391	146,087	1,66,80,608	88,080	0·52

* Tolls from boats, steamers and flats (exclusive of rafts).

There was a slight increase in the weight of cargo, but if a series of years is examined, it will be found that there is a marked decrease in the goods passing along these rivers.

The Superintending Engineer remarks :—

"The falling-off in traffic and collections at Sarupganj, as shown by the above figures, occurred entirely in the Jalangi river and is said to be owing partly to the plague scare and partly to the growing apprehension prevailing among the country boatmen as to the difficulty of navigating this river both at the entrance and at certain intermediate shoals.

It is, however, satisfactory to note that this falling-off at Sarupganj was more than sufficiently compensated for by the increase noticeable at both the Jangipur and Hanskhali toll-stations. The total weight of cargo registered during the year under report was 156,142 tons against 146,087 tons in the previous year. The toll collections rose slightly from Rs. 88,080 in 1897-98 to Rs. 88,738 in 1898-99."

It is often supposed that the decreasing traffic on these rivers is due to their deterioration, but it is at least doubtful if this opinion is correct. The plan which accompanies this note shows the Bhagirathi entrance; concerning this the Superintending Engineer writes:—

"The Executive Engineer reports that "the entrance was practically the same as last year, but with a velocity a good deal less than usual, due probably (apart from the fact of the formation of a shelving bank in front, which caused the main current of the Pudda to flow more in mid-stream, thereby reducing the indraught to the Bhagirati) to the heavy local rainfall during the middle of October, which kept the Bhagirathi up, while the Ganges was falling rapidly, and so rendered the current at the mouth still more sluggish."

On the tracing which accompanies this report is marked roughly the position of the head of the Bhagirathi from 1822 up to date.

Training works at the entrance were started on the 21st October, with a bed level of 56·20 and a minimum depth of 7 feet, and eventually a channel was scoured down to 47·40 by the 16th November, but unfortunately it began silting up outside the training works, and although these were extended out into the Pudda, they failed to be of any practical good, as the velocity was too small. The entrance, though it did not actually run dry even in May 1899, was practically closed for through traffic from the beginning of January 1899, when the depth was only 18 inches.

The number of shoals trained was 61, against 63 in the previous year. The training works done in this river between its entrance and Nadia extended over a length of 154,772 lineal feet, against 177,495 feet in the previous year."

STEAMER SERVICE.

152. No transport service was maintained by Government on these rivers during the year. The steamer service kept by the several companies is shown in the statement below:—

Nature of Service.	Terminal Station.		Outward and inward.	Period.
	From—	To—		
1	2	3	4	5
	Calcutta Steam Navigation Company, Limited.			
Twice a week	Calcutta ...	Jiaganj ...	Both ...	From 2nd July to 1st December 1898.
Ditto ...	Do. ...	Katwa ...	Do. ...	From 27th June 1898 to 10th January 1899.
Ditto ...	Azimganj ...	Jangipur and Dhulyan.	Do. ...	From 6th July to 12th November 1898.
Thrice daily	Berhampore ...	Azimganj ...	Do. ...	From 24th June to 29th November 1898.
Ditto ...	Lalbagh ...	Ditto ...	Do. ...	All the year round.
	East Indian Railway Company.			
Occasional ...	Rajmahal ...	Jangipur ...	Both ...	From 21st July to 5th October 1898.
	India General Steam Navigation Company.			
Occasional ...	North-Western Provinces.	Calcutta ...	Both ...	From 28th July to 2nd September 1898.
	Rivers Steam Navigation Company.			
Occasional ...	North-Western Provinces.	Calcutta ...	Both ...	From 11th August to 5th September 1898.

153. The cost of the revenue establishment for the last five years is shown below:— REVENUE ESTABLISHMENT.

	1893-94	1894-95.	1885-96.	1896-97.	1897-98.	Average of previous five years.	1898-99.
1	2	3	4	5	6	7	8
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs	Rs.
Salary and commission of Collectors.	12,644	14,807	14,010	14,338	13,827	13,925	13,762
Cost of office establishment.	3,901	8,494	8,407	8,820	9,169	8,758	8,514
Travelling allowance ...	525	766	756	793	726	713	390
Contingencies ...	947	395	409	422	423	519	427
Total ...	23,017	24,462	23,582	24,373	24,145	23,915	23,093

There was a decrease of Rs. 1,052 compared with the previous year. The decrease took place in the toll stations at Jangipur and Sarupganj.

154. The miscellaneous receipts during the year amounted to Rs. 147 against Rs. 488 in the previous year. MISCELLANEOUS RECEIPTS.

155. The only plantations in connection with the Nadia rivers are those on the berms of the Bhagirathi embankment (Schedule D, No. 94). The number of trees during the year compared with the previous year is shown in the following statement:— PLANTATIONS.

YEAR.	Trees over 12 feet.	Saplings from 4 to 12 feet.	Seedlings below 4 feet.	Total.
1	2	3	4	5
	No.	No.	No.	No.
1897-98 ...	18,401	3,496	736	22,633
1898-99 ...	22,311	3,109	1,343	26,763

The increase during the year is due to bamboo having been shown in numbers and not by clumps, as was done last year.

156. There was a very high flood in the Bhagirathi river during the year. The highest reading of the Berhampore gauge was 29·72 feet on the 24th September 1898. The flood was the highest since 1894, but it was lower than the highest recorded flood of 1890 by 1 foot $2\frac{3}{4}$ inches. The peculiar features of the flood were its long duration, the lateness of its maximum rise, and its exceedingly rapid fall. The gauge readings at Gheria and Berhampore for the last ten years are given below:— FLOODS.

YEAR.	Berhampore.	Gheria.
1889	30·37	34·00
1890	30·96	34·70
1891	26·58	29·30
1892	29·12	31·55
1893	27·96	30·75
1894	30·30	32·75
1895	26·12	28·80
1896	25·33	28·50
1897	27·25	30·00
1898	29·72	32·06

The highest flood levels of 1898-99 of the Bhagirathi, Jalangi and Mathabhanga rivers at Berhampore, Surupganj and Hanskhali are compared below with the highest levels in the previous year, and with the highest levels on record. The readings given are the heights above mean sea level:—

River.	Locality.	1897-98.		1898-99.		Highest known.	
		Date.	Gauge Reading.	Date.	Gauge Reading.	Date.	Gauge Reading.
1	2	3	4	5	6	7	8
Bhagirathi ...	Berhampore... ...	29th August 1897	27·25	24th September 1898	29·72	15th August 1890 ...	30·96
Jalangi	Surupganj	2nd September 1897	27·35	24th ,, ,,	31·80	28th ,, ,, ...	34·88
Mathabhanga ...	Hanskhali	31st August 1897 ...	20·92	29th ,, ,,	25·96	3rd September 1890	30·93

MAINTENANCE AND REPAIRS.

157. The charges for maintenance and repairs (exclusive of establishment and tools and plant) are detailed below:—

Particulars.	1893-94.	1894-95.	1895-96.	1896-97.	1897-98.	Average of previous five years.	1898-99.
1	2	3	4	5	6	7	8
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Re-opening lower entrance channel, Bhagirathi river.	540	..	...		..	109	..
Training works in river Bhagirathi	51,481	41,642	45,694	36,602	28,334	40,750	25,430
,, ,, Bhyrub ...	4,318	3,989	6,107	5,540	5,000	4,991	4,889
,, ,, Jalangi ...	6,439	7,034	6,932	5,549	6,668	6,523	7,155
,, ,, Mathabhanga ...	2,060	2,717	844	1,739	1,776	1,827	2,110

Petty and other charges	3,394	4,178	2,986	2,508	4,410	3,377	5,552
Total ...	77,364	68,588	69,901	60,873	54,558*	66,335	53,611

* Exclusive of land charges amounting to Rs. 230.

The total expenditure incurred on the maintenance of the Nadia rivers, inclusive of charges for extensions and improvements of lands and establishment and tools and plant, but exclusive of indirect charges, was Rs. 93,560, as compared with Rs. 1,02,498 of the previous year, thus showing a decrease of Rs. 8,938. The reduction in the Public Works establishment charges from Rs. 21,288 to Rs. 18,780 was caused by the apportionment of a considerable portion of these charges to works and repairs under "Agricultural and Provincial" respectively.

Of the total expenditure of Rs. 93,560 on maintenance and repairs, Rs. 48,059 were spent on training works, Rs. 5,552 on other works, Rs. 18,780 and Rs. 23,092 on Public Works and Navigation establishment charges, respectively, Rs. 1,044 on tools and plant, and Rs. (—)2,968 on suspense accounts.

DREDGING AND SILT CLEARING.

158. No work was done under this head except at a few shoals, where sand was cleared by hand, in order to keep up a running stream of good drinking-water for the towns and villages along the river banks.

WRECKS.

159. The wrecked boats removed from the beds of the rivers during the year were 17 besides 179 trees and 45 bamboo clumps. Several trees were also cut down and removed from the cutting banks to prevent their falling into the rivers and endangering the safety of the navigable channels. The banks were, as usual, marked with sign poles to indicate the deep water channels.

GAIGHATA AND BUXI KHAL.

LENGTH OF KHAL.

160. The length of this khal is 7½ miles.

MAINTENANCE.

161. The cost of maintaining it during the year under review, exclusive of refunds of revenue was Rs. 395, against Rs. 681 in the previous year. The right of collecting tolls has been leased for five years, commencing from the year 1896-97, at an annual rental of Rs. 4,500. The lessees have paid the full amount for the year under review.

EDEN CANAL.

162. This canal is not navigable. It lies partly in the Burdwan and partly in the Hooghly district, its supply of water being obtained from the Damodar. No Capital or Revenue Account is maintained. The aggregate length of the canal and its excavated channels including the two distributaries which were completed in 1897-98 was 45⅙ miles, as detailed below:— LENGTHS OF CANAL, CHANNELS AND DISTRIBUTARIES.

	Miles.	Feet.
Joojooty sluice and channel, Nos. 1 and 2 ...	2	0
Eden Canal proper	19¾	0
Kana Damodar junction cut	2½	0
Saraswati junction cut	2½	0
Connecting channel between the Rankini Doho and the Kana Damodar	½	0
Connecting channel between the Rankini Doho and Kana Nadi	¼	0
Distributary No. 1	7	4,720
Ditto No. 2	9	4,055
	45⅙	...

Besides the above, the natural channels of the Kana Nadi, Kana Damodar, Banka Nala, and North Saraswati are included in the system.

The gross area commanded by the Eden canal is about 300,000 acres, of which about 200,000 acres are culturable and 100,000 acres irrigable.

163. Revenue accounts are not kept of this Canal: the receipts and expenditure for 1898-99 and the five previous years are given below:— REVENUE ACCOUNT.

	1893-94.	1894-95.	1895-96.	1896-97.	1897-98.	Average of previous five years.	1898-99.

ools and plant ...	732	752	606	408	276	555	397
Total expenditure ...	50,340	52,738	55,970	1,08,457	67,037	66,908	39,380
Net revenue ...	(−)14,431	(−)22,538	(−)25,053	(−)71,922	(−)31,202	(−)33,029	(−)10,655

The outlay on account of original works during the year was Rs. 8,102 only; the expenditure was confined to the payment of the cost of land acquired for the distributaries constructed in 1897-98. The receipts during the year were Rs. 7,110 less than in the previous year. The decrease was due to the heavy rainfall throughout the cultivating season which retarded the work of collection and reduced the demand for canal-water for irrigation purposes. There was an increase of Rs. 4,456 on maintenance and repairs. It was due to several minor works of improvement having been carried out during the year. The total expenditure of the year was Rs. 39,380 against Rs. 67,037, and the net revenue was a deficit of Rs. 10,655 only against a deficit of Rs. 31,202

in the previous year. The result of the year's operations was, on the whole, fairly satisfactory. The revenue was below the average of the previous five years but the expenditure also was considerably less. The canal was maintained in an efficient condition during the year.

RAINFALL. 164. The rainfall registered at Edilpur in the Burdwan district was 72·14 inches, as compared with 62·88 in 1897-98, the fall during the *kharif* season being 48·52 inches, or 4·71 more than that of the previous year.

CROP EXPERIMENTS. 165. Regarding crop experiments, the Superintending Engineer writes:—

"Nineteen crop experiments were made with paddy crops by subordinates, of which ten were made on irrigated lands and nine on unirrigated lands. These experiments showed that the average outturn of an acre of middle class land irrigated by canal-water was 33 maunds 5 seers of paddy and 37 maunds and 7 seers of straw weighed dry, while the average outturn of an acre of similar land which did not receive the benefit of canal-water was 20 maunds 1 seer of paddy and 25 maunds 28 seers of straw.

The results of the experiments seem unreliable, as the average yield of paddy in the Midnapore and Orissa canals is 17 maunds 14 seers and 24 maunds 28 seers, respectively. The Executive Engineer will be directed to supervise the experiments next year."

The Chief Engineer quite agrees with the Superintending Engineer in thinking that these results cannot be accepted, and that the Executive Engineer should check the experiments next year.

AREAS LEASED AND IRRIGATED. 166. The total area leased was 26,918 acres, as compared with 23,615 acres in 1897-98, showing an increase of 3,303 acres. The increase was due to the execution of some new leases on the banks of the Ilsura khal and the Ghea, Dhoosi, and Kana Nadis in the Hooghly district.

In addition to the areas leased permits were issued for 2,318 acres for single watering from the Kana Damodar beyond the area commanded by the Eden Canal.

The total area irrigated during the year was 29,757 acres, consisting of 19,938 acres of *kharif* and 441 acres of *rabi* in the Burdwan district, and 9,080 acres of *kharif* and 298 acres of *rabi* in the Hooghly district, as compared with 24,487 acres in the previous year, viz., 17,557 acres of *kharif* and 520 acres of *rabi* in the former and 6,083 acres of *kharif* and 327 acres of *rabi* in the latter district. Out of the total area of 739 acres of *rabi* irrigated during the year, 143 acres were sugarcane.

The increase in the area under *kharif* irrigation was mainly due to the construction of the distributaries.

The decrease in *rabi* irrigation in both the Burdwan and Hooghly districts was due to the ample rainfall throughout the *kharif* season, especially in September and October 1898 which reduced the demand for canal-water.

There was only one case of surreptitious irrigation during the year. Thirty-six acres were irrigated without a permit in the Hooghly district. The area was assessed at the rate of Re. 1 per bigha.

The following statement shows the area irrigated during the last five years:—

YEAR.	Long lease.	Season lease	One flushing beyond area commanded.	Unauthorized irrigation.	Total.
1	2	3	4	5	6
	Acres.	Acres.	Acres.	Acres.	Acres.
1893-94 ...	11,601	138	...	...	11,739
1894-95 ...	19,650	20	720	...	20,390
1895 96 ...	30,195	1,984	3,884	158	36,221
1896-97 ...	16,580	2,362	2,352	...	21,294
1897-98 ...	21,850	1,459	1,178	...	24,487
Average of previous five years ...	19,975	1,193	1,627	31	22,826
1898-99 ...	24,959	2,444	2,318	36	29,757

There was an increase of 5,270 acres in the total area irrigated during the year, as compared with the previous year, and an increase of nearly 30

per cent. as compared with the average of the previous five years. The result was satisfactory, considering that the rainfall of the year was both plentiful and evenly distributed.

DUTY OF WATER.

167. The duty per cubic foot of discharge utilized during the *kharif* season was 145·95 acres. But this duty is unreliable, as, owing to the heavy rainfall throughout the season, there was little demand for canal-water. The correct duty of water in the *rabi* season could not be given as the discharge of water utilized was partly used for filling tanks for domestic purposes, &c.

DEMAND, COLLECTION, AND BALANCE.

168. The water-rates assessed during the year amounted to Rs. 33,876, as compared with Rs. 29,825 in 1897-98, and adding the unrealized balance (Rs. 17,304) of the six previous years, the gross demand for the year was Rs. 51,180, against Rs. 56,343 of the preceding year. Deducting Rs. 2,857 on account of commissions paid on advance payment, and remissions amounting to Rs. 522, the net assessment of the year was Rs. 47,801.

The collections of the year amounted to Rs. 28,239.* This sum includes Rs. 249 on account of stamp fee and interest which were realized by the certificate officers of Burdwan and Hooghly, and Rs. 200 which were refunded to the lessees for non-irrigation of water to their tanks. The net collection, therefore, was Rs. 27,790. The unrealized balance at the close of the year was Rs. 20,011 against Rs. 17,304 in the previous year. Deducting Rs. 10,699, which were subsequently written off as irrecoverable under Bengal Government orders No. 4T.I.A, dated 13th May 1899, the net balance was Rs. 9,312. The arrears are far larger than they should be, and the Superintending Engineer will be specially addressed on the subject.

* The Examiner has shown in his Finance Accounts for 1898-99 Rs. 28,333. The difference Rs. 94 has been shown by the Executive Engineer as miscellaneous receipts.

The revised water-rate rules for the Eden Canal were framed in March 1898 on the lines of the revised rules for the Midnapore Canal, with the object of removing the inconveniences and difficulties in granting remissions, in filling tanks with canal-water for domestic use, and in supplying water for manufacturing and other purposes. They were passed by the Lieutenant-Governor on the 22nd August 1898, and published in the *Calcutta Gazette* of the 24th idem.

REVENUE ESTABLISHMENT.

169. The cost of the temporary revenue establishment employed during the year for the supervision and management of irrigation was Rs. 4,338 against Rs. 4,578 in the previous year, showing a decrease of Rs. 240.

MISCELLANEOUS RECEIPTS.

170. The miscellaneous receipts amounted to Rs. 686 inclusive of Rs. 94 shown by Examiner as water-rate receipts, against Rs. 453 in 1897-98.

PLANTATIONS.

171. There was no expenditure on plantations during the year.

Nine trees above 12 feet in height and thirteen saplings died within the year, reducing the total number of trees from 300 to 278.

FLOODS.

172. There were six floods in the Damodar river during the year. The maximum reading of the floods of the 19th June and 15th September were 16 feet 6 inches or only 4 inches lower than the previous highest known flood at Edilpur. No damage was done to the canal.

MADHUBAN CANAL.

LENGTH OF CANAL.

173. The length of this canal is 6¼ miles in the Champaran district.

EXPENDITURE.

174. The expenditure incurred on its maintenance during the last five years is shown below:—

PARTICULARS.	1894-95.	1895-96.	1896-97.	1897-98.	1898-99.
1	2	3	4	5	6
	Rs.	Rs.	Rs.	Rs.	Rs.
Works ...	...	...	...	...	34*
Maintenance ...	5,567	2,488	3,859	4,210	6,882
Establishment ...	2,405	1,269	1,861	2,229	2,610
Tools and plant ...	36	7	71	32	43
Refunds of revenue	27	44	...	...	...
Total ...	8,035	3,808	5,791	6,471	9,569

* This relates to the expenditure on the Tribeni and Dhaka Canals. It has been erroneously shown by Examiner against Madhuban Canal. The amount will be written back in his next year's accounts.

The expenditure during the year was Rs. 3,064 more than last year. The increase was due to the cost of repairing the damage caused by the flood of September to the Tour weir approaches, the embankment on the east up-stream side of the weir, and the canal banks.

RAINFALL. 175. The rainfall during the year was 74·60 inches, against 59·40 inches in the previous year.

REVENUE. 176. No revenue is derived from irrigation on this canal, as water-rates are not recovered. The miscellaneous receipts during the year were Rs. 120, against Rs. 214 in 1897-98.

IRRIGATION. 177. The total area irrigated during the year was 3,190 acres, as compared with 2,000 acres in the previous year. The increase of 1,190 acres was due to the great demand for water from the middle of October to end of December.

The areas of the different crops irrigated during the last five years were as follows:—

Nature of Crop.	1894-95.	1895-96.	1896-97.	1897-98.	1898-99.
1	2	3	4	5	6
	Acres.	Acres.	Acres.	Acres.	Acres.
Bhadoi ...	...	...	...	482	254
Kharif ...	5,033	980	5,873	958	2,010

Total ...	5,518	2,254	11,251	2,000	3,190

PLANTATIONS. 178. The state of the plantations for the last two years is shown below:—

Year.	Trees over 12 feet.	Saplings between 4 and 12 feet.	Seedlings under 4 feet.	Total.
1	2	3	4	5
	No.	No.	No.	No.
1897-98 ...	245	242	230	717
1898-99 ...	245	250	218	713

GENERAL RESULTS.

179. The net results of the year 1898-99, compared with those of the previous quinquennial period, are shown below:— NET REVENUE.

PARTICULARS.	Receipts from all sources.	Working expenses, including refunds of revenue (direct and indirect charges).	Profit or loss.
1	2	3	4
MAJOR IRRIGATION WORKS.	Rs.	Rs.	Rs.
Average of five years ending March 1898.	17,62,234	14,47,169	+ 3,15,065
1898-99	18,53,877	14,41,402	+ 4,12,475
MINOR WORKS AND NAVIGATION.			
For which Capital and Revenue accounts are kept.			
Average of five years ending March 1898.	5,25,197	3,50,062	+ 1,75,135
1898-99	4,89,802	3,66,657	+ 1,23,145
For which only Revenue accounts are kept.			
Average of five years ending March 1898.	1,26,107	1,43,346	(—)17,239
1898-99	93,926	99,863	(—) 5,937
For which neither Capital nor Revenue accounts are kept.			
Average of five years ending March 1898.	34,377	73,779	(—)39,402
1898-99	29,045	49,149*	(—)20,104
Total ... Average of five years ending March 1898.	24,47,915	20,14,356	+ 4,33,559
Total ... 1898-99 ...	24,66,650	19,57,071	+ 5,09,579

* Exclusive of Rs. 18,288 expended on the Triboni Canal and survey of Brahmaputra river.

Compared with the revised estimates of receipts and expenditure (direct charges) for 1898-99, the total actual receipts, show an increase of Rs. 15,650 and the expenditure, a decrease of Rs. 96,609.

180. Reckoned on earnings, that is, on assessed revenue, as opposed to actual receipts, the net results of the Major Irrigation Works for the last two years were as follows:— EARNINGS.

YEAR.	Earnings.	Working expenses.	Profit or loss.
	Rs.	Rs.	Rs.
1897-98 ...	19,20,025	14,55,076	(+) 4,64,949
1898-99 ...	18,61,673	14,41,402	(+) 4,20,271

ARREARS.

181. The work done during the year in the recovery of water-rates was particularly good. On the Orissa and Sone Canals there were no arrears at all, and the result may be regarded as highly satisfactory. There was an increase in the arrears on the Midnapore Canal from Rs. 3,518 to Rs. 5,718. This was due to the villagers in the Antra subdivision having declined to pay up their rates, as they expected that remissions would be granted to the villages in which the rice crop had suffered considerable damage.

The figures for the three canal systems are given below:—

CANALS.	Outstanding on 1st April 1898.	Demand of 1898-99.	Collected or adjusted.	Outstanding on 1st April 1899.
1	2	3	4	5
	Rs.	Rs.	Rs.	Rs.
Orissa	664	2,73,191	2,73,855	Nil
Midnapore	3,518	1,12,341	1,10,141	5,718
Sone	1,475	9,30,504	9,31,979	Nil
Total ...	5,657	13,16,036	13,15,975	5,718

VALUE OF CROPS.

182. In the following table a comparison is made between the approximate value of crops irrigated by Major Irrigation Works during 1898-99 and the previous year:—

CANALS.	1897-98.		1898-99.	
	Area irrigated.	Value of crops.	Area irrigated.	Value of crops.
1	2	3	4	5
	Acres.	Rs.	Acres.	Rs.
Orissa	195,602	71,26,786	194,847	71,04,804
Midnapore	72,206	22,38,386	74,901	19,34,946
Sone	433,445	1,68,71,871	440,796	1,31,65,003
Total ...	701,253	2,62,37,043	710,544	2,22,04,753

DATE FOR SUBMISSION OF REPORTS.

The average value per acre of the various crops irrigated has decreased from Rs. 37·41 to Rs. 31·25.

183. The date fixed for the submission of revenue reports to the office of the Chief Engineer is the 5th September. The dates when the different reports were received are shown below:—

		In 1898.	In 1899.
Orissa Circle ...	Superintending Engineer's report ...	6th September.	1st September.
South-Western Circle	Ditto ditto ...	1st ditto.	31st August.
Sone Circle ...	Ditto ditto ...	29th August.	31st ditto.

All were punctual.

184. Although the results of the working of the canals in Bengal for 1898-99 are not as good as those of last year or the year before, yet they may be considered fairly satisfactory.

satisfaction when it is remembered that in the quinquennial period ending March 1888, the average results were an annual profit of about one lakh of rupees: in the similar period ending March 1893, they were about 70 thousand rupees: and in the similar period ending March 1898, there was an average annual loss of about one thousand rupees only.

29. The **Eden Canal** was worked during the year at a much smaller loss than usual. The receipts from the canal were Rs. 28,725 against Rs. 35,835, and the working expenses were Rs. 39,380, as compared with Rs. 67,037 in the previous year, the result being a reduction in the deficit from Rs. 31,202 in 1897-98 to Rs. 10,655 in 1898-99.

The area irrigated during the year was 29,757 acres as compared with 24,487 acres in the previous year, showing an increase of 5,270 acres. The arrears of uncollected revenue at the end of the year was Rs. 9,312, which, although it is less than in former years, is still an unduly large amount.

30. The **Madhuban Canal** irrigated during the year 3,190 acres as compared with 2,000 acres in 1897-98, showing an increase of 1,190 acres. This was due to the great demand for water from the middle of October to the end of December. For maintaining the canal Rs. 9,569 were expended during the year against Rs. 6,471 in the previous year.

31. The **Gaighatta and Buxi khal** was maintained during the year at a cost of Rs. 395 against Rs. 681 in the previous year. Rupees 4,500, being the amount of the annual lease, less Rs. 36 refunded, were realised from the lessees during the year.

32. The improvement in the collection of the canal revenue on the three large irrigating systems, which were noticed in previous years, was carried still further in the year under review. The facts are very striking when it is remembered how large the arrears used to be in former years. In the five years ending March 1889 the uncollected balance at the end of each year averaged nearly 6 lakhs of rupees, in the the next quinquennial period it was rather more than 3½ lakhs, while in the last period it was about Rs. 36,000. At the end of the year now under review (1898-99), the outstanding uncollected balance is less than Rs. 6,000, while in the Orissa and Sone canals there is no outstanding at all: the whole demand has been collected. This improvement in collections has been accompanied by a very marked decrease in the number of certificates issued (as shown in paragraph 7 of this Resolution), which indicates that the people are satisfied and content to pay the demands without compulsion. Further, the remissions and amounts written off as irrecoverable show, at the same time, a marked decrease, indicating greater accuracy and promptness on the part of the officers who are responsible for the assessments. The Lieutenant-Governor acknowledges, again, the excellent work done by the Deputy Collectors and especially by Maulvi Syed Mahomed Nasiruddin and Babu Madhav Lal in reorganizing and improving the work of the collection staff.

33. The year 1898-99 was one of very high floods in the Cossye, Solye, Subarnarekha and Damodar rivers in June 1898, and in the Sikrana or Boor-Gandak and Bagmati rivers in September 1898. The floods which occurred in the Cossye and Sikrana rivers were extraordinary and unprecedented, and very disastrous in their effects. The Cossye floods did considerable damage to the embankments, canal works and distributaries in the Midnapore district.

The Sikrana floods submerged a vast area of country in the Champaran and Muzaffarpur districts, and did considerable damage to the Champaran, Tirhut and Turki embankments, as also to the District Board roads and bridges and railway embankments. The floods destroyed many houses and standing crops; many cattle were lost and human lives also. The damage done to the embankments and canal works by the floods of the Solye, Subarnarekha and Damodar rivers was not serious.

34. The Irrigation Department of this Province was in charge of Colonel A. D. McArthur, R.E., Chief Engineer, during the year. Since it expired he has retired from the Public Works Department, after serving in it, in the Irrigation Department of Bengal, for more than 30 years. The Lieutenant-Governor desires to record his appreciation of the work done by Colonel McArthur, in almost all parts of the Province, during his long service in it.

The Superintending Engineers, Mr. Inglis, Mr. Horn and Mr. Toogood, were in charge of the three Irrigation Circles. The Lieutenant-Governor acknowledges the efficiency of their services. The large reduction in the expenditure on repairs during the last few years in the Sone Canals, and especially in the Arrah Division, is partly due to the able management of Mr. C. H. DeMello.

ORDER.—Ordered that a copy of this Resolution and of the Chief Engineer's note and its accompaniments be submitted to the Government of India, in the Public Works Department, and published in the *Calcutta Gazette*. Also that it be circulated to other Governments and to all Departments and officers of this Government as usual.

By order of the Lieutenant-Governor of Bengal,

R. B. BUCKLEY,

Secy. to the Govt. of Bengal,
Irrigation Department.

* 458 acres of potato and 27 acres of onion; value Rs. 68,700 and Rs. 675, respectively.

† Includes price of straw at Rs. 5 per acre.

‡ The area given under "sugarcane" represents the total area irrigated in all three seasons, that is, it is the area irrigated in the kharif, *plus* the area irrigated in the rabi, *plus* the area irrigated in the hot-weather season, so that if a particular field has been irrigated in all three seasons, it appears three times in the total. In calculating the value of this crop the rate has been taken at one third of the full value of an acre of crop.

§ As sugarcane is the only crop for which canal water is taken during the hot-weather, the irrigation during that season may be accepted with accuracy as the area of sugarcane irrigated as one crop. The areas irrigated in the several Divisions are given below:—

	Acres.
Eastern Sone	3,462
Arrah	16,483
Buxar	6,038
Total ...	25,983

IVE.

STATEMENT SHOWING THE WATER-RATES PER ACRE IN FORCE ON CANALS IN BENGAL DURING 1898-99.

Canals.	Rates.	Different sorts of leases and crops on which the water-rates are charged.	Water-rates per man. Flow.	Water-rates per man. Lift.
1	2	3	4	5
		Long Leases.	Rs. A. P.	Rs. A. P.
Orissa Canals	I	For water supplied on a long-term lease between the 16th June and 30th November	1 8 0	1 8 0
		For a term of 7 years for each season.		
	II	For water supplied on a provisional license for which a permit for a term of years is not subsequently issued	3 0 0	3 0 0
	III	Provided that the rate for leases, whether new or renewals, required for shorter terms than seven years in order to develop the system of block, as per Rule 7 (III), shall be charged ...	1 8 0	1 8 0
	IV	*Beali* lands included in a long lease are not exempted from assessment, but no charge will be made for water supplied to them in the *rabi* season, that is, up to 25th March.		
	V	Low-lying lands included in leases for a term of years which require irrigation only in years of drought ...	0 8 0	0 8 0
		Season leases.		
Schedule ...	I	For water supplied for irrigation of rice between the 16th of June and 30th of November	3 0 0	3 0 0
	II	For water supplied for irrigation of *dalwa* rice	1 8 0	1 8 0
	III	For water supplied for irrigation of cotton, tobacco, *huldi*, ginger, wheat, vegetables, indigo and garden produce	1 8 0	1 8 0
	IV	For water supplied for irrigation of linseed, oil-seed and all pulses ...	1 0 0	1 0 0
	V	For water supplied for irrigation of sugarcane	5 0 0	5 0 0
	VI	For filling tank or for manufacturing purposes per 10,000 cubic feet of water-supply, also for filling tanks without authority or using water in an unauthorized manner	1 0 0	1 0 0
	VII	For water supplied for the irrigation of sugarcane between 1st April and 15th June	3 8 0	3 8 0
	VIII	When water can only be supplied for a part of the above season, for each watering	1 5 0	1 5 0

SOUTH-WESTERN CIRCLE.

For the Rice Crop.

For water supplied between 16th June and 30th November—whether by flow or lift—

		Rs. A. P.	
MIDNAPORE CANAL.	For five-year leases	1 8 0	per acre for each season.
	For one-year lease or for water supplied on a provisional license for which a permit for a term of years is not subsequently issued	3 0 0	per acre.
	Provided that the leases, whether new or renewals, required for shorter terms than five years in order to develop the system of blocks, shall be charged	1 8 0	per acre.
	If water is available after the long leases have been irrigated, leases for a single watering may be given at	0 8 0	per acre, the rate being payable in advance.
	For Winter Crops.		
	For supply of water, when available	2 8 0	per acre or per season.
	For unauthorized use of canal water	5 0 0	per acre or such less rate as may be sanctioned by the Deputy Collector.

For supply of water for manufacturing or other purposes Re. 1 to be charged for each 10,000 cubic feet or part of 10,000 cubic feet supplied.

The same charge will be made if water is taken into a tank without authority, or used in an unauthorized manner.

Tanks may be filled with canal water without charge wherever water can be made available without injury to the cultivation dependent on a canal under certain conditions noted in Rule 31.

		Per bigha. Rs. A. P.	
EDEN CANAL.	I.—Long leases commencing from 1st June of the year in which they are executed and extending for seven years, per season	0 5 0	
	II.—Season leases, *kharif*, per season ...	0 8 0	
	III.—Single waterings outside the area commanded, each watering	0 4 0	
	IV.—Season leases, *rabi*, sugarcane and potatoes and other crops, per season ...	1 0 0	
	Boro rice, onions, brinjals and other country vegetables, per season ...	0 8 0	
	V.—Unauthorized irrigation—		
	Kharif season	1 0 0	or such lower rates as may be fixed by the canal officer.
	Rabi season	2 0 0	

For supply of water for manufacturing or other purposes Re. 1 to be charged for each 10,000 cubic feet or part of 10,000 cubic feet supplied.

The same rate will be made if water is taken into a tank without authority or used in an unauthorized manner.

SONE CIRCLE.

SONE CANALS.

The following schedules are in force with reference to all leases taken during the year 1896-97 and subsequently :—

SCHEDULE No. I.

Leases for a term of years.

FOR WATER SUPPLIED BETWEEN THE 25TH OF JUNE OF ONE YEAR AND THE 25TH MARCH OF THE NEXT.	FLOW OR LIFT.	
	Rate per bigha.	Rate per tenth of a bigha.
1	2	3
	Rs. A. P.	Rs. A. P.
For leases for seven years, all crops ..	1 9 0	0 2 6

Leases having a currency of seven years will be granted at the rate defined in this schedule until and including the year 1903.

SCHEDULE No. II.

Season Leases (*Kharif*).

	FLOW OR LIFT.	
	Rate per bigha.	Rate per tenth of a bigha.
1	2	3
	Rs. A. P.	Rs. A. P.
For water supplied between the 25th June and the 25th of October for all crops.	2 3 0	0 3 6

SCHEDULE No. III.

Season Leases (*Rabi*).

TIME OF SUPPLY.	Locality.	FLOW.		LIFT.	
		Per bigha.	Per tenth of a bigha.	Per bigha.	Per tenth of a bigha.
1	2	3	4	5	6
		Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
15th October to 25th March.	Water supplied for all crops, including sugarcane from distributaries open for *kharif* irrigation.	1 4 0	0 2 0	0 15 0	0 1 6
25th October to 25th March.	Water supplied for all crops including sugarcane from distributaries or parts of distributaries from which *rabi* irrigation only is allowed.	0 15 0	0 1 6	0 10 0	0 1 0

SCHEDULE No. IV.

Season Leases (*Hot-weather*).

	FLOW OR LIFT.	
	Per bigha	Per tenth of a bigha.
1	2	3
	Rs. A. P.	Rs. A. P.
For water supplied between the 25th March and the 25th June, or at the option of the applicant, between the 25th of February and the 25th of May, for all crops.	2 8 0	0 4 0
When water can only be supplied for a part of the season, for each watering.	0 15 0	0 1 6

In the case of charges under Schedules I to IV, any smaller area than one-tenth of a bigha will be charged as one-tenth. The bigha contains 27,225 square feet.

SCHEDULE No. V.

For water supplied by volume in the kharif season.

For water supplied between the 1st of September and the 31st of October, four rupees for a calculated discharge of one cubic foot per second for twelve hours. For less than a cubic foot per second or less than twelve hours, a proportionate charge shall be made, but a fraction of less than one-sixteenth shall be charged as one-sixteenth.

SCHEDULE No. VI.

For water supplied by volume to fill aharas.

For water supplied between the 1st November and the 25th of March, one rupee for a calculated discharge of one cubic foot per second for twelve hours. For less than a cubic foot per second or less than twelve hours, a proportionate charge shall be made, but a fraction of less than one-sixteenth shall be charged as one-sixteenth.

APPENDIX I.

ORISSA CIRCLE.

Statements showing the areas of Kharif irrigated on the Distributaries from the Orissa Canals with average discharge of season or of period of greatest demand and area per cubic foot per second on the same for the year 1898-99.

No record kept of the amount of water escaped at the end of distributaries.

Working Statistics of Distributaries by Canals

BUXAR

Canal or Branch.	Serial number of distributary.	Name of Distributary.	Length of distributary constructed in miles. (M.)	(Ft.)	Estimated full capacity as designed.	Length of distributary open, in miles, during season. Kharif. (M.)	(Ft.)	Rabi. (M.)	(Ft.)	Hot weather. (M.)	(Ft.)	Number of days distributary was in flow during season. Kharif.	Rabi.	Hot weather.	Average discharges utilised. Kharif.	Rabi.	Hot weather.

The Annual General Administration Report of the Presidency Division for the year 1898-99.

Mr. C. E. Buckland, C.I.E., was in charge of the Presidency Division throughout the year.

2. *Tours and inspections.*—The Commissioner was on tour for 103 days mostly in the rains, and inspected almost every office and institution of importance in his Division. The Collectors spent an adequate number of days on tour, and none of the Subdivisional Officers devoted less than 90 days to that work. The Collectorate and subdivisional head-quarter offices are reported to have been thoroughly inspected in all cases, except in the 24-Parganas and Murshidabad, in which districts it does not appear that the Subdivisional Officers made formal inspections.

3. *Weather and crops: Material condition of the people: Prices and wages: Public health.*—The rainfall was full and well distributed. Consequently the crops were better than in the previous year. From Khulna a bumper crop of *aman* was reported, a normal one in the 24-Parganas and Jessore, and a fair one in the other two districts; and the divisional average of the other crops was better than those of the two preceding years. Consequently the prices of rice and other grains decreased; and as wages remained unaltered, the classes paid by wages were better off than before. The respectable middle classes, or *bhadra lok*, are reported to have shared but slightly in the general prosperity, as they spend more on living and are more extravagant on marriage ceremonies. The information is hardly consistent with other allegations that have been made as to the deterioration in the fortunes of this branch of the community. The Lieutenant-Governor cannot question the correctness of the Commissioner's observations, and so far as the Presidency Division is concerned, he does not doubt that people so enlightened will, if and when necessary, combine to retrieve their affairs by greater economy in their marriages. But, as he has before remarked, the real cure for the stagnation into which the class is falling, elsewhere at least, lies in the pursuit of other than clerical occupations. The agricultural class generally has fared well, and the *utbandi asamis* of Nadia are reported to have attained to as much prosperity as is possible for them. The large number of coolies employed in the various mills of the Division readily found employment; and as their numbers were to some extent kept down by the plague scare of the year, they were in a position to select their employers with a degree of freedom which was more suited to promote their personal convenience than to enhance the discipline of the mills.

The year was notable for the almost complete absence of epidemic disease; and though the registration of vital statistics is with reason believed to be incomplete, yet the view of the Commissioner appears to be correct that the lower registered death-rate represents a real decrease in the mortality in comparison with previous years.

4. *Manufactures: Trade and Commerce.*—The jute industry appears to have been fairly profitable in the last year; but the cotton mills endured a period of stagnation which has not yet expired. The two paper mills of Titaghar and Kankinara still further increased their product. The value of the silk produce decreased from 31½ lakhs to 28 lakhs; but there is good ground for hoping that the measures now being taken to improve the rearing of silk-worms will check this decline. The report on the produce of sugar shows how seriously the increasing import of refined sugar had affected the factories of Jessore. Indigo will soon cease to be one of the important products of the Division.

The total number of factories is reported to have been 63; while the employés were 80,879 as compared with 80,983. Thus the absolute decrease was small; but the requirements of the year were greater; hence there was a real deficiency of labour due to a dread of plague.

The Lieutenant-Governor observes with regret that the manager of the sugar mill at Cossipore refused to furnish to the Commissioner the usual information about his factory. Several instances of this attitude on the part of manufacturers have recently been brought to the notice of the Lieutenant-Governor, who cannot but think that they must be due to some misunderstanding readily capable of removal if only set forth. These statistics are of the utmost importance to the community generally, forming the basis of the commercial legislation of the Imperial Government, and the Lieutenant-Governor considers that, in the absence of very powerful special reasons to the contrary, which could be communicated confidentially to the local authority, the information might always be given.

5. *Civil Justice.*—The number of civil suits instituted rose from 113,685 to 116,171, of which 53,071 and 55,773 respectively were rent suits. The increase was therefore almost entirely confined to that class of cases; and the Commissioner's explanation that it was due to the recovery of the loans advanced in the scarcity appears to be scarcely correct.

The number of cases disposed of rose from 116,256 to 119,987. The proportion of contested cases fell slightly to 17·3 per cent.

6. *Crime: Criminal Justice: Police.*—The number of cognizable cases fell from 22,734 to 20,833; but, as the Commissioner points out, the figures are still greatly in excess of those for 1895 and 1896, and the explanations of the District Magistrates should have been directed to the persistence of the increase over those years rather than the partial decrease. Of these 665 were declared to be false; prosecutions were instituted in 78 cases, and conviction followed in 31. These results may on the whole be considered fairly good, looking to the well-known difficulty of bringing home a charge under section 211, Indian Penal Code. Compensation was awarded under section 250, Criminal Procedure Code, in 144 cases as compared with 142 in the previous year. The proportion of cases in which inquiry into a complaint was refused by the police again fell considerably.

The number of persons sent up for trial was 15,250, of whom 10,363 were convicted. There were 43 murders, in 13 of which convictions were obtained; and the number of dacoities similarly fell from 49 to 36, out of which 22 were in the 24-Parganas. In 14 cases convictions were obtained, 10 being in the 24-Parganas. The cases of rioting decreased from 542 to 502, in 17 of which there was loss of life. The number of bad livelihood cases increased from 548 to 662, but it does not appear how many of these were tried locally. This should be stated in future reports.

The number of non-cognizable offences rose from 18,596 to 19,978, an increase due partly, so it is said, to the increased prosperity of the people and partly to the fact that in the district of Khulna a large number of persons were prosecuted for disobeying summonse. As it appears that of 25,910 persons summoned only 16,809 appeared before the Magistrate, it would seem that much remains to be done to impress on people the necessity of complying with such calls.

There were 203 cases tried by the Courts of Sessions, in 64 per cent. of which convictions resulted. There were 60 stipendiary and 42 honorary subordinate courts The Honorary Magistrates empowered to sit alone are reported to have attended regularly; but such unfortunately cannot be said with regard to the others. The Lieutenant-Governor is glad to observe from the detailed statement appended that the Commissioner has already given much attention to this matter. The Honorary Magistrates decided 8,503 cases and the Stipendiary Magistrates 22,515. The detention of witnesses more than two days increased, and is reported to be a serious evil in the Courts of the Honorary Magistrates. Fines as punishments appear to have been imposed with due reference to the means of the convicts.

In the police the process of replacing Head-Constables by Sub-Inspectors was continued. No very decided opinions are offered by the District

Magistrates on their conduct, but it is noted that the number of those dismissed appreciably increased, while the number of those punished departmentally rose from 246 to 669. Judicial punishments fell from 50 to 45. Resignations, it is observed, rose from 86 to 115. Less than 20 per cent. of the nominal stolen property was recovered by the police.

In chaukidari matters progress was made in substituting paid men for those remunerated by service tenures, in the organisation of the *daffadari* system, and in the introduction of higher castes. It is observed that the amount of rewards paid to chaukidars was double that of previous years. It is stated that in the 24-Parganas an attempt is now being made to secure regular attendance at parades by rewarding punctual men rather than by constantly fining the unpunctual. This is a plan which will require to be worked very carefully if it is to succeed. There is a certain minimum of duties which a chaukidar must do, and in that minimum the first duty is the weekly attendance at the parade. His merits should be weighed in a liberal scale, but the distinction between merit and duty should be retained.

7. *Land Revenue and Cesses.*—The total demand of land revenue was Rs. 53,41,233 and the total collections Rs. 51,93,060, or 97·2 per cent. The collections were slightly better than last year, and the outstanding balance at the end of the year was less. The collections of the various districts, exhibited in percentages, are as follow:—

	PERMANENTLY-SETTLED ESTATES.		TEMPORARILY-SETTLED ESTATES.		DIRECTLY MANAGED ESTATES.	
	Current.	Arrear.	Current.	Arrear.	Current.	Arrear.
1	2	3	4	5	6	7
Standard percentage	99	100	95	......	90	......
24-Parganas ..	98·9	93·9	94	80·2	85·2	66·7
Nadia ...	99·5	99·99	97·9	99·8	95	87·5
Murshidabad ...	99·8	95	97·6	72·1	70·9	81·1
Jessore ...	97·7	100	88	84·1	94·4	78
Khulna ...	99·5	98·5	84·2	98·7	94·6	99·2
Calcutta ...	......	......	......	......	99·9	71·4
Division ...	99·1	97·7	90·7	94·6	86	74

The divisional percentage of collections of the current demand was above the standard, and the only districts in which it was short were Jessore and the 24-Parganas, in the latter of which however it only just failed to reach the standard. In the first district, however, the arrear collections were complete. It would appear that a large proportion of the arrears in Jessore are due from the deeply embarrassed Sridharpur estate, under the Court of Wards. The collections in temporarily-settled estates were poor, as regards current demands in Khulna, and as regards arrears in Jessore, Murshidabad, and the 24-Parganas. Explanation should have been given in all the above cases if any were forthcoming. In estates held direct by Government in the 24-Parganas, the collections both current and arrear were bad, and in Murshidabad they were not good. The arrear collections in Jessore were poor. It is understood that a change has been made in the method of collection in the Government khas mahals of Mursidabad and the 24-Parganas, and it is desired that the Commissioner will carefully watch the working of the new arrangements. Divisional averages of 86 and 74 per cent. for current and arrear collections in the khas mahals are not satisfactory in a year of admitted prosperity. The sums allotted for the improvement of Government estates in sanitation roads and education were spent save in Murshidabad, the principal work undertaken being the construction of the Orphanganj Market in the 24-Parganas. The raiyats of the khas mahals, with few exceptions, enjoyed a high degree of prosperity. In the

permanently-settled mahals relations between landlord and tenant were for the most part satisfactory. In the Sundarbans, however, it is reported that the lessees of waste lands, who pay 4 annas a bigha to Government, have so delegated their proprietary rights to a chain of under-tenants, that the actual cultivators, who are also the actual clearers, have to pay as much as Rs. 8 a bigha; and consequently the Board of Revenue has decided, on the recommendation of the Commissioner, to have a survey and settlement, with a record-of-rights, in those lots in which the evil has led to crime.

Of Rs. 8,986 received from raiyats as landlords' fees, only Rs. 410 were accepted by the landlords, probably owing to their reluctance to acknowledge the custom of unrestricted transfer.

The current demand for the road and public works cesses is over 9 lakhs, the collections 9½ lakhs, and the arrears Rs. 133,000, or 14·7 per cent. The collections were good in Nadia, and poor in the 24-Parganas and Jessore. The poor arrear collections in Murshidabad should also receive the attention of the Collector. The appendix on the working of the Certificate Act has not been analysed by the Commissioner, though it is a branch of collectorate work to which great importance is attached. The number of cases for disposal in the year increased, in the 24-Parganas to 8,855, in Nadia to 2,559, in Jessore to 3,610, and in Khulna to 2,470 whilst they fell to 4,578 in Murshidabad In the 24-Parganas there were 3,160 pending at the close of the year. It is to be feared that the defaulters of the 24-Parganas are less unsophisticated than those of the other districts, as they waited much longer before paying. The best results were obtained in Murshidabad and Khulna, where the Act appears to have been vigorously enforced.

8. *Wards and Trust Estates.*—The release of the Bhawanipur estate in a good financial condition in February 1899 reduced the number of estates under the Court of Wards to two. The Syedpur estate, which supports the Mohsin Endowment Fund, is also managed by Government. The current demand of the whole of the estates was Rs. 5,83,609 and total collections Rs. 5,99,822, while remissions amounted to Rs. 3,15,050, of which nearly five-sixths related to the Sridharpur estate. The balance at the close of the year stood at 9 lakhs as compared with the previous year's balance of Rs. 12,34,000. The surplus on the year's working was Rs. 58,595, and debts to the amount of Rs. 66,027 were paid off.

The Sridharpur estate appears to be in a bad condition; the collections decreased, and in consequence the Government revenue could not be paid. It appears, however, that since the close of the year radical measures have been taken to improve matters. Collections were much better in the Syedpur estate, and all the customary demands were easily met. Progress was also made in clearing off the debts of the Satkhira estate.

9. *Excise, Stamps, and Income tax.*—In the revenue obtained from excise the ground lost in the previous year was, owing chiefly to the good harvests, more than regained, and the total revenue was over 39 lakhs. The only important decrease was under the head of rum and imported spirits, a great falling off having occurred in Calcutta, for which no confident explanation has been offered. It is desired that this trade may be carefully watched. The greatly increased consumption of country spirits is attributed to the return of prosperity. There was a large increase in the consumption of salt in the protected area, due partly to the vigilance of the staff, but chiefly to the prosperity of the people. A great decrease occurred in the sale of stamps, slight in Murshidabad, but amounting to Rs. 2,84,716 in Calcutta. The sale of non-judicial stamps decreased in all districts, which may be taken to mean that fewer mortgages were executed owing to the return of good crops. The falling off in Calcutta is attributed to the comparative dislocation of business which attended the plague scare. The number of prosecutions for breaches of the stamp laws fell off, but the number of cases in which insufficiently stamped documents were seized greatly increased, and the Lieutenant-Governor is glad to see that greater care is being exercised by Judicial officers in the examination of the documents filed before them. The amount of income tax collected was Rs. 24,73,760—an increase of 2·4 per cent. on the previous year. The gross demand increased by 3 per cent, of which almost all occurred in Calcutta. One lakh was not collected, but

in Murshidabad there were no arrears, and Nadia did well. Collections were worst in Calcutta.

10. *Communications and Public Works.*—The District Boards maintained the existing roads, and also spent more money than in previous years on arboriculture. No new railways were made during the year; but the Ranaghat-Krishnagar light railway was completed, though it was opened after the close of the year. A retired embankment is being constructed at Bhagwangola in Murshidabad, and will be completed this year.

11. *Education.*—The total number of pupils on the rolls at the end of the year was 201,828 (or, according to the returns in the appendix, 201,209) as compared with 201,177 in the previous year. The percentage of boys of a school-going age who were at school was 31·6. Little alteration occurred in their distribution between English, vernacular and classical schools. The most notable increase was in the number of pupils attending high English schools. There was a small decrease in the number of girl-pupils; and the vernacular schools also lost ground. The Koran schools apparently decreased by half, and lost the same proportion of scholars; while an alteration in the system of classification conceals the progress of the Sanskrit tols. The Muhammadan pupils achieved a greater measure of success in the public examinations, and their relative numbers did not decrease. The total expenditure aggregated over 11 lakhs.

12. *Dispensaries and Hospitals.*—The total number of these institutions which were open during the year was 69, though returns have been submitted of 66 only The total income was Rs. 1,16,863, and the total number of patients treated was 333,673. The corresponding figures for last year were Rs. 1,43,933 and Rs. 3,48,792. There was thus a falling off in each respect, which the Commissioner attributes in part to the plague scares. No notable advance appears to have been made during the year. The Lieutenant-Governor would commend to the notice of the Municipalities and District Boards the action of the Mymensingh and other District Boards in appointing trained female medical officers for each subdivision, which he considers to be an excellent policy.

13. *Local Self-Government.*—Little that is new is to be said about the working of the various Boards. Judging from the attendance of members, it would seem that in several instances less interest was taken in the proceedings than in the previous year. The Lieutenant-Governor is pleased to see that the municipalities have made vigorous efforts to collect their taxes, and achieved much success, due to a great extent to the careful supervision of the Commissioner, which will, he knows, not be relaxed. Mr. Buckland has added little to the comprehensive general remarks on the Local Self-Government bodies contained in his report last year, and has seen no reason to modify the conclusions he then set forth.

14. *Employment of Muhammadans.* – The number holding ministerial appointments in the Division decreased by 4. There was an increase of 2 in the 24-Parganas, and a decrease of 1, 2 and 3, respectively, in Jessore, Khulna, and Nadia. In the two last-named districts the number has been lowered to less than 10 per cent., and is unduly small, and the same is still more the case in the 24-Parganas. The District Officers are requested to bear in mind the importance of encouraging Muhammadans, so far as regard to the efficiency of their staff will permit.

15. *Conduct of Zamindars.*—Though the great majority of the zamindars of the Presidency Division are non-resident, and though several, by the inadequate remuneration which they give to their servants, tacitly connive at the acts of oppression of which the latter are frequently guilty, yet the Lieutenant-Governor is pleased to see the names of so many gentlemen in the list of those who, by their just treatment of the raiyats on their estates and their liberality in all public affairs, have augmented the esteem in which they were previously held. The Nawab Bahadur of Murshidabad has long been conspicuous in the Province for those qualities; and the Maharaja of Kasimbazar is worthily following in the footsteps of his predecessor. The Dhankuria zamindars of Basirhat, the Mandals of Baruipur, Rai Hari Charan Chaudhuri of Nakipur, the Raja of Naldanga and others are said to have watched well over the interests of their tenants; and the Maharaja Bahadur of Nadia is reported to be a liberal landlord.

Those zamindars who are reported to be directly, or through their agents, oppressive and unjust, thereby forfeit, in the eyes of Government, that title to consideration which they would otherwise enjoy.

The thanks of the Lieutenant-Governor are due to Mr. Buckland for the carefulness with which he has watched over the interests of the Division during the year, and for the complete report which he has presented, extracts from which are published for general information.

By order of the Lieutenant-Governor of Bengal,

F. A. SLACK,

Offg. Secy. to the Govt. of Bengal.

Extracts from the Annual General Administration Report of the Presidency Division for 1898-99.

* * * * * * *

III.—WEATHER AND CROPS.

13. The average rainfall in the Division was greater than in either of the two preceding years, being 65·3 inches against 61·4 inches in 1897-98 and 46·3 inches in 1896-97. The heaviest rainfall (97·04 inches) was at Mollahat in the Bagerhat subdivision of the district of Khulna, and the smallest (about 51 inches) at Barasat and Barrackpore in the 24 Parganas and Kushtia in Nadia. It was, on the whole, more favourable to the crops grown than in the two preceding years. In the 24-Parganas the average rainfall was less than in the previous year, being 56·7 inches against 59·8. The rainfall was evenly distributed throughout the district with the exception of the Diamond Harbour subdivision, where it was deficient in April and May, and also in September and October; otherwise the rainfall was sufficient during the ploughing and sowing seasons The average rainfall recorded in Nadia was almost the same as in the previous year, viz., about 59 inches. It was seasonable and sufficient, except in August, when heavy showers caused the rivers to inundate considerable areas, and thus damage to a certain extent the *bhadoi* rice in thanas Gangni and Tehatta and the jute crop in the Ranaghat subdivision. In Murshidabad the rainfall was much greater than in the preceding year, being 72·5 inches against 51·1. There was a large flood which damaged the *aus* crops in the *Bagri*, though it increased the subsequent outturn of the *rabi* crops by fertilizing the land. In Jessore, 65·1 inches of rain fell during the year against 62·8 inches in 1897-98 The rainfall was largest in June, July, and August, and was generally favourable to the crops grown in the district. The average rainfall in Khulna was a little less than in the previous year, being 73·3 inches against 75. It was, however, equally distributed, and was favourable to the cultivation of *aus* and *aman* paddy.

Under the instructions conveyed in Government Orders No. 1T.-R., dated the 10th June 1898, the outturns of the different crops are shown in percentages for the past three years, 100 being taken to represent a normal crop, and the outturn for each year being stated as a percentage of that crop. The average outturn of *aman*, which is the staple food in the Division, was 101 per cent., against 100 in 1897-98 and 43 in 1896-97. The *bhadoi* or *aus* crop yielded an average outturn of 93 per cent., or 7 per cent. more than in 1897-98 and 38 more than in 1896 97. The jute crop was 87 per cent., against 84 in 1897-98 and 76 in 1896-97, and the *rabi* crops 90 per cent., against 84 in 1897-98 and 48 in 18 6-97. The other crops grown in the Division are of minor importance. Indigo is grown in Nadia, Murshidabad, and Jessore only As compared with the previous year, the outturn of *aman* increased in Nadia and Khulna by 2 and 16 per cent., respectively, while in Murshidabad and Jessore it decreased by 3 and 12 per cent., respectively. In the 24-Parganas the outturn remained stationary. The outturn of *aus* was greater in all the districts except Murshidabad, where it fell off slightly.

IV.—PUBLIC HEALTH

14. The following statement compares the recorded mortality in the districts of this Division during the past three years.—

District	Number of deaths from fever			Number of deaths from cholera			Number of deaths from other causes			Total number of deaths from all causes			Average of the past two years 1896 and 1897
	1896	1897	1898	1896	1897	1898	1896	1897	1898	1896	1897	1898	
1	2	3	4	5	6	7	8	9	10	11	12	13	14
24-Parganas . .	37,919	[illegible]	33,404	11,043	3,974	1,626	6,920	7,281	[illegible]	[illegible]	[illegible]	42,136	51,047
Nadia	41,802	31,525	28,059	10,726	3,570	499	6,930	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	51,188
Murshidabad	30,441	27,509	[illegible]	4,050	[illegible]	185	[illegible]	5,477	[illegible]	[illegible]	[illegible]	30,824	38,273
Jessore . .	58,173	51,253	50,463	8,199	[illegible]	779	[illegible]	5,793	[illegible]	[illegible]	[illegible]	57,617	66,866
Khulna ..	27,061	27,044	24,848	6,746	5,750	[illegible]	7,467	7,515	8,674	[illegible]	40,308	34,211	41,236
Total	196,286	172,287	161,673	41,673	21,488	3,758	31,204	[illegible]	35,661	[illegible]	[illegible]	201,092	248,610
Ratio of deaths per mille of population	24·9	21·9	20·5	5·3	2·7	·4	3·0	4·3	4·5	[illegible]	29·03	25·8	31·7

The general health of the Division was distinctly better than that of the two preceding years. The total number of deaths recorded was 201,092 or 25·8 per mille of population, against 228,058 or 29·03 per mille in 1897 and 269,163 or 34·2 per mille in 1896. The number of deaths from fever was 161,672; from cholera 3,758, and from other causes 35,661, against 172,287; 21,483; and 34,288, respectively, in 1897. The decrease in mortality from fever and cholera is chiefly due to the absence of any of these diseases in a widely epidemic form.

In the 24-Parganas the total number of deaths was 42,136, against 46,212 of the preceding year, showing a decrease of 4,076. Fever accounted for 33,404 deaths, against 34,957. As usual, the Diamond Harbour subdivision shows the lowest mortality from fever and Barasat the highest. The autumn and cold weather are the deadly seasons, December being the worst month of all. Efforts are being made to improve the drainage of Barasat, which has an evil notoriety for fever at present. The decrease in mortality from cholera was very marked, being 1,626, against 3,974 in 1897, or 59·08 per cent. lower than the mortality of the previous year. The subdivisions of Barasat and Diamond Harbour suffered most from this disease, which, however, nowhere assumed an epidemic form. Small-pox accounted for 100 deaths against 151 in 1897, and bowel-complaints 1,137 against 1,286. The mortality from other causes was 5,869, against 5,844 in the previous year. The number of cases vaccinated was 43,462, of which no less than 43,068 were successful.

The general health of the district of Nadia was exceptionally good, the total number of deaths being 36,304, against 42,919 in 1897. The mortality from fever fell from 31,525 to 28,059. The urban areas suffered more than the rural. There was, however, a virulent outbreak of malarial fever in some villages in the Khoksa outpost in the Kushtia subdivision after the subsidence of the floods, the death-rate in at least four of them being 100 per mille of the population. The months of March, April and November contributed most to the death-rate from fever. The decrease in mortality from cholera was remarkable, being 499, against 3,570 in 1897. The disease was present from the beginning of the year and reached its highest point in May. It then fell suddenly in June, and began to rise again in November. Small-pox was much more prevalent during the year, causing 277 deaths, against 87 in 1897. Deaths from this disease occurred most in March.

In Murshidabad the total number of deaths was 30,824, or 4,782 less than in the previous year. Fever caused 24,859 deaths, against 27,509 in 1897, and cholera 185, against 2,222. Deaths from fever occurred most in the months from September to December. The comparative freedom from cholera is said to be due to the fact that rain fell nearly every month. The villages suffered more than the towns, where two cases of deaths only were recorded. The total number of deaths from small-pox was 118, against 167 of the previous year.

The total number of deaths recorded in Jessore was 57,617, against 63,013 in 1897, of which fever contributed 50,463 deaths, against 51,263 in the preceding year. The largest number of deaths from this cause occurred from September to December. The subdivision of Magura suffered most and that of Bangaon least. Cholera accounted for 479 deaths, against 5,967 in 1897, and small-pox 57, against 70. The total number of deaths from bowel-complaints was 51 only, against 113 in the previous year. The mortality from all causes registered in Khulna was 34,211, against 40,308 in 1897. Fever accounted for 24,888 deaths, or 2,155 less than in the previous year. The mortality from cholera was remarkably low, being 669, against 5,750 in 1897. There was no epidemic of any description during the year. The number of deaths from other causes slightly increased, being 8,654, against 7,515 in the previous year.

15. Registration is worst in the municipal areas, where it is in the hands of the police. In these areas the reporting of births and deaths is legally incumbent on parents and friends under Act IV (B.C.) of 1873, and an endeavour is being made in the 24-Parganas to enforce the legal penalties, and thus induce an improvement. In rural areas the present arrangement is that village chaukidars keep a register of deaths and births, which is supposed to be tested by the police and the Vaccination Department. All that can be done is to reward or punish

chaukidars in order to encourage or compel them to report. The police have little time for these duties, and the registers of the chaukidars practically remain unchecked. In Murshidabad Mr. Egerton has made it one of the duties of the dafadars recently appointed in the district to check all death and birth entries in their respective unions, and this, it is believed, will have a very good result on the registration of vital statistics so far as the rural areas are concerned.

V.—MATERIAL CONDITION OF THE PEOPLE

16. The condition of the people during the past year showed an improvement over the year preceding. The crops were good, and the prices of food-grains ruled lower than they had done for some time. In the 24-Parganas there was ample employment for the labouring classes in the fields, on the roads under the District Board, and in the mills. The general prosperity was not, however, shared by the middle or *bhadrolog* class, whose incomes are stationary, while their style of living seems to be improving and their expenditure on marriages to be becoming more extravagant This is of course largely owing to their own folly. The people in Nadia had already recovered from the effects of the famine before the close of the year 1897-98. During the year under review, their position has been further improved by excellent crops of all descriptions Mr. Gait reports "the people are now as well off as they are ever likely to be so long as the *utbandi* system prevails and their present improvident habits, continue." In Murshidabad owing to plenteous crops, low prices of food-grains, and the non-appearance of any disease of a virulent type, both the labouring and the agriculturist classes, which form the bulk of the population, passed the year in ease and comfort. Towards the middle of the year the people of parts of the district suffered from floods, and agricultural loans to a limited scale had to be advanced, but the injury done to the crops was soon after compensated by the abundant produce of the *rabi* crops on the lands inundated. The bulk of the population of Jessore are agriculturists, and their prosperity depends upon the outturn of the crops grown. The principal agricultural products of the district are *aman*, *aus*, jute, indigo, oilseeds, pulses, millets and tobacco. Sugar manufacture also plays an important part in the economic conditions of the district. It keeps about 50 per cent. of the population engaged from the middle of October to the middle of March. The Subdivisional Officer of Jhenida writes that the creation by the zamindars of numerous *gantis* and other undertenures is gradually reducing the prospects of actual cultivators, driving them to expensive litigation with the tenure-holders, who try by every means to enhance the rents of raiyats' holdings. There is some force in these remarks, but the raiyats of this district generally know their status according to the Tenancy Act, and contest, very often successfully, all attempts to enhance their rents. The Subdivisional Officer of Narail mentions in proof of the improved condition of the people the fact that the agricultural loans granted by Government in the previous year were fully recovered during the year. The import during the year of a large quantity of European piece goods (valued at about 2½ *lakhs* of rupees, against ½ *lakh* of 1897-98) also affords an unmistakeable evidence of the fact that the people had money to spend on luxuries. The people of Khulna are, on the whole, better off than those living in districts further west or north. Labour is dearer, and signs of luxury are to be seen here and there. The district has wonderful recuperative powers. The people are, however, lazy and short-sighted: they will not do any disagreeable work (such as harvesting of paddy, etc.) themselves, and annually there is a large incursion of labourers from outside at the time of sowing and reaping. The fishermen form a large class in this district, and are well off. Goldsmiths and silversmiths appear to be prospering, but, on the other hand, weavers as well as indigenous manufacturers are fast disappearing. Date sugar is manufactured in thanas Magura and Kalaroa, but it is steadily declining, owing to the importation of bounty-fed sugar.

VI.—EMIGRATION AND IMMIGRATION.

17. The number of emigrants registered in the district of the 24-Parganas during the year was 2,389, as compared with 3,709 in the year preceding. Of these, 507 were for the Colonies and 1,882 for the labour districts of Assam.

Cachar and Sylhet, as compared with 806 and 2,903 respectively in the year 1897-98. Of the total number of persons who emigrated during the year, only 4 belonged to this district and the rest to other districts. Besides these, it is stated that 24,913 coolies, as against 94,772 of the previous year, passed through the Barasat subdivision of this district on their way to Assam, Cachar and Sylhet, halting for a short time at the rest-houses at Naihati. This abnormal decrease is attributed to the better outturn of food-grains and the consequent reduction in the prices thereof.

During the year there were five rest-houses, of which one was burnt down. The remaining houses were provided with sleeping accommodation and separate cook-sheds, with an adequate number of latrines. The coolies during their stay in these rest-houses use the water of the river Hooghly for drinking and of tanks and wells for culinary and other purposes. The mehtars of the Naihati Municipality remove the nightsoil as before. There was a cooly cholera hospital in charge of the Civil Hospital Assistant throughout the year, who in addition to his other duties in connection with emigration treated the cooly-patients. There were only ten cases of cholera, all of which recovered, and two cases of small-pox, both of which ended fatally. There was no outbreak of cholera, small pox, or fever in an epidemic form in any of these houses.

As usual up-country men and *dhangars* come to the subdivision of Barasat in large numbers for employment in mills, municipalities, or rural tracts. A considerable number of Cabulis also go there to sell warm clothing and hill fruits, and many of these people have settled down in the vicinity of the mills, where they engage in money-lending. During the transplantation season, coolies from Midnapore and Orissa come to Diamond Harbour for employment, returning home after the harvest. It is reported that a number of *Bunas* from Chota Nagpur and its neighbourhood have settled down in the *abads* of the Diamond Harbour subdivision.

As regards the other districts, there was no emigration or immigration properly so-called. As usual, during harvest time, the labourers from Nadia and Jessore left their districts for the Sundarbans and other Eastern Bengal districts, including Khulna, for work, but they returned as soon as their work was over. In Jessore some professional earth diggers came from Kushtia and Chuadanga subdivisions of the Nadia district for work, but their number was not large, presumably because they had sufficient work, on account of good crops in their own neighbourhood. Besides these Cabulis and other upcountry hawkers came to these districts as usual.

VII.—PRICES OF FOOD AND LABOUR.

18. Common rice is the staple food of the majority in this Division. The price of this rice, in the 24-Parganas at the beginning of the year, was 10 to 13 seers per rupee, and it fell but little until the new harvest was reaped. Towards the close of the year the price was from 12 to 16 seers, per rupee, against 13 to $13\frac{3}{4}$ seers per rupee of the previous year. This is due to the full harvest reaped during the year under report. Although there had been a fall in the price of common rice, as well as of other grains, in the district of Nadia, during the previous year, prices were still high at the beginning of the year under report, when the price of common rice was 12 seers 13 chitaks and gram 16 seers per rupee. In September, when a good *bhadoi* crop was harvested, the price of common rice came down to over 13 seers It fell still lower when the *aman* crop was reaped in November; and the prices of wheat and gram also went down with that of common rice. In Murshidabad the price of wheat, common rice, and gram fell considerably during the year under report, as compared with either of the two preceding years. This is due chiefly to the good harvests of the year 1897-98, and partly to the good crops of the year 1898-99 which had been in the market for a few months only of the year under report. The average price of common rice in Jessore fell to $18\frac{4}{5}$ seers per rupee, from 12 seers in 1897-98 and $9\frac{2}{5}$ seers in 1896-97. The prices of other food-grains were also easier. In Khulna the price of common rice was very low after the gathering of the new *aman* crop, being 17 seers per rupee, against 13 seers 8 chitaks in 1897-98 and 10 seers $2\frac{2}{5}$ chitaks in 1896-97. This fall in price resulted from the plentiful harvests of rice crops in 1897-98 and 1898-99. Salt was sold somewhat

cheaper in Khulna and Satkhira during the year than in the two preceding years. At Bagerhat the price remained stationary.

The wages of labour, both superior and common, in Nadia, Murshidabad, and Khulna remained almost the same as those of the preceding year. In the 24-Parganas the wages of superior and common masons and of superior carpenters and blacksmiths fell, while in Jessore the wages of superior and common carpenters and of superior blacksmiths rose. It is difficult to explain these fluctuations in the wages of labourers in the different districts of this Division. I think Mr. Hallifax is right when he says that these wages are governed more by custom than by the principle of demand and supply.

VIII.—MANUFACTURES AND MINES.

19. The principal articles of manufacture in this Division are cotton twist and yarn, gunny-bags and cloth, paper, ice, shellac and lac-dye, indigo, silk, sugar and molasses. Of these, cotton twist and yarn, gunny-bags and cloth, paper, ice, shellac and lac-dye were manufactured only in the district of the 24-Parganas, where there were 63 factories at work during the year. In 42 factories work was carried on by shifts and sets, and in 20 by midday stoppages, while one worked at contract rates, as reported last year. Three factories, namely, (1) Gillanders, Arbuthnot and Company's bulk-oil depôt at Budge-Budge, (2) the Chitpur Hydraulic Press, and (3) the Indian Patent Stone Works at Sealdah, were brought under the operation of the India Factories Act, XV of 1881, as amended by Act XI of 1891, and the revised rules made thereunder. Of these three mills, the bulk-oil depôt at Budge Budge was registered on the 23rd March 1898, and the last two, which were removed from the list some years ago, were re-entered in April and October 1898 respectively. The total number of operatives employed in the 63 working factories during the year under report was 80,879, against 80,983 in the previous year. The slight decrease is attributed to the plague scare, which considerably affected the working of the factories in the early part of the year. There was no material change in the rates of wages paid to the operatives employed in factories during the year under report.

20. The following table shows the value of the outturn as returned by the owners of the several mills and factories:—

ARTICLES.	Outturn.			REMARKS.
	1896-97.	1897-98.	1898-99.	
1	2	3	4	5
	Rs.	Rs.	Rs.	
Gunny-bags and cloth ...	2,28,71,075	3,24,95.983	3,03,82,729	* The figures for these are for calendar years.
Cotton twist and yarn ...	77,91,269	80,32,942	62,96,079	
Paper*	22,25,116	24,26,119	25,54,405	
Lac*	17,85,720	13,57,178	10,85,601	
Leather*	14,800	17,550	18,589	
Silk*	55,341	1,91,806	1,66,175	

* * * * * * *

25. Indigo is largely manufactured in the districts of Nadia, Murshidabad and Jessore. The table below shows the state of this industry during the year under report as compared with the two preceding years:—

Indigo.

DISTRICT.	Number of factories.			Produce.			Value.			REMARKS.
	1896-97.	1897-98.	1898-99.	1896-97.	1897-98.	1898-99.	1896-97.	1897-98.	1898-99.	
1	2	3	4	5	6	7	8	9	10	11
				Mds.	Mds.	Mds.	Rs.	Rs.	Rs.	
Nadia ...	42	51	47	2,797	2,432	1,899	5,38,364	3,31,686	2,42,740	
Murshidabad...	24	22*	22	1,626	2,026*	1,729	3,97,327	3,68,418*	2,61,604	
Jessore ...	15	18	11	1,256	1,793	872	2,03,937	2,35,422	1,13,157	
Total ...	81	91	80	5,679	6,251	4,500	11,39,628	9,35,526	6,17,501	

* The discrepancy between these figures and those shown in paragraph 17 of last year's report is due to the fact that some of the factories sent their statistics after the submission of last year's report.

There has been a considerable decrease during the year under report not only in the number of factories, but also in the gross outturn and value. The industry has of late been declining, the cause of depression being its competition with foreign chemical dye, which is steadily making progress.

Silk.

26. The silk industry is chiefly carried on in the districts of the 24-Parganas and Murshidabad. The following table compares the state of this industry during the last three years:—

Districts.	Number of factories.			Produce.			Value.			Remarks.
	1896-97.	1897-98.	1898-99.	1896-97.	1897-98.	1898-99.	1896-97.	1897-98.	1898-99.	
1	2	3	4	5	6	7	8	9	10	11
				lbs.	lbs.	lbs.	Rs.	Rs.	Rs.	
24-Parganas	Information not available.						55,341	1,91,808	1,66,175	The figures are for the calendar year.
Murshidabad	55	48	47	565,909	538,175	406,058	32,09,281	29,73,715	26,19,367	

As noticed in the previous year's report, the manufacture of silk cloth at Mirzapur, in the district of Murshidabad, is gradually on the decline. The number of pieces of silk cloth manufactured during the year under report was 5,032, valued at Rs. 44,916, against 6,052 pieces, valued at Rs. 45,396 of the preceding year.

Sugar.

27. The table below compares the state of the sugar industry during the last three years:—

District.	Number of factories.			Outturn.			Value.			Remarks.
	1896-97	1897-98.	1898-99.	1896-97.	1897-98.	1898-99.	1896-97.	1897-98.	1898-99.	
1	2	3	4	5	6	7	8	9	10	11
				Mds.	Mds.	Mds.	Rs.	Rs.	Rs.	
24-Parganas ...	126	99	113	46,664	72,475	43,240	8,56,763	5,24,175	2,70,457	
Nadia	Statistics not available.
